New Home Builders:

New Home Builders have engaged directly with the Program to verify they can perform reasonable and necessary reconstruction within Program grant award limitations. All Home Builders have been validated for current license at the time they were added to this list. The Program encourages applicants to consider production home builders, as custom home designs may increase project costs and could result in out-of-pocket expenses beyond the Program grant award. The NJ Department of Community Affairs New Home Builder database can be found here.
