

**Public Notice and Summary
of**

New Jersey's Draft 2014 Consolidated Plan

June 6, 2014

The Consolidated Plan combines all of the planning and application requirements of the US Department of Housing and Urban Development's Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), HOME Investment Partnerships (HOME) and the Housing Opportunities for People with AIDS (HOPWA) programs into a single application.

Any comments regarding the draft Consolidated Plan can be presented at a hearing scheduled for July 1, 2014 at the Department of Community Affairs building located at 101 S. Broad Street, Trenton, New Jersey in room 129 from 10:00 AM to 11:30 AM or can be forwarded to Sheri Malnak, at the Department of Community Affairs, Division of Housing and Community Resources, PO Box 051, Trenton, New Jersey 08625-0051 until July 8, 2014.

Executive Summary

In accordance with the rules and regulations of the U.S. Department of Housing and Urban Development (HUD), the State of New Jersey must prepare a Consolidated Plan in order to receive federal funding from the following housing and community development programs:

1. **Community Development Block Grant Program (CDBG)** which provides funds to rehabilitate housing, create suitable living environments, and enhance economic opportunities in non-entitlement areas throughout the State.
2. **Emergency Solutions Grant Program (ESG)** which provides grants to create, expand or improve the quality of shelters and transitional housing facilities. The program also provides temporary financial assistance and services to prevent households from becoming homeless; divert people who are applying for shelter into other housing; and help those who are experiencing homelessness to be quickly re-housed and stabilized.
3. **HOME Investment Partnerships Program (HOME)** which provides funds to develop affordable housing units and provides rental assistance to victims of domestic violence and disabled households.
4. **Housing Opportunities for Persons with AIDs (HOPWA)** which provides housing assistance to low- income persons with HIV/AIDS.

The Consolidated Plan is prepared every five years and submitted to the US Department of Housing and Urban Development (HUD) for review and approval. The current five year plan which covers FFY 2010 – FFY 2014 was approved by HUD on August 24, 2010.

The 2014 Action Plan describes how scarce State and federal resources will be used to address the prioritized housing and community development needs identified in the current five-year Consolidated Plan.

One-Year Goals and Objectives

The following chart summarizes the FFY 2014 anticipated housing accomplishments and commitments. This chart divides all programs into one of nine objectives: 1) Low-income rental housing; 2) Housing stock preservation; 3) Increased LMI Homeownership; 4) Homeless and special needs housing; 5) Local homeless prevention planning; 6) Lead-based paint programs; 7) Preservation of a variety of housing options; 8) Community and economic development projects; and 9) Fair housing practices.

OBJECTIVE	ONE YEAR GOALS	PROGRAM	FFY 2013 Actual Funding Level	FFY 2013 Actual Activity Level	ESTIMATED FFY 2014 Funding Level	ESTIMATED FFY 2014 Activity Level
1. Expand the supply and availability of affordable and accessible rental housing for very low and low-income individuals and families.	5,559 units	Special Needs Housing Trust Fund	\$7,520,498	126 units	\$15,220,055	255 units

*If funding is available, the DCA will develop an education campaign to address the negative public perceptions about affordable housing.

Definitions

Area of Low-income Concentration: any municipality in the State where at least 20% of its households earn incomes up to 50% of State median family income.

Area of Minority Concentration: any municipality where the total percentage of minority persons exceeds 30% of its population.

At Risk of Homelessness:

- 1) An individual or family who:
 - Has an annual income below 30% of median family income for the area, as determined by HUD;
 - Does not have sufficient resources or support networks; and meets one of the following conditions:
 - Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
 - Is living in the home of another because of economic hardship;
 - Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;
 - Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, state, or local government programs for low-income individuals;
 - Lives in a single-room occupancy or efficiency apartment unit in which more than two persons resides or lives in a larger housing unit in which more than 1.5 people per room resides;
 - Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program); or
 - Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan; or
- 2) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 387(3) of the Runaway and Homeless Youth Act (42 U.S.C. 5732a(3)), section 637(11) of the Head Start Act (42 U.S.C. 9832(11)), section 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C. 14043e-2(6)), section 330(h)(5)(A) of the Public Health Service Act (42 U.S.C. 254b(h)(5)(A)), section 3(m) of the Food and Nutrition Act of 2008 (7U.S.C. 2012(m)), or section 17(b)(15) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(15)); or

- 3) A child or youth who does not qualify as "homeless" under this section, but qualifies as "homeless" under section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), and the parent(s) or guardian(s) of that child or youth if living with her or him.

