- 30 to 60 second PSA's
- Guides on creating a Community Coalition
- Guides on how to become a Fire Adapted Community and help pre-emptive against wildland fires
- Home assessments
- And many more documents about land and home preparation

The RSG! Program provides for active implementation and maintenance of community preparedness education and action. Becoming a RSG member can improve an ISO rating.

The Wildland Fire Assessment Program (WFAP) is a joint effort by the U.S. Forest Service and the NVFC to provide volunteer firefighters and non-operational personnel, such as Fire Corps members, with training on how to properly conduct assessments for homes located in the wildland-urban interface (WUI). This is the first program targeted to volunteers that specifically prepares them to evaluate a home and provide residents with recommendations to protect their property from wildfires in order to become a more a fire-adapted community.
