Summary Information for Federal FY 2023/State FY 2024

Community Development Block Grant Program	
Total Allocation:	\$6,746,804
State Administration:	\$ 302,404
Programmatic:	\$6,444,400
Public Facilities	\$4,444,400
Housing Rehabilitation/Emergency Housing Repair	\$1,200,000
Innovative and Economic Development	\$ 800,000

Application Submission Schedule

Public Facilities Fund	SAGE applications must be submitted no later
	than Thursday, December 21, 2023.
	SAGE applications must be submitted no later than
Housing Rehabilitation Fund	Thursday, December 21, 2023 for priority funding.
	However, applications will be accepted throughout the
	year if funds are available.
	SAGE applications must be submitted no later than
Innovative Development Fund	Friday, December 21, 2023 for priority funding. Pre-
innovative Development Fund	applications will be accepted throughout the year and
	awards will be based on the availability of funding.
	Pre-applications accepted throughout the SC Program
Emergency Housing Repair Fund	year. Forms are available on the Program website.
	Contact DCA for more details.

Reallocation of Funds between Budget Categories

The NJ Department of Community Affairs (DCA) reserves the right to move funds (including those recaptured from cancellations or closeout balances and program income) between the budget/funding categories outlined on page 1 of the Plan based on need. The Department may also consider funding additional projects after the above-cited application deadline if funds are recaptured, or the entire allocation is not awarded.

Objectives

State Conformance to National Objectives

The New Jersey Small Cities Community Development Block Grant (CDBG) program is guided by federal rules and regulations. All projects <u>must meet</u> one of the following three national program objectives set forth in the Housing and Community Development Act of 1974, as amended:

- 1. To undertake community development activities that principally benefit persons of low and moderate income.
- 2. To prevent or eliminate slums and blight.
- 3. To meet urgent community development needs for which no other resources are available.

The State of New Jersey certifies that at least 70 percent of the annual allocation will be used for activities that benefit persons of low and moderate income. Low and moderate income is defined as household gross income up to 80% of Area Median Income as defined by the US Department of Housing and Urban Development (HUD).

State Program Objectives

The program objectives are as follows:

- Support housing rehabilitation programs that maintain the supply of safe, decent, and affordable housing.
- Support and encourage efficient patterns of community development, redevelopment, and capital funding by giving priority to proposals that address documented health and safety concerns.
- Encourage innovative proposals that improve housing, and other eligible activities to renew designated revitalization areas.
- Encourage the development of facilities needed to support welfare to work programs such as job training and child and elder care.
- Support and encourage neighborhood revitalization efforts identified in locally developed plans and strategies.
- Improve the availability and adequacy of essential public facilities, and remedy serious deficiencies in areas that principally serve people of low or moderate income.
- Ensure that municipalities have the capacity to implement community development programs and maintain community development improvements.
- To support community development projects of urgency where existing conditions pose a serious and immediate threat to the health or welfare of the community, and where other financial resources are unavailable.

3

Distribution of Allocation

Contingent upon HUD's final approval of the FY 2024 State of New Jersey's Action Plan, the distribution of CDBG funds will be as set forth below.

Administration and Technical Assistance

Administration and Technical Assistance

The State is permitted to retain an amount equal to 3 percent of the grant award plus \$100,000 to cover costs associated with the State's administration and technical assistance of the CDBG program.

Funds

Public Facilities Fund

This funding category assists units of local government to construct or improve essential public facilities that will primarily benefit people of low and moderate income. The maximum funds request in this category will be \$400,000. However, if compelling reasons are presented and accepted, DCA may approve a greater award amount. Estimate 12 awards.

Housing Rehabilitation Fund

This funding category assist units of local government improve the condition of affordable housing within their jurisdiction. County-managed programs may be awarded up to \$400,000. Multi-jurisdictional programs may receive grants of up to \$300,000. Awards to programs serving only one municipality may not exceed \$200,000. This fund is limited to rehabilitate single-family owner-occupied housing. Estimate 6 awards.