Chronically Homeless: is an unaccompanied disabled individual who has been continuously homeless for over one year and.

- 1) An individual who is homeless and lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and has been homeless and living or residing in a place not meant for human habitation, a safe haven, or in an emergency shelter continuously for at least one year or on at least four separate occasions in the last 3 years, where each homeless occasion was at least 15 days; and can be diagnosed with one or more of the following conditions: substance use disorder, serious mental illness, developmental disability (as defined in section 102 of the Developmental Disabilities Assistance Bill of Rights Act of 2000 (42 U.S.C. 15002), post-traumatic stress disorder, cognitive impairments resulting from brain injury, or chronic physical illness or disability;
- 2) An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) before entering that facility; or
- 3) A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1); including a family whose composition has fluctuated while the head of household has been homeless.

Cost Burden > 30%: monthly housing costs, including utility costs, exceed 30% of gross income.

Cost Burden > 50% (Severe Cost Burden): monthly housing costs, including utility costs, exceed 50% of gross income.

DCA: Department of Community Affairs

Elderly Household: a one or two persons household in which the head of the household or spouse is at least 62 years of age.

Elderly Person: a person who is at least 62 years of age.

Frail Elderly: an elderly person who is unable to perform at least 3 activities of daily living (e.g. eating, dressing, bathing, grooming, and household management activities).

Homeless:

- People who are living in a place not meant for human habitation, in an emergency shelter, in transitional housing, or are exiting an institution where they resided for up to 90 days (and were in a shelter or place not meant for human habitation immediately prior to entering that institution).
- People who are losing their primary nighttime residence, which may include a motel or hotel or a doubled up situation, within 14 days and lack the resources or support networks to remain in housing.
- Families with children or unaccompanied youth who are unstably housed and likely to continue in that state (have not had a lease or ownership interest in a housing unit in the last 60 or more days, have had two or more moves in the last 60 days, and who are likely to continue to be unstably housed because of a disability or multiple barriers to employment).
- People who are fleeing or attempting to flee domestic violence, have no other residence, and lack the resources or support networks to obtain other permanent housing.

Low-income household: household whose annual income does not exceed 80% of Area Median Income (AMI).

Household: one or more persons occupying a housing unit.

Poverty Guidelines: 2014 HHS Poverty Guidelines:

2014 HHS Poverty Guidelines							
Size of family	100 Percent of Poverty	110 Percent of Poverty	125 Percent of Poverty	150 Percent of Poverty	175 Percent of Poverty	185 Percent of Poverty	200 Percent of Poverty
1	\$11,490	\$12,639	\$14,363	\$17,235	\$20,108	\$21,257	\$22,980
2	\$15,510	\$17,061	\$19,388	\$23,265	\$27,143	\$28,694	\$31,020
3	\$19,530	\$21,483	\$24,413	\$29,295	\$34,178	\$36,131	\$39,060
4	\$23,550	\$25,905	\$29,438	\$35,325	\$41,213	\$43,568	\$47,100
5	\$27,570	\$30,327	\$34,463	\$41,355	\$48,248	\$51,005	\$55,140
6	\$31,590	\$34,749	\$39,488	\$47,385	\$55,283	\$58,442	\$63,180
7	\$35,610	\$39,171	\$44,513	\$53,415	\$62,318	\$65,879	\$71,220
8	\$39,630	\$43,593	\$49,538	\$59,445	\$69,353	\$73,316	\$79,260

Project-Based Assistance: rental assistance provided for a project, not for a specific tenant. Tenants receiving project based rental assistance give up the right to that assistance upon moving from the project.

Standard Condition: the condition of a dwelling unit that meet Housing Quality Standards or local code.

Substandard Condition but Suitable for Rehabilitation: the condition of a dwelling unit that does not meet standard conditions but is both financially and structurally feasible for rehabilitation.

Supportive Services: services provided to residents of supportive housing for the purpose of facilitating the independence of residents; including but not limited to: case management, medical or psychological counseling, childcare, transportation, and job training.

Matching Funds

Three of the four programs covered in the Consolidated Plan require matching funds.

