Administrative Law: Agency Adjudication: Hearings: General Overview

In denying an occupancy permit due to the inadequacy of a sprinkler system, a construction board of appeals failed to adhere to the procedures and safeguards of the State Uniform Construction Code Act, N.J. Stat. Ann. § 52:27D-119 et seq., in conducting the hearing under N.J. Stat. Ann. § 52:27D-127 because the decision was based entirely upon a staff report with no opportunity for the applicant to cross-examine or challenge the author thereof. In re "Analysis of Walsh Trucking Occupancy & Sprinkler System", 215 N.J. Super. 222, 521 A.2d 883, 1987 N.J. Super. LEXIS 1042 (App.Div. 1987).

#### Administrative Law: Separation of Powers: Jurisdiction

In plaintiff state builders association's suit against defendant commissioner of the department of community affairs, defendant exceeded the authority granted to defendant under the State Uniform Construction Code Act, <u>N.J. Stat. Ann. § 52:27D-119</u> et seq., by substantially amending the state's energy subcode. <u>New Jersey Builders Asso. v. Coleman, 227 N.J. Super. 23, 545 A.2d 783, 1988 N.J. Super. LEXIS 326 (App.Div. 1988)</u>.

#### Constitutional Law: Bill of Rights: Fundamental Rights: Procedural Due Process: Scope of Protection

Plaintiff's claim that defendants, a borough and its zoning and land use chairman, violated his due process rights for issuing stop work orders, allegedly failing to give plaintiff a construction permit, and for delaying approval of his site plan, were properly dismissed via summary judgment because plaintiff failed to pursue the administrative and judicial remedies available to him via the Uniform Construction Code Act and the Municipal Land Use Law for redress of the alleged arbitrary action by the municipal officials, as such statutes satisfied the requirements of procedural due process. Further, the alleged arbitrary actions by defendants did not constitute egregious official conduct that shocked the conscience so as to violate plaintiff's substantive due process rights. <u>Plemmons v. Blue Chip Ins. Services, Inc., 387 N.J. Super. 551, 904 A.2d 825, 2006 N.J. Super. LEXIS 256 (App.Div. 2006)</u>, overruled in part, <u>Shaw v. Shand, 460 N.J. Super. 592, 217 A.3d 1180, 2019 N.J. Super. LEXIS 129 (App.Div. 2019)</u>.

#### Constitutional Law: State Autonomy: General Overview

On-site inspection agency's damages claims against the Commissioner of the New Jersey Department of Community Affairs for her alleged failure to to properly enforce the New Jersey Uniform Construction Code were barred by the Eleventh Amendment because it sued her in her official capacity and it could not establish that her actions denied it equal protection under the Fourteenth Amendment. <u>Garden State Elec. Inspection Servs.</u>, <u>Inc. v. Levin, 144 Fed. Appx. 247, 2005 U.S. App. LEXIS 16409 (3d Cir. N.J. 2005)</u>.

Constitutional Law: Substantive Due Process: Scope of Protection

Plaintiff's claim that defendants, a borough and its zoning and land use chairman, violated his due process rights for issuing stop work orders, allegedly failing to give plaintiff a construction permit, and for delaying approval of his site plan, were properly dismissed via summary judgment because plaintiff failed to pursue the administrative and judicial remedies available to him via the Uniform Construction Code Act and the Municipal Land Use Law for redress of the alleged arbitrary action by the municipal officials, as such statutes satisfied the requirements of procedural due process. Further, the alleged arbitrary actions by defendants did not constitute egregious official conduct that shocked the conscience so as to violate plaintiff's substantive due process rights. *Plemmons v. LEXIS 129 (App.Div. 2019).

#### Constitutional Law: Equal Protection: Scope of Protection

On-site inspection agency was not entitled to injunctive and declaratory relief to end an alleged Equal Protection Clause violation, as it could not show: (1) that the Commissioner of the New Jersey Department of Community Affairs was improperly enforcing the New Jersey Uniform Construction Code; (2) that on-site inspection agencies and municipal subcode officials were similarly situated under the Code; or (3) that the classifications within the Code were not rationally related to a legitimate State interest. <u>Garden State Elec. Inspection Servs., Inc. v. Levin, 144 Fed. Appx.</u> 247, 2005 U.S. App. LEXIS 16409 (3d Cir. N.J. 2005).

#### Governments: Legislation: Statutes of Limitations: General Overview

There was no patent repugnance or inconsistency found between the statute of repose of N.J. Stat. Ann. § 2A:14-1.1 and the Uniform Construction Code (UCC), N.J. Stat. Ann. §§ 52:27D-119 to 52:27D-141, so it was held that the UCC did not prevail over the statute of repose. Cyktor v. Aspen Manor Condominium Ass'n, 359 N.J. Super. 459, 820 A.2d 129, 2003 N.J. Super. LEXIS 143 (App.Div. 2003).

No patently repugnant or inconsistent conflicts exist between the Uniform Construction Code, N.J. Stat. Ann. § 52:27D-119 through N.J. Stat. Ann. § 52:27D-141, and the statute of repose, N.J. Stat. Ann. § 2A:14-1.1. Cyktor v. Aspen Manor Condominium Ass'n, 359 N.J. Super. 459, 820 A.2d 129, 2003 N.J. Super. LEXIS 143 (App.Div. 2003).

Motel owner was exempt from placing fire extinguishers in "efficiency units" that had kitchen facilities because the units were "individual dwelling units" under the State Uniform Construction Code Act, <u>N.J. Stat. Ann. § 52:27D-119</u>, so fire suppression systems were not required. <u>Venuti v. Cape May County Constr. Bd. of Appeals, 231 N.J. Super. 546, 555 A.2d 1175, 1989 N.J. Super. LEXIS 110 (App.Div. 1989).</u>

#### **Governments: Local Governments: Finance**

N.J. Stat. Ann. § 52:27D-119 preempted a borough's ordinance requiring, as a condition for the issuance of a building permit, that past-due real estate taxes on the property be paid; N.J. Stat. Ann. § 40:52-1.2 did not provide the borough with authority for the ordinance because it was limited to authorizing the licensing of specifically enumerated merchants and businesses for the purpose of regulating them and generating revenue. Builders League of S. Jersey v. Borough of Pine Hill, 286 N.J. Super. 348, 669 A.2d 279, 1996 N.J. Super. LEXIS 7 (App.Div. 1996).

#### **Governments: Local Governments: Licenses**

Municipal enforcing agency had the authority to issue notices of violations (NOVs) against a developer for building code violations relating to the stucco-like exterior of homes after the township had issued certificate of occupancy to the developer and the homes were sold. At the very least the agency's authority encompassed code violations of the sort that would have supported the withholding of the certificate of occupancy had they been known. <u>DKM Residential Props. Corp. v. Twp. of Montgomery, 182 N.J. 296, 865 A.2d 649, 2005 N.J. LEXIS 3 (N.J. 2005)</u>.

Because the penalties accomplish goals other than merely to secure immediate compliance with the Uniform Construction Code Act, *N.J. Stat. Ann. §* 52:27D-119 to -141 (UCC Act), by exerting a continuing and increasing penalty for an unabated condition, the penalty section does not evince a legislative intent to restrict penalty enforcement to actions only against the landowner in possession, and not against a violating developer who had been issued a certificate of occupancy on the property. *DKM Residential Props. Corp. v. Twp. of Montgomery, 182 N.J.* 296, 865 A.2d 649, 2005 N.J. LEXIS 3 (N.J. 2005).

Supreme Court of New Jersey could discern no clear indication in the penalty provision of *N.J. Stat. Ann.* § 52:27D-119 to -141 (UCC Act) that compels a restrictive interpretation of its terms; nowhere in the UCC Act is there any express limitation against the imposition of penalties on a developer after a certificate of occupancy has issued. *DKM Residential Props. Corp. v. Twp. of Montgomery, 182 N.J. 296, 865 A.2d 649, 2005 N.J. LEXIS 3 (N.J. 2005)*.

There was no patent repugnance or inconsistency found between the statute of repose of <u>N.J. Stat. Ann. § 2A:14-1.1</u> and the Uniform Construction Code (UCC), <u>N.J. Stat. Ann. §§ 52:27D-119</u> to <u>52:27D-141</u>, so it was held that the UCC did not prevail over the statute of repose. <u>Cyktor v. Aspen Manor Condominium Ass'n, 359 N.J. Super. 459, 820 A.2d 129, 2003 N.J. Super. LEXIS 143 (App.Div. 2003).</u>

#### Governments: Local Governments: Ordinances & Regulations

Even though the Uniform Fire Safety Act (UFSA), N.J. Stat. Ann. § 52:27D-213, is not to be construed as authorizing the adoption of an ordinance, which requires that a building conforming in all respects to the requirements of the State Uniform Construction Code Act, N.J. Stat. Ann. § 52:27D-119 et seq., be made to conform to more restrictive requirements, an ordinance may impose more stringent fire safety standards for seasonal rentals than the Uniform Fire Code since the UFSA does not preclude the right of any municipality to adopt an ordinance dealing with fire safety, whether or not it is more restrictive, pursuant to N.J. Stat. Ann. § 52:27D-202. United Prop. Owners Ass'n of Belmar v. Borough of Belmar, 343 N.J. Super. 1, 777 A.2d 950, 2001 N.J. Super. LEXIS 308 (App.Div.), certif. denied, 170 N.J. 390, 788 A.2d 774, 2001 N.J. LEXIS 1533 (N.J. 2001), certif. denied, 170 N.J. 390, 788 A.2d 774, 2001 N.J. LEXIS 1535 (N.J. 2001).

Local ordinance that required the payment of past-due real estate taxes as a condition for the issuance of a building permit was preempted by the Uniform Construction Code Act (UCCA), <u>N.J. Stat. Ann. § 52:27D-119</u> to <u>52:27D-141</u>; building construction was not a "business or activity" pursuant to <u>N.J. Stat. Ann. § 40:52-1.2</u> for which the municipality could require such conditions. <u>Builders League of S. Jersey v. Borough of Pine Hill, 286 N.J. Super. 348, 669 A.2d</u> 279, 1996 N.J. Super. LEXIS 7 (App.Div. 1996).

Ann. § 40:52-1.2 did not provide the borough with authority for the ordinance because it was limited to authorizing the licensing of specifically enumerated merchants and businesses for the purpose of regulating them and generating revenue. #### **Governments: Local Governments: Police Power**

Even though the Uniform Fire Safety Act (UFSA), N.J. Stat. Ann. § 52:27D-213, is not to be construed as authorizing the adoption of an ordinance, which requires that a building conforming in all respects to the requirements of the State Uniform Construction Code Act, *N.J. #### Governments: State & Territorial Governments: Relations With Governments

Uniform Construction Code Act, the Standard Barrier-Free Design Code, the Law Against Discrimination, and the Handicap Access Law standards for construction were in approbation and not in repudiation of the interstate compact; they did not affect the inner-workings of a bi-state agency and were properly applied to it. <u>Eastern Paralyzed Veterans Asso. v. Camden, 220 N.J. Super. 573, 533 A.2d 62, 1986 N.J. Super. LEXIS 1585 (Ch.Div. 1986)</u>, aff'd, <u>220 N.J. Super. 528, 533 A.2d 39, 1987 N.J. Super. #### Insurance Law: Property Insurance: Coverage: Replacement Costs

In a dispute involving property insurance coverage, a trial court properly granted summary judgment to the insured for repair work to other parts of a damaged building since there was a clear causal connection between the collapse of the seventh floor and the code official's mandate to bring the remaining floors into compliance to prevent them from collapsing. But for wind damage to the seventh floor of the insured's building (a covered claim), the insured would not have been required to bring the wall-to floor connections in the rest of the building up to current code standards, therefore, those additional repairs were covered under the policy. <u>DEB Assocs. v. Greater New York Mut. Ins. Co.</u>, 407 N.J. Super. 287, 970 A.2d 1074, 2009 N.J. Super. LEXIS 124 (App.Div.), certif. denied, 200 N.J. 473, 983 A.2d 199, 2009 N.J. LEXIS 1261 (N.J. 2009).

#### Real Property Law: Landlord & Tenant: Lease Agreements: Residential Leases

Even though the Uniform Fire Safety Act (UFSA), N.J. Stat. Ann. § 52:27D-213, is not to be construed as authorizing the adoption of an ordinance, which requires that a building conforming in all respects to the requirements of the State Uniform Construction Code Act, *N.J. #### Real Property Law: Mobilehomes & Mobilehome Parks: Construction & Development

Department of Community Affairs' interpretive regulation, N.J. Admin. Code § 5:23-9.3, which determined that recreational park trailers are subject to the Uniform Construction Code, N.J. Stat. Ann. §§ 52:27D-119 to -141, is valid. The Department's regulation of recreational park trailers under the Code is not preempted by the National Manufactured Housing Construction and Safety Standards Act, 42 U.S.C.S. §§ 5401-5426, because the Department of Housing and Urban Development has not yet adopted regulations establishing safety standards for such trailers. Tall Timbers Property Owners Ass'n, Inc. v. New Jersey Dept. of Community Affairs, 413 N.J. Super. 54, 992 A.2d 811, 2010 N.J. Super. LEXIS 67 (App.Div. 2010).

#### Real Property Law: Zoning & Land Use: General Overview

Mobile home exclusion from an ordinance was null and void; therefore, township was directed to review developer's application for a mobile home park, as mobile homes were deemed to be a viable housing option, pursuant to the Uniform Construction Code, N.J. Stat. Ann. § 52:27D-119 et seq. Southern Burlington County NAACP v. Mt. Laurel, 161 N.J. Super. 317, 391 A.2d 935, 1978 N.J. Super. ## § 52:27D-120. Purpose

It is the intent and purpose of this act:

- **a.** To encourage innovation and economy in construction and to provide requirements for construction and construction materials consistent with nationally recognized standards.
- **b.** To formulate such requirements, to the extent practicable, in terms of performance objectives, so as to make adequate performance for the use intended as the test of acceptability.
- **c.** To permit to the fullest extent feasible the use of modern technical methods, devices and improvements, including premanufactured systems, consistent with reasonable requirements for the health, safety, and welfare of occupants or users of buildings and structures.
- **d.** To eliminate restrictive, obsolete, conflicting and unnecessary construction regulations that tend to unnecessarily increase construction costs or retard the use of new materials, products or methods of construction, or provide preferential treatment to types or classes of materials or products or methods of construction.
- **e.** To insure adequate maintenance of buildings and structures throughout the State and to adequately protect the health, safety and welfare of the people.
- **f.** To eliminate unnecessary duplication of effort and fees in the review of construction plans and the inspection of construction.

## § 52:27D-121. Definitions

As used in P.L.1975, c.217 (C.52:27D-119 et seq.):

"Building" means a structure enclosed with exterior walls or fire walls, built, erected and framed of component structural parts, designed for the housing, shelter, enclosure and support of individuals, animals or property of any kind.

"Business day" means any day of the year, exclusive of Saturdays, Sundays, and legal holidays.

"Certificate of occupancy" means the certificate provided for in section 15 of P.L.1975, c.217 (<u>C.52:27D-133</u>), indicating that the construction authorized by the construction permit has been completed in accordance with the construction permit, the State Uniform Construction Code and any ordinance implementing said code.

"Commissioner" means the Commissioner of Community Affairs.

"Code" means the State Uniform Construction Code.

"Commercial farm building" means any building located on a commercial farm which produces not less than \$2,500 worth of agricultural or horticultural products annually, which building's main use or intended use is related to the production of agricultural or horticultural products produced on that farm. A building shall not be regarded as a commercial farm building if more than 1,200 square feet of its floor space is used for purposes other than its main use. A greenhouse constructed in conjunction with the odor control bio-filter of a solid waste or sludge composting facility, which greenhouse produces not less than \$2,500 worth of agricultural or horticultural products in addition to its function as a cover for the bio-filter, shall be considered a commercial farm building for the purposes of P.L.1975, c.217 (C.52:27D-119) et seq.), provided, however, that the greenhouse is not intended for human occupancy.

