

FEMA PUBLIC ASSISTANCE WORKSHOP

HOW YOU CAN MAXIMIZE SANDY RELATED ASSISTANCE FOR YOUR DEPARTMENT

- ***Was your department impacted by Hurricane Sandy?***
- ***Did your equipment sustain damage while responding?***
- ***Were you vehicles or building damaged by the storm?***
- ***Are you a volunteer agency and think you cannot benefit from FEMA assistance?***
- ***Were you recently awarded FEMA grants and wonder how Sandy will affect you?***

If so, we would like to invite fire departments, both paid and volunteer, and non-hospital based EMS agencies to attend a workshop with FEMA Public Assistance and Grants Specialists. For your convenience, three workshops have been set up throughout the State. No registration is required, but we ask that you complete and return the attached survey prior to the workshop so that we may better understand your needs and concerns.

Who Should Attend?

Department Chiefs
Department Operations Officers
Finance Officers / Treasurers
Squad / Department Presidents
Department grant administrators
