Overall Progress Narrative:

The State of New Jersey (State), Department of Community Affairs (DCA), as the grantee of Community Development Block Grant–Disaster Recovery (CDBG-DR) funding allocated to New Jersey by the U.S. Department of Housing and Urban Development (HUD) for Superstorm Sandy (Sandy) recovery, has prepared this Quarterly Performance Report (QPR) addressing CDBG-DR funding and expenditures through the second quarter of 2020 (April-June).

This QPR shows that, through June 30, 2020, the State expended more than \$3.3B in CDBG-DR funds, including approximately \$14.53M in Program Income. As of the second quarter of 2020, the total CDBG-DR expenditures for low-to-moderate (LMI) populations in New Jersey account for approximately 55.7 percent of the State's total CDBG-DR expenditures.

The report that follows highlights the State's continued progress in executing CDBG-DR recovery programs.

HOUSING RECOVERY ACTIVITIES:

The RREM Program, which is the State's largest CDBG-DR program, provides grants of up to \$150,000 to eligible homeowners to reconstruct, repair, elevate or undertake mitigation measures for their storm-damaged primary homes. As of June 30, 2020, of the approximately 7,141 homeowners participating in RREM, 6,582 had completed construction. Also, more than \$946M of RREM funding was disbursed to eligible participants.

The Low-to-Moderate Income (LMI) Homeowner Rebuilding Program provides reconstruction, rehabilitation, elevation and mitigation assistance of up to \$150,000 to LMI homeowners whose primary residences were damaged by Superstorm Sandy but who did not apply to the RREM Program. The LMI Program includes a reserve of funding for owners of manufactured housing units/mobile homes to ensure that this unique population receives needed assistance. As June 30, 2020, 225 projects had completed construction and more than \$37M in program funding had been disbursed to eligible participants.

The State began accepting applications in the second quarter of 2019 for the Supplemental Fund, which is exclusively for homeowners in the RREM Program and the LMI Program who have a program-calculated unmet need and who have yet to complete construction. The 60-day application period closed on August 27, 2019. During the application period, 529 applications were submitted. Application review started in the third quarter of 2019 and continues. As of June 30, 2020, 172 Supplemental Fund awards had been processed at an average of \$62,160 and 259 homeowners had been notified that they were not eligible for additional funding.

Storm-impacted households are served through the Sandy Recovery Housing Counseling Program, which provides free HUD-certified housing guidance through community-based non-profit housing counseling agencies on a wide array of issues, including foreclosure and homelessness prevention, budgeting, rental guidance, and utility help. As of June 30, 2020, 11,474 Sandy-impacted households of low-to-moderate income received housing counseling services through the program and approximately \$8.8M was expended.

To assist Sandy-impacted homeowners who face frequent flooding, the State is administering the Sandy Blue Acres Buyout Program in part with CDBG-DR funds. Blue Acres helps New Jersey families in flood zones move out of harm's way and enhances community flood resiliency. With respect to CDBG-DR funds, buyouts are underway in 12 municipalities (Keansburg, Linden, Manville, New Milford, Ocean Township, Old Bridge, Pemberton, Pleasantville, Rahway, Southampton, South River, and Woodbridge). Within these municipalities, 165 properties have been purchased, 1 property donated, and 151 homes demolished as of June 30, 2020.

The State also continues to create affordable rental units and serve renters' recovery needs. The State's largest affordable rental housing recovery initiative is the Fund for Restoration of Multifamily Housing (FRM) Program. During the first 90 days of lease-up for any FRM-funded project, developers must prioritize Sandy-impacted households who apply. As of June 30, 2020, 70 FRM-funded projects were complete, creating approximately 5,300 units. Another six projects were under construction and will create approximately 390 units. The State has awarded \$30M in FRM funding to nine public housing authority projects, three of which have completed construction.

The Sandy Special Needs Housing Fund (SSNHF) provides funding for permanent supportive rental housing units for special needs populations. Funds have been awarded to 52 projects that are expected to create approximately 440 beds for individuals with special needs. As of the second quarter of 2020, 371 special needs beds were completed and about 18 special needs beds were under construction.

The Neighborhood Enhancement Program (NEP) returns abandoned or blighted housing to viability. To achieve this, NEP provides no-interest loans to eligible developers to purchase and rehabilitate properties in counties most impacted by Sandy. DCA has awarded NEP loans to 42 projects (189 housing units). Twenty-eight of the projects are completed and occupied, providing 106 rental units

and 32 homeowner units. An additional eight projects are completed and awaiting occupancy. The remaining six projects are under construction.

ECONOMIC RECOVERY AND REVITALIZATION ACTIVITIES:

Since inception, the Stronger NJ Business Programs have created or retained 6,468 jobs.