"Construction" means the construction, erection, reconstruction, alteration, conversion, demolition, removal, repair or equipping of buildings or structures.

"Construction board of appeals" means the board provided for in section 9 of P.L.1975, c.217 (<u>C.52:27D-127</u>).

"Department" means the Department of Community Affairs.

"Enforcing agency" means the municipal or county construction official and subcode officials provided for in section 8 of P.L.1975, c.217 (<u>C.52:27D-126</u>), or section 1 of <u>P.L.2018, c.157</u> (<u>C.52:27D-126.8</u>) regarding a pilot county in the "County Code Enforcement Pilot Program," and assistants thereto.

"Equipment" means plumbing, heating, electrical, ventilating, air conditioning, refrigerating and fire prevention equipment, and elevators, dumbwaiters, escalators, boilers, pressure vessels and other mechanical facilities or installations.

"Hearing examiner" means a person appointed by the commissioner to conduct hearings, summarize evidence, and make findings of fact.

"Maintenance" means the replacement or mending of existing work with equivalent materials or the provision of additional work or material for the purpose of the safety, healthfulness, and upkeep of the structure and the adherence to the other standards of upkeep as are required in the interest of public safety, health and welfare.

"Manufactured home" or "mobile home" means a unit of housing which:

- (1) Consists of one or more transportable sections which are substantially constructed off site and, if more than one section, are joined together on site;
- (2) Is built on a permanent chassis;
- (3) Is designed to be used, when connected to utilities, as a dwelling on a permanent or nonpermanent foundation; and
- (4) Is manufactured in accordance with the standards promulgated for a manufactured home by the Secretary of the United States Department of Housing and Urban Development pursuant to the "National Manufactured Housing Construction and Safety Standards Act of 1974," <a href="Pub.L.93-383">Pub.L.93-383</a> (42 <a href="U.S.C. § 5401">U.S.C. § 5401</a> et seq.) and the standards promulgated by the commissioner pursuant to P.L.1975, c.217 (C.52:27D-119 et seq.).

"Municipality" means any city, borough, town, township or village.

"Outdoor advertising sign" means a sign required to be permitted pursuant to P.L.1991. c.413 (<u>C.27:5-5</u> et seq.).

"Owner" means the owner or owners in fee of the property or a lesser estate therein, a mortgagee or vendee in possession, an assignee of rents, receiver, executor, trustee, lessee, or any other person, firm or corporation, directly or indirectly in control of a building, structure, or real property and shall include any subdivision thereof of the State.

"Premanufactured system" means an assembly of materials or products that is intended to comprise all or part of a building or structure and that is assembled off site by a repetitive process under circumstances intended to insure uniformity of quality and material content.

"Public school facility" means any building, or any part thereof, of a school, under college grade, owned and operated by a local, regional, or county school district.

"State sponsored code change proposal" means any proposed amendment or code change adopted by the commissioner in accordance with subsection c. of section 5 of P.L.1975, c.217 (<u>C.52:27D-123</u>) for the purpose of presenting the proposed amendment or code change at any of the periodic code change hearings held by the National Model Code Adoption Agencies, the codes of which have been adopted as subcodes under P.L.1975, c.217 (<u>C.52:27D-119</u> et seg.).

"Stop construction order" means the order provided for in section 14 of P.L.1975, c.217 (C.52:27D-132).

"State Uniform Construction Code" means the code provided for in section 5 of P.L.1975, c.217 (<u>C.52:27D-123</u>), or any portion thereof, and any modification of or amendment thereto.

"Structure" means a combination of materials to form a construction for occupancy, use, or ornamentation, whether installed on, above, or below the surface of a parcel of land; provided the word "structure" shall be construed when used herein as though followed by the words "or part or parts thereof and all equipment therein" unless the context clearly requires a different meaning.

## § 52:27D-122. Legislative findings

It is hereby found and declared:

- **a.** That a multiplicity of construction codes currently exists in this State and some of these codes contain needless restrictions which limit the use of certain materials, techniques or products without any benefits to the public. Moreover, the variation of construction standards caused by the multiplicity of codes slows the process of construction and increases the costs of construction.
- **b.** That the way to insure uniform, modern construction standards and regulations throughout the State of New Jersey which will lower the cost of housing and other construction without any detriment to the public health, safety and welfare is to adopt a uniform State construction code.
- **c.** That the need of new construction in the State can be met in part by the use of premanufactured systems which are fabricated in the geographical region of the United States of which New Jersey is a part and that a uniform construction code should include standards to permit the use of such systems.
- **d.** That the model codes of the Building Officials and Code Administrators International, Inc., the National Electrical Code and the National Standard Plumbing Code, or modification thereof, are construction codes which have been widely adopted in this State and in the geographical region of the United States of which New Jersey is a part and adoption of these nationally recognized codes pursuant to this act will insure that the State has a uniform, modern construction code which will insure health, safe, and sanitary construction but also less expensive construction for the citizens of this State.

## § 52:27D-122.1. Findings, declarations relative to building construction codes

The Legislature finds and declares that:

- **a.** One of the specified purposes of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.), was the elimination of restrictive and unnecessary construction regulations that tend to unnecessarily increase construction costs.
- **b.** While the overall effect of the statutory requirement that the subcodes of the State Uniform Construction Code be adoptions of the model codes or standards of nationally recognized organizations, including all amendments or revisions to such codes or standards, has been consistent with the intent and purpose of the "State Uniform Construction Code Act," there have been exceptional instances in which the amendment or revision of an adopted code or standard has included changes that are not consistent with that intent and purpose.
- **c.** It is therefore necessary and appropriate that the Commissioner of Community Affairs be given the authority to limit the adoption of later revisions to the model code to include only those standards in effect on July 1, 1995, and any later revisions or amendments of model codes which would not be inconsistent with the intent and purpose of the act.

# § 52:27D-122.2. Findings, declarations relative to energy efficiency in buildings

The Legislature hereby finds and declares:

- **a.** It is the public policy of this State to encourage and facilitate the construction of energy-efficient buildings which are designed and built to reduce overall energy demand.
- **b.** While energy-efficient buildings may cost more to construct, the payback period to recoup the added investment is only a few years.
- **c.** Energy savings can be most fully realized when incorporated into new construction from the beginning.
- d. It is therefore necessary and appropriate that the Commissioner of Community Affairs, in consultation with the Board of Public Utilities, adopt energy-efficient building codes that may exceed the requirements of national model codes.

## § 52:27D-123. State Uniform Construction Code; adoption.

**a.** The commissioner shall after public hearing pursuant to section 4 of the "Administrative Procedure Act," P.L.1968, c.410 (*C.52:14B-4*) adopt a State Uniform Construction Code for the purpose of regulating the structural design, construction, maintenance, and use of buildings or structures to be erected and alteration, renovation, rehabilitation, repair, maintenance, removal, or demolition of buildings or structures already erected. Prior to the adoption of said code, the commissioner shall consult with the code advisory board and other departments, divisions, bureaus, boards, councils, or other agencies of State Government heretofore authorized to establish or administer construction regulations.

Such prior consultations with departments, divisions, bureaus, boards, councils, or other agencies of State Government shall include but not be limited to consultation with the Commissioner of Health and the Public Health Council prior to adoption of a plumbing subcode pursuant to paragraph b. of this section. Said code shall include any code, rule, or regulation incorporated therein by reference.

**b.** The code shall be divided into subcodes which may be adopted individually by the commissioner as the commissioner may from time to time consider appropriate. These subcodes shall include but not be limited to a building code, a plumbing code, an electrical code, an energy code, a fire prevention code, a manufactured or mobile home code, and a mechanical code.

These subcodes, except for the energy subcode, shall be adoptions of the model codes of the Building Officials and Code Administrators International, Inc., the National Electrical Code, and the National Standard Plumbing Code, provided that for good reasons, the commissioner may adopt as a subcode, a model code or standard of some other nationally recognized organization upon a finding that such model code or standard promotes the purposes of P.L.1975, c.217 (C.52:27D-119 et seq.). The initial adoption of a model code or standard as a subcode shall constitute adoption of subsequent edition year publications of the model code or standard of such other nationally recognized organization, except as provided for in paragraphs (1) through (4) of this subsection. Adoption of publications shall not occur more frequently than once every three years; provided, however, that a revision or amendment may be adopted at any time in the event that the commissioner finds that there exists an imminent peril to the public health, safety, or welfare.

The energy subcode shall be based upon the model codes cited under this subsection or the International Energy Conservation Code. It may be amended or supplemented by the commissioner once before 2012 without regard to intervals between the adoption of the energy subcode in effect on the effective date [Aug. 6, 2009] of <u>P.L.2009</u>, <u>c.106</u> (<u>C.52:27D-122.2</u> et al.) and subsequent year revisions of that subcode. In amending or supplementing the energy subcode, the commissioner shall rely upon 10-year energy price projections provided by an institution of higher education within one year following the effective date of <u>P.L.2009</u>, <u>c.106</u> (<u>C.52:27D-122.2</u> et al.), and thereafter at three-year intervals. In developing the energy price projections, the institution of higher education shall consult with the Board of Public Utilities. The commissioner shall be authorized to amend the energy subcode to establish enhanced energy

conservation construction requirements, the added cost of each of which may reasonably be recovered through energy conservation over a period of not more than seven years. Such requirements shall include provisions to ensure that, in all parts of the State the anticipated energy savings shall be similarly proportionate to the additional costs of energy subcode compliance.

- (1) Except as otherwise provided in this subsection, the edition of a model code or standard in effect as a subcode as of July 1, 1995 shall continue in effect regardless of any publication of a subsequent edition of that model code or standard. Prior to establishing the effective date for any subsequent revision or amendment of any model code or standard adopted as a subcode, the commissioner shall review, in consultation with the code advisory board, the text of the revised or amended model code or standard and determine whether the amended or revised provisions of the model code are essential to carry out the intent and purpose of P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) as viewed in contrast to the corresponding provisions of the subcode then currently in effect.
- (2) In the event that the commissioner, pursuant to paragraph (1) of this subsection, determines that any amended or revised provision of a model code is essential to carry out the intent and purpose of this act as viewed in contrast to any corresponding provision of the subcode then currently in effect, the commissioner may then adopt that provision of the amended or revised model code.
- (3) The commissioner, in consultation with the code advisory board, shall have the authority to review any model code or standard currently in effect as a subcode of the State Uniform Construction Code and compare it with previously adopted editions of the same model code or standard in order to determine if the subcode currently in effect is at least as consistent with the intent and purpose of this act as were previously adopted editions of the same model code or standard.
- (4) In the event that the commissioner, after consultation with the code advisory board, determines pursuant to this subsection that a provision of a model code or standard currently in effect as a subcode of the State Uniform Construction Code is less consistent with the intent and purpose of P.L.1975, c.217 (C.52:27D-119 et seq.) than was the corresponding provision of a previously adopted edition of the same model code or standard, the commissioner may delete the provision in effect and substitute in its place the corresponding provision of the previously adopted edition of the same model code or standard determined to be more consistent with the intent and purpose of P.L.1975, c.217 (C.52:27D-119 et seq.).
- (5) The commissioner shall be authorized to adopt a barrier free subcode or to supplement or revise any model code adopted hereunder, for the purpose of insuring that adequate and sufficient features are available in buildings or structures so as to make them accessible to and usable by persons with physical disabilities. Multi-family residential buildings with four or more dwelling units in a single structure shall be constructed in accordance with the barrier free subcode; for the purposes of this subsection the term "multi-family residential buildings with four or more dwelling units in a single structure" shall not include buildings constructed as townhouses, which are single dwelling units with two or more stories of living space, exclusive of basement or attic, with most or all of the sleeping areas on one story and with most of the remaining habitable space, such as kitchen, living, and dining areas, on another story, and with an independent entrance at or near grade level.
- c. Any municipality through its construction official, and any State agency or political subdivision of the State, may submit an application recommending to the commissioner that a State sponsored code change proposal be adopted. Such application shall contain such technical justification and shall be submitted in accordance with such rules of procedure as the commissioner may deem appropriate, except that whenever the State Board of Education shall determine that enhancements to the code are essential to the maintenance of a thorough and efficient system of education, the enhancements shall be made part of the code; provided that the amendments do not result in standards that fall below the adopted subcodes. The Commissioner of Education shall consult with the Commissioner of Community Affairs prior to publishing the intent of the State Board to adopt any amendments to the Uniform Construction Code. Upon adoption of any amendments by the State Board of Education they shall be transmitted forthwith to the Commissioner of Community Affairs who shall publish and incorporate the amendments as part of the Uniform

Construction Code and the amendments shall be enforceable as if they had been adopted by the commissioner.

At least 45 days prior to the final date for the submission of amendments or code change proposals to the National Model Code Adoption Agency, the code of which has been adopted as a subcode under P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.), the commissioner shall hold a public hearing in accordance with the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.), at which testimony on any application recommending a State sponsored code change proposal will be heard.

The commissioner shall maintain a file of such applications, which shall be made available to the public upon request and upon payment of a fee to cover the cost of copying and mailing.

After public hearing, the code advisory board shall review any such applications and testimony and shall within 20 days of such hearing present its own recommendations to the commissioner.

The commissioner may adopt, reject, or return such recommendations to the code advisory board for further deliberation. If adopted, any such proposal shall be presented to the subsequent meeting of the National Model Code Agency by the commissioner or by persons designated by the commissioner as a State sponsored code change proposal. Nothing herein, however, shall limit the right of any municipality, the department, or any other person from presenting amendments to the National Model Code Agency on its own initiative.

The commissioner may adopt further rules and regulations pursuant to this subsection and may modify the procedures herein described when a model code change hearing has been scheduled so as not to permit adequate time to meet such procedures.

## § 52:27D-123a. Adoption of radon hazard code

The Commissioner of Community Affairs shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (*C.52:14B-1* et seq.), a radon hazard code, or may propose amendments to revise the appropriate model code adopted pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (*C.52:27D-119* et seq.), for the purpose of establishing adequate and appropriate standards to ensure that schools and residential buildings within tier one areas, as defined by the Department of Environmental Protection pursuant to P.L.1985, c.408 (*C.26:2D-59* et seq.), are constructed in a manner that minimizes radon gas and radon progeny entry and facilitates any subsequent remediation that might prove necessary. In preparing the radon hazard code standards, the commissioner shall employ a guideline of four picocuries per liter or such other action level standard as the Department of Environmental Protection may establish subsequent to the effective date of this act.

The department shall include in the radon hazard code standards such testing requirements as may prove reliable, practical and economical to identify sites where a proposed school or residential building will require construction in a manner that minimizes radon gas and radon progeny entry and facilitates any subsequent remediation. If a feasible predictive test method is developed, then the standards adopted pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (C.52:27D-119 et seq.), shall be revised to include such further changes in construction standards as may be necessary to prevent the entry of radon gas and radon progeny into new schools or residential buildings.

No person who constructs a school or residential building in compliance with these standards anywhere within the State shall thereafter be held liable for the presence of radon gas or radon progeny in the school or residential building, or for any losses or damage to persons or property resulting therefrom.

- **a.** An application for a construction permit for any structure other than a structure subject to the provisions of <u>P.L.1999, c.15</u> (<u>C.52:27D-133.3</u> et al.) shall not be declared complete without containing provisions for the placement of a carbon monoxide sensor device or devices, unless it is determined that there is no potential carbon monoxide hazard in the structure.
- **b.** Any determination as to the placement of a carbon monoxide sensor device or devices in a structure and as to whether there is a potential carbon monoxide hazard in a structure shall be made in accordance with the rules and regulations adopted pursuant to subsection c. of this section.
- **c.** The Commissioner of Community Affairs shall promulgate rules and regulations pursuant to its rule-making authority under the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.) in order to effectuate the purposes of this section. The rules and regulations shall include, but not be limited to, standards for the placement of a carbon monoxide sensor device or devices in a structure and for the determination as to whether there is a potential carbon monoxide hazard in a structure.
- **d.** For the purposes of this section:

"Carbon monoxide sensor device" means a carbon monoxide alarm or detector that bears the label of a nationally recognized testing laboratory, and has been tested and listed as complying with the most recent Underwriters Laboratories standard 2034 or its equivalent.

