JUNE 2013 HIGHLIGHTS

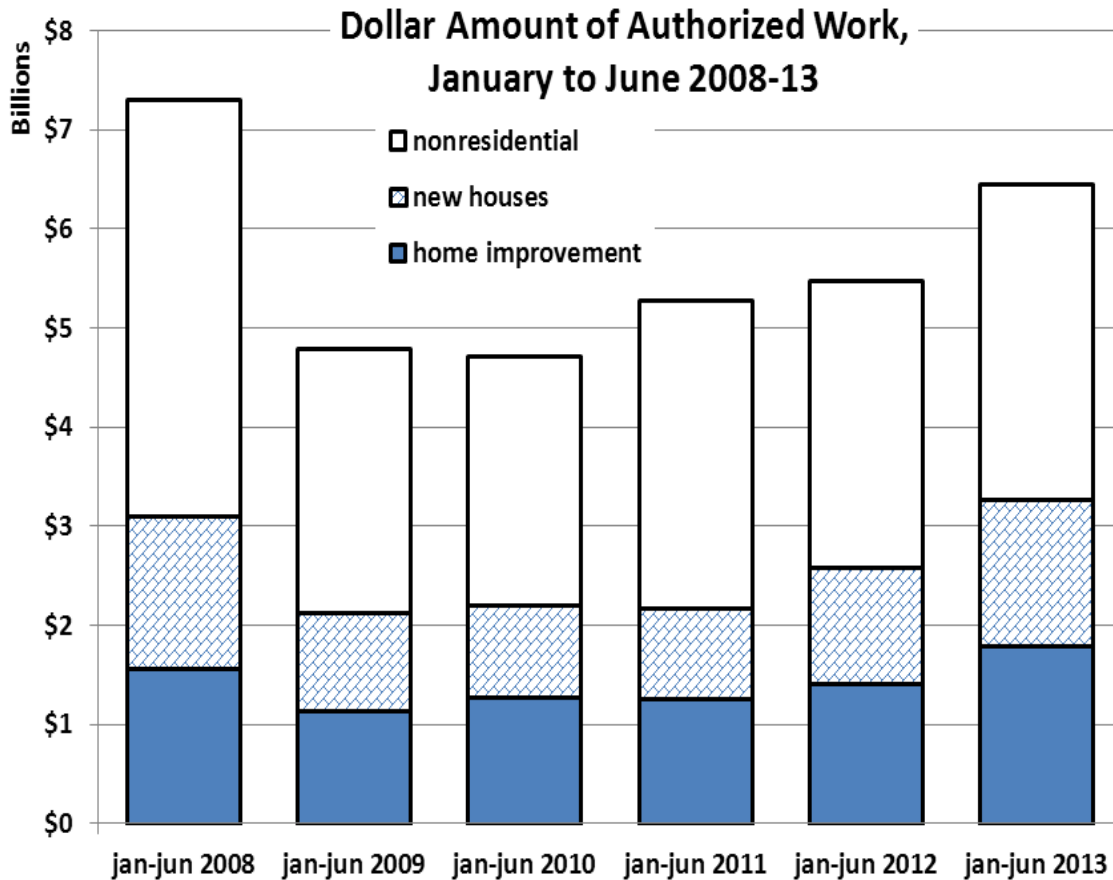

- For the third month in a row, authorized construction exceeded one billion dollars. June activity was \$1.163 billion; 551 of New Jersey's 565 municipalities reported.
- Residential work totaled for \$561.2 million, or 48.3 percent of all activity. New houses accounted for \$243.4 million (20.9 percent); home renovations amounted to \$317.8 million (27.3 percent).
- Office, retail, and other nonresidential work totaled \$601.6 million (51.7 percent). Tenant fit ups and other work on existing, nonresidential buildings made up 34.7 percent (\$403.8 million).
- Jersey City in Hudson County led all municipalities with \$113.5 million. Over \$80 million was for a new warehouse and distribution center for Goya Foods.
- Newly consolidated Princeton in Mercer County had \$59.7 million of authorized construction, much of which was for new housing. Princeton had 166 new dwellings in June, more than any other municipality. Ninety-nine units were apartments in Copperwood, a new, active adult community.
- Piscataway Township had \$35.7 million of construction. Much of this was for work on a new data warehouse that broke ground in April.

Mid-Year Review

- Thus far in 2013, construction reached levels not seen in five years.
- The dollar amount of work for the first half of 2013 was \$6.450 billion. This is \$970.5 million more than last year at this time, an increase of 17.7 percent. 2008 was the last year with more activity.
- There were 3,024 more new dwellings authorized during the first half of 2013, compared to the same period last year, an increase of 44.6 percent. This is the best start in housing construction since 2007.
- Residential additions and alterations grew at the same rate as new home construction. Home improvements accounted for \$1.79 billion between January and June 2013. This was 26.4 percent more last year at this time.

- Just over 2.5 million square feet of new office space was authorized between January and June 2013. This is 1.2 million square feet less than this time last year, a decline of 31.8 percent. Prudential Insurance broke ground on a 733,000 square foot corporate headquarters in Newark, accounting for nearly 30 percent of all the new office space between January and June 2013.
- About one million square feet of new retail space was authorized for construction midway through 2013. While this is 14.5 percent more than last year, the pace of retail development is still slower than it was in 2008.

- Jersey City tops all municipalities with \$365 million of work halfway through 2013. More than half of this is for residential work, new houses and home improvements. Jersey City's 1,073 authorized dwelling units through June is top among all municipalities. This trend has lasted for more than a decade.
- Newark had \$229.1 million through June. Much of this is office development, the new building for Prudential Insurance and a fit up of the recently completed US headquarters of Panasonic.
- Princeton (Mercer County) had \$141 million of work through June. Residential construction accounted for 60.1 percent of this. Princeton had 450 new dwellings through June. Only Jersey City (1,073) and Weehawken (742), both in Hudson County, had more.
- Robbinsville in Mercer County had \$128.4 million of work. Most (\$102 million) is for a new, 2 million square foot warehouse and distribution center for Amazon.com.

