Grantee: New Jersey

Grant: B-13-DS-34-0001

July 1, 2026 thru September 30, 2026 Performance

Grant Number:
B-13-DS-34-0001

Obligation Date:

Award Date:

Grantee Name:
New Jersey

Contract End Date:
09/30/2029

Review by HUD:
Submitted - Await for Review

Grant Award Amount:
$4,174,429,000.00

Grant Status:
Active

QPR Contact:
No QPR Contact Found

LOCCS Authorized Amount:
$4,174,429,000.00

Estimated PI/RL Funds:
$82,645,657.61

Total Budget:
$4,257,074,657.61

Disasters:

Declaration Number

FEMA-4086-NJ

Narratives

Disaster Damage:

Housing:
New Jersey's CDBG-DR Action Plan detailed the substantial damage that Superstorm Sandy caused to the State's housing sector. While damage from Superstorm Sandy occurred throughout the state, housing damage was particularly concentrated in communities bordering or near the Atlantic Ocean or the Hudson River. Many of these communities were flooded by Sandy's storm surge. FEMA Individual Assistance data as of March 12, 2013 reflected that the greatest concentrations of housing damage were located in the following counties: Atlantic (12%),
Bergen (5%), Cape May (4%), Essex (2%), Hudson (6%), Middlesex (5%), Monmouth (16%), Ocean (35%) and Union (6%).
Superstorm Sandy significantly affected both homeowner and rental properties. Based on FEMA Individual Assistance data effective March 12, 2013, approximately 40,500 owners' primary residences and over 15,600 rental units sustained "severe" or "major" damage according to classifications made by HUD. Moreover, many residences were "substantially damaged," meaning that damages exceed 50% of the homes pre-disaster value. In total, the FEMA data from March 12, 2013 indicated that 59,971 owner-occupied homes and 21,900 rental units sustained some level of physical damage from the storm. As referenced in the State's Action Plan, these figures likely underestimate the breadth of Superstorm Sandy's impact on the housing sector. The storm's impact on low- to moderate-income (LMI) households in New Jersey was particularly pronounced. FEMA Individual Assistance data as of March 12, 2013 demonstrated that of applicants who reported major or severe damage to their homes, 49% were LMI households. Moreover, 74% of renters that reported damage to their homes to FEMA were LMI households. While LMI households throughout the State were affected by the storm, the most impacted LMI households generally were within the counties with the greatest concentrations of damage, identified above.
Economic Development:
Superstorm Sandy devastated many businesses in New Jersey, causing substantial commercial property damage and short-term and longterm business operations losses. In addition to the physical damage Sandy caused to businesses themselves, widespread power outages resulted in inventory losses and working capital losses. Damage to public infrastructure such as roads, rail and bridges as well as compromised water utility systems and gas unavailability compounded those damages. This explains why data compiled soon after the storm suggested that businesses within 113 of New Jersey's 565 municipalities incurred a combined $382,000,000 in commercial property losses and another $63,900,000 in business interruption losses. While Superstorm Sandy caused damage across all state industries, some industries -- particularly the tourism industry -- were substantially affected. The storm also is estimated to have affected over 1,000,000 employees in New Jersey's workforce. Data compiled in the months after the storm indicates that approximately 138,000 workers filed unemployment claims in November 2012,the first full month after Superstorm Sandy. By comparison, unem ployment claims in November 2011 totaled 54,444 claims.
Infrastructure:
Superstorm Sandy's storm surge and associated flooding extensively impacted New Jersey's infrastructure. Critical facilities and assets throughout the State were directly damaged. Sandy left nearly seventy percent of ratepayers statewide withoutelectricity. Water and wastewater treatment facilities were unable to sustain operations. Roadways experienced significant damage from extensive flooding and sustained winds resulted in debris that made critical evacuation routes impassable. Rail and other public transitsystems, which suspended operations in anticipation of the storm, were substantially damaged.

Recovery Needs:

Housing:
New Jersey estimated in its Action Plan an unmet need in the housing sector totaling $2,504,993,992. The State calculated that figure by adding estimated repair and replacement costs and estimated costs for required elevations to reach a total need figure. The State then