NEW COMPONENT: Lead-Based Paint Remediation/Abatement – a total of \$5,000,000 in State funds is available to address lead-based paint in housing units identified for housing rehabilitation. These funds will be used to identify and remediate lead-based paint hazards through encapsulation, replacement, or abatement. Eligible costs are <u>remediation</u> (up to \$13,000 per house) and lead-based paint <u>abatement</u> (up to \$25,000 per house, including relocation costs for up to 14 days). The request for the lead funds will be a separate program component in the Small Cities application. More details will be provided during the application workshop/webinar.

Emergency Housing Repair Fund

The Emergency Housing Repair Fund (HRF) has been established to correct emergency conditions in owner-occupied housing where the owner is income-eligible, unable to obtain assistance from any other public or private source, and located in an eligible municipality listed in Attachment B of this document. \$40,000 is set aside within the HRF for this activity should it be necessary. The maximum grant award in this category will be \$20,000. However, the DCA will consider exceeding this ceiling if the applicant presents a compelling reason.

\$6,444,400

\$302,404

\$1,200,000

Prospective applicants are required to contact the Small Cities CDBG Program prior to applying for assistance.

Innovative Development Fund – Economic Activities, Property Buyouts \$800,000

This funding category assist units of local government to fund new, innovative, and/or timely community development projects that fall outside the traditional funding categories of housing rehabilitation or public facility (improvement) projects; see page 5 for more information. The maximum funds request in this category will be \$400,000. However, if compelling reasons are presented and accepted, DCA may approve a greater award amount. Estimate 2 awards.

Matching Requirements

Units of local government (municipalities/counties) seeking assistance from the Innovative Development Fund, the Public Facilities Fund, and the Housing Rehabilitation Fund are required to match a percentage of the grant request, based on the applicable Municipal Revitalization Index ranking (MRI Rank). The matching share is determined as follows:

MRI Rank	Matching Share
1 to 100	10%
101 to 200	15%
201 to 300	20%
301 to 400	30%
401 and above	50%

The MRI Rank for each Small Cities-eligible unit of government is provided in Attachment B (p.18). Where more than one municipality is participating in the proposed project, the matching requirement will be determined by combining the MRI Rank of each participant and dividing by the number of participating municipalities.

Where costs for professional services will be used, identified costs borne by the applicant must be consistent with established DCA standards as set forth in the applicable application guide in SAGE. Applicants to the Innovative Development Fund must provide a 10 percent match and may request a reduced matching share percentage of 5 percent with justification (**Example:** improvements to a nonprofit facility that provides services to low-income people or special-needs populations). Emergency Housing Repair grants do not require local matching funds.

Number of Applications

Applicants may apply for one (1) Public Facilities grant or one (1) Innovative Development grant per year and one (1) Housing Rehabilitation grant. Each grant application in SAGE is limited to one (1) specific project. The DCA retains discretion to award a single grant per year to each jurisdiction. Units of Local Governments (applicants) are required to attend the mandatory NJ Small Cities Application Workshop to be eligible to apply for funding.

Open Balances of Prior Awards

State CDBG programs are ranked monthly by HUD on expenditure and balance ratios. Since large program balances are detrimental to the State's performance and national rankings, the Department reserves the right not to fund an applicant should a substantial balance (70%) exists in prior grant awards at the time of application.

Evaluation Criteria

Community Development and Housing Needs Statement

To be considered for assistance for any Small Cities grant (except the Emergency Housing Repair Fund and the 108 Loan Program), an applicant must provide a Community Development and Housing Needs Statement. This statement must include at least three components – community development needs, housing needs, and status of applicable land use plans. The proposed project must address in detail at least one of the areas identified in the Statement of Community Development and Housing Needs to be considered for a grant. Instructions for preparing this document are set forth in the SAGE application guide for each Small Cities Fund.

Public Facilities, Housing Rehabilitation, Innovative and Economic Development Funds, Housing Buyouts and Emergency Housing Repair

All applications are subject to a review process that utilizes the Application Review Form (Attachment A). NJDCA staff will review all applications to determine if threshold requirements are met. An application must meet minimum threshold requirements to be eligible for funding.