- The HOME Program requires a 25% match which will be covered by the State Rental Assistance Program (SRAP).
- The Emergency Solutions Grant (ESG) Program requires a 1:1 state match for every dollar of federal ESG funds expended. This matching requirement will be met through a combination of Affordable Housing Trust funds and State Homelessness Prevention funds.
- The Community Development Block Grant Program requires that administrative funds expended in excess of \$100,000 be matched on a 1:1 basis. This match will be covered by Affordable Housing Trust funds.

Fair Housing

The State will continue to provide housing opportunities to all eligible residents regardless of race, religious creed, color, national origin, sex, sexual orientation, age, ancestry, familial status, veteran status, or physical or mental impairment. It is the State's objective to ensure that all of its programs and policies create safe, decent and affordable housing opportunities that are geographically and architecturally accessible to all New Jersey residents.

The State seeks to promote fair housing and equal housing opportunity by requiring its grantees to comply with State and federal civil rights laws in the marketing of the low-income housing they develop. Complaints involving all forms of housing discrimination are referred to the following agencies:

- **The New Jersey Division on Civil Rights** which is responsible for investigating discrimination complaints and eradicating illegal discrimination in New Jersey by enforcing the Law Against Discrimination; and
- **The US Department of Housing and Urban Development's Office of Fair Housing and Equal Opportunity** which administers and enforces federal laws and establishes policies that make sure all Americans have equal access to the housing of their choice.

In addition, the State will continue to coordinate housing and economic development strategies in order to advance fair housing throughout the state.

Outcomes

Objective #1: Suitable Living Environment		
Outcome 1: Enhance suitable living environment through improved/new accessibility	Outcome 2: Enhance suitable living environment through improved/new affordability	Outcome 3: Enhance suitable living environment through improved/new sustainability
Number of units that have been modified to improve accessibility for special needs populations for the purpose of creating a suitable living environment	Number of units made more energy efficient through LIHEAP and Weatherization funds for the purpose of creating a suitable living environment	Number of households that have access to public sewer and potable water for the purpose of creating a suitable living environment
Number of homeless persons who have access to short-term shelter with appropriate case management services that focus on movement to permanent housing and necessary support services.		Number of units where lead-based paint hazards have been mitigated for the purpose of creating a suitable living environment
Objective #2: Decent Affordable Housing		
Outcome 1: Create decent housing with improved/new availability	Outcome 2: Create decent housing with improved/new affordability	Outcome 3: Create decent housing with improved/new sustainability
Number of new affordable housing units built for low-income households for the purpose of creating affordable housing	Number of households provided with on-going rental assistance for the purpose of creating affordable housing	Number of "Green" sustainable/energy-efficient units built for the purpose of creating affordable housing
Number of new rental units built for moderate-income for the purpose of creating affordable housing	Number of persons living with HIV/AIDS that were assisted with on-going housing subsidies for the purpose of creating affordable housing	Number of existing housing units rehabilitated for the purpose of creating affordable housing
Number of new shelter beds created for homeless individuals and families for the purpose of creating affordable housing	Number of households that received down payment assistance and below-market rate mortgages to become first-time homebuyers for the purpose of creating affordable housing	Number of existing housing units preserved for the purpose of creating affordable housing
Objective #3: Creating Economic Opportunities		
Outcome 1: Provide economic opportunity through improved/new accessibility	Outcome 2: Provide economic opportunity through improved/new affordability	Outcome 3: Provide economic opportunity through improved/new sustainability
Number of jobs created for very-low, low- and moderate-income households for the purpose of creating economic opportunity	Number of towns provided with Special Improvement District Grants and Loans for the purpose of creating economic opportunity	Number of Main Streets provided with technical assistance for the purpose of creating economic opportunity
		Number of building facades, streetscapes rehabilitated for the purpose of creating economic opportunity

Consolidated Plan Process

The New Jersey Department of Community Affairs (DCA) is the lead agency responsible for the development of the Consolidated Plan for the State of New Jersey. The New Jersey Department of Health (DOH) and the New Jersey Housing and Mortgage Finance Agency (HMFA) also work closely with DCA staff in preparing the Consolidated Plan.

The preparation of the draft Consolidated Plan involved the following: a developmental conference call; meetings with program grantees; and a review of customer service calls.

Developmental Conference Call:

DCA held a developmental conference call on April 16, 2014 to obtain public input on the housing and community development needs throughout the State; the comments received assisted DCA in developing its Draft 2014 Consolidated Plan. The conference call notification was posted on the Division of Housing and Community Resources' web site on Friday, March 28, 2014. In addition, e-mail notifications were sent to all of the County Continuum of Care and DCA's Community Development Block Grant agencies.