subtracted funding provided from other sources such as private insurance, FEMA, and SBA, to reach the unmet need. As stated in the Action Plan, this figure likely understates the extent of New Jersey's housing needs.
Economic:
New Jersey estimated in its Action Plan an unmet need in the economic sector of $1,727,813,413. The State calculated that figure by adding estimated commercial losses and business interruption losses to arrive at a total need figure. The State then subtracted funding provided from other sources, such as commercial insurance and SBA. As stated in the Action Plan, this figure does not account for long-term losses or systemic impacts to the State's key economic base, notably the tourism and coastal real estate market. As a result, this figure likely understates the extent of New Jersey's needs in the economic sector.
Infrastructure:
New Jersey estimated in its Action Plan an unmet need in the infrastructure sector of $25,432,594,266. The State calculated that figure by adding estimated damage costs to needed hazard mitigation measures to arrive at a total need figure. The State then subtracted funding provided from other sources, such as FEMA Public Assistance. As stated in the Action Plan, these figures are preliminary and subject to change.
Affirmatively Further Fair Housing:
The State is committed to affirmatively further fair housing through its housing programs, following all applicable federal and state statutes and regulations, and enforcing fair housing laws. The State will ensure that housing assistance relating to Superstorm Sandy recovery is
prioritized and allocated solely based on disaster-related need, without regard to raise or ethnicity. Information relating to demographics of impacted communities will be utilized to ensure that assistance is accessible and reaches New Jerseyans in need. In support, the State,
among other things, has stood up household assistance centers in each of the nine most impacted counties to assist residence and communities with recovery programs and the application process.

Overall Progress Narrative:

Overall Progress Narrative:
Summary for Third Quarter 2026 QPR:

The State of New Jersey (State), Department of Community Affairs (DCA), as the grantee of Community Development Block Grant–Disaster Recovery (CDBG-DR) funding allocated to New Jersey by the U.S. Department of Housing and Urban Development (HUD) for Superstorm Sandy (Sandy) recovery, has prepared this Quarterly Performance Report (QPR) addressing CDBG-DR funding and expenditures through the third quarter of 2026 (July through September).

This QPR illustrates that, through September 30, 2026, the State expended more than $3.93B in CDBG-DR funds, and approximately $66.81M in Program Income (PI). As of the third quarter of 2026, the total CDBG-DR expenditures for low-to-moderate (LMI) populations in New Jersey account for approximately 56.8 percent of the State’s total CDBG-DR expenditures.

In the third quarter of 2026, HUD approved Action Plan Amendment 64, which is a substantial amendment that modifies the Superstorm Sandy Action Plan to relaunch the Reconstruction, Rehabilitation, Elevation and Mitigation (RREM) program. Through APA 64, DCA has added a new pathway to the RREM Program to accommodate the new applications. The policy for the new pathway is posted on DCA’s website. There is available budget within the existing program to support this effort.

DCA’s Division of Disaster Recovery and Mitigation (DRM) has and will continue to take meaningful actions to address significant disparities in housing needs while fostering and maintaining compliance with civil rights and fair housing laws. DRM has institutionalized in practice, and codified in policies and procedures, compliance with the fair housing tenets that were initially established under the Voluntary Compliance Agreement (VCA) enacted in 2015.

Those efforts included the opportunity made through the New Jersey Housing Mortgage and Finance Agency (NJHMFA) to provide grant assistance to public housing authorities and owners of federally assisted rent operties to repair damage from Superstorm Sandy; a targeted investment in special needs housing; and funding for thousands of units of affordable large multi-family housing. Additionally, the Sandy Tenant Based Rental Assistance (TBRA) Program served 1,788 renters while Housing Counseling Services (HCS) has served approximately

17,000 residents, both tenants and homeowners. HCS, through community-based and grassroot organizations, ensures that all citizens have access to civil rights and fair housing information. In addition, all programs and services make a commitment to serve those citizens with limited English proficiency and to diligently implement Section 3 hiring.

The following report highlights the State’s continued progress in executing CDBG-DR recovery programs.

1. HOUSING RECOVERY ACTIVITIES:

The Reconstruction, Rehabilitation, Elevation, and Mitigation (RREM) program provides grants to eligible, Sandy-impacted homeowners to reconstruct, repair, elevate or undertake mitigation measures for their storm-damaged primary homes. In the third quarter 2026, the program prepared to open a new application round in October 2026 under a new program pathway called Pathway D. This new application cycle is responsive to P.L. 2025, c.319, a state law that directs DCA to resume the RREM program using any remaining uncommitted, appropriated funds to provide recovery and rebuilding grant assistance for Superstorm Sandy-impacted homeowners with unmet needs who still require financial support.

As of September 30, 2026, more than 7,000 funded applicants in the RREM program completed their projects. Five (5) projects remain in active construction. The program has notified 87 applicants that they owe funding back to the program and must begin repayment. Next quarter, the program will open the new application round and begin processing RREM Pathway D applications. It will also process repayments as necessary.