Innovative Development - Economic Activities, Property Buyouts

The Innovation Development Fund (IDF) including economic activities and property buyouts dedicates resources for new, innovative community development projects that fall outside the traditional funding categories above. This category is specifically designed to fund innovative, small-scale pilot projects such as entrepreneurship (small business) development, employment development, alternative energy sources, energy conservation or other initiatives that provide cost savings measures and efficiencies for the community. While units of local governments (ULG) may only apply, the IDF was established to encourage partnerships between nonprofit and for-profit organizations that serve the area and have the capacity to implement these projects. Assistance is in the form of a secured forgivable loan for the life of the improvement for nonprofits. Where funds are used to purchase real estate (acquisition), a lien that equals the amount of assistance must be repaid upon sale or transfer of the property.

The property buyout component is designed to fund projects that eliminate flood prone or blighted properties and convert them to public open space in perpetuity. Cost for tenant relocation may apply.

Grants may not exceed \$400,000 unless compelling reasons for exceeding that amount are set forth by the applicant and accepted by the DCA. Priority consideration will be given to projects that are designed to provide 100 percent benefit to people of low and moderate-income.

Emergency Housing Repair

Funding to correct emergency conditions in single family owner-occupied housing units may be requested by an eligible local government at any time throughout the funding year. To be eligible, the project must: 1. Meet CDBG income eligibility guidelines; 2. Provide documented need and costs; and 3. Certify that other public or private funding sources are not available. The application can be found on the Small Cities website.

Threshold Requirements

- **Attachment A:** Refer to the Threshold Requirements in the Small Cities Application Review Form (pages 13-16) and refer to the DCA SAGE Application Instructions, SC Program Handbook at http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html for more details.
- All Federal Compliance Items: (submit the following with the SAGE application)
 - 1) Resolution for <u>Citizen Participation Plan</u>:
 - a. Display Advertisement
 - b. Cannot reuse a previous notice
 - 2) Resolution for <u>Affirmatively Furthering Fair Housing</u>

3) <u>Grant Management Plan</u> (GMP) and resolution (applications may be suspended or terminated if changes to the GMP occur without DCA's approval)

- 4) Environmental Review Record (ERR). One of the following may be submitted:
 - a. A <u>complete draft</u> of the environmental review record (ERR) for the level of review required (completed to the point before publishing a public notice) and include a draft Notice of Intent to Request Release of Funds, (NOI/RROF), or combined notice of Finding of No Significant Impact (FONSI) and NOI/RROF
 - b. The Final or completed ERR must include proof of official public notice, NOI/RROF or combined notice FONSI and NOI/RROF, letters documenting findings, and a Phase I environmental site assessment if required, (Refer to the Small Cities ERR Handbook section on the Program's web page or contact the Small Cities Program for more information)

Note: to meet eligibility the ERR cannot be more than 18 months old unless justification is provided and accepted by the Small Cities Program.

5) Professional Services Agreement drafts specific to the project that have met CDBG procurement requirements, see page 10.

Note: procurement must comply with HUD requirements- OMB Circular 2 CFR (Code of Federal Regulations) Part 200, Uniform Administrative Requirements, and NJ Local Public Contracts Law.

6) Third party cooperative agreement draft for ID projects

- 7) Policies and Procedures Manual for housing programs
- 8) Matching Funds Certification

9) Municipal/County Resolution to apply and accept grant funds, must use model resolution provided.

All items above, except for the ERR, must be current (no older than 10 months at the time of submittal), specific to the application, complete and executed before submitting the application. Citizen Participation notices from prior applications cannot be reused. Applicants that do not complete and submit the above items with the application may not be eligible for funding. Please refer to the Program's web page at http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html for more information.

 Housing Rehabilitation Applications: All housing rehabilitation programs are required to establish and maintain a local revolving loan fund and include such provision in an adopted policies and procedures manual. At least 50 percent of the funds provided to homeowners must in the form of a loan to be paid back to provide funding for a local revolving loan program. The Small Cities Program requires a revolving loan balance statement for each application.