For those persons who were unable to attend the conference call, written comments on the needs of the State were accepted until May 1, 2014.

Seventeen individuals representing nonprofits, for-profits, lobbying agencies, government agencies, and concerned citizens participated on the call. DCA received verbal comments from 6 participants and written comments from 6 participants.

A summary of the comments received are as follows:

Comment: Affordable housing and Emergency Solutions Grants are necessary to address homeless.

Response: The State concurs with your comment that affordable housing and grants to create and maintain emergency shelters and transitional housing facilities are necessary to address homelessness. The State will continue to fund both initiatives.

Comment: The Money Follows the Person Program/ I Choose Home NJ moves individuals (elderly and people with physical disabilities) out of a nursing home and back into the community; through this program, 1,160 individuals have transitioned back into the community. The lack of affordable and accessible housing is a major barrier to finding a decent and safe place to live. Please add the need to find accessible and affordable housing for the extremely low income individuals transitioning back into the community from nursing homes through the ICHNJ/MFP program.

Response: The State will continue to promote the creation of more affordable and accessible housing to meet the housing needs for all special needs populations. Your comment regarding the need to prioritize the development of accessible housing for individuals moving out of nursing homes has been forwarded to the Administration for consideration.

Comment: There is a severe shortage of housing in New Jersey. I am appalled that we have families living in the woods and in cars. Every town should have an emergency shelter – Ocean County has none. There are successful models across the country dealing with homelessness such as Housing First and 100,000 homes

Response: The State will continue to provide funds to maintain shelter facilities through its Shelter Support Program. In addition, the State will continue to support Housing First/Rapid-Rehousing programs that move homeless households from shelters into permanent supportive housing with a level of services commensurate with their needs.

Comment: Something needs to be done about the condition of neighborhoods, especially in Newark and Essex County, where rehabilitation work has been completed; some neighborhoods are in such bad condition that it is having a severe effect on the ability to sell or rent newly rehabilitated properties.

Response: Cities can help improve conditions of neighborhoods through implementing a local property maintenance code and enforcing zoning and local building code compliance. Generally grant applicants are required to have implemented property maintenance codes as a condition of receiving an award.

Comment: The State needs to address the housing needs of youth (18-23 years old) and ex-offenders who do not qualify for public housing.

Response: The State does address the housing needs of aging out youth through many of its special needs programs such as Shelter Plus Care and SRAP Project-Based Assistance. In regards to the ex-offenders who do not qualify for public housing, DCA in collaboration with the State Parole Board provide up to 6 months of housing assistance in a shelter setting to ex-offenders (except arsonists and sex offenders).

Comment: Housing rehabilitation is needed throughout the State.

Response: The State concurs with your statement that housing rehabilitation is needed and will continue to allocate a portion of its scarce resources to support same.

Comment: Affordable housing is a barrier. There needs to be more collaboration with the COCs to coordinate local planning efforts.

Response: The State will continue to work with the County Continuum of Care to help

obtain HUD resources to address homelessness.

Comment: The Plan should show how programs are expanding by comparing last year's expenditures to this year's expenditures. In addition, it should provide information on projects funded.

Response: The charts listed under One Year Goals and Objectives provide data on FFY 2013 accomplishments and expenditures and the projected accomplishments and expenditures for FFY 2014. In addition, in the Annual Performance Report, the State includes charts from the Integrated Disbursement and Information System that identifies projects completed with federal CDBG, HOME and ESG funds.

Meetings with Program Grantees:

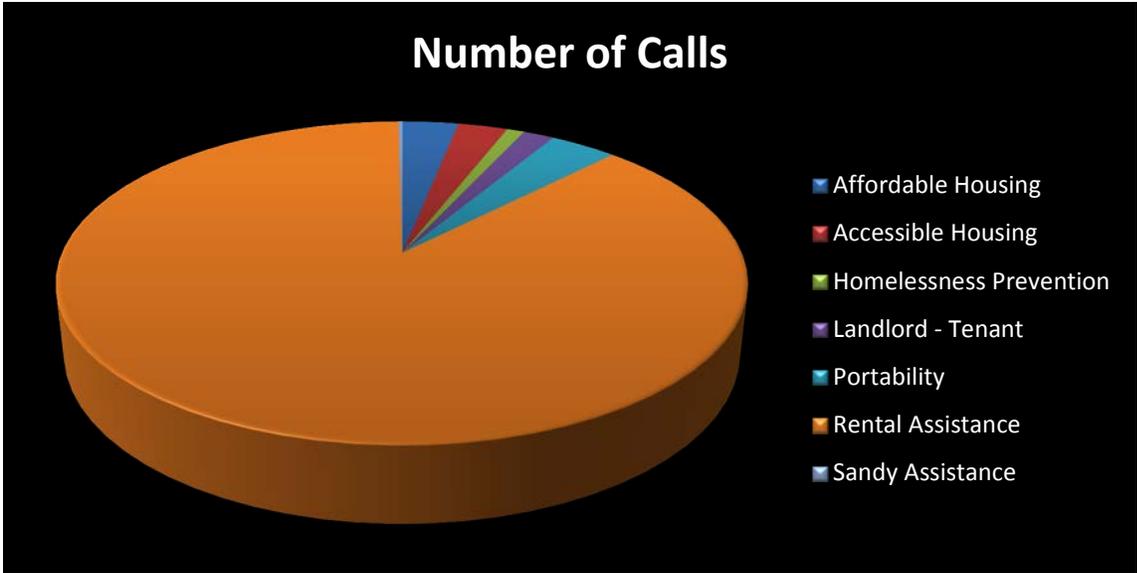

During the course of the past year, the State gathered input on New Jersey's housing and community development needs. These meetings were conducted in order to ensure that the interests and needs of all groups were being adequately addressed. These agencies are on the "front line" and provide the direct services to New Jersey's very low, low and moderate-income households. During these meetings, the priorities of the programs and how the funds can be used more effectively was also discussed. As both State and federal funding becomes scarcer, these types of meetings will continue. The consensus from the comments received was that the major housing and community development needs continue to be the following:

1. Providing decent, safe affordable housing for both families and disabled households;
2. Providing safety nets and services to stabilize the homeless population and eventually move them into permanent housing;
3. Supporting community and economic development projects that will help stabilize neighborhoods; and
4. Funding for the purchase of generators and other auxiliary power sources to enable emergency shelters to remain open during a major storm.

As expected the magnitude of the needs vary significantly between rural New Jersey and its urban areas.

Customer Serviced Unit Calls:

The State also tracked the issues and imminent needs of the calls coming into the Division of Housing and Community Resources' Customer Service Unit over a 9 week period (March 1, 2014 – April 30, 2014). During this time period, the Customer Service Unit received over 1,500 calls; the callers' major needs were rental assistance, Sandy assistance, homelessness prevention, landlord/tenant issues and accessible housing.

Public Hearing and Comment Period: On, June 6, 2014 DCA published a public notice on the Division of Housing and Community Resources' web site announcing the commencement of the public comment period and the scheduling of a public hearing for July 1, 2014 at the Department of Community Affairs building located at 101 S. Broad Street, Trenton, New Jersey.

Substantial Amendments: The State will give the public an opportunity to comment on all substantial amendments to the Plan. The State defines a substantial amendment as the following: any significant change in the priority goals and/or in the distribution of funds (changes exceeding 25%). In the case of a substantial amendment the State will publish these changes on the Division of Housing and Community Resources' website and provide citizens with a 30 day comment period.

Annual Performance Report: the State will provide a 15 day comment period to receive public comments on the Annual Performance Reports.

Evaluation of Past Performance

This section of the plan summarizes the State's performance in FFY 2013 to support the housing and community development goals identified in the Consolidated Plan. During FFY 2013, the State leveraged federal funds with other State funds to assist our most vulnerable populations. Last year, more than 300,000 individuals throughout the State received assistance from DCA's and HMFA's various programs.