The Low-to-Moderate Income (LMI) Homeowner Rebuilding Program has no funded applicants remaining in construction. The LMI Program provided reconstruction, rehabilitation, elevation and mitigation assistance of up to $150,000 to LMI homeowners whose primary residences were damaged by Superstorm Sandy, but who did not apply to the RREM Program. It also included a reserve of funding for owners of manufactured housing units/mobile homes to ensure that this group received needed assistance. In the program, 269 properties were funded and completed construction. The LMI Program has applied HUD-approved forgiveness t ppiants who owed funds back to the program for a reason that is eligible for forgiveness like bankruptcy, death, and foreclosure. There are 27 applications where recapture of funds is necessary. Next quarter, the program anticipates notifying applicants of their obligation to repay their outstanding balance and options moving forward.

The Supplemental Fund is exclusively for homeowners in the above-mentioned RREM and LMI programs to help remove financial barriers preventing them from completing construction by providing reasonable and necessary funding to finish their project. As of September 30, 2026, 94 Supplemental Fund awards were in various stages of processing; this includes 86 in closeout.

Sandy-impacted households are served through the Disaster Recovery and Mitigation Housing Counseling and Legal Services Program, which provides free HUD-certified housing guidance and legal services through community-based nonprofit housing counseling agencies on a wide array of issues, including financial literacy and foreclosure. More than 17,000 Sandy-impacted households of low-to-moderate income have received services through the program. In the third quarter of 2026, 129 Sandy-impacted households were served.

To assist Sandy-impacted homeowners who face frequent flooding, the State administered the Sandy Blue Acres Buyout Program in part with CDBG-DR funds. Blue Acres helps New Jersey families in flood zones move out of harm’s way and enhances community flood resiliency. All Sandy Blue Acres buyouts and

demolitions are completed. With respect to CDBG-DR funds, the program reports acquisition and demolition activities were undertaken for 213 properties in 13 municipalities (Keansburg, Linden, Manalapan, Manville, New Milford, Ocean Township, Old Bridge, Pemberton, Pleasantville, Rahway, Southampton, South River, and Woodbridge).

The State's largest affordable rental housing Sandy recovery initiative was the Fund for Restoration of Multifamily Housing (FRM) Program. All 85 FRM-funded projects have completed construction, creating more than 6,700 units. The State awarded $30M in FRM funding to nine public housing authority projects, all of which have completed construction. During the first 90 days of lease-up for any FRM-funded project, developers had to prioritize Sandy-impacted households who applied.

All construction is complete on projects assisted by the Sandy Special Needs Housing Fund (SSNHF), which provided funding for permanent supportive enal ouing units for special needs populations. Funds were awarded to 53 projects that created approximately 440 housing opportunities for individuals with special needs.

All projects funded through the Neighborhood Enhancement Program (NEP) completed construction and are occupied. The NEP provided no-interest loans to eligible developers to purchase and rehabilitate properties in counties most impacted by Sandy in an effort to return abandoned or blighted housing to viability. DCA awarded NEP loans to 42 projects, which resulted in 147 rental units and 37 homeowner units.

1. ECONOMIC RECOVERY AND REVITALIZATION ACTIVITIES:

The Stronger NJ Business Loan Program, which provides loans of up to $5M to storm-impacted businesses, approved loans for 122 businesses. As of the third quarter of 2026, 116 of these loans are fully disbursed.

The Stronger NJ Business Grant Program awarded grants of up to $50,000 to 1,150 storm-affected businesses. The program is in the process of closing out.

The State also administered the Stronger NJ Neighborhood and Community Revitalization (NCR) Program, which invested in municipal projects through two (2) initiatives: the Streetscape Revitalization Program and the Development & Public Improvement Program (D&I). The Streetscape Program consisted of 19 unique construction-related projects, all of which were completed. The D&I Program included 19 construction-related projects, 18 of which were completed. One project had its agreement terminated by the New Jersey Economic Development Authority.

- INFRASTRUCTURE AND RESILIENCY ACTIVITIES

The extensive damage and power outages caused by Superstorm Sandy prompted the State to create the Energy Resilience Bank (EB) o asistcritical facilities such as hospitals, water treatment plants, and wastewater facilities with securing resilient energy technologies that will make them – and by extension, the communities they serve – less vulnerable to future severe weather events and other emergencies. Through the third quarter of 2026, 10 projects are complete and three (3) projects are underway.

The Flood Hazard Risk Reduction and Resiliency Grant Program consists of an infrastructure component to support communities with flood hazard risk reduction projects and an easement acquisition component to support Army Corps of Engineers flood protection projects on the shore. Eight infrastructure projects

received awards, five of which are complete and two of which aren’t moving forward because of cost increases. One project in Atlantic City is ongoing and is approximately 99 percent complete. For the easement acquisition component, the State continued in the third quarter of 2026 to work with property owners on final compensation either through settlement negotiations or legal actions with counsel. There is one (1) infrastructure project where costs are being incurred for the process of acquiring the additional properties needed. Construction will begin in a few years.