Rated Criteria

The maximum number of points a Small Cities application can receive is 100, plus 5 bonus points.

Applications that meet all threshold requirements will then be scored based upon the following criteria:

• *Municipal Distress:* The relative need of an applicant will be evaluated by using the Statewide Municipal Revitalization Index (MRI) updated December 17, 2020, which appears in the attached table. The indices are used by State agencies in allocating need-based assistance to municipalities. Applicants may receive up to 20 points as follows:

MRI Rank	Score
0 to 100	20 Points
101 to 200	15 Points
201 to 300	10 Points
301 to 400	5 Points
401 and above	0

- **Needs Statement**: Your proposed project must be a specific component of the applicant's Community Development and Housing Needs Statement. Refer to the Small Cities Application Instructions in SAGE for further guidance. An application can receive a maximum of 20 points for this category.
- **Program Impact:** A public facility project must serve an acceptable critical mass. A public facility application project serving more than 99 low and moderate-income people will receive 20 points. An application with a project serving from 30 to 99 low and moderate-income people will receive 10 points. Applications with projects that serve a low/moderate population less than 30 people will receive zero (0) points. All housing programs that meet threshold requirements will automatically receive 20 points.
- **Balance Ratio:** Applicants will be rated on the remaining balance of grant awards received in a funding category over a three-year period, including all open grants at the time of application. Applicants with ratios of .50 or less will receive 10 points and applicants with ratios above .50 will receive zero points.
- **Readiness to Proceed:** Applicants must demonstrate that they can complete their proposed project within the two-year grant period. The degree to which an applicant is ready to proceed with the proposed project will be evaluated as follows: Housing Rehabilitation applications that include proof of a municipal property maintenance code and a list of five or more income-eligible households with work write-ups that can go out for proposals will receive 5 points. Public Facilities and Innovative Development applications that include biddable plans and specifications will receive 10 points.
- **Past Performance:** Past performance will affect an applicant's overall rated score. A past performance rating of "Good" will indicate that the grantee submits timely reports, spends grant funds on schedule, completes the project within the two-year grant term and has no "administrative findings" during monitoring visits. However, multiple instances of poor performance in managing grants, i.e., where staff concerns were documented because of monitoring visits and failure to adhere to reporting requirements and policies will lower the overall rated score. A documented finding within the past 2 program years will result in score of zero (0). New applicants, or applicants that have not received a grant in more than 3 years will receive 5 points.

The DCA reserves the right not to fund an applicant based on the past performance, lack of competency or experience of the management team including the project coordinator, which may be an employee or consultant. Slow progress, multiple and repetitive instances of noncompliance with program requirements will weigh heavily in the decision-making process.

Past Performance Rating	Score
Good	10 Points
Fair	5 Points
Poor	0 Points
New Applicant	5 Points

- **Address Deficiencies:** Applicants will be rated on how well the proposed project will address a community deficiency, need, or problems. Applicants must submit the audit summary of their most recent audit. Do not submit the entire audit. An audit finding relating to a prior DCA funded activity may disqualify the application. Applicants will receive up to 5 points.
- **Grant Management:** Applicants will be rated on the evidence submitted that a competent management team or coordinator will implement the project. Applicants will receive up to 5 points.
- **Emergency:** Applicants will be rated on the evidence submitted that the proposed project will address an emergency that threatens the health and safety of the residents. Funding priority may be given. Applicants will receive 5 points.
- **Bonus Points:** Applicants can receive bonus points for exceptional applications that demonstrate a unique or exceptional approach to address their community development needs. Bonus points can also be awarded to applications that the review team deems are thorough, complete, and well organized. Applicants can receive up to 5 additional points.