## § 52:27D-123.2. Agricultural construction criteria

- **a.** Notwithstanding any other provision of P.L. 1975, c. 217 (<u>C. 52:27D-119</u> et seq.), the Commissioner of the Department of Community Affairs and the Secretary of Agriculture shall, within 270 days of the effective date of this amendatory and supplementary act, jointly promulgate, pursuant to the "Administrative Procedure Act," P.L. 1968, c. 410 (<u>C. 52:14B-1</u> et seq.), separate construction code criteria for commercial farm buildings. The Commissioner shall, upon adoption, incorporate these criteria into the State Uniform Construction Code.
- **b.** The Secretary of Agriculture shall, in consultation with the Commissioner of Community Affairs and all other interested and affected parties, prepare the criteria to be proposed for adoption pursuant to the "Administrative Procedure Act," P.L. 1968, c. 410 (<u>C. 52:14B-1</u> et seq.). The Secretary may, in his discretion, make use of the services of Rutgers, The State University to prepare the proposed criteria.
- **c.** The Commissioner and the Secretary shall, to the greatest extent possible, ensure that the criteria provide no impediment to the orderly development of the State's agricultural and horticultural enterprises. They shall pay particular attention to establishing separate height, area, fire protection and construction type requirements which are more suitable to agricultural and horticultural uses than those which are presently incorporated in the State Uniform Construction Code.
- **d.** The Commissioner and the Secretary shall ensure that, to the greatest extent possible, criteria are completely eliminated for structures and buildings which are not intended for human occupancy, such as storage bins, silos and the like.

## § 52:27D-123.5. Building code, development

The Commissioner of the Department of Community Affairs, in consultation with the State Board of Education, is directed to develop a building code specifically designed to foster cost-effective school building construction, while ensuring through its provisions that necessary health and safety requirements are met. The code shall be designed for use throughout the State and shall supplement the State Uniform Construction Code, P.L.1975, c.217 (C.52:27D-119 et seq.). The commissioner may promulgate this code as a separate document from the State Uniform Construction Code, or may, if the commissioner finds it feasible and useful, incorporate its provisions directly into, and make them an integral part of, that code.

## § 52:27D-123.7. Findings, determinations, declarations

The Legislature hereby finds, determines and declares:

- **a.** There is an urgent need to improve the housing conditions of low and moderate income individuals and families, many of whom live in substandard housing, particularly in the older cities of the State; and
- **b.** There are large numbers of older residential buildings in the State, both occupied and vacant, which are in urgent need of rehabilitation and which must be rehabilitated if the State's citizens are to be housed in decent, sound, and sanitary conditions; and
- **c.** The application of those building code requirements currently in force to housing rehabilitation has led to the imposition of costly and time-consuming requirements which result in a significant reduction in the amount of rehabilitation activity taking place; and
- **d.** Extensive research has been conducted, in New Jersey and elsewhere, which can serve as a sound basis for the development and adoption of a building code specifically designed to foster cost-effective housing rehabilitation while ensuring that necessary health and safety requirements are met; and
- **e.** Furthermore, in addition to the need for prudent modification of code provisions applicable to rehabilitation of older housing structures, it appears that complaints have from time to time been made that the scope and rigidity of the existing State Uniform Construction Code, as currently adopted and applied, may make excessively stringent and onerous requirements that burden the provision of affordable housing with expenses without any commensurate benefit to the public health, safety and welfare.

# § 52:27D-123.8. Development of building code to foster housing rehabilitation

- **a.** The Commissioner of Community Affairs is hereby directed to develop a building code specifically designed to foster cost-effective housing rehabilitation, while ensuring through its provisions that necessary health and safety requirements are met. The code shall be designed for use throughout the State but shall have particular application to the older cities of the State, and the housing types characteristic of those cities. The code shall supplement the State Uniform Construction Code, adopted pursuant to P.L.1975, c.217 (C.52:27D-119 et seq.). The commissioner may promulgate this code as a separate document from the State Uniform Construction Code, or may, if he finds it feasible and useful, incorporate its provisions directly into, and make them an integral part of, that code.
- **b.** In developing the code, the commissioner is directed to investigate any model codes, such as Chapter 34, "Existing Structures," of the "BOCA National Building Code/1993" and experiences of other code enforcement jurisdictions, to consult with individuals and organizations experienced in the rehabilitation of low and moderate income housing in New Jersey's urban areas, and conduct research as may be relevant to the purposes of this act.
- **c.** The commissioner is further directed to undertake a study of the desirability of authorizing a procedure under which, in adopting the provisions of the standard or model codes upon which the State Uniform Construction Code is based, discretion may be accorded to the commissioner to modify, amplify or otherwise depart from any such provisions, without exceeding any of them in stringency, for the purpose of accommodating this State's construction code to the needs of the State and its various regions, particularly with respect to encouraging the provision of housing affordable to persons and families of low and moderate income.
- **d.** The commissioner shall, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.), promulgate the code prescribed in subsection a. of this section within six months of the effective date of this act; or, if he finds it impracticable to do so, shall make a written report to the Legislature setting forth the grounds of the impracticability and making such recommendations for further legislative action as he may deem likely to remove those grounds. Within the same period of time the commissioner shall also make his report and recommendations to the Legislature on the study directed by subsection c. of this section.

## § 52:27D-123.9. Definitions relative to playground safety

For the purposes of <u>P.L.1999, c.50</u> (<u>C.52:27D-123.9</u> et seq.):

"Completely inclusive playground" means a playground designated for public use for children two to five years of age or five to twelve years of age, with an accessible playground surface, a playground surface inspection and maintenance schedule consistent with the standards detailed in the "Americans with Disabilities Act of 1990" (42 U.S.C. § 12101 et seq.), and designed in accordance with the rules and regulations adopted pursuant to subsection b. of section 2 of P.L.1999, c.50 (C.52:27D-123.10).

"Governmental entity" means the State, its agencies and instrumentalities, a county or municipality, or any agency or instrumentality thereof, a school district, or any other similar public entity or agency, but not the federal government or its agencies and instrumentalities.

"Nonprofit entity" means a person or entity which operates a playground open to the public or open to users of a facility operated by the person or entity, and which is an exempt organization pursuant to section 9 of P.L.1966, c.30 (<u>C.54:32B-9</u>), the "Sales and Use Tax Act," but not a governmental entity or the federal government or its agencies and instrumentalities.

"Private entity" means any person or entity which operates a playground open to the public or open to users of a facility operated by the person or entity, but not a governmental entity, a nonprofit entity or the federal government or its agencies and instrumentalities.

"Playground" means an improved area designed, equipped, and set aside for play of six or more children which is not intended for use as an athletic playing field or athletic court, and shall include any play equipment, surfacing, fencing, signs, internal pathways, internal land forms, vegetation, and related structures.

"Supervision" means all general and specific supervision necessary to protect children from unreasonable risk of harm from site hazards, the acts of other children, or the use of the playground in a way that was not intended by the designer or manager of the playground. <u>P.L.1999, c.50</u> (<u>C.52:27D-123.9</u> et seq.) shall not expand or reduce existing standards of care to which a playground operator is held.

## § 52:27D-123.10. Rules, regulations pertinent to playgrounds

**a.** The Department of Community Affairs, in consultation with the Department of Education, shall promulgate rules and regulations for the design, installation, inspection, and maintenance regarding all playgrounds operated by any governmental entity, nonprofit entity, or private entity. The regulations shall conform to the guidelines and criteria specified in the Handbook for Public Playground Safety produced by the United States Consumer Products Safety Commission or any successor and shall also meet any standard of care imposed by law on playground operators. The rules and regulations shall include special provisions for playgrounds appropriate for children within the range of ages in day care settings. The rules and regulations promulgated pursuant to this subsection shall not apply to completely inclusive playgrounds.

b.

- (1) The Department of Community Affairs, in consultation with the Department of Education, shall promulgate rules and regulations for the design, installation, inspection, and maintenance of completely inclusive playgrounds. Only playgrounds that meet the requirements of the rules and regulations promulgated pursuant to this subsection shall be deemed completely inclusive playgrounds for the purposes of *P.L.2018*, *c.104* (*C.13:8C-27.1* et al.). The rules and regulations shall:
  - (a) conform to the guidelines and criteria which are contained in the Handbook for Public Playground Safety produced by the United States Consumer Products Safety Commission or any successor, and meet any standard of care imposed by law on playground operators;
  - **(b)** include special provisions for completely inclusive playgrounds appropriate for children within the range of ages in day care settings;
  - (c) meet the standards of the "Americans with Disabilities Act of 1990" (42 U.S.C. § 12101 et seq.), result in the inclusion of people with disabilities, including children and adults, and require that park and playground areas enable every visitor, regardless of medical condition, to engage in the park and playground experience;
  - (d) meet the standards required under the barrier free subcode, adopted pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.); and
  - **(e)** at a minimum, require accessible playground surfacing, access ramps leading up to and within play structures so that a minimum of 50 percent of the elevated play elements on all structures are accessible to people using wheeled mobility devices, and play structures designed to facilitate access by adults and children with disabilities.
- (2) The rules and regulations promulgated pursuant to this subsection shall also include, but shall not be limited to, the following:

- (a) the creation of accessible parking, including the installation of a curb cut, if only on-street parking is available;
- (b) the creation of routes of access to playground and related facilities;
- **(c)** the use of unitary surfacing in all areas of the playground to allow the maximum possible access to the playground for people using wheeled mobility devices;
- (d) a process for determining which restroom facilities shall be adapted to ensure that families with older children or children with large adaptive equipment have a safe place to provide toileting needs for their children;
- **(e)** shade requirements, which shall provide that a minimum of 20 percent of the square footage of unitary surface and equipment of the playground is shaded by natural or other means;
- (f) fencing requirements;
- **(g)** the use of play components that address the physical, sensory, cognitive, social, emotional, imaginative, and communication needs of those who will visit the playground;
- (h) the creation of quiet play areas; and
- (i) the creation of ramps and transfer points on playground equipment.
- (3) A playground that has been completed as of the effective date [Aug. 23, 2018] of <u>P.L.2018, c.104</u> (<u>C.13:8C-27.1</u> et al.) may qualify as a completely inclusive playground if it includes unitary surfacing and fencing, at least 50 percent elevated play elements or changes in topographical elevations that function as elevated play elements, and otherwise meets the standards required by the "Americans with Disabilities Act of 1990" (<u>42 U.S.C. § 12101</u> et seq.).
- (4) Within 90 days of the effective date of <u>P.L.2018, c.104</u> (<u>C.13:8C-27.1</u> et al.), and prior to proposing a rule in the New Jersey Register, the Commissioner of Community Affairs shall invite and receive recommendations regarding the adoption of rules and regulations making completely inclusive playgrounds available to persons of all ages and abilities from organizations, playground equipment manufacturers, playground safety consultants, and persons with disabilities with a demonstrated expertise in the design and construction of completely inclusive playgrounds or with a demonstrated expertise in the implementation of accessibility standards. The commissioner shall adopt the recommendations, unless the commissioner determines the recommendations are inconsistent with the intent and purpose of <u>P.L.2018, c.104</u> (<u>C.13:8C-27.1</u> et al.), or are otherwise unfeasible. A recommendation shall not be considered unfeasible if it is demonstrated that the recommendation may be implemented through the use of commercially available equipment. The rules and regulations required by this subsection shall be proposed within 180 days of the effective date of <u>P.L.2018, c.104</u> (<u>C.13:8C-27.1</u> et al.), and shall be adopted within one year of the effective date of <u>P.L.2018, c.104</u> (<u>C.13:8C-27.1</u> et al.).
- **c.** The department shall not be responsible for enforcement of any rules or regulations promulgated by <u>P.L.1999, c.50</u> (<u>C.52:27D-123.9</u> et seq.), unless the department is otherwise responsible for enforcement pursuant to P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.).

# § 52:27D-123.12. Conformity to rules, regulations required for receipt of State funding

- **a.** Except in connection with the upgrading of a playground as provided in subsection a. of section 3 of *P.L.* 1999, c.50 (C.52:27D-123.11), after the effective date of the rules and regulations promulgated pursuant to this act, no State funding shall be available for the planning, development, or redevelopment of any playground, unless the playground, after completion of the State-funded project, will conform to the applicable rules and regulations promulgated pursuant to this act. If, however, State funds have been appropriated to, or allocated for, a playground project prior to the effective date of the regulations but the regulations become effective prior to the completion of the project, that funding shall be maintained, as long as the playground is altered to conform to the rules and regulations to the extent the alterations can be made without adding more than 15% to the project cost.
- **b.** After the date by which an entity is required to conform its playground to satisfy the rules and regulations promulgated pursuant to this act, no State funding shall be available for the construction, operation, maintenance, or supervision of the playground unless the playground conforms to the applicable regulations adopted pursuant to this act.

## § 52:27D-123.15. Adaptability requirement; design standards

- **a.** Any new construction for which an application for a construction permit has not been declared complete by the enforcing agency before the effective date of <u>P.L.2005</u>, <u>c.350</u> (<u>C.52:27D-311a</u> et al.) and for which credit is sought pursuant to P.L.1985, c. 222 (<u>C.52:27D-301</u> et al.) on or after the effective date of <u>P.L.2005</u>, <u>c.350</u> (<u>C.52:27D-311a</u> et al.) shall be adaptable; however, elevators shall not be required in any building or within any dwelling unit for the purposes of <u>P.L.2005</u>, <u>c.350</u> (<u>C.52:27D-311a</u> et al.). In buildings without elevator service, only ground floor dwelling units shall be required to be constructed to conform with the technical design standards of the barrier free subcode in order to be credited pursuant to P.L.1985, c.222 (<u>C.52:27D-301</u> et al.).
- **b.** Notwithstanding the exemption for townhouse dwelling units in the barrier free subcode, the first floor of all townhouse dwelling units and of all other multifloor dwelling units for which credit is sought pursuant to P.L.1985, c. 222 (C.52:27D-301 et al.) on or after the effective date of P.L.2005, c.350 (C.52:27D-311a et al.) and for which an application for a construction permit has not been declared complete by the enforcing agency pursuant to P.L.2005, c.350 (C.52:27D-311a et al.), shall be subject to the technical design standards of the barrier free subcode and shall include the following features:
  - (1) an adaptable entrance to the dwelling unit;
  - (2) an adaptable full service bathroom on the first floor;
  - (3) an adaptable kitchen on the first floor;
  - (4) an accessible interior route of travel; and
  - (5) an adaptable room with a door or a casing where a door can be installed which may be used as a bedroom on the first floor.

c.

- (1) Full compliance with the requirements of this section shall not be required where an entity can demonstrate that it is site impracticable to meet the requirements. Full compliance shall be considered site impracticable only in those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features.
- (2) If full compliance with this section would be site impracticable, compliance with this section for any portion of the dwelling shall be required to the extent that it is not site impracticable.
- **d.** In the case of a unit or units which are constructed with an adaptable entrance pursuant to subsection c. of this section, upon the request of a disabled person who is purchasing or will reside in the dwelling unit, an accessible entrance shall be installed. Additionally, the builder of the unit or units shall deposit sufficient funds to adapt 10 percent of the affordable units in the project which have not been constructed with accessible entrances with the municipality in which the units are located, for deposit into the municipal

affordable housing trust fund. These funds shall be available for the use of the municipality for the purpose of making the adaptable entrance of any such affordable unit accessible when requested to do so by a person with a disability who occupies or intends to occupy the unit and requires an accessible entrance.