FFY 2013 ONE YEAR HOUSING OUTCOMES

ONE-YEAR HOUSING OUTCOMES	AMOUNT OF FUNDS	NUMBER
1. Expand the availability and supply of safe, decent, affordable, and accessible rental housing for very-low and low-income individuals and families.	\$347,409,649	4,999 units
2. Improve and preserve the existing affordable housing stock and neighborhoods.	\$351,609,649	545 units
3. Increase homeownership opportunities for low and moderate-income households.	\$253,745,611	1,596 households & 10 units
4. Assist homeless or at risk of becoming homeless and special needs individuals and families and obtain and maintain permanent housing, with needed support services to become self-sufficient.	\$392,626,542	25,647 households & 362,056 individuals &
5. Support local jurisdictions' planning process to reduce and end homelessness.	\$875,911	275 agencies
6. Promote lead-based paint education and abatement efforts.	\$0	N/A
7. Preserve and maintain safe and decent housing stock to assure a mix of housing options in all neighborhoods, including temporary and permanent housing.	\$217,654,446	287,784 households, 668 individuals and 4,500 units
8. Support community and economic development programs that expand business enterprises and increase job opportunities for low- and moderate-income households.	\$16,759,582	33 grants in 26 municipalities and 30,000 individuals
9. Promote fair housing practices and educate the public about the benefits and the need for affordable housing.	N/A	N/A

Council on Affordable Housing

On April 30, 2014, the Council on Affordable Housing (COAH) proposed procedural and substantive rules that are a necessary administrative action to establish the statewide affordable housing need for the period 1999-2024, assign each municipality its affordable housing obligation, and set forth the affordable housing delivery techniques available to each municipality to address its obligation.

The Council's rules have had an impact on a majority of the 565 municipalities in the State of New Jersey, either through direct participation in the Council's process or through application of the rules in the judicial process.

As a result of the Council's programs, more than 64,000 affordable housing units have been built or are under construction. Approximately 16,000 deficient housing units with major systems in need of repair have been rehabilitated to code standard for low- and moderate-income households. The existence of a variety of housing types has increased consumer choice. Hardship conditions due to high housing costs or housing unavailability in some areas have been lessened. The public will continue to benefit since the Council's rules have been the basis for the creation of additional housing affordable to low- and moderate-income households.

The overriding objective of these proposed rules is to substantially increase the number of affordable housing units that will actually be built over the next ten years.

Barriers to Affordable Housing

There are a myriad of both State and federal issues affecting the availability of affordable housing.

Poor credit: Many very low and low-income households have difficulty obtaining adequate housing as a result of credit problems.

Shortage of Rental Assistance: The State is experiencing a shortage of available rental housing at every level. This is particularly the case with affordable housing. Many at-risk households turn to rental assistance programs to maintain and secure housing. The State, through the Housing Choice Voucher Program, HOME Tenant-Based Rental Assistance Program and the State Rental Assistance Program, is working to assist as many very low- and low-income households as possible within our financial constraints.

Shortage of Workforce Housing: The shortage of affordable housing for low and moderate-wage workers is a problem in New Jersey. Many of these workers can only find affordable housing by living far from their jobs and enduring long commutes. This increases suburban sprawl and leads to excessive automobile commuting and energy use.

Not in My Backyard (NIMBY)/Racial, Ethnic and Income Discrimination: Perhaps the primary obstacle to affordable housing is the overall misconception as to how affordable housing impacts a community. The public perception is that it will attract a population of poor and uneducated individuals; resulting in increased crime, decreased property values and social unrest. Community leaders are very much influenced by these public misconceptions. As a result, even if a municipality has the land and physical plant to support denser, more affordable housing, it may lack the will to do so. NIMBY attitudes were the targets of the New Jersey State Supreme Court Mount Laurel decisions and the State's Fair Housing Act of 1985. These initiatives try to extend housing opportunities for people earning less than 80% of median county income.

Land Use Regulations: Two types of regulations affect housing costs: development regulations and land-use regulations. Development regulations, such as the construction code, place minimum standards on how developers build, while land-use regulations (zoning laws, environmental protection requirements) define the conditions and the amount of land available for development. Land-use regulations fundamentally affect land and housing costs and are slow to respond to changes in housing demand. They dictate what, where, and how much gets built and under what conditions.

New Jersey has an array of state and local land-use regulations. The most basic control is municipal zoning. Municipal zoning is defined locally and authorized through the State's municipal land use law. At the state level, special districts, commissions, and offices, regulate land-use development in historic districts, wetlands, and other designated areas. State law includes the Coastal Area Facilities Review Act, which requires permits for certain developments in specified coastal areas. The Wetlands Protection Act regulates development in protected wetlands. The Pinelands Protection Act protects about one million of the State's 4.8 million acres, and the Delaware and Raritan Canal Commission controls development along the canal. The New Jersey Meadowlands Commission is responsible for environmental protection, economic development and solid waste management of 19,730 acres in 10 Bergen County and 4 Hudson County communities.