- State Buildings had \$232.7 million of construction between January and June 2013. The bigger projects were: a shopping and recreation complex (\$34.9 million) and new racetrack (\$21.1 million) in the Meadowlands; renovations and expansions at Ramapo College (over \$33 million); a new food, nutrition, and health institute at the New Brunswick campus of Rutgers University (\$14.3 million); and a parking deck at William Paterson University (\$8 million).

Housing Demolitions

- 3,295 dwellings were demolished between January and June 2013. This is more than double the amount reported this time last year. Ocean County had 1,508 demolitions, 45.8 percent of the statewide total. Seven of the top ten municipalities were in Ocean County; 17 of the top 20 were shore communities, reflecting the impact of Super Storm Sandy on New Jersey' coast.

New House Prices

- 1,791 new houses were completed, sold, and began enrollment in a new home warranty program in April, May, and June 2013. Their median sales price was \$402,000. This was 1.8 percent more than last quarter.
- Morris County had the most expensive new houses. Median sales price was \$737,500. Bergen and Somerset Counties followed with median sales prices of \$675,000 and \$599,164, respectively.
- Most new, for-sale houses are in a new home warranty program. The exceptions are rental dwellings and those built directly by homeowners themselves.

THE NEW JERSEY CONSTRUCTION REPORTER contains statistics on construction activity in New Jersey. Information in the report comes from construction officials who administer the State Uniform Construction Code (UCC) (N.J.A.C. 5:23-1 et seq.) in New Jersey's 566 municipalities.

Each month, construction officials send to the New Jersey Department of Community Affairs (DCA) reports on the permits and certificates they issue. Permits authorize the start of construction and cover four types of activity: (1) New construction permits authorize the start of a new structure. (2) Permits for additions refer to work that will add space (volume and square feet) to an existing building. (3) Alterations also involve existing structures, but the work authorized will not add space. Typically, construction officials issue permits for alterations when the work is subject to one or more of the UCC's major subcodes (building, electrical, plumbing, fire protection). (4) Demolition permits authorize the removal of a building or some other structure. The *CONSTRUCTION REPORTER* identifies only those demolitions that will result in the loss of housing.

In addition to permits, the *CONSTRUCTION REPORTER* has information on the certificates issued by construction officials. While permits authorize the start of construction, certificates are issued for work completed and ready for occupancy. Each month, the *CONSTRUCTION REPORTER* will report on the number of housing units and the amount of office and retail space authorized for construction, along with the number of housing units and the amount of office and retail space completed.

Data Comparability

The *CONSTRUCTION REPORTER* contains information on authorized housing units that is tabulated two different ways. The DCA tabulates Tables 1 through 3 and Tables 8 through 13 based on the use of buildings, defined in "groups" by New Jersey's UCC. Exhibit B on page 3 summarizes these groups.

Tables 4, 5, and 6 show authorized housing units as defined and tabulated by the United States Census Bureau. The New Jersey Department of Labor and Workforce Development prepares these tables for publication in the *CONSTRUCTION REPORTER*. Exhibit C on page 4 describes the housing definitions used by the Census Bureau.

The DCA series and the Census Bureau series on authorized housing units differ two important ways. First, the DCA series includes housing units created as a result of permits issued to alter or make additions to existing structures. The Census Bureau counts only those housing units authorized from permits issued for new construction.

Second, the Census Bureau imputes data for localities that fail to submit monthly reports on time. An asterisk in the Census column of data appearing in the Municipal Summary Data table at the back of the *CONSTRUCTION REPORTER* indicates those towns with imputed data. The Census Bureau bases these imputations on historic trends. The DCA series shows information for only those towns that submitted monthly reports. If a municipality failed to submit a monthly report on time, "No report" appears in the appropriate columns in the Municipal Summary Data table.

Additional Terms

A number of other terms appear in the tables throughout the *CONSTRUCTION REPORTER*. Exhibit A on page 2 defines additional construction permit and certificate terms.

Exhibit A

Exhibit C

Residential Structures (U.S. Census Bureau Definitions)

Tables 4, 5, and 6 show authorized housing units based on the structure types defined below by the U.S. Census Bureau. The number of units shown in these tables refers to those authorized by building permits issued for new construction only.

Single-Family Houses

Include all detached one-family houses and all attached one-family houses separated by a wall that extends from ground to roof with no common heating system or inter-structural public utilities. Include prefabricated, sectionalized, panelized, and modular homes that are manufactured partially off site, but are transported and assembled at the construction site.

Two-Family Buildings

Include all buildings with two housing units that may be above one another or side by side. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.

Three- and Four-Family Buildings

Include all buildings with three or four housing units. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.

Five-or-More-Family Buildings

Include all buildings with five or more housing units. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.

Private Housing Units

Housing owned by a private company or individual during the period of construction. This includes all housing built by nonprofit organizations and "turnkey" housing; for example, housing that will be sold to a local public housing authority when completed.

Public Housing Units

Housing owned by a governmental body during the period of construction.

NOTE:

Users of the monthly *CONSTRUCTION REPORTER* may notice that year-to-date figures in a particular issue may not be obtained by merely summing the monthly totals that appear in previous issues. This is because the construction data compiled by the New Jersey Department of Community Affairs are continuously updated. Monthly construction reports submitted too late to make the January issue of the *CONSTRUCTION REPORTER*, for example, are included in the year-to-date totals that appear in the February issue.