For the purposes of this section:

"Adaptable," as used with regard to an entrance, means that the plans for the unit include a feasible building plan to adapt the entrance so as to make the unit accessible.

"Disabled person" means "disabled person" as defined in section 4 of P.L.1985, c.222 (C.52:27D-304).

"Ground floor" means the first floor with a dwelling unit or portion of a dwelling unit, regardless of whether that floor is at grade. A building may have more than one ground floor.

"Site impracticable" means having the characteristic of "site impracticability" as set forth in <u>section 100.205</u>
(a) of title 24, Code of Federal Regulations.

# § 52:27D-123.19. Solar-ready building, warehouses

- **a.** Any newly constructed warehouse for which an application for a construction permit has not been declared complete by the enforcing agency before July 1, 2022, shall be a solar-ready building.
- **b.** The Department of Community Affairs shall adopt, pursuant to section 5 of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-123</u>) and the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.), rules and regulations establishing standards for the design and construction of solar-ready buildings. The rules and regulations shall incorporate the provisions of the 2018 International Energy Conservation Code, Appendix CA, and any successor model code, concerning solar-ready zones.
- c. For the purposes of this section:

"Solar-ready building" means a building that includes a solar-ready zone.

"Solar-ready zone" means a section of a roof or building overhang designated and reserved for the future installation of a solar photovoltaic or solar thermal system, which is at less 40 percent of the roof area calculated as the horizontally projected areas minus the area covered by skylights, occupied roof decks, vegetative roof areas, and mandatory access or set back areas required by the State Uniform Construction Code, or as otherwise provided in the 2018 International Energy Conservation Code, Appendix CA, and any successor model code, concerning solar-ready zones.

"Warehouse" means any building, room, structure, or facility of at least 100,000 square feet used primarily for the storage of goods intended for sale.

## § 52:27D-124. Powers of the commissioner

The commissioner shall have all the powers necessary or convenient to effectuate the purposes of this act, including, but not limited to, the following powers in addition to all others granted by this act:

- **a.** To adopt, amend and repeal, after consultation with the code advisory board, rules: (1) relating to the administration and enforcement of this act and (2) the qualifications or licensing, or both, of all persons employed by enforcing agencies of the State to enforce this act or the code, except that, plumbing inspectors shall be subject to the rules adopted by the commissioner only insofar as such rules are compatible with such rules and regulations, regarding health and plumbing for public and private buildings, as may be promulgated by the Public Health Council in accordance with Title 26 of the Revised Statutes.
- **b.** To enter into agreements with federal and State of New Jersey agencies, after consultation with the code advisory board, to provide insofar as practicable (1) single-agency review of construction plans and inspection of construction and (2) intergovernmental acceptance of such review and inspection to avoid unnecessary duplication of effort and fees. The commissioner shall have the power to enter into such agreements although the federal standards are not identical with State standards; provided that the same basic objectives are met. The commissioner shall have the power through such agreements to bind the State of New Jersey and all governmental entities deriving authority therefrom.
- **c.** To take testimony and hold hearings relating to any aspect of or matter relating to the administration or enforcement of this act, including but not limited to prospective interpretation of the code so as to resolve inconsistent or conflicting code interpretations, and, in connection therewith, issue subpena to compel the attendance of witnesses and the production of evidence. The commissioner may designate one or more hearing examiners to hold public hearings and report on such hearings to the commissioner.
- **d.** To encourage, support or conduct, after consultation with the code advisory board, educational and training programs for employees, agents and inspectors of enforcing agencies, either through the Department of Community Affairs or in cooperation with other departments of State government, enforcing agencies, educational institutions, or associations of code officials.
- **e.** To study the effect of this act and the code to ascertain their effect upon the cost of building construction and maintenance, and the effectiveness of their provisions for insuring the health, safety, and welfare of the people of the State of New Jersey.
- **f.** To make, establish and amend, after consultation with the code advisory board, such rules as may be necessary, desirable or proper to carry out his powers and duties under this act.
- g. To adopt, amend, and repeal rules and regulations providing for the charging of and setting the amount of fees for the following code enforcement services, licenses or approvals performed or issued

by the department, pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.):

- (1) Plan review, construction permits, certificates of occupancy, demolition permits, moving of building permits, elevator permits and sign permits; and
- (2) Review of applications for and the issuance of licenses certifying an individual's qualifications to act as a construction code official, subcode official or assistant under this act.
- (3) (Deleted by amendment, P.L.1983, c.338).
- **h.** To adopt, amend and repeal rules and regulations providing for the charging of and setting the amount of construction permit surcharge fees to be collected by the enforcing agency and remitted to the department to support those activities which may be undertaken with moneys credited to the Uniform Construction Code Revolving Fund.
- i. To adopt, amend and repeal rules and regulations providing for:
  - (1) Setting the amount of and the charging of fees to be paid to the department by a private agency for the review of applications for and the issuance of approvals authorizing a private agency to act as an on-site inspection and plan review agency or an in-plant inspection agency;
  - (2) (Deleted by amendment, P.L.2005, c.212).
  - (3) (Deleted by amendment, P.L.2005, c.212).
- **j.** To enforce and administer the provisions of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) and the code promulgated thereunder, and to prosecute or cause to be prosecuted violators of the provisions of that act or the code promulgated thereunder in administrative hearings and in civil proceedings in State and local courts.
- **k.** To monitor the compliance of local enforcing agencies with the provisions of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.), to order corrective action as may be necessary where a local enforcing agency is found to be failing to carry out its responsibilities under that act, to supplant or replace the local enforcing agency for a specific project, and to order it dissolved and replaced by the department where the local enforcing agency repeatedly or habitually fails to enforce the provisions of the "State Uniform Construction Code Act."
- **I.** To adopt, amend, and repeal rules and regulations implementing the provisions of <u>P.L.1999, c.15</u>, <u>P.L.2003, c.44</u>, and section 1 of <u>P.L.2015, c.146</u> (<u>C.52:27D-123f</u>) concerning the installation and maintenance of carbon monoxide sensors.

State agency's issuance of certificate of occupancy was affirmed because N.J. Stat. Summary judgment should have been entered in favor of a builder, rather than in favor of the township that cited the builder for building code violations years after the structures had been finished and received certificates of occupancy; local officials lacked jurisdiction over that matter at that point, and should properly have notified the property owners, who would then have been free to sue the builder. <u>DKM Residential Properties Corp. v. ## § 52:27D-124e. Violations; penalties; enforcement

- **a.** Any person who violates any of the provisions of this section shall be liable for a civil penalty not to exceed \$1,000.00 for each violation; to be payable to the commissioner. Each violation shall constitute a separate violation with respect to each manufactured home, except that the maximum penalty shall not exceed \$1,000,000.00 for any related series of violations occurring within 1 year from the date of the first violation. Any person purposely or knowingly violating the provisions of this section in any manner which threatens the health or safety of any purchaser, shall be guilty of a crime of the fourth degree and shall, in addition to a civil penalty, be subject to a fine not to exceed \$1,000.00 or imprisonment for a term not to exceed 1 year, or both. No person shall:
  - (1) Manufacture for sale, lease, sell, offer for sale, or lease, or introduce or deliver, or import into this State, any manufactured home manufactured on or after the effective date of any applicable federal manufactured home construction and safety standard which does not comply with such standard.
  - (2) Fail or refuse to permit access to or copying of records, or entry or inspection to ascertain compliance with federal standards as required by section 3 of this act or to make reports or provide information as required by section 4 of this act, or any rules or regulations adopted by the commissioner pursuant thereto.
  - (3) Fail to furnish notification of any defect as required by *Pub.L.* 93-383, 615 (42 *U.S.C.* 5414).
  - **(4)** Fail to issue a certification required by <u>Pub.L. 93-383</u>, 616 (<u>42 U.S.C. 5415</u>); or issue such a certification if such person in the exercise of due care had reason to know that such certification is false or misleading in a material respect.
  - (5) Fail to establish and maintain such records, make such reports, and provide such information as the commissioner may reasonably require to enable him to determine whether there is compliance with the "National Manufactured Home Construction and Safety Standards Act of 1974", or fail to permit, upon request of a person duly authorized by the commissioner, inspection of appropriate books, papers, records and documents relative to determining whether a manufacturer, distributor or dealer has acted or is acting in compliance with the "National Manufactured Home Construction and Safety Standards Act of 1974."
  - **(6)** Issue a certification pursuant to <u>Pub.L. 95-128</u>, 902(a) (<u>42 U.S.C. 5403(h)</u>), if such person in the exercise of due care has reason to know that such certification is false or misleading in a material respect.
- **b.** When a civil penalty levied by the commissioner pursuant to subsection a. of this section, has not been satisfied within 30 days of its levy, the penalty may be sued for, and recovered by and in the name of the commissioner, by a summary proceeding under "the penalty enforcement law" (*N.J.S. 2A:58-1* et seq.) in the Superior Court.

**c.** Paragraph (1) of subsection a. hereof shall not apply to the sale or the offer for sale of any manufactured or mobile home after the first good faith purchase for purposes other than resale, or to any person who establishes that he did not have reason to know, in the exercise of due care, that the manufactured or mobile home is not in conformity with applicable federal standards, or to any person who holds a certificate issued by the manufacturer or importer of the manufactured or mobile home to the effect that the manufactured or mobile home conforms to all applicable federal standards, unless the person knows that the home does not so conform.

# § 52:27D-124.3. Submittal of bid, proposal by private agency under local public contracts law

A proposal by a private agency to provide inspection or plan review services to a municipality to administer the provisions of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) shall be submitted in accordance with and shall be subject to the bidding and other provisions of the "Local Public Contracts Law," P.L.1971, c.198 (<u>C.40A:11-1</u> et seq.). A municipality shall require, as part of the bid specifications, that a private agency participate in whichever electronic system the municipality has elected to utilize. A municipality shall require as part of the bid specifications that a private agency submit a bid or proposal in terms of a percentage of the costs charged by the department when it serves as a local enforcement agency pursuant to section 10 of P.L.1975, c.217 (<u>C.52:27D-128</u>). A municipality may include in the fee charged by it for work done by private agencies an amount sufficient to cover a proportionate share of administrative costs incurred by the local enforcing agency in connection with inspections performed by private agencies.

# § 52:27D-124.4. "Electronic Permit Processing Review System"

- **a.** The Commissioner of Community Affairs shall establish, develop, implement, and administer the "Electronic Permit Processing Review System." This electronic system shall be an Internet-based system allowing for the electronic submission of applications for construction permits, plans, and specifications pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (C.52:27D-119 et seq.), for the electronic review and approval of applications, plans, and specifications, for the scheduling of inspections, and for the exchange of information between the applicant, the applicant's professionals, and the department or enforcing agency during the review process. The electronic system shall offer a permit applicant:
  - (1) the ability to submit the materials necessary for application review;
  - (2) the ability to submit requests for on-site inspection of a project; and
  - (3) continuous, 24-hour accessibility for the submission of both scheduling requests, and the materials necessary for the permit application review.

b.

- (1) Following the effective date [Apr. 30, 2021] of <u>P.L.2021, c.70</u> (<u>C.52:27D-124.4</u> et al.), the commissioner may make the electronic system accessible, and facilitate its use, through the acceptance of application materials and scheduling submissions, by:
  - (a) the department, with regard to applications for which the department approves plans and specifications pursuant to the "State Uniform Construction Code Act";
  - (b) local enforcing agencies; and
  - (c) private agencies providing plan review and inspection services.
- **(2)(a)** Within one year following the effective date of <u>P.L.2021, c.70</u> (<u>C.52:27D-124.4</u> et al.), the commissioner shall fully implement the electronic system, and provide for its use, through the acceptance of application materials and scheduling submissions, by the department, with regard to applications for which the department approves plans and specifications pursuant to the "State Uniform Construction Code Act".
  - **(b)** Local enforcing agencies may elect to utilize the electronic system implemented by the department. In the alternative, a local enforcing agency may utilize a different electronic system, which system shall provide the same level of functionality as the system implemented by the department.
- **c.** The commissioner shall provide training opportunities on the use of the electronic system for employees of local enforcing agencies and private agencies which provide plan review and inspection services.

- **d.** The commissioner shall, in accordance with the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.), adopt rules and regulations to govern the form and format of applications for construction permits, plans, and specifications and other information exchanged through the electronic system. Notwithstanding the requirement, pursuant to subsection b. of this section, to accept electronically submitted materials within one year following the effective date of <u>P.L.2021, c.70</u> (<u>C.52:27D-124.4</u> et al.), the commissioner shall have the discretion to establish different submission requirements, including non-electronic submissions as necessary, for large, complicated, or otherwise unusual construction projects, so long as the system is designed to accept approximately 80 percent of construction permit application submissions electronically.
- **e.** The department may waive a contrary form and format requirement imposed by statute or ordinance or by the rules of another department or agency for the submission of information in physical form to the extent the waiver is necessary to facilitate the submission of the information electronically. The department may accept an electronic reproduction of a signature, stamp, seal, certification, or notarization as the equivalent of the original or may accept the substitution of identifying information for the signature, stamp, seal, certification, or notarization. The department shall not waive any other requirement.
- **f.** The commissioner may adopt, amend, and repeal rules and regulations providing for the charging of and setting the amount of construction permit surcharge fees to be collected by an enforcing agency or private agency. Fees shall be remitted to the department to defray the cost of developing and administering the electronic system by local enforcing agencies that have elected to utilize the electronic system implemented by the department.
- **g.** A person exchanging information through the electronic system in a form and format acceptable to the department is not subject to any licensing sanction, civil penalty, fine, permit disapproval, or revocation or other sanction for failure to comply with a form or format requirement imposed by statute, ordinance, or rule for submission of the information in physical form, including but not limited to any requirement that the information be in a particular form or of a particular size, be submitted with multiple copies, be physically attached to another document, be an original document or be signed, stamped, sealed, certified, or notarized.
- **h.** As used in this section, "form and format" means the arrangement, organization, configuration, structure, or style of, or method of delivery for, providing required information or providing the substantive equivalent of required information. "Form and format" does not mean altering the substance of information or the addition or omission of information.

# § 52:27D-125. Code advisory board.

- a. To assist and advise the commissioner in the administration of P.L.1975, c.217 (C.52:27D-119 et seq.) there is hereby created in the Department of Community Affairs a code advisory board to consist of 15 citizens to be appointed by the commissioner for a term of 4 years. The board shall consist of: one architect registered in the State of New Jersey; two professional engineers licensed by the State of New Jersey, one of whom shall be a mechanical engineer and one of whom shall be a structural engineer; one municipal building official; one member of the building industry in the State; one public health official in the State; one licensed plumbing inspector in the State; one licensed electrical inspector in the State; one fire prevention inspector in the State; and six members of the public, two of whom shall be experienced in representing consumers and one of whom shall be a representative of persons with disabilities who shall serve as chair of the subcode committee on persons with disabilities. The initial appointment of the representative of persons with disabilities shall be used to fill the first vacancy among the public members of the code advisory board occurring on or after the effective date of P.L.1981, c.35. Of the 13 members first appointed the commissioner shall designate the appointees' terms so that three shall be appointed for terms of 1 year, three for terms of two years, three for terms of three years and four for terms of four years, and that the two additional members first appointed by the commissioner pursuant to P.L.1976, c.117 shall be appointed for two years and three years respectively with such terms to be computed from February 4, 1976. Thereafter, members of the code advisory board shall be appointed for terms of four years.
- **b.** Code advisory board members shall serve without compensation but shall be entitled to reimbursement for expenses incurred in performance of their duties. Vacancies on the advisory board shall be filled for the unexpired term. Members may be removed by the commissioner for cause.
- **c.** The code advisory board shall appoint a committee for each subcode and, should a subcode therefor not be adopted, for supplements to or revisions of the barrier free design provisions of any model code adopted pursuant to section 5 of P.L.1975, c.217 (<u>C.52:27D-123</u>). Each such committee shall consist of one member of the code advisory board, who shall be chair, and at least four citizens who are experienced and knowledgeable in matters related to the particular subcode. Each committee shall advise and assist the code advisory board in the performance of its responsibilities under P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) for the subcode in question. Committee members shall serve without compensation and at the pleasure of the code advisory board.