The Stronger NJ Business Loan Program, which provides loans of up to \$5M to storm-impacted businesses, approved more than \$85.6M in loans for 121 businesses as of the second quarter of 2020. Of these businesses, 116 are fully disbursed. To date, more than \$81.7M has been disbursed to businesses.

The Stronger NJ Business Grant Program provides grants of up to \$50,000 to storm-affected businesses. As of June 30, 2020, 1,150 small businesses have been approved for and received grants totaling \$55.9M.

The State also administers the Stronger NJ Neighborhood and Community Revitalization (NCR) Program, which invests in municipal projects through two initiatives: The Streetscape Revitalization Program and the Development & Public Improvement Program (D&I).

The Streetscape Program consists of 19 unique construction related projects. At the end of the second quarter of 2020, all projects have received authorization from HUD to proceed and have executed their subrecipient agreements. Seventeen projects are complete, and two projects are currently underway. To date, \$13.5M has been disbursed.

The D&I Program consists of 19 construction-related projects, all of which have executed their subrecipient agreements. Two projects are currently underway, and 17 projects are complete. Thus far, \$45.5M has been disbursed for D&I projects.

INFRASTRUCTURE AND RESILIENCY ACTIVITIES

The extensive damage and power outages caused by Superstorm Sandy prompted the State to create the Energy Resilience Bank (ERB) to assist critical facilities such as hospitals, water treatment plants and wastewater facilities with securing resilient energy technologies that will make them – and by extension, the communities they serve – less vulnerable to future severe weather events and other emergencies. Through the second quarter of 2020, two projects are in construction (South Monmouth Regional Sewage Authority in Wall Township, and Ocean County Utilities Authority in Stafford Township). The project at Cooper Health System in Camden is complete and in the commissioning phase. Also, the project at St. Peter's University Hospital in New Brunswick is complete and in close out.

The Flood Hazard Risk Reduction and Resiliency Grant Program consists of an infrastructure component to support communities with flood hazard risk reduction projects and an easement acquisition component to support Army Corps of Engineers flood protection projects on the shore. Eight infrastructure projects have received awards and completed their environmental review. Of these, projects in Little Ferry, Bergen County and Spring Lake, Monmouth County are complete, and the others are in various stages of the development and construction process. For the easement acquisition component, the State continued in the second quarter of 2020 to finalize compensation to condemned property owners through legal actions with counsel. All real estate rights needed to construct the current projects have been obtained and projects have been constructed or are being constructed.

The State is also administering two projects developed through HUD's Rebuild By Design (RBD) competition: the Meadowlands Flood Protection Project and the Hudson River Project: "Resist, Delay, Store and Discharge."

During the second quarter of 2020, the RBD Meadowlands Project Team continued the design phase of the Selected Alternative (Alternative 3 Build Plan), which will be constructed with the allocated CDBG-DR funds by September 30, 2022.

The design of the RBD Hudson River Project, which includes Hoboken and parts of Jersey City and Weehawken, continued during the second quarter of 2020. Design of the Resist Alignment continues and is at 100 percent completion on most of the technical components with landscape architecture and park design at approximately 65 percent complete. The project team is addressing comments on the Sewer System Modification (SSM) contract from the New Jersey Department of Treasury and the State Comptroller's Office. The SSM contract will likely go out to bid during the next quarter. Work continues to secure property easements (temporary construction and permanent), from private and public entities for the project area.

Activity Description:

Many Sandy-impacted homeowner had significant property damage to their residences and have suffered diminished property values. Moreover, some homeowners whose residences were substantially damaged by the storm will be required to elevate their residences. Additionally, with the passage of the Biggert-Waters Flood Insurance Act, flood insurance premiums for many are likely to rise, particularly for residences not above FEMA’s base flood elevation. All of these costs threaten to force homeowners, and particularly LMI households, to leave their communities. The Homeowner Resettlement program is targeted to alleviate some of the pressures facing homeowners impacted by Superstorm Sandy.

Location Description:

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

Activity Progress Narrative:

Voucher Revisions and Expense Modifications were made for Resettlement credits in RREM-DCA-LMI-R1 in order to put credits correctly into HRP from RREM.

Activity Description:

This project consists of the installation of an underwater outfall, 60 inches in diameter that will alleviate private property flooding during the 25-year storm interval and reduce floodwater levels throughout the 100-year floodplain overall. The pipe will be constructed on Borough of Belmar property. This particular pipe and size were chosen as 60 inches is the largest diameter ductile iron pipe and it is a preferable material for this type of structure. The 60 inch outfall was the chosen alternative based on discussions with the New Jersey Department of Environmental Protection (NJDEP) regarding potential additional impacts on water quality, shellfish habitats, and public beach access that would have resulted from other alternatives. The proposed outfall has been designed to better manage Stormwater in advance of, and during, rain and storm events. The larger pipe will discharge floodwaters faster and more effectively than the existing pipe. An adjustable weir built into the proposed outfall structure in the lake will be capable of lowering the lake's water level, without the need for pumps, prior to a storm event. The lower lake level will provide additional rainwater storage, thus increasing the amount of rain and floodwaters required to flood adjacent roadways and properties. Two gates will be installed in a proposed structure on the beach in order to prevent ocean water from coming back into the lake during coastal flooding events. A flap valve, which is a one-way check valve, will be used to allow water to be discharged but will prevent water from entering from the ocean. In addition, a sluice gate capable of completely closing off the pipe will be installed to ensure that ocean water cannot come back into the lake even if the flap valve fails to operate properly.