The State is also administering two (2) projects developed through HUD’s Rebuild By Design (RBD) competition: “Meadowlands Flood Protection Project” and “Resist, Delay, Store, Discharge Hudson River Project.”

1. During the third quarter of 2026, the RBD Meadowlands Project Team continued constructing the Liberty Street Pumping Station and the East Riser Ditch Pump Station.

2. During the third quarter of 2026, construction work continued on the flood resist project of RBD Hudson River, which includes Hoboken and parts of Jersey City and Weehawken. The work included construction of the Resist structure and involved excavation, installation of structural piles, and pouring of foundational concrete and wall concrete. Additional test pits were performed to locate subsurface conflicts that may exist with the structure. The construction phase of the Resist contract is expected to run until fall of 2027.

1. SUMARYOF HURRICANE IDA RECOVERY ACTIVITIES

The State has been granted CDBG-DR funds for both Superstorm Sandy and Hurricane Ida, making the State eligible to use funds interchangeably for programs that benefit the overlapping most impacted and distressed (MID) areas of Bergen, Essex, Hudson, Middlesex, and Union counties. The State is using a portion of Superstorm Sandy CDBG-DR program funds to further support the programs created with Hurricane Ida CDBG-DR funds.

Blue Acres is a voluntary buyout and incentive program that acquires residential properties located in the floodway, floodplain, or other Disaster Risk Reduction Area (DRRA) to reduce the risk from future storm and climate change-driven flooding. As of the end of the third quarter of 2026, 74 households meet minimum program eligibility criteria, meaning they are located within HUD and State most impacted and distressed (MID) areas and have been income qualified. Of these, 46 households have received preliminary approval by DCA for a CDBG-DR-funded buyout and have active Blue Acres case management support. During the third quarter 2026, seven (7) property owners received initial or revised buyout offers. As of September 30, 2026, 26 had accepted offers and were in the purchase agreement or closing phases. Two properties were cleared of buildings and improvements, stabilized, and reseeded in the third quarter.

The Homeowner Assistance and Recovery Program (HARP) provides grants for activities necessary to restore homes damaged by Hurricane Ida, including rehabilitation, reconstruction, elevation, and/or other mitigation activities. As of the third quarter of 2026, more than 60 rehabilitation projects successfully completed construction and achieved program closeout. The program has approximately 570 funded applicants. As of September 30, 2026, two tenants were progressing through the Uniform Relocation Assistance (URA) process since they plan to be temporarily displaced as a result of program activities. Next quarter, grant awards, construction, and closeouts will continue. In the third quarter 2026, DRM successfully launched the HARP Reimbursement Program and began accepting applications in August 2026. HARP Reimbursement provides financial assistance to eligible homeowners for out-of-pocket costs they incurred to complete emergency

repairs to their primary residence following Hurricane Ida.

The Statewide Housing Mitigation Strategy Tool is operational and provides DRM with mapping to show where applicants were impacted by the Superstorm Sandy and Hurricane Ida storms relative to FEMA and SBA assistance. This tool is helpful in validating storm impact and assessing community level damage. Ongoing costs are related to the maintenance of the tool as developed.

1. SECTION 3

DCA continues to make the following efforts to help meet its Section 3 goals:

- Ensure that Section 3 requirements are outlined in all applicable contracts and subrecipient agreements.
- Build the capacity of stakeholders, including subrecipients and contractors, to meet Section 3 standards through technical assistance, tools, and guidance.
- Utilize a Section 3 coordinator who manages, supports, and facilitates an effective Section 3 program, and who can effectively communicate program requirements to stakeholders.
- Engage in strategies to attract Section 3 businesses and provide Section 3 information to contractors interested in contracting with DRM.

DCA reports Section 3 accomplishments in the Disaster Recovery Grant Reporting system. Recovery programs implemented by DCA and its subrecipients incorporate uniform best practices of construction standards for all construction contractors performing work in all relevant jurisdictions. As required in 2 CFR 200.321, DCA is taking all necessary steps to ensure that minority-owned businesses and women-owned business enterprises are used when possible.

Activity Description:

To assist impacted small businesses in New Jersey in the short term, NJEDA will offer access to capital through low-cost loans to credit-worthy businesses. The products offered will be in the form of direct loans to businesses through NJEDA. The loans are intended to assist businesses that suffered physical damage as a result of Superstorm Sandy as well as spur economic revitalization by providing funding for expansion and business relocation into storm-impacted areas.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

Activity Progress Narrative:

The Stronger NJ Business Loan Program has approved 122 applications cumulatively totaling $87,211,166.26 in assistance to businesses throughout the State. Overall, the approved applicants have received award disbursements totaling $84,494,857.59. Of the approved applications, 116 are considered fully disbursed. This quarter, there was no disbursement made to the SBL Projects. Program Income was receipted in the amount of $83,959.05 and $156.48 was expended in support of the program.