Eligible CDBG Activities:

Activities assisted under the Small Cities CDBG Program are limited to the following:

- 1. Acquisition of real property that is blighted, appropriate for rehabilitation, appropriate for preservation as a historic site, or used for provision of public works or other public purposes.
- 2. Activities necessary to address lead-based paint issues through lead remediation/abatement activities and the replacement of lead pipes. These activities will be done in conjunction with approved housing rehab grant funded work.
- 3. Acquisition, construction, reconstruction, or installation of public works or facilities (except buildings for the general conduct of government) and site and other improvements.
- 4. Code enforcement in deteriorated or deteriorating areas in which such enforcement may arrest the area's decline.
- 5. Clearance, demolition, removal, and rehabilitation of buildings.
- 6. Special projects directed to the removal of architectural barriers that restrict the accessibility of the elderly and handicapped.

- 7. Payments to housing owners for losses of rental income incurred in holding units for relocated individuals and families displaced by activities under the program.
- 8. Disposition of real property acquired pursuant to the program.
- 9. Provision of public services if the local government has not provided such services during the 12month period immediately preceding implementation of the program.
- 10. Payment of the non-Federal share required in connection with a Federal grant-in-aid program undertaken as part of this program.
- 11. Payment of the cost of completing a project funded under Title I of the Housing Act of 1949.
- 12. Relocation payments for displaced individuals, families, businesses, and organizations because of activities under the program.
- 13. Activities necessary to develop a comprehensive community development plan and to develop a policy-planning-management capacity to enable the recipient to administer the program more effectively.
- 14. Payment of reasonable administrative costs.
- 15. Activities carried out by public or private non-profit organizations including:
 - a. Planning
 - b. Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities (except for buildings for the general conduct of government), site improvements, and utilities and commercial or industrial buildings or structures.
- 16. Assistance to non-profit organizations serving non-entitlement areas, local development corporations or entities organized under the Small Business Investment Act of 1985 to carry out a neighborhood revitalization or community economic development or energy conservation projects, including the development of shared housing opportunities for the elderly (other than by construction of new facilities).
- 17. Activities necessary to the development of a comprehensive community-wide energy-use strategy.
- 18. Assistance to private, for-profit entities, when the assistance is appropriate to carry out an economic development project.
- 19. Rehabilitation or development of housing assisted under Section 17 of the United States Housing Act of 1937.
- 20. Assistance to facilitate the substantial reconstruction of housing owned and occupied by low- and moderate-income persons.
- 21. Technical assistance to increase the capacity of public or non-profit entities to carry out eligible neighborhood revitalization or economic development activities.
- 22. Housing services designed to assist homeowners, tenants, and others seeking to participate in eligible housing activities.
- 23. Assistance to institutions of higher education capable of implementing eligible activities.

- 24. Assistance to public and private organizations (for-profit as well as non-profit) to facilitate the development, stabilization, and expansion of micro-enterprises.
- 25. Assistance to facilitate and expand homeownership by subsidizing interest rates, financing acquisition, guaranteeing mortgages, paying up to 50% of down payments, or paying reasonable closing costs for income-eligible people.
- 26. Activities necessary to repair and operate housing units acquired through tax foreclosure to prevent abandonment and deterioration.

State and Federal Procurement Requirements

Grantee shall use N.J.S.A. 40A:11-4.1 thru 40A:11-4.5 Competitive Contracting (without a bid threshold) when Federal funds are used to pay for engineering and other services including grant management. Cost must be one of the factors used in the evaluation of proposals.

Grantee shall upload the following in the attachment section of the SAGE application:

- 1) Municipal resolution committing to Competitive Contracting procurement process N.J.S.A. 40A:11-
 - 4.1 thru 40A:11-4.5 (no threshold will apply) and
 - a. commit to the process of competitive contracting
 - b. strives to obtain three or more proposals, and
 - c. proceeds with the RFP evaluation process if at least two or more proposals are received
- 2) A copy of the notice of the availability of request for proposal documentation shall be published in an official newspaper of the contracting unit at least 20 days prior to the date established for the submission of proposals.
- 3) A copy of the Request for Proposal (RFP) for services that includes a notice that cost will be one of the evaluation factors.
- 4) A copy of the purchasing agent or counsel or administrator report evaluating and recommending the award of a contract. The report shall be made available to the public at least 48 hours prior to the awarding of the contract.
- 5) A copy of the resolution of the governing body of the contracting unit awarding the contract within 60 days of the receipt of the proposals.
- 6) A copy of the notice published in the official newspaper of the contracting unit summarizing the award of a contract.