Activity Description:

The Hudson River project, known as the Resist, Delay, Store, Discharge project, is a comprehensive urban water strategy that would deploy programmed hard infrastructure and soft landscape for coastal defense (resist); generate policy recommendations, guidelines and urban infrastructure to slow rainwater runoff (delay); develop a circuit of interconnected green infrastructure to store and direct excess rainwater (store); and deploy water pumps and alternative routes to support drainage (discharge). As proposed, a variety of flood risk reduction infrastructure will be built along the Hudson River in order to reduce flood waters, including at Weehawken Cove (to protect Hoboken, Weehawken and critical regional utilities) and by the Hoboken Ferry Terminal. Along Hoboken’s downtown thoroughfare, green infrastructure measures, such as permeable paving and rain gardens, would help manage the city’s surface water and reduce the risk of flash flooding from rain while enhancing the cityscape. Along NJ Transit’s Hudson-Bergen Light Rail, otherwise discrete rainwater storage initiatives would be connected to make a green circuit. This system would serve as the foundations of a parallel green drainage infrastructure that would reduce the risk of flash flooding from rain, filtering and cleaning storm water and serving as a park for the community. A feasibility study will be completed to determine the final scope of the project and area benefiting. Per HUD waiver this activity has been exempted from the LMI calculation.

Location Description:

Hoboken, Jersey City, and Weehawken in Hudson County, New Jersey.

Activity Progress Narrative:

RBDH received a waiver to exclude the project from the calculation of the States overall LMI benefit calculation in APA 24. The Design of the project is ongoing. Design of the Resist Alignment continues and is at 100% on most of the technical components with Landscape Architecture and Park Design at approximately 65% complete. The project team is addressing comments on the Sewer System Modification (SSM) contract from NJ Treasurys Division of Project Management and Construction and the State Comptrollers Office. The SSM contract will likely go out to bid during the next quarter. Work continues to secure property easements (temporary construction and permanent), from private and public entities for the project area.

Activity Description:

The New Meadowlands project proposes an integrated vision of protecting, connecting and growing the Meadowlands. The project as proposed consists of two principle pieces of new infrastructure: the Meadowpark and the Meadowband. The Meadowpark is a large natural reserve made accessible to the public that will also offer flood risk reduction. It would connect and expand marshland restoration efforts. Around and across the Meadowpark, the team proposes an intricate system of berms and marshes. These will protect against ocean surges and collect rainfall, reducing sewer overflows in adjacent towns. The Meadowband, a raised berm that could potentially include transportation across the top, lies at the edge of the Meadowpark. It offers flood protection, connections between towns and wetlands, and will provide opportunities for towns to grow. A feasibility study will be completed to determine the final scope of the project and area benefiting.

Location Description:

Carlstadt, Little Ferry, Moonachie, South Hackensack, and Teterboro in Bergen County, New Jersey.

Activity Progress Narrative:

During this quarter, the Rebuild by Design Meadowlands Project Team continued the design phase of the Selected Alternative (Alternative 3 Build Plan) which will be constructed with the allocated US Department of Housing and Urban Development, Community Development Block Grant funds by September 30, 2022. Expenditures were made in Round 3 and Round 4 this quarter.

Activity Description:

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

Activity Description:

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

Location Description:

Counties: Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, Monmouth, Ocean, Passaic, Somerset, Sussex and Union County.

Activity Description:

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

Location Description:

Counties: Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, Monmouth, Ocean, Passaic, Somerset, Sussex and Union County.

This program supports the needs of displaced LMI households by making rental housing more affordable. Incentive payments will be provided to qualified rental property owners to subsidize the cost of rents.

Activity Description:

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental

housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

Location Description:

Counties: Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, Monmouth, Ocean, Passaic, Somerset, Sussex and Union County.

Activity Progress Narrative:

The Landlord Rental Repair Program (LRRP) helps repair Sandy-damaged rental properties by providing grants of up to \$50,000 per unit, and requires that repaired units be leased at affordable rates to LMI tenants. Through the close of the 2nd Quarter of 2020, 389 properties (550 units) completed construction through the program, and 21 properties (representing 31 units) were under construction. Also, 458 of the completed housing units were leased at affordable rates to LMI tenants.