To assist impacted small businesses in New Jersey in the short term, NJEDA will offer access to capital through low-cost loans to credit-worthy businesses. The products offered will be in the form of direct loans to businesses through NJEDA. The loans are intended to assist businesses that suffered physical damage as a result of Superstorm Sandy as well as spur economic revitalization by providing funding for expansion and business relocation into storm-impacted areas.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

Activity Progress Narrative:

The Stronger NJ Business Loan Program has approved 122 applications cumulatively totaling $87,211,166.26 in assistance to businesses throughout the State. Overall, the approved applicants have received award disbursements totaling $84,494,857.59. Of the approved applications, 116 are considered fully disbursed. This quarter, Program Income was receipted in the amount of $446,440.60.

Activity Description:

Funds will target LMI households that may have been eligible for RREM assistance but did not submit an application during the RREM application period.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

Activity Progress Narrative:

This quarter, the Low to Moderate Income (LMI) Home Repair Program has no funded applicants remaining in construction. To date, 269 properties were funded and completed construction. The Program is not seeking to recapture from applicants where HUD has deemed it not in the best ineterest of the federal government to collect as defined under 90 CFR 1795 13.a. There are 27 applications where recapture is necessary. Next quarter, the Program anticipates notifying applicants of their obligation to repay their outstanding balance and options moving forward.

Activity Description:

Blue Acres is a voluntary buyout and incentive program that will be administered by DEP. Buyouts are acquisitions of properties located in a floodway, floodplain, or other disaster risk reduction area that reduce the risk from future flooding. Under Blue Acres, buyout properties will be voluntarily sold to DEP or their designee for current fair market value (post-storm value) and must be converted to and maintained per open space, recreational or wetlands management, or other disaster risk reduction practices. The program also may provide incentives to eligible homeowners to help them afford the costs related to relocating to a lower risk area.

Activity Description:

The program provides grants to eligible homeowners for activities necessary to restore their storm-damaged homes, including rehabilitation, reconstruction, elevation, and/or other mitigation activities. These mitigation activities include but are not limited to structural and utility retrofits to make the building more resistant to floods, grading and slope stabilization, and drainage improvements. Only costs incurred after an award is made will be eligible for reimbursement. Reimbursement of pre-award costs is not allowed.

Location Description:

The Counties of Bergen, Essex, Hudson, Middlesex, and Union.

Activity Progress Narrative:

During this quarter, the Homeowner Assistance and Recovery Program (HARP) continued to demonstrate substantial progress in assisting homeowners impacted by Tropical Storm Ida. More than 60 rehabilitation projects have successfully completed construction and achieved program closeout. The program maintains approximately 570 funded applicants. During the next quarter, HARP anticipates continued execution of rehabilitation and reconstruction grant awards, with reconstruction activities expected to trigger Section 3 reporting requirements. The Program will continue monitoring construction milestones, reinforcing established deadlines, and coordinating with applicants and contractors to facilitate construction advancement and increase the number of completed projects progressing through closeout. These efforts are expected to support continued expenditure of program funds and measurable progress toward overall program completion. Two tenants are currently progressing through the Uniform Relocation Assistance (URA) process in connection with anticipated temporary displacement associated with lead-based paint abatement activities. The Division

successfully launched the HARP Reimbursement Program with the opening of an application in late August 2026. During the next quarter, the Division anticipates advancing eligible reimbursement applications through review and approval, executing grant agreements, and initiating the disbursement of reimbursement funds to eligible homeowners.

The RREM program will provide grant awards to eligible homeowners for activities necessary to restore their storm-damaged homes, including rehabilitation, reconstruction, elevation and/or other mitigation activities. The RREM program will provide grant awards to eligible homeowners for activities necessary to restore their storm-damaged homes, including rehabilitation, reconstruction, elevation and/or other mitigation activities. The program will also provide reimbursement for eligible expenses incurred prior to the implementation of this program.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

Activity Progress Narrative:

This quarter, the Program is preparing to open a new application round in October 2026 under Pathway D. This new applicaiton cycle is responsive to P.L.2025, c.319 that directs the Department of Community Affairs (DCA) to resume the Reconstruction, Rehabilitation, Elevation, and Mitigation (RREM) program using any remaining uncommitted, appropriated funds to provide recovery and rebuilding grant assistance for Superstorm Sandy-impacted homeowners with unmet needs who still require financial support. To date, over 7,000 funded applicants completed their projects. 5 projects remain in active construction. The Program has notified 87 applicants that they must begin repayment. Next quarter, the program will process RREM Pathway D applications and process repayments as neccasary.