## § 52:27D-126. Appointment of construction official, subcode officials

- **a.** The appointing authority of any municipality shall appoint a construction official, any necessary subcode officials and technical assistants to assist such officials to administer and enforce the code. The appointing authority may, by resolution or order as appropriate, set the total number of weekly hours of operation of the construction official's office and the total number of weekly work hours of the construction official, commensurate with the compensation paid to the construction official. The appointing authority shall not set the specific work hours of the construction official. The appointing authority shall also appoint a construction board of appeals to hear and decide appeals from decisions made by said construction official and subcode officials, in the administration and enforcement of the code. Nothing herein, however, shall prevent a municipality from accepting inspections as to compliance with the code or any subcode thereof made by an inspection authority approved by the State of New Jersey pursuant to law.
- **b.** To establish tenure rights or any other right or protection provided by the "State Uniform Construction Code Act" or Title 11A, Civil Service, of the New Jersey Statutes, or any pension law or retirement system, the job title "construction official" shall be equivalent to that job title which, prior to the adoption of the State Uniform Construction Code as provided in section 5 [C.52:27D-123] of the "State Uniform Construction Code Act," entailed the chief administrative responsibility to enforce all construction codes which had been adopted by the municipal governing body, the enforcement of which was not the responsibility of an authorized private inspection agency; and the job title "subcode official" shall be equivalent to that job title which, prior to the adoption of the State Uniform Construction Code, entailed subordinate administrative responsibility to enforce one or more of the following construction codes: building, plumbing, electrical or fire code.

Any person, in a municipality operating under Title 11A, Civil Service, of the New Jersey Statutes, who, prior to the adoption of the State Uniform Construction Code, held the equivalent of the job title "construction" official or "subcode" official, but who no longer holds his position as a result of a determination that his old job title was not equivalent to that of "construction" official or "subcode" official, shall be offered reappointment as a construction official or subcode official, as the case may be, and shall be granted permanent classified status in such position. Tenure shall continue for (1) any construction official or subcode official who is serving under tenure as otherwise provided by law on the effective date of this act or within one year thereafter, or (2) any person certified pursuant to subsection c. of this section and who subsequently gains such tenure.

A construction official or subcode official appointed in a municipality operating under the provisions of Title 11A, Civil Service, of the New Jersey Statutes, who, at the time of adoption of the State Uniform Construction Code, January 1, 1977, or prior to January 1, 1981, had permanent classified status or was employed as a construction official or subcode official or in another position in the unclassified service, shall be included in the classified service without civil service examination in his respective title of construction official or subcode official. Any individual employed by a municipality, who, in his employment with the

municipality between January 1, 1977 and prior to January 1, 1981, was charged with the chief administrative responsibility to enforce all existing municipal construction codes, shall be deemed as appointed to the position of construction official for the purposes of this act. Any individual employed by a municipality, who, in his employment with the municipality between January 1, 1977 and prior to January 1, 1981, was charged with chief responsibility to enforce the municipal building, plumbing, fire, or electrical code, shall be deemed as appointed to the position of subcode official for the purposes of this act. No person, on or after January 1, 1981, shall be appointed as construction or subcode official in a municipality operating under Title 11A, Civil Service, of the New Jersey Statutes without having passed an examination administered by the Civil Service Commission certifying the merit and fitness of the person to hold such position; provided that, whenever a noncivil service municipality adopts the provisions of that Title, construction code officials and subcode officials of such municipality appointed prior to the filing of the petition for the adoption of civil service, shall attain permanent status in the classified service without examination. Any construction or subcode official appointed after January 1, 1981 on a provisional basis in a municipality which has adopted the provisions of Title 11A, Civil Service, of the New Jersey Statutes, may not be removed from office except for just cause after a fair and impartial hearing has been held at the local level, with no further appeal to the Civil Service Commission; provided, however, that such a construction or subcode official may be removed to permit the appointment of a person certified for appointment by the Civil Service Commission. A construction official or subcode official in a noncivil service municipality shall be appointed for a term of four years and shall, upon appointment to a second consecutive term or on or after the commencement of a fifth consecutive year of service, including years of service in an equivalent job title held prior to the adoption of the State Uniform Construction Code, be granted tenure and shall not be removed from office except for just cause after a fair and impartial hearing.

A construction official or subcode official in a noncivil service municipality shall be appointed for a term of four years and shall, upon appointment to a second consecutive term or on or after the commencement of a fifth consecutive year of service, including years of service in an equivalent job title held prior to the adoption of the State Uniform Construction Code, be granted tenure and shall not be removed from office except for just cause after a fair and impartial hearing.

A construction or subcode official, to be eligible for appointment in civil service or noncivil service municipalities, shall be certified by the State of New Jersey in accordance with subsection c. of this section and shall have had at least three years' experience in construction, design or supervision as a licensed engineer or registered architect; or five years' experience in construction, design, or supervision as an architect or engineer with a bachelor's degree from an accredited institution of higher education; or 10 years' experience in construction, design or supervision as a journeyman in a trade or as a contractor. A subcode official shall, pursuant to any subcode which he administers, pass upon:

(1) matters relative to the mode, manner of construction or materials to be used in the erection or alteration of buildings or structures, except as to any such matter foreclosed by State approval pursuant to this act, and (2) actual execution of the approved plans and the installation of the materials approved by the State. The construction official in each municipality shall be the chief administrator of the "enforcing agency." He shall have the power to overrule a determination of a subcode official based on an interpretation of a substantive provision of the subcode which such subcode official administers, only if the construction official is qualified to act pursuant to this act as a subcode official for such subcode. He may serve as subcode official for any subcode which he is qualified under this act to administer. A subcode official or municipal engineer may serve as a construction official if otherwise qualified under the provisions of this act. The municipal enforcing agency shall require compliance with the provisions of the code, of all rules lawfully adopted and promulgated thereunder and of laws relating to the construction, alteration, repair, removal, demolition and integral equipment and location, occupancy and maintenance of buildings and structures, except as may be otherwise provided for.

Two or more municipalities may provide by ordinance, subject to regulations established by the commissioner, for the joint appointment of a construction official and subcode official for the purpose of enforcing the provisions of the code in the same manner.

- **c.** No person shall act as a construction official or subcode official for any municipality unless the commissioner determines that said person is so qualified, except for the following:
  - (1) a municipal construction official or subcode official holding office under permanent civil service status, or tenure as otherwise provided by law on the effective date of this act or within one year thereafter and (2) a municipal construction official or subcode official holding office without such permanent civil service status or tenure on the effective date of this act or within one year thereafter: provided said construction official or subcode official not having such permanent civil service status or tenure shall be certified in accordance with this act within four years of the effective date thereof; provided further that a person holding on the effective date of this act a valid plumbing inspector's license from the Department of Health and Senior Services pursuant to Title 26 of the Revised Statutes may serve as a plumbing subcode official and a person holding on the effective date of this act a valid electrical inspector's license from the Board of Public Utilities pursuant to Title 48 of the Revised Statutes may serve as an electrical subcode official. The commissioner, after consultation with the code advisory board, may authorize the preparation and conducting of oral, written and practical examinations to determine if a person is qualified by this act to be eligible to be a construction official or subcode official or, in the alternative, may accept successful completion of programs of training as proof of qualification within the meaning of this act. Upon a determination of qualification the commissioner shall issue or cause to be issued a certificate to the construction official or subcode official or trainee stating that he is so certified. The commissioner, after consultation with the code advisory board, may establish classes of certification that will recognize the varying complexities of code enforcement in the municipalities within the State. The commissioner shall, after consultation with the code advisory board, provide for educational programs designed to train and assist construction officials, subcode officials, and technical assistants to these officials in carrying out their responsibilities.

Whenever the commissioner is required by the terms of this subsection to consult with the code advisory board and the matter in question concerns plumbing subcode officials, the commissioner shall also consult with the Public Health Council and Commissioner of Health and Senior Services.

**d.** The commissioner, after consultation with the code advisory board, may periodically require that each construction official, subcode official, and technical assistant demonstrate a working knowledge of innovations in construction technology and materials, recent changes in and additions to the relevant portions of the State Uniform Construction Code, and current standards of professional ethics and legal responsibility; or, in the alternative, the commissioner, after consultation with the code advisory board, may accept successful completion of appropriate programs of training as proof of such working knowledge.

Where a municipal employee failed to comply with N.J. Admin. ### Governments: Local Governments: Employees & Officials

In the <u>N.J. Stat. Ann. § 52:27D-126(b)</u> reference to a "second consecutive" four-year term, consecutive means without an interval or break; to acquire tenure under this statute there must be a seamless transition from term to term without a gap or interruption. <u>Merlino v. Borough of Midland Park</u>, 172 N.J. 1, 796 A.2d 203, 2002 N.J. LEXIS 351 (N.J. 2002).

The "fifth consecutive year" language of <u>N.J. Stat. Ann. § 52:27D-126(b)</u> is a limited grandfather clause allowing prior service to be factored into the tenure calculation on appointment under the Uniform Construction Code Act (UCCA);

on appointment by the governing body, that clause merely preserves the longevity rights of individuals who were serving in an equivalent job title at the time of enactment of the UCCA. <u>Merlino v. Borough of Midland Park, 172 N.J.</u> 1, 796 A.2d 203, 2002 N.J. LEXIS 351 (N.J. 2002).

The code official was prevented from achieving tenure under <u>N.J. Stat. Ann. § 52:27D-126(b)</u> after taking a brief break in service between first and second terms of employment because the second term was not consecutive to the first term. <u>Merlino v. Borough of Midland Park, 172 N.J. 1, 796 A.2d 203, 2002 N.J. LEXIS 351 (N.J. 2002)</u>.

Appellant was not entitled to tenure under N.J. Stat. Ann. § 52:27D-126 where he voluntarily agreed to show up for work after his period of appointment had expired. Cutler v. Borough of Westwood, 295 N.J. Super. 344, 685 A.2d 44, 1996 N.J. Super. LEXIS 443 (App.Div. 1996), certif. denied, 149 N.J. 143, 693 A.2d 112, 1997 N.J. LEXIS 859 (N.J. 1997).

N.J. Stat. Ann. § 52:27D-126 required that a subcode official be appointed for a four-year term and could only be removed from office during the term for just cause after a fair and impartial hearing; however, N.J. Stat. Ann. § 52:27D-126 did not require that a city employee be given a local hearing when his job was reduced in good faith for economic reasons. Voges v. Borough of Tinton Falls, 268 N.J. Super. 279, 633 A.2d 566, 1993 N.J. Super. LEXIS 823 (App. Div. 1993), certif. denied, 135 N.J. 466, 640 A.2d 848, 1994 N.J. LEXIS 253 (N.J. 1994).

Township manager was without authority to issue a stop work order under the Soil Erosion and Sediment Control Act, former N.J. Stat. Ann. § <u>4:24-35</u> (see now <u>N.J. Stat. Ann. § 4:24-39</u> et seq.), because only the township construction official had authority to issue the stop work order; under <u>N.J. Stat. Ann. § 52:27D-126(a)</u> the state entrusted enforcement of the Uniform Construction Code to the construction official and no intrusion. <u>J. P. Properties, Inc. v. Macy, 183 N.J. Super. 572, 444 A.2d 1131, 1982 N.J. Super. LEXIS 749 (Law Div. 1982).</u>

Amendment of the State Uniform Construction Code Act was intended to clarify tenure rights, not to alter the statute. Under the amended act, the "subcode official" is the person next subordinate to the overall chief, the equivalent to the position that, prior to the date of the act, involved subordinate administrative responsibilities to enforce the construction codes. <u>Helfrich v. # § 52:27D-126e. Waiving of construction permit, enforcing agency fees for certain construction projects to benefit persons with disabilities.

**a.** Notwithstanding the provisions of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.), or any rules, regulations, or standards adopted pursuant thereto to the contrary, the governing body of any municipality which has appointed an enforcing agency pursuant to the provisions of section 8 of P.L.1975, c.217 (<u>C.52:27D-126</u>) may, by ordinance, provide that no person shall be charged a construction permit surcharge fee or enforcing agency fee for any construction, reconstruction, alteration or improvement designed and undertaken solely to promote accessibility by persons with disabilities to an existing public or private structure or any of the facilities contained therein.

The ordinance may further provide that a person with a disability, or a parent or sibling of a person with a disability, shall not be required to pay any municipal fee or charge in order to secure a construction permit for any construction, reconstruction, alteration or improvement which promotes accessibility to the person's own living unit.

For the purposes of this subsection, "person with a disability" means a person who has the total and permanent inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental disability, including blindness, and shall include, but not be limited to, any resident of this State who has a disability as defined pursuant to the federal Social Security Act (42 U.S.C. § 416), or the federal Railroad Retirement Act of 1974 (45 U.S.C. § 231 et seq.), or is rated as having a 60 percent disability or higher pursuant to any federal law administered by the United States Veterans' Administration. For purposes of this paragraph "blindness" means central visual acuity of 20/200 or less in the better eye with the use of a correcting lens. An eye which is accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees shall be considered as having a central visual acuity of 20/200 or less.

# § 52:27D-126f. Definitions relative to testing, inspecting elevator devices; alternative testing; rules, regulations; review, analysis

#### a. As used in this section:

"Elevator device" means a hoisting and lowering device equipped with a car or platform which moves in guides for the transportation of individuals or freight in a substantially vertical direction through successive floors or levels of a building or structure. The term includes, without limitation, elevators, dumbwaiters, wheelchair lifts, manlifts, stairway chairlifts and any device within the scope of ASME A17.1 (Safety Code for Elevators and Escalators) or ASME A90.1 (Safety Standard for Belt Manlifts), except escalators and moving walks. It shall not include any conveyor devices that are process equipment.

"Qualified elevator device inspection firm" means any entity, whether a sole proprietorship, partnership, association or corporation, that is engaged in the business of inspecting, testing, installing, maintaining or repairing elevator devices, or the business of inspecting and testing elevator devices, is registered for those purposes with the Department of Community Affairs, and employs at least one qualified elevator device inspector.

"Qualified elevator device inspector" means any person who is employed by a qualified elevator device inspection firm and who is licensed by the Department of Community Affairs to conduct the routine, periodic and acceptance inspections and tests of elevator devices required pursuant to the provisions of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.).

**b.** No elevator devices which, under the provisions of the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.), are subject to routine, periodic and acceptance inspections and tests by the local enforcing agency or the Department of Community Affairs shall be subject to such inspections and tests, nor shall the owner of the structure be charged any fees therefor, if those elevator devices are subjected to acceptance testing and are routinely and periodically inspected and tested by a qualified elevator device inspection firm, and the owner has registered each such elevator device with the Department of Community Affairs and has indicated in the registration application form, or in a supplement to that form, the identity of the qualified elevator device inspection firm that has been given responsibility for inspection and testing of the elevator device.

The inspections and tests, including the frequency thereof, conducted by a qualified elevator device inspector shall be in accordance with such rules and regulations as the Commissioner of Community Affairs may prescribe pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) and subsection e. of this section. Acceptance testing and the five-year test shall be witnessed by the local enforcing agency or the Department of Community Affairs in accordance with such rules and regulations as the Commissioner of Community Affairs may prescribe pursuant to the "State Uniform Construction Code Act," P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) and subsection e. of this section. No

qualified elevator device inspector shall act in that capacity when his work on the elevator device is the work being inspected.