Refer to the SAGE Application Instructions for more information. (Drafts of items 2 thru 6 may be submitted)

Grantee must use public bidding (sealed bids) when Federal funds are used to pay for construction. Procurement of housing rehabilitation contractors must comply with the housing project's policies and procedural manual developed by the applicant and approved by NJDCA. However, municipal contracts for services such as housing cost writeups, inspections, lead safety and clearance testing must also comply with Competitive Contracting as above.

Additional instructions are in the application instructions in SAGE. The above methods of procurement must be used for complying with Federal OMB Guidance at CFR, Part 200, et al Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, if not funds will be reallocated to program development, or withdrawn from the project.

Grant Funds Recaptured and Other Recaptured Funds (Program Income)

CDBG Grants

Recaptured grant funds may be retained by the grantee if they demonstrate, as determined by the Department, that recaptured funds can be distributed in a timely way to carry out the same activity for a specific project in accordance with a reuse plan that has been approved by the Department.

The State of New Jersey interprets the phrase "the same eligible activity" to mean that the grantee must use the recaptured funds for the same activity for which it was originally funded, as taken from the list of eligible activities. For example, if the recaptured funds were derived from a loan to a private firm, it must be used again for loans to private firms. This does not mean that the income may only be used for an additional loan to the same firm. Nor can "continuing the activity" be so broadly defined as to mean use for the same general purpose, such as economic development.

The State will consider exceptions to this policy on a case-by-case basis. However, in the event a grantee fails to demonstrate an acceptable reuse of recaptured funds, the State will recapture program funds and distribute such funds in accordance with the provisions set forth in the applicable plan for **Distribution of Allocation**.

Recaptured Funds Statement

A recaptured funds statement **must be** included in the application documenting the balance of all previous grant funds recaptured by applicant as of the date of application. The Department reserves the right not to fund a new project should a substantial balance exist that is not obligated in a funding category.

Applicants are required to submit a summary statement each year on the balance of the revolving Ioan funds. The funds must be in separate accounts that are based on the original activity of the local program from the Housing Rehabilitation, Innovative Development, and Employment Development funds. Refer to the Small Cities Program Handbook, Grant Management Section, and Revolving Loan Fund Reporting Procedures for further guidance.

Displacement

The Small Cities CDBG Program will seek to minimize involuntary displacement of persons from their neighborhoods and homes and to mitigate the adverse effects of any such displacement on low-and moderate-income persons. The State will require applicants to assess all feasible alternatives to any activity resulting in involuntary displacement.

If involuntary displacement is the only feasible alternative, the State will require that grantees comply with the requirements of the Housing and Community Development Act of 1974, as amended; the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended; and the statutory amendments implementing regulations (CFR Part 24). In addition, the State will require that grantees comply with the requirements of the New Jersey Relocation Assistance Acts (P.L. 1971, c.362 and P.L. 1967, c. 79) and the New Jersey Regulations for Provision of Relocation Assistance (N.J.A.C. 5:40-1 et seq.) where applicable.

Build America, Buy America

The Small Cities CDBG Program is subject to Division G, Title IX of the "Infrastructure Investment and Jobs Act", known as "Build America Buy America". As such, iron and steel used in funded projects will need to be domestically sourced. Further guidance will be given regarding related documentation and reporting requirements.

Notice of Awards

DCA will announce the Small Cities CDBG awards by February 2024.

Additional Awards

The NJ Small Cities CDBG Program is flexible and may consider funding additional projects throughout the year should funds become available through cancellations or projects that were completed under budget. Applications that were unsuccessful in receiving an award during this year's announcements due to the limited resources (funds) may be considered for an award.

The NJ Small Cities CDBG Program may consider offering recent or existing grantees the opportunity to amend their grant agreement/project scope should they experience a subsequent unforeseen disaster (natural or man-made) and have no other means to address the problem. All amended projects must be an eligible CDBG activity, meet the National Objective and be reviewed and approved by DCA.