Activity Description:

New Jersey Economic Development Agency will use $200 million in CDBG-DR funds for grants to eligible applicants (initially water and wastewater treatment facilities will be prioritized), that will build energy resilience by ensuring the availability of a highly reliable power supply in the event that a large electrical grid fails (due to storm, or any other incapacitating event).

Location Description:

Counties: Bergen, Burlington, Camden, Essex, Gloucester, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Somerset, Union and Warren.

Activity Progress Narrative:

The extensive damage and outages caused by Superstorm Sandy prompted the State of New Jersey to prioritize its efforts to minimize the potential impacts of future major power outages and increase energy resiliency. The New Jersey Economic Development Authority (NJEDA) committed $200 million in Community Development Block Grant-Disaster Recovery (CDBG-DR) funding for the Energy Resilience Bank (ERB) to assist critical facilities with securing resilient energy technologies that will make them — and by extension, the communities they serve less vulnerable to future severe weather events and other emergencies. Through the current quarter, 2 LMI projects have received their AUGF, both of which have executed their Subrecipient Agreement. Through this quarter, one LMI project is complete. This quarter, there were no funds disbursed to LMI Projects within the ERB program. PI of $17,553.32 was expended in support of the program.

Activity Description:

1. Black Start: BCUA is seeking to retrofit their two existing Combined Heat and Power (CHP) Cogeneration (Cogen) units with black start capabilities. The CoGen system consists of three 1.4 megawatt GE Jenbacher engines capable of burning natural gas, biogas generated from onsite anaerobic digestion system or a combination of both. The new, third CoGen engine is undergoing commissioning and is equipped with black start capability. 2. Substations: The BCUA desires to protect its power assets from flooding and to avoid cascading impacts to the entire Little Ferry plant that could be caused by flooding of the substations or during a power outage. Substation assets that can be relocated above the Proposed Mitigation Design Flood Elevation will be replaced and raised, as appropriate. Raising these assets will require rerouting of conduit systems, replacement of feeders, distribution wiring, transformer, assets and conductors, and construction of additional structures to complete the installations. 3. Biogas Storage Tank: Based on findings from an evaluation of the existing five anaerobic sludge digesters, there are fluctuations in biogas production. Currently with no storage capacity, the biogas is flared during peak times when gas production exceeds demand.

Activity Description:

A new 1.5 MW natural gas fueled reciprocating engine based CHP system with heat recovery will be connected in parallel with PSE&G service at the main incoming switch gear. The plant will have black start capability and will be able to run in island mode. The CHP plant will include heat exchangers to make steam from engine exhaust and hot water from jacket water. New switchgear is included in the project to integrate the CHP system. New control and power monitoring systems are included in the project. A new 150 ton absorption chiller is also included in the project. Please see the attached Investment Grade Audit included in Section 3 of the Attachments section of this application for more detail on the project.

Activity Description:

This program will provide critical funding support to eligible applicants (State agencies and local government entities) for some, or all, of the FEMA required non-federal match for FEMA eligible and funded programs (FEMA Public Assistance (PA) and other FEMA funded recovery programs). Eligible FEMA Category A Debris Removal activities provide a public service to the communities affected by Superstorm Sandy. The match provides funding for an unmet need based on cost share for work performed to remove various debris and vegetation from sites under state agency jurisdictions.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

Activity Progress Narrative:

This quarter, $829,946.43 was expended for the 10% local share match of Project Worksheet 5228 - NJ DEP Navigable Channels.

Activity Description:

New Jersey Department of Environmental Protection NJDEP will use $50 million in CDBG-DR funds for an easement acquisition program to support Army Corps efforts to implement flood risk reduction measures.

Location Description:

Counties: Ocean and Salem.

Activity Progress Narrative:

The Program and DAG office continues to work with property owners on final compensation either through settlement negotiations or legal actions. Costs are being incurred for the process of acquiring the additional properties associated with the Union Beach project. Settlement negotiations and court cases are moving forward for the remaining easements. This quarter, the $84,485.17 was expended for program related expenses.

Activity Description:

This project consist of the construction of the phase 2 of the Atlantis Avenue Flood Gate Project, six (6) pumps that will evacuate excess Stormwater at time of severe tidal or storm events from the Baltic Avenue Canal. The pumps will allow the city to prevent tidal water from entering the existing end of the drainage canal into beach thorofare. The original tide gate, built in the early 1900's, no longer function and are being replaced as part of phase 1 of this project. Site elevations are in the range of 6.0 to 8.0. this project will also include the repairs work needed to fix the bulkhead and improve drainage.

