# CHECK YOUR FDC

Fire Department Connections (FDC) are an important asset for firefighters. They should be checked, especially after periods of urban unrest.

Though not all protests cause property damage, some do.

Check the NFPA guidelines by clicking the adjacent graphic to make certain you know the Code.

- Periodically ensure FDCs are operational and free from debris.
- Plan for an alternate source of water in case a FDC is broken.
- Ensure any damaged or missing components are promptly fixed or replaced.