- c. If, upon inspection or test, a qualified elevator device inspector shall find that an elevator device is in a dangerous condition, or if there is an immediate hazard to persons riding on or using any such device, the inspector shall immediately prohibit any further use of the device and shall so notify in writing the owner and the local enforcing agency or Department of Community Affairs, as the case may be. The device shall remain out of service until such time as the inspector shall certify in writing that the dangerous condition or immediate hazard has been removed or corrected and that the device is safe for public use. If the local enforcing agency or the department shall determine, in response to a complaint or otherwise, that an elevator device is in a dangerous condition or that there is an immediate hazard to persons riding on or using that device, the local enforcing agency or the department may require the owner of the elevator device to make such repairs as may be necessary, or take other corrective action, within such time as the local enforcing agency or the department, as the case may be, shall prescribe.
- **d.** Any qualified elevator device inspector or qualified elevator device inspection firm violating the provisions of this section shall be subject to a penalty in accordance with section 20 of P.L.1975, c.217 (<u>C.52:27D-138</u>) and shall also be subject to suspension or revocation by the Department of Community Affairs of licensure or registration as a qualified elevator device inspector or qualified elevator device inspection firm, as the case may be.
- **e.** The Commissioner of Community Affairs, in accordance with the provisions of the "Administrative Procedure Act," P.L.1968, c.410 (*C.52:14B-1* et seq.), shall promulgate rules and regulations to effectuate the purposes of this act. The rules and regulations shall provide for, but not be limited to, the qualifications for licensing of qualified elevator device inspectors, the registration of qualified elevator device inspection firms, the manner and form of licensure and registration, the fee for each such license or registration, the manner in which test results pursuant to this act are to be recorded, and minimum liability insurance requirements for qualified elevator device inspection firms, for which proof thereof shall be provided by the firms to the department. License and registration fees shall be designed to cover, but not exceed, the actual costs the department shall incur in administering the provisions of this act.
- **f.** The Department of Community Affairs shall conduct a review and perform an analysis of the impact on the safety record of elevator devices in this State as a result of the implementation of this section. The review and analysis shall be performed biennially. A written report of the results of the review and analysis shall be submitted to the Governor and the Legislature, with the first report submitted within 48 months following the effective date of <u>P.L.1997, c.336</u> (<u>C.52:27D-126f</u>).

# § 52:27D-126.1. Fire prevention subcode officials; appointment; qualifications; removal

- **a.** In any municipality the body or official, or the successor of said body or official, which appointed the persons serving as fire prevention officials on the effective date of the "State Uniform Construction Code Act," P.L.1975, c. 217 (*C. 52:27D-119* et seq.) shall appoint the person to serve in each position for a fire prevention subcode official which a municipality creates; provided that any person who has served in the same municipality for at least 6 months as a fire inspection officer on the effective date of the "State Uniform Construction Code Act," P.L.1975, c. 217 (*C. 52:27D-119* et seq.) shall be deemed to qualify as a fire prevention subcode official. Notwithstanding the provisions of this section, any fire prevention subcode official is subject to any qualification requirements established by the commissioner pursuant to section 8 of the "State Uniform Construction Code Act," P.L.1975, c. 217.
- **b.** Whenever a municipality creates full-time or part-time fire prevention subcode official positions, it shall order the body or official or successor or designee of said body or official which appointed the persons serving as fire prevention officials in the municipality on the effective date of the "State Uniform Construction Code Act," P.L.1975, c. 217 (<u>C. 52:27D-119</u> et seq.) to appoint the necessary number of full-time or part-time fire prevention subcode officials pursuant to subsection 1 a. of this act. Except as provided in subsections a., b., and d. of this section, fire prevention subcode officials are subject to the administration and enforcement jurisdiction of municipal construction officials provided under the State Uniform Construction Code, P.L.1975, c. 217 (<u>C. 52:27D-119</u> et seq.).
- **c.** Notwithstanding any experience requirements in section 8 of the "State Uniform Construction Code Act," P.L.1975, c. 217, a fire prevention subcode official appointed pursuant to said section and to this act shall have had at least 3 years experience as a fire prevention or firefighting official.
- **d.** A fire prevention subcode official may be removed from office by the body or official or the successor or designee of said body or official which appointed such official.

# § 52:27D-126.3. Establishment of emergency building inspection program

The Commissioner of Community Affairs shall establish a program for the emergency deployment of State and local construction code officials and inspectors to assist local construction code officials and inspectors in the evaluation of buildings and structures affected by a natural or man-made disaster or emergency, and to provide such other assistance in code enforcement and related activities as may be required in order to protect public health and safety. The code officials and inspectors so deployed shall, when necessary, assist in assessing possible damage to the structural design and life-safety systems of buildings, and in facilitating rapid decision making regarding the closure or reoccupancy of buildings, in the event of a natural or man-made disaster or emergency for which a state of emergency has been declared by the President of the United States or the Governor, or for which a state of emergency has been declared by a municipal emergency management coordinator. The commissioner may provide for participation in the program by licensed professional engineers, registered architects and other licensed professionals. For the purposes of this section, "local construction code officials and inspectors" means code officials and inspectors employed by a municipality or county.

# § 52:27D-126.8. "County Code Enforcement Pilot Program"; definitions

- **a.** As used in *P.L.2018*, *c.157* (*C.52:27D-126.8* et al.):
  - "Pilot county" means any county of the first class with a population of over 900,000 and a population density of less than 4,000 persons per square mile according to the 2010 federal decennial census.
  - "Pilot program" means the "County Code Enforcement Pilot Program" established pursuant to subsection b. of this section.
- **b.** There is established the "County Code Enforcement Pilot Program" to permit any pilot county to assume responsibility for certain construction code enforcement activities. Notwithstanding any other provision of P.L.1975, c.217 (<u>C.52:27D-119</u> et seq.) to the contrary, the governing body of a pilot county may appoint, by ordinance or resolution, as applicable, a county construction official, subcode officials, and technical assistants to administer and enforce the code in regard to:
  - (1) buildings and structures owned by the pilot county, including any of its departments, divisions, bureaus, boards, councils, authorities, or other agencies; and
  - (2) a municipality located within the pilot county with which the pilot county has entered into a shared service agreement pursuant to the "Uniform Shared Services and Consolidation Act," sections 1 through 35 of <u>P.L.2007, c.63</u> (<u>C.40A:65-1</u> through <u>C.40A:65-35</u>), for the purposes of administering and enforcing the code.
- **c.** Regardless of any shared service agreement with a municipality, if a building or structure subject to code enforcement is owned by the pilot county, then the county construction official appointed pursuant to subsection b. of this section may assume the code enforcement responsibilities of a municipal code enforcement official, including the imposition of fees for permit applications and inspections related to construction activities by private parties on county property. However, regardless of the property's ownership, a county construction official may not assume code enforcement responsibilities that the Department of Community Affairs is required to administer, pursuant to subsection c. of section 11 of P.L.1975, c.217 (<u>C.52:27D-119</u>) or any other provision of P.L.1975, c.217 (<u>C.52:27D-119</u>)
- **d.** In accordance with the "Uniform Shared Services and Consolidation Act," sections 1 through 35 of <u>P.L.2007, c.63</u> (<u>C.40A:65-1</u> through <u>C.40A:65-35</u>), a municipality located within a pilot county may enter into a shared service agreement with the pilot county to administer and enforce the code.
- **e.** The Commissioner of Community Affairs shall adopt rules and regulations, pursuant to the provisions of the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.), to effectuate the purposes of the pilot program.

# § 52:27D-127. Construction board of appeals

**a.** There shall be a construction board of appeals for each county to hear appeals from decisions by the enforcing agency provided that any municipality may establish its own construction board of appeals to hear appeals from decisions by the enforcing agency and further provided that where two or more municipalities have combined to appoint a construction official and subcode officials such combined municipalities may establish a joint construction board of appeals. Any such municipal or joint board shall hear appeals from the decisions of the municipal or joint enforcing agency, as the case may be, instead of the county board.

Every construction board of appeals shall consist of five members. Each member of the board shall be qualified by experience or training to perform the duties of members of the construction board of appeals. In addition to the five regular members, each construction board of appeals shall include two special members, one of whom shall be a licensed professional engineer with municipal construction experience, and one of whom shall be a builder. The special members shall serve as additional members of the board in any case involving an appeal of municipal fees pursuant to <a href="P.L.1995">P.L.1995</a>, <a href="c.54">c.54</a> (C.40:55D-53.2</a> et al.). Board members shall be appointed for a term of 4 years by the appointing authority of the county or municipality in question or, in the case of a joint municipal board, by means mutually determined by the governing bodies of such municipalities. For the members first appointed, the appointing authority shall designate the appointees' terms so that one shall be appointed for a term of 1 year, one for a term of 2 years, one for a term of 3 years, and two for a term of 4 years. Vacancies on the board shall be filled for the unexpired term. Members may be removed by the authority appointing them for cause. A person may serve on more than one construction board of appeals.

**b.** When an enforcing agency refuses to grant an application or refuses to act upon application for a construction permit, or when the enforcing agency makes any other decision, pursuant or related to this act or the code, an owner, or his authorized agent, may appeal in writing to the county or municipal or joint board, whichever is appropriate. The board shall hear the appeal, render a decision thereon and file its decision with a statement of the reasons therefor with the enforcing agency from which the appeal has been taken not later than 10 business days following the submission of the appeal, unless such period of time has been extended with the consent of the applicant. Such decision may affirm, reverse or modify the decision of the enforcing agency or remand the matter to the enforcing agency for further action. A copy of the decision shall be forwarded by certified or registered mail to the party taking the appeal. Failure by the board to hear an appeal and render and file a decision thereon within the time limits prescribed in this subsection shall be deemed a denial of the appeal for purposes of a complaint, application or appeal to a court of competent jurisdiction. A record of all decisions made by the board, properly indexed, shall be kept by the enforcing agency and shall be subject to public inspection during business hours. The board shall provide rules for its procedure in accordance with this act and regulations established by the commissioner.

In denying an occupancy permit due to the inadequacy of a sprinkler system, a construction board of appeals failed to adhere to the procedures and safeguards of the State Uniform Construction Code Act, N.J. Stat. Ann. § 52:27D-119 et seq., in conducting the hearing under N.J. Stat. Ann. § 52:27D-127 because the decision was based entirely upon a staff report with no opportunity for the applicant to cross-examine or challenge the author thereof. #### Constitutional Law: Bill of Rights: Fundamental Rights: Procedural Due Process: Scope of Protection

Plaintiff's claim that defendants, a borough and its zoning and land use chairman, violated his due process rights for issuing stop work orders, allegedly failing to give plaintiff a construction permit, and for delaying approval of his site plan, were properly dismissed via summary judgment because plaintiff failed to pursue the administrative and judicial remedies available to him via the Uniform Construction Code Act and the Municipal Land Use Law for redress of the alleged arbitrary action by the municipal officials, as such statutes satisfied the requirements of procedural due process. Further, the alleged arbitrary actions by defendants did not constitute egregious official conduct that shocked the conscience so as to violate plaintiff's substantive due process rights. *Plemmons v. Property owner's <u>USCS Const. ## § 52:27D-128. Substitute administration and enforcement

Whenever a municipality or several municipalities decide not to administer and enforce the code and request the commissioner to assume that task, the commissioner shall by regulation provide for the enforcement of the code and this act in said municipality or municipalities and for payment to the State of fees necessary to defray the expenses in furtherance of that end and the commissioner shall have all the powers conferred by this act upon any municipal governing body, chief executive, or enforcing agency and all other powers necessary and convenient to that end, provided that the commissioner shall provide a departmental appeal in lieu of an appeal to a municipal or joint construction board of appeals.

The commissioner shall hold hearings pursuant to section 6c. [C.52:27D-124] of this act in order to establish regulations defining the operation of this section.

Department of Community Affairs (Arts. 1-9) > Article 9. Department of Community Affairs Act (§§ 52:27D-32 — 52:27D-520)

# § 52:27D-129. State buildings and buildings of interstate agencies; outdoor advertising signs on public property

- a. Notwithstanding any other provision of P.L. 1975, c. 217 (*C. 52:27D-119* et seq.), the Department of Community Affairs shall have authority to administer and enforce the code in regard to buildings and structures owned by the State, and any of its departments, divisions, bureaus, boards, councils, authorities or other agencies; provided, however, that the Division of Building and Construction in the Department of the Treasury shall have authority to conduct field inspections for the purpose of enforcing the code in buildings built under its supervision. The Division of Building and Construction shall be authorized to review plans and undertake construction if the Department of Community Affairs cannot approve plans within the 20-day period provided for in P.L. 1975, c. 217. In an emergency or cost savings situation, the commissioner may delegate, by rule, the authority to conduct field inspections for the purpose of enforcing the code. The Division of Building and Construction and any public or private agency which receives such a delegation shall carry out any review or inspection responsibilities with persons certified by the Commissioner of Community Affairs pursuant to the provisions of P.L. 1975, c. 217. The Department of Community Affairs shall have ultimate responsibility for insuring that all buildings conform to the requirements of the code.
- **b.** Construction, alteration, renovation, rehabilitation, repair, removal or demolition of any building or structure situated wholly within New Jersey by or for an agency created by an interstate compact to which the State of New Jersey is a party shall be subject to the provisions of the code; provided that such interstate agency shall have exclusive authority to administer and enforce the code in regard to such buildings and structures.
- **c.** Notwithstanding any other provision of law, rule or regulation to the contrary, except for signs which advertise or otherwise identify activities performed on the property on which the sign is located, the Department of Community Affairs shall be the sole enforcing agency with regard to outdoor advertising signs which exceed 32 square feet in area on any face and which are located on land owned or controlled by any public entity, including but not limited to any State, county or local department, agency, board, commission, authority or instrumentality.

## § 52:27D-130. Permit required; application; contents; issuance; transfer

Except as otherwise provided by this act or in the code, before construction or alteration of any building or structure, the owner, or his agent, engineer or architect, shall submit an application in writing, including signed and sealed drawings and specifications, to the enforcing agency as defined in this act. When an enforcing agency begins to participate in the "Electronic Permit Processing Review System," pursuant to section 1 of <u>P.L.2021, c.70</u> (<u>C.52:27D-124.4</u>), the owner, or his agent, engineer or architect, may submit applications and scheduling requests electronically. The application shall be in accordance with regulations established by the commissioner and on a form or in a format prescribed by the commissioner and shall be accompanied by payment of the fee to be established by the municipal governing body by ordinance in accordance with standards established by the commissioner. The application for a construction permit shall be filed with the enforcing agency and shall be a public record; and no application for a construction permit shall be removed from the custody of the enforcing agency after a construction permit has been issued. Nothing contained in this paragraph shall be interpreted as preventing the imposition of requirements in the code, for additional permits for particular kinds of work, including but not limited to plumbing, electrical, elevator, fire prevention equipment or boiler installation or repair work, or in other defined situations.

Upon the transfer of ownership of property that is the subject of a construction permit, and prior to beginning or continuing work authorized by the construction permit, the new owner shall file with the enforcing agency an application for a permit update to notify the enforcing agency of the name and address of the new owner and of all other changes to information previously submitted to the enforcing agency. If the municipality has adopted an ordinance requiring a successor developer to furnish a replacement performance guarantee, and a performance guarantee has previously been furnished in favor of the municipality to assure the installation of on-tract improvements on the property that is the subject of an application for a permit update for the purpose of notifying the enforcing agency of the name and address of a new owner, the enforcing agency shall not approve the application for a permit update until it receives notification from the governing body or its designee that the new owner has furnished an adequate replacement performance guarantee.

No permit shall be issued for a public school facility unless the final plans and specifications have been first approved by the Bureau of Facility Planning Services in the Department of Education or a municipal code official who is appropriately licensed by the Commissioner of Community Affairs for the type and level of plans being reviewed. Approval by the Bureau of Facility Planning Services in the Department of Education shall only be required when a review for educational adequacy is necessary. Requirements determining when a review for educational adequacy is necessary shall be established jointly by the Department of Community Affairs and the Department of Education. The standards shall thereafter be adopted as part of the Uniform Construction Code regulations by the Department of Community Affairs. After the final plans and specifications have been approved for educational adequacy by the Bureau of Facility Planning Services in the Department of Education, a local board of education may submit the final plans and

specifications for code approval to either the Bureau of Facility Planning Services in the Department of Education or a municipal code official who is appropriately licensed by the Commissioner of Community Affairs for the type and level of plans being reviewed. The Bureau of Facility Planning Services in the Department of Education when approving final plans and specifications shall be responsible for insuring that the final plans and specifications conform to the requirements of the code as well as for insuring that they provide for an educationally adequate facility. In carrying out its responsibility pursuant to the provisions of this section the Department of Education shall employ persons licensed by the Commissioner of Community Affairs for the type and level of plans being reviewed.