Location Description:

Sunset Avenue and North Georgia Avenue, Atlantic City, New Jersey, 08401

Activity Progress Narrative:

The FHRRR Atlantic City - Atlantis Ave. Pump Station remains at approximately 99% complete. Due to utility service delays, additional change order work, remaining equipment activation and testing, and remaining punch list items, an approved No Cost Time Extension extended the contract period to March 1, 2027. The current approved project substantial completion date for the project is December 11, 2026. The Work completed to date includes Cast In Place, Concrete Discharge Flume, Concrete Culvert, Concrete Culvert End Section, and Concrete Pump Station, Control Building CMU Walls, Stormwater Control Gates with Actuators, substantial Electrical, Cast In Place Generator and Transformer Platform, Stormwater Structures and 24 inch Ductile Iron Culvert Pipe, DGA Roadway Base and Surface Paving, Concrete Gutter and Curbing, Upstream Culvert Repairs, Wet Well Pumps, Perimeter Fence and Gates, Final Landscaping, and SCADA system upgrades. This quarter, $20,241.37 was expended in program related expenses.

Activity Description:

New Jersey Department of Environmental Protection - NJDEP will use $50 million in CDBG-DR funds for competitive grants to eligible local government entities for eligible flood hazard risk reduction and resiliency infrastructure measure improvements or projects.

Location Description:

Counties: Atlantic, Bergen, and Cape May.

Activity Progress Narrative:

MBI has currently charged 96% of the current budget for the FHRRR Program with only one project (Atlantic City - Atlantis Avenue Pump Station) remaining in the Program. There are no issues with current budget to complete the Program. This quarter, $89,443.45 was expended on program related expenses.

Activity Description:

The State will develop a Statewide Housing Mitigation Tool to assess the housing stock in disaster-impacted and at-risk areas. This assessment may include taking inventory of housing by type, risk, accessibility, and other components needed to understand community and regional residential vulnerabilities. Special attention will be focused on LMI communities. The State and local governments and partners can use this tool to make informed development and floodplain management decisions and target resources toward the greatest need.

Location Description:

The Counties of Bergen, Essex, Hudson, Middlesex, and Union.

Activity Progress Narrative:

The Statewide Housing Mitigation Strategy Tool is operational and provides DRM with mapping to show where applicants were impacted but Ida and Sandy storms releative to FEMA and SBA assistance. This tool has proved helpful in validating storm impact and assessing community level damage. Ongoing costs are related to the maintenace of the tools developed.

Activity Description:

Administrative (Historic Preservation, Archeological and other Mitigation) activities required for the implementation of Programs.

Location Description:

101 S. Broad Street, Trenton, Mercer County, New Jersey, 08625

Activity Progress Narrative:

DRM has completed preparedness planning to support the rapid launch of long-term recovery programs following a major disaster, including Day 1 response procedures, program design, and outreach strategies to assess needs and prepare prospective applicants for awards upon federal funding availability and HUD Action Plan approval. Minimal costs will be applied to this activity to maintain the plan's operational readiness. NJ continues to engage with Smarter Housing planning with a convention planned for Q1 2027. The plan will identify innovative housing construction techniques and technologies which can be appropriately applied into NJ's building environment to provide cost effective resilient methods of hazard mitigation. Additionally, in coordination with our contractor, DCA will establish parameters for a forward looking program design to create a self sustaining marketplace for these solutions where homeowners drive the demand and contractors have the knowledge and tools necessary to supply solutions.

Most Impacted and Distressed Expended	$10,759,455.48	$30,528,815.56

Activity Description:

The Hudson River project, known as the Resist, Delay, Store, Discharge project, is a comprehensive urban water strategy that would deploy programmed hard infrastructure and soft landscape for coastal defense (resist); generate policy recommendations, guidelines and urban infrastructure to slow rainwater runoff (delay); develop a circuit of interconnected green infrastructure to store and direct excess rainwater (store); and deploy water pumps and alternative routes to support drainage (discharge). As proposed, a variety of flood risk reduction infrastructure will be built along the Hudson River in order to reduce flood waters, including at Weehawken Cove (to protect Hoboken, Weehawken and critical regional utilities) and by the Hoboken Ferry Terminal. Along Hoboken's downtown thoroughfare, green infrastructure measures, such as permeable paving and rain gardens, would help manage the city's surface water and reduce the risk of flash flooding from rain while enhancing the cityscape. Along NJ Transit's Hudson-Bergen Light Rail, otherwise discrete rainwater storage initiatives would be connected to make a green circuit. This system would serve as the foundations of a parallel green drainage infrastructure that would reduce the risk of flash flooding from rain, filtering and cleaning storm water and serving as a park for the community. A feasibility study will be completed to determine the final scope of the project and area benefiting. Per HUD waiver this activity has been exempted from the LMI calculation.

Location Description:

Hoboken, Jersey City, and Weehawken in Hudson County, New Jersey.

Activity Progress Narrative:

There are subsequent rounds of funding for this activity, therefore, the metrics and descriptions of this activity

are being reported in Round 5. This quarter $6,512,414.39 has been expended for work order related expenses. Also, $4,247,041.09 was drawn and expended in Program Income.

Activity Description:

The “New Meadowlands” project proposes an integrated vision of protecting, connecting and growing the Meadowlands. The project as proposed consists of two principle pieces of new infrastructure: the “Meadowpark” and the “Meadowband.” The Meadowpark is a large natural reserve made accessible to the public that will also offer flood risk reduction. It would connect and expand marshland restoration efforts. Around and across the Meadowpark, the team proposes an intricate system of berms and marshes. These will protect against ocean surges and collect rainfall, reducing sewer overflows in adjacent towns. The Meadowband, a raised berm that could potentially include transportation across the top, lies at the edge of the Meadowpark. It offers flood protection, connections between towns and wetlands, and will provide opportunities for towns to grow. A feasibility study will be completed to determine the final scope of the project and area benefiting.

Location Description:

Carlstadt, Little Ferry, Moonachie, South Hackensack, and Teterboro in Bergen County, New Jersey.

Activity Progress Narrative:

This quarter the Rebuild by Design Meadowlands Project Team's East Riser Ditch Pump Station construction is initiated with coordination with utilities, project area municipalities and adjacent property owners. This quarter's expenditures from R4 were 38,212.00.

A feasibility study will be completed to determine the final scope of the project and area benefiting. Per the HUD waiver this activity is exempt for the LMI calculation.

Location Description:

Hoboken, Jersey City, and Weehawken in Hudson County, New Jersey.

Activity Progress Narrative:

Construction work continues on the Resist contract awarded to SPC. Current field work includes the construction of the Resist structure and involves excavation, installation of structural piles, pouring of

foundational concrete and wall concrete. Additional test pits are being performed to locate subsurface conflicts that may exist with the structure. The construction phase of the Resist contract continues and is expected to be completed in the fall of 2027. This quarter $10,247,214.23 has been expended for construction related expenses. Also, $2,347,517.62 has been expended in program related expenses.

Activity Description:

The New Meadowlands project proposes an integrated vision of protecting, connecting and growing the Meadowlands. The project as proposed consists of two principle pieces of new infrastructure: the Meadowpark and the Meadowband. The Meadowpark is a large natural reserve made accessible to the public that will also offer flood risk reduction. It would connect and expand marshland restoration efforts. Around and across the Meadowpark, the team proposes an intricate system of berms and marshes. These will protect against ocean surges and collect rainfall, reducing sewer overflows in adjacent towns. The Meadowband, a raised berm that could potentially include transportation across the top, lies at the edge of the Meadowpark. It offers flood protection, connections between towns and wetlands, and will provide opportunities for towns to grow. A feasibility study will be completed to determine the final scope of the project and area benefiting.

Location Description:

Carlstadt, Little Ferry, Moonachie, South Hackensack, and Teterboro in Bergen County, New Jersey.

Activity Progress Narrative:

This quarter the Rebuild by Design Meadowlands Project Team continues construction of the Liberty Street Pumping Station and Force Main Project. The force main was completed, and work continues at the pump station site. Construction of East Riser Ditch Pump Station construction contract is underway. This quarter 3,432,667.53 was expended for program. Also, 630,157.89 was expended against program income.

Activity Description:

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

Location Description:

Counties: Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, Monmouth, Ocean, Passaic, Somerset, Sussex and Union County.

Activity Progress Narrative:

The Landlord Rental Repair Program (LRRP) has successfully worked with all eligible applicants to complete construction and rent to Low-to-Moderate income applicants for an affordability period. All applications are archived or in recoupment. To date, 391 applications have successfully met the national objective, repairing approximately 550 rental units. The Program has identified 52 applications where recapture is necessary. The Program has notified all 52 applicants of the need to pay back funds to the Program. Next quarter, the program will continue recapture efforts.

Activity Description:

Department of Community Affairs (DCA) will provide housing counseling services through its existing network of Housing and Urban Development (HUD) certified housing counseling agencies. These housing counseling agencies will provide comprehensive counseling services for both homeowners and renters in order to identify all available homeowner and renter programs and other available resources and to assist with application processing and housing counseling, all in one stop locations in all nine of the most impacted counties (Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union). The counseling shall include financial literacy training, fair housing counseling including mobility counseling and fair housing rights, and any assistance needed to residents of public and assisted housing that are required to be relocated.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, and Union.

Activity Progress Narrative:

This quarter, 129 storm-impacted households were served through the Disaster Recovery and Mitigation Housing Counseling and Legal Services Program, which provides free HUD certified housing guidance and legal services through community based non-profit housing counseling agencies on a wide array of issues, including financial literacy and foreclosure counseling.