# § 52:27D-130.4. Rules, regulations adopted by DHSS relative to contaminated property; certification; definitions; enforcement

- **a.** Within 12 months after the effective date [January 11, 2007] of this act, the Department of Health and Senior Services shall adopt rules and regulations pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (<u>C.52:14B-1</u> et seq.) that establish: (1) procedures for the evaluation and assessment of the interior of buildings that are to be used for child care centers licensed pursuant to the provisions of P.L.1983, c.492 (<u>C.30:5B-1</u> et seq.), or for educational purposes; and (2) standards that establish maximum contaminant levels for building interiors to be used for child care centers licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes, that are protective of the public health and safety. The rules and regulations adopted pursuant to this subsection shall be protective of the health of children and infants, and shall account for the difference in rate of the absorption, metabolism, and excretion of compounds between adults and infants and children.
- **b.** The department shall establish an application process for the certification issued pursuant to subsection c. of this section. Every application for a certification shall be accompanied by a fee, established in accordance with a fee schedule adopted by the department, by rule or regulation, reflecting the costs of reviewing and processing the application. Fees collected pursuant to this subsection shall be deposited into a separate account, and shall be dedicated for use by the department solely for the purposes of administering and enforcing the provisions of this section and any rules or regulations adopted pursuant thereto.
- **c.** Upon a demonstration to the department by the applicant that the procedures established pursuant to subsection a. of this section for the evaluation and assessment of building interiors have been followed, and that there are no contaminants present in the building that exceed the maximum contaminant levels established in subsection a. of this section, the department shall issue a certification that the building interior is safe for use as a child care center, or for educational purposes.
- **d.** As used in this section: "contaminant" shall have the same meaning as provided in section 23 of <u>P.L.1993, c.139</u> (<u>C.58:10B-1</u>); and "educational purposes" shall mean for the purposes of a private school or public school as defined in <u>N.J.S.18A:1-1</u>, or a charter school as defined pursuant to <u>P.L.1995, c.426</u> (<u>C.18A:36A-1</u> et seq.).
- **e.** Whenever the Commissioner of Health and Senior Services finds that a person has violated any provision of this section, or any rule or regulation adopted pursuant thereto, or knowingly makes a false statement, representation, or certification in any application, record, or other document filed or required to be maintained pursuant to this section, the commissioner may assess a civil administrative penalty of not more than \$25,000 for a first offense, and not more than \$50,000 for the second and every subsequent offense. Each day that a violation continues shall constitute an additional, separate, and distinct offense. The department may compromise and settle any claim for a penalty pursuant to this subsection in an amount as the department determines is appropriate and equitable under the circumstances.

Any penalty imposed pursuant to this subsection may be collected, with costs, in a summary proceeding pursuant to the "Penalty Enforcement Law of 1999," <u>P.L.1999, c.274</u> (<u>C.2A:58-10</u> et seq.). The Superior Court and the municipal court shall have jurisdiction to enforce the provisions of the "Penalty Enforcement Law of 1999" in connection with this section.

# § 52:27D-130.5. Issuance of construction permit for child care, educational center for certain locations; certification required; remediation

a.

- (1) No construction permit shall be issued pursuant to section 12 of P.L.1975, c.217 (<u>C.52:27D-130</u>) for the reconstruction, alteration, conversion, or repair of any building or structure to be used for a child care center licensed pursuant to the provisions of P.L.1983, c.492 (<u>C.30:5B-1</u> et seq.), or for educational purposes, if that building or structure was previously used for industrial, storage, or high hazard purposes, as a nail salon, dry cleaning facility, or gasoline station, or is on a contaminated site, on a site on which there is suspected contamination, or on an industrial site that is subject to the provisions of the "Industrial Site Recovery Act," P.L.1983, c.330 (<u>C.13:1K-6</u> et al.), except upon the submission of the certification issued by the Department of Health pursuant to section 1 of <u>P.L.2007</u>, <u>c.1</u> (<u>C.52:27D-130.4</u>) to the construction official by the applicant, that the building or structure has been evaluated and assessed for contaminants, and that the building or structure is safe for use as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes.
- (2) Notwithstanding the provisions of paragraph (1) of this subsection to the contrary, a construction permit may be issued for the construction or alteration of any building or structure to be used as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes, if the construction permit is necessary to perform work in the building or structure in order to comply with the rules and regulations adopted pursuant to subsection a. of section 1 of P.L.2007, c.1 (C.52:27D-130.4) and obtain the certification issued by the Department of Health pursuant to subsection c. of section 1 of P.L.2007, c.1 (C.52:27D-130.4).

A construction permit issued pursuant to this paragraph shall be limited to the construction or alterations necessary to comply with the rules and regulations adopted pursuant to subsection a. of section 1 of <u>P.L.2007</u>, <u>c.1</u> (<u>C.52:27D-130.4</u>).

(3) The appropriate enforcing agency shall not grant a certificate of occupancy for any building or structure to be used as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes, that received a construction permit pursuant to paragraph (2) of this subsection, except upon the submission of the certification issued by the Department of Health pursuant to subsection c. of section 1 of <u>P.L.2007, c.1</u> (<u>C.52:27D-130.4</u>) to the construction official by the applicant, that the building or structure has been evaluated and assessed for contaminants, and that the building or structure is safe for use as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes.

b.

(1) No construction permit shall be issued for the construction or alteration of any building or structure to be used as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for

educational purposes, on a site that was previously used for industrial, storage, or high hazard purposes, as a nail salon, dry cleaning facility, or gasoline station, or on a contaminated site, on a site on which there is suspected contamination, or on an industrial site that is subject to the provisions of the "Industrial Site Recovery Act," P.L.1983, c.330 (C.13:1K-6 et al.), except after submission by the applicant to the construction official of documentation sufficient to establish that the Department of Environmental Protection has approved a remedial action workplan for the entire site or that the site has been remediated consistent with the remediation standards and other remediation requirements established pursuant to section 35 of P.L.1993, c.139 (C.58:10B-12) and a no further action letter has been issued by the Department of Environmental Protection for the entire site.

(2) Notwithstanding the provisions of paragraph (1) of this subsection to the contrary, a construction permit may be issued for the construction or alteration of any building or structure to be used as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes, on a site that was previously used for industrial, storage, or high hazard purposes, as a nail salon, dry cleaning facility, or gasoline station, or on a contaminated site, on a site on which there is suspected contamination, or on an industrial site that is subject to the provisions of the "Industrial Site Recovery Act," P.L.1983, c.330 (C.13:1K-6 et al.), if the construction permit is necessary to remediate the site consistent with the remediation standards and other remediation requirements established pursuant to section 35 of P.L.1993, c.139 (C.58:10B-12) in order to obtain a no further action letter from the Department of Environmental Protection.

A construction permit issued pursuant to this paragraph shall be limited to the construction or alterations necessary to develop a remedial action workplan to be submitted to the Department of Environmental Protection for approval or to remediate the site consistent with the remediation standards and other remediation requirements established pursuant to section 35 of <u>P.L.1993, c.139</u> (<u>C.58:10B-12</u>) and receive a no further action letter from the Department of Environmental Protection.

- (3) The appropriate enforcing agency shall not grant a certificate of occupancy for any building or structure to be used as a child care center licensed pursuant to the provisions of P.L.1983, c.492, or for educational purposes, that received a construction permit pursuant to paragraph (2) of this subsection, except after submission by the applicant to the construction official of documentation sufficient to establish that the site has been remediated consistent with the remediation standards and other remediation requirements established pursuant to section 35 of <u>P.L.1993, c.139</u> (<u>C.58:10B-12</u>) and a no further action letter has been issued by the Department of Environmental Protection for the entire site.
- **c.** As used in this section: "contaminated site" means any real property on which there is contamination; "contamination," "remediation" or "remediate," and "no further action letter" shall have the same meanings as provided in section 23 of <u>P.L.1993, c.139</u> (<u>C.58:10B-1</u>); and "educational purposes" means for the purposes of a private school or public school as defined in <u>N.J.S.18A:1-1</u>, or a charter school as defined pursuant to <u>P.L.1995, c.426</u> (<u>C.18A:36A-1</u> et seq.).

## § 52:27D-130.6. Green building manual, preparation, availability

The Commissioner of Community Affairs is authorized to prepare, in consultation with other State agencies, and make available to the public, a green building manual for the purpose of ensuring that standards are available for those owners and builders who participate in any program that encourages or requires the construction of green buildings. The manual shall include federal guidelines and regulations for energy efficiency in building construction. The manual shall cover residential as well as commercial buildings. For the purposes of this act, "green building" means those building construction practices that significantly reduce or eliminate the negative impact of buildings on the environment and their occupants and may consider, but need not be limited to five broad areas: sustainable site planning; safeguarding water and water efficiency; energy efficiency and renewable energy; conservation of materials and resources; and indoor environmental quality.

# § 52:27D-131. Construction permits; application, approval, expiration, cancellation, extension

a. The enforcing agency shall examine each application for a construction permit. If the application conforms with this act, the code, and the requirements of other applicable laws and ordinances, the enforcing agency shall approve the application and shall issue a construction permit to the applicant. Every application for a construction permit shall be granted, in whole or in part, or denied within 20 business days, unless the application is limited to the construction of a ramp designed to provide wheelchair access to a one or two-unit dwelling, and required for such access by a resident of the dwelling, in which case the permit shall be granted or denied within five business days. If application is denied in whole or in part, the enforcing agency shall set forth the reasons therefor in writing. If an enforcing agency fails to grant, in whole or in part, or deny an application for a construction permit within the period of time prescribed herein. such failure shall be deemed a denial of the application for purposes of an appeal to the construction board of appeals unless such period of time has been extended with the consent of the applicant. The enforcing agency may approve changes in plans and specifications previously approved by it, if the plans and specifications when so changed remain in conformity with law. Except as otherwise provided in this act or the code, the construction or alteration of a building or structure shall not be commenced until a construction permit has been issued. The construction of a building or structure shall be in compliance with the approved application for a construction permit; and the enforcing agency shall insure such compliance in the manner set forth in section 14 [C.52:27D-132] of this act.

The commissioner, after consultation with the code advisory board, may, for certain classes or types of occupancy posing special or unusual hazards to public safety, establish regulations designating the department as the enforcing agency for purposes of approving plans and specifications. A municipal enforcing agency shall not grant an occupancy permit for any such class or type of construction unless the applicant submits appropriate plans and specifications certified or approved by the department. Upon submission by an applicant of such certified approved plans and specifications, the enforcing agency shall recognize the approval when deciding whether to approve the application for a construction permit.

- **b.** A construction permit, issued in accordance with the foregoing provisions, pursuant to which no construction has been undertaken above the foundation walls within one year from the time of issuance, shall expire.
- **c.** The enforcing agency may revoke or cancel a construction permit in the event the project for which the permit is obtained is not completed by the third anniversary of the date of issuance of the construction permit. Notwithstanding the provisions of any other law, rule or regulation to the contrary, the enforcing agency may revoke or cancel a construction permit in effect on the effective date of <u>P.L.2001, c.457</u> (<u>C.52:27D-131.1</u> et al.), if the project for which the construction permit was obtained is not completed by the third anniversary of the effective date of <u>P.L.2001, c.457</u> (<u>C.52:27D-131.1</u> et al.).

**d.** If the project for which the permit is obtained is not completed by a deadline set forth in this section, the permittee may submit a request for an extension of the permit to the enforcing agency for review. The enforcing agency may extend the permit for a period of one year. Approval of the extension shall not be unreasonably withheld. Denial of a request for an extension may be appealed to the county construction board of appeals established pursuant to section 9 of P.L.1975, c.217 (<u>C.52:27D-127</u>). If a project is not completed within the deadline set forth in this section, the enforcing agency shall take all appropriate action up to and including demolition of the uncompleted structure.

The provisions of this subsection shall not apply to a permit obtained: (1) to construct improvements to the interior of a residential property in which the permittee is currently residing that are not visible from the outside of the residential property, (2) for any building of which the exterior and all required site improvements have been fully constructed, or (3) for a project while that project is under the control of a mortgagee in possession.

The enforcing agency may suspend, revoke or cancel a construction permit in case of neglect or failure to comply with the provisions of this act or the code, or upon a finding by it that a false statement or representation has been made in the application for the construction permit.

Property owner's <u>USCS Const. #### Constitutional Law: Substantive Due Process: Scope of Protection

Property owner failed to show that its substantive due process rights were violated by a 65-calendar day delay in issuing construction permits because no conscience shocking conduct on defendants' part was shown; the 65-day delay was not excessive and did not, by itself, shock the conscience, and the fact that one defendant, a code enforcement department director, may have had improper motives for delaying the issuance of the permits was not relevant for purposes of establishing whether or not defendants' governmental conduct was so egregious as to shock the conscience. Cherry Hill Towers, L.L.C. v. Twp. of Cherry Hill, 407 F. Supp. 2d 648, 2006 U.S. Dist. LEXIS 230 (D.N.J. 2006).

## § 52:27D-131.1. Removal, demolition of certain building, structure

- **a.** If the owner of a building or structure fails to comply with a removal or demolition order issued by an enforcing agency under authority of *P.L. 2001, c. 457* (*C. 52:27D-131.1* et al.) or of P.L. 1975, c. 217 (*C. 52:27D-119* et seq.), the enforcing agency may cause such building or structure to be removed or demolished or may notify the governing body of the need to contract for the removal or demolition thereof in accordance with the provisions of the "Local Public Contracts Law," P.L. 1971, c. 198 (*C. 40A:11-1* et seq.). Such removal or demolition shall include the clearance, and any necessary leveling, of the site.
- **b.** The cost of any such removal or demolition, together with the cost of filing legal papers, expert witnesses' fees, search fees and advertising charges incurred in the course of any proceeding taken under *P.L.* 2001, c. 457 (C. 52:27D-131.1 et al.) or under P.L. 1975, c. 217 (C. 52:27D-119 et seq.), less any proceeds received by the enforcing agency from the sale of the materials of the building or structure, shall be a municipal lien against the real property upon which such cost was incurred. In the event that costs were paid by any governmental entity other than the municipality, the lien shall be assigned to that governmental entity. The lien shall be filed and shall be enforceable in the same manner as are other municipal liens.

# § 52:27D-132. Inspection of construction by enforcing agency; right of entry; stop construction orders; violations, reinspection

- **a.** The enforcing agency shall periodically inspect all construction undertaken pursuant to a construction permit issued by it to insure that the construction or alteration is performed in accordance with the conditions of the construction permit and consistent with the requirements of the code and any ordinance implementing said code.
- **b.** The owner of any premises upon which a building or structure is being constructed shall be deemed to have consented to the inspection by the enforcing agency and the department, of the entire premises and of any and all construction being performed on it until a certificate of occupancy has been issued. An inspector, or team of inspectors, on presentation of proper credentials, shall have the right to enter and inspect such premises, and any and all construction thereon, for purposes of ensuring compliance with the provisions of the applicable construction permit, the code, and other applicable laws and regulations. All inspection pursuant to this act [*C.52:27D-119*] et seq.] shall be between the hours of 9 a.m. and 5 p.m. on business days, or when construction is actually being undertaken, provided, however, that inspections may be conducted at other times if the enforcing agency has reasonable cause to believe that an immediate danger to life, limb or property exists, or if permission is given by an owner, or his agent, architect, engineer or builder. No person shall accompany an inspector or team of inspectors on any inspection pursuant to this act, unless his presence is necessary for the enforcement of this act, or the code, or unless consent is given by an owner or his agent, architect, engineer or builder.
- **c.** If the construction of a structure or building is being undertaken contrary to the provisions of a construction permit, this act, the code, or other applicable laws or ordinances, the enforcing agency may issue a stop construction order in writing which shall state the conditions upon which construction may be resumed and which shall be given to the owner or the holder of the construction permit or to the person performing the construction. If the person doing the construction is not known, or cannot be located with reasonable effort, the notice may be delivered to the person in charge of, or apparently in charge of, the construction. No person shall continue, or cause or allow to be continued, the construction of a building or structure in violation of a stop construction order, except with the permission of the enforcing agency to abate a dangerous condition or remove a violation, or except by court order. If an order to stop construction is not obeyed, the enforcing agency may apply to the appropriate court as otherwise established by law for an order enjoining the violation of the stop construction order. The remedy for violation of such an order provided in this subsection shall be in addition to, and not in limitation of, any other remedies provided by law or ordinance.
- **d.** When an inspector or team of inspectors finds a violation of the provisions of a construction permit, the code, or other applicable laws and regulations at an owner-occupied single-family residence, and issues a notice of violation and an order to terminate the violation, the enforcing agency shall require the same inspector or team of inspectors who found the violation to undertake any subsequent reinspection thereof at

the premises. When the same inspector or team of inspectors cannot be assigned to undertake the reinspection, the enforcing agency may assign an available inspector provided the scope of the reinspection shall be limited to the violation for which the reinspection is required. The requirements of this subsection shall not apply to violations of the plumbing or electrical subcodes, or to fire safety code violations, or to any violation of any other subcode that the Department of Community Affairs determines to be a health or safety violation. Nothing in this subsection shall be construed to infringe upon the right of a property owner to request a different inspector, team of inspectors, or supervisor, to perform any required reinspection.

## § 52:27D-133. Certificates of occupancy

No building or structure hereafter constructed shall be used or occupied in whole or in part until a certificate of occupancy shall have been issued by the enforcing agency. No building or structure hereafter altered, in whole or in part, shall be used or occupied until such a certificate has been issued, except that any use or occupancy in an already existing building or structure that was not discontinued during its alteration may be continued in the preexisting structure for 30 days after the completion of the alteration without the issuance of a certificate of occupancy. A certificate of occupancy shall be issued by the enforcing agency when all of the work covered by a construction permit shall have been completed in accordance with the permit, the code, and other applicable laws and ordinances. In the case of any new home subject to sales surcharge pursuant to P.L.1991, c.202 (C.46:3B-13 et al.) a certificate of occupancy shall not be issued except after presentation of a receipt, or verified duplicate thereof, from the Department of Community Affairs evidencing the payment of the surcharge. On request of a holder of a construction permit, the appropriate enforcing agency may issue a temporary certificate of occupancy for a building or structure, or part thereof, before the entire work covered by the construction permit has been completed, if the part or parts of the building or structure to be covered by the certificate may be occupied prior to completion of all work in accordance with the permit, the code, and other applicable laws and ordinances, without endangering the health and safety of the occupants or users. When a building or structure is entitled thereto, the enforcing agency shall issue a certificate of occupancy within 10 business days after receipt of a written application therefor in accordance with regulations established by the commissioner on a form prescribed by the commissioner accompanied by payment of a fee to be established by the municipal governing body by ordinance in accordance with standards established by the commissioner. The certificate of occupancy shall certify that the building or structure has been constructed in accordance with the provisions of the construction permit, the code, and other applicable laws and ordinances.

# § 52:27D-133.2. Valid bonding, grounding certificate; electrical certificate of compliance required

- **a.** A swimming pool shall not be opened for use or occupied in whole or in part by any person until a valid bonding and grounding certificate and electrical certificate of compliance are issued. The bonding and grounding certificate shall be evidence of continuity and integrity of the bonding system meeting the requirements of the electrical subcode of the State Uniform Construction Code. The electrical certificate of compliance shall not be issued unless a valid bonding and grounding certificate has been issued.
- **b.** The bonding and grounding certificate shall be valid for a period of five years from the date of issuance. The electrical certificate of compliance shall be renewed annually upon completion of a satisfactory inspection by the enforcing agency, which may charge a fee for each inspection. A swimming pool that is operated on a seasonal basis shall not be opened for the season until a new electrical certificate of compliance has been issued.
- **c.** If the inspection reveals any defective electrical condition on the pool premises that condition shall be repaired by an electrical contractor licensed in the State of New Jersey prior to issuance of the electrical certificate of compliance.
- **d.** The bonding and grounding certificate and the electrical certificate of compliance shall be posted in or about the pool pump house or structure that encloses the pool wiring.

# § 52:27D-133.3. Carbon monoxide sensor device required for issuance of certificate of occupancy; terms defined

- **a.** In any case in which a change of occupancy of any dwelling unit in a building with fewer than three dwelling units is subject to a municipal ordinance requiring the issuance of a certificate of occupancy, certificate of inspection or other documentary certification of compliance with laws and regulations relating to the safety, healthfulness and upkeep of the premises, no such certificate shall issue until the officer or agency responsible for its issuance has determined that: (1) the dwelling unit is equipped with one or more carbon monoxide sensor devices, or (2) that there is no potential carbon monoxide hazard in the dwelling unit. Any such determination shall be made in accordance with rules adopted by the Commissioner of Community Affairs.
- **b.** In the case of an initial occupancy or a change of occupancy of any dwelling unit in a building with fewer than three dwelling units to which the provisions of subsection a. of this section do not apply, no owner shall sell, lease or otherwise permit occupancy for residential purposes of that dwelling unit without first obtaining from the relevant enforcing agency under the "Uniform Fire Safety Act," P.L. 1983, c. 383 (*C. 52:27D-192* et seq.) a certificate indicating: (1) that the dwelling unit is equipped with one or more carbon monoxide sensor devices, or (2) that there is no potential carbon monoxide hazard in the dwelling unit. Any such determination shall be made in accordance with rules adopted by the Commissioner of Community Affairs.
- **c.** The local governing body having jurisdiction over the enforcing agency or, where the Division of Fire Safety is the enforcing agency, the Commissioner of Community Affairs, may establish a fee which covers the cost of inspection and of issuance of the certificate; however, if an inspection is being made and a certificate is being issued evidencing compliance with section 2 of <u>P.L. 1991, c. 92</u> (<u>C. 52:27D-198.2</u>), the fee authorized therein shall cover the costs of complying with this section.
- **d.** For the purposes of this section:
- "Carbon monoxide sensor device" means a carbon monoxide alarm or detector that bears the label of a nationally recognized testing laboratory, and has been tested and listed as complying with the most recent Underwriters Laboratories standard 2034 or its equivalent.
- "Dwelling unit" means a structure, or a room or group of rooms within a structure, used or intended for use, in whole or in part, for residential purposes.
- **e.** An owner who sells, leases or otherwise permits occupancy of a dwelling unit without complying with the provisions of this section shall be subject to a fine of not more than \$100, which may be collected and enforced by the local enforcing agency by summary proceedings pursuant to "The Penalty Enforcement Law of 1999," *P.L.* 1999, c. 274 (*C.* 2A:58-10 et seq.).
- **f.** This section shall become operative on the 61st day after enactment of <u>P.L. 2003, c. 44</u> (<u>C. 52:27D-133.5</u> et al.).

- **a.** An appeal to a county, municipal or joint construction board of appeals, a departmental appeal, or an appeal to a court of competent jurisdiction shall not automatically stay any order to stop construction issued pursuant to this act or prevent the seeking of an order in a court of competent jurisdiction to enjoin the violation of a stop construction order.
- **b.** Upon the 121st day subsequent to its filing, an appeal to a county, municipal or joint construction board of appeals, a departmental appeal, or an appeal to a court of competent jurisdiction shall not automatically stay any order, including orders to pay a penalty imposed pursuant to section 20 of P.L. 1975, c. 217 (<u>C. 52:27D-138</u>) or prevent the seeking of an order in a court of competent jurisdiction to enjoin the violation of any order of an enforcing agency, in connection with any property which is certified by a code enforcement official to be unoccupied. For the purposes of this section, a building may not be certified as unoccupied unless it has been unoccupied for a period of not less than six months.

Any party filing an appeal with a court of competent jurisdiction regarding violations assessed against property which has been certified as unoccupied pursuant to this section shall file a motion upon the initiation of the appeal requesting expedited consideration of the appeal on the ground that acceleration is warranted because the subject of the appeal involves matters of public safety. In the event the appeal is granted, the court shall grant the motion to expedite.

# § 52:27D-135. Premanufactured systems

The commissioner shall by rules promulgated hereunder establish a procedure whereby premanufactured systems intended for use in the State may, if entitled thereto, be issued a certificate of acceptability by the department at its place of manufacture. The procedure shall include a requirement that the manufacturer submit to the department detailed plans and specifications for the premanufactured system for approval in compliance with the requirements of the code.

It may also include a requirement that the manufacturer submit to the department test results on the premanufactured system, or its components, or any other material or information that the department considers relevant, or one or more of the premanufactured systems for testing and evaluation. The procedure shall require that premanufactured systems be inspected by the department or a qualified person selected by it, to determine that the premanufactured systems have been manufactured in accordance with the code and with the plans and specifications submitted to the department. Alternatively, the commissioner, after consultation with the code advisory board, may require that each premanufactured system bear the approved label of a qualified body selected by the commissioner. Said body shall have such follow-up inspection services as are satisfactory to the commissioner and shall certify that the premanufactured system complies with the code and with the plans and specifications submitted to the department. If an application for a construction permit specifying the use of a premanufactured system with a certificate of acceptability is submitted to an enforcing agency, and if the application complies in all respects with this act, the code and other applicable laws and ordinances, then the enforcing agency shall issue the construction permit within the time specified in section 13 hereof. At the time of installation, a premanufactured system with a certificate of acceptability shall be subject only to such nondestructive tests approved by the department as may be necessary to determine that it has not been damaged in transit or installation, and that it has been installed in accordance with the applicable construction permit and the code. The fees established and charged by an enforcing agency in connection with the granting of a construction permit on the basis of an application therefor specifying the use of a premanufactured system with a certificate of acceptability, or in connection with the inspection of the installation of such systems, shall bear a reasonable relationship to the costs incurred by the enforcing agency in performing such acts.

## § 52:27D-138. Penalties

- a. Any person or corporation, including an officer, director or employee of a corporation, who:
  - (1) Violates any of the provisions of this act or rules promulgated hereunder;
  - (2) Constructs a structure or building in violation of a condition of a building permit;
  - (3) Fails to comply with any order issued by an enforcing agency or the department;
  - **(4)** Makes a false or misleading written statement, or omits any required information or statement in any application or request for approval to an enforcing agency or the department;
  - (5) Knowingly sells or offers for retail sale any item, device or material, the regular and intended use of which would violate any provision of the State Uniform Construction Code;

Shall be subject to a penalty of not more than \$2,000; provided, however, that any penalties in excess of \$500.00 per violation may be levied by an enforcing agency only in accordance with subsection e. below.

Paragraph (5) above does not prohibit the retail sale or offering for retail sale of any item, device or material which has more than one regular and intended use, if one of those uses does not violate the code, provided that the item, device or material is not publicly advertised or otherwise promoted by the seller or manufacturer as suitable for a use that would violate any provisions of the code.

- **b.** Anyone who knowingly refuses entry or access to an inspector lawfully authorized to inspect any premises, building or structure pursuant to this act or who unreasonably interferes with such an inspection shall be subject to a fine of not more than \$250.00.
- c. With respect to subsection a. (3) of this section, a person shall be guilty of a separate offense for each day that he fails to comply with a stop construction order validly issued by an enforcing agency or the department and for each week that he fails to comply with any other order validly issued by an enforcing agency or the department. With respect to subsections a. (1) and a. (4) of this section, a person shall be guilty of a separate offense for each violation of any provision of this act or rules promulgated hereunder and for each false or misleading written statement or omission of required information or statement made in any application or request for approval to an enforcing agency or the department. With respect to subsection a. (2) of the section, a person shall be guilty of a separate offense for each violation of the conditions of a construction permit.
- **d.** The penalties pursuant to this section may be collected in a summary proceeding pursuant to the "Penalty Enforcement Law of 1999," *P.L.* 1999, c. 274 (C. 2A:58-10 et seq.). Jurisdiction to enforce such penalties is hereby conferred upon judges of the municipal court, in addition to the courts specified by *N.J.S.* 2A:58-2. Suit may be brought by a municipality or the State of New Jersey. Payment of a money judgment pursuant hereto shall be remitted, in the case of a suit brought by a municipality, to the municipal treasurer and in the case of a suit brought by the State of New Jersey, to the State Treasurer.

- e. Penalties in excess of \$500.00 per violation may be levied by an enforcing agency only as follows:
  - (1) A penalty for failure or refusal to comply with any lawful order shall not exceed \$1,000.00 per violation, unless the failure or refusal to comply is done with the knowledge that it will endanger the life or safety of any person, in which case the penalty shall not exceed \$2,000.00 per violation;
  - (2) A penalty for failure to obtain a required permit prior to commencing construction or for allowing a building to be occupied without a certificate of occupancy shall not exceed \$2,000.00 per violation;
  - (3) A penalty for failure to comply with a stop construction order shall not exceed \$2,000.00 per violation:
  - **(4)** A penalty for willfully making a false or misleading written statement, or willfully omitting any required information or statement in any application or request for approval, shall not exceed \$2,000.00 per violation;

For purposes of this subsection, in an occupied building, only a code violation involving fire safety, structural soundness or the malfunctioning of mechanical equipment that would pose a life safety hazard shall be deemed to endanger the life or safety of a person. In an unoccupied building only a code violation of a requirement intended to protect members of the public who are walking by the property shall be deemed to endanger the life or safety of a person.

#### CASE NOTES

#### **Governments: Local Governments: Licenses**

N.J. Stat. Ann. § 52:27D-138 creates a variety of penalties or sanctions to punish violators of either the specific provisions of the Uniform Construction Code Act, N.J. Stat. Ann. § 52:27D-119 to -141 (UCC Act), or its regulatory requirements. Some of the penalties are coercive, due to their ongoing and accruing nature until compliance is secured, and some are punitive, punishing particular violations by a discrete fine, but both types of penalties promote the purposes of the UCC Act by punishing to secure compliance as well as to deter future noncompliance with the UCC Act. Builders League of S. Jersey v. Borough of Pine Hill, 286 N.J. Super. 348, 669 A.2d 279, 1996 N.J. Super. LEXIS 7 (App.Div. 1996).

**Governments: Local Governments: Licenses** 

Uniform Construction Code Act, *N.J. Stat. Ann.* § 52:27D-119 to -141 (UCC Act), is designed to protect the health, safety, and welfare of people, and therefore its powers should be given liberal interpretation so the various enforcing authorities can act. The Act's provisions specifically include a legislative direction to be generous when in doubt about its powers, *N.J. Stat. Ann.* § 52:27D-141. *DKM Residential Props. Corp. v. Twp. of Montgomery, 182 N.J. 296, 865 A.2d 649, 2005 N.J. LEXIS 3 (N.J. 2005)*.

#### **Governments: Local Governments: Ordinances & Regulations**

N.J. Stat. Ann. § 52:27D-141 preempted a borough's ordinance requiring, as a condition for the issuance of a building permit, that past-due real estate taxes on the property be paid; N.J. Stat. Ann. § 40:52-1.2 did not provide the borough with authority for the ordinance because it was limited to authorizing the licensing of specifically enumerated merchants and businesses for the purpose of regulating them and generating revenue. Builders League of S. Jersey v. Borough of Pine Hill, 286 N.J. Super. 348, 669 A.2d 279, 1996 N.J. Super. LEXIS 7 (App.Div. 1996).