On August 10, 2004, the *Highlands Water Protection and Planning Act* went into effect. This historic law protects drinking water for over 5.4 million people, preserves open space and provides effective regional planning for the Highlands region. The law is implemented by the Highlands Water Protection and Planning Council, a public body charged with developing a regional master plan, performing land use functions and protecting the region's critical environmental areas and high resource lands.

For state and local regulations to work well, they must balance the mandates of a host of public land-based policies, some of which conflict.

Development Standards: Building, fire safety, site, and subdivision standards set a minimum level of protection for the public. The implementation of these standards attempts to make the development and construction process more consistent,

predictable, and timely.

Redundancy in the Permit Process: Housing and other development in New Jersey must be approved by several State agencies, regional planning agencies, county planning boards, sewer/wastewater treatment utilities, soil conservation agencies, and municipal planning boards. Although New Jersey has made progress to streamline the residential construction process and make it more consistent, predictable, and timely, delays and duplications remain.

Infrastructure Financing: Like most states, New Jersey has struggled with how to maintain roads, sewers, potable water, parks, and other public facilities and how to build and maintain new infrastructure. To pay for these needs, New Jersey has relied increasingly on user fees and other pay-as-you-go approaches. Builders are assessed impact and linkage fees to pay more of the cost of public facilities and services. These costs tend to be passed on to new homeowners and renters.

New Jersey Property Taxes- Highest Per Capita in the Nation: New Jersey's state and local tax burden percentage has consistently ranked among the nation's highest; the tax burden is estimated at 12.2% of income above the current national average of 9.8%. Currently residents pay \$6,751 per capita in state and local taxes. (Tax Foundation)

Redevelopment: Redevelopment that leads to the demolition or conversion of both subsidized and unsubsidized/market rate housing, resulting in displacement or exclusion of lower-income households.

Strategies to Address Barriers to Affordable Housing

New Jersey has a number of policies, programs and proposals to address regulatory barriers to affordable housing:

1. *Poor credit.*

DCA will continue to partner with HMFA to provide credit counseling to very low-income and low-income Section 8 households interested becoming homeowners.

In addition, DCA is providing credit counseling to eligible households, (30% or less of AMI), receiving prevention and rapid re-housing assistance through its Homelessness Prevention and Rapid Re-Housing 2 Program.

2. *Shortage of Rental Assistance*

DCA will continue to apply for additional competitive vouchers through the Family Unification Program, the Veterans Affairs Supportive Housing Program, and the Non-Elderly Disabled Program.

3. *Shortage of Workforce Housing*

The HMFA administers the Live Where You Work Program (LWYW). This program provides low-interest, fixed rate mortgage loans to first-time homebuyers purchasing homes in towns where they are employed. Additional program benefits include downpayment and closing cost assistance for the purchase of a home within Smart Growth areas and flexible underwriting criteria for the loan qualification process.

Over the next year the State will do the following:

- Continue to improve communication and coordination between the following State agencies - DCA, HMFA, Department of Human Services and Department of Children and Families - as it relates to encouraging the development of housing opportunities in the State and applying for federal grants to obtain additional rental assistance vouchers.
- Promote, create and sustain mixed-income communities in New Jersey's urban, suburban, and rural towns through new policies and programs that will connect housing development to regional jobs centers, quality schools, health care facilities and transportation.
- Preserve and maintain, to the greatest extent possible, all safe and decent housing stock to assure a mix of housing options in all neighborhoods.

- Fund projects that are affordable, safe and diverse in their marketing plans to ensure the inclusion of individuals least likely to apply for such housing opportunities.

4. *Not in My Backyard (NIMBY)/Racial, Ethnic and Income Discrimination*

Promote the development of an educational effort to dispel the myths about affordable housing, build support for and neutralize opposition to new housing development. An education campaign is necessary to address the negative public perceptions that often create political barriers to efforts to expand housing, particularly affordable housing in many New Jersey communities. Attention must be given to inaccurate stereotypes of affordable housing that promote the idea that it will become a public eyesore, lower property values and attract crime.

A public awareness program would focus on actual developments that have produced successful examples of higher density housing outside of urban areas, inclusionary housing combining a mix of income ranges and housing in appropriate settings for special needs and homeless populations.

This campaign should also include a component to help local political leaders learn effective strategies that can be used to build political will and lessen resistance to affordable housing in their towns and regions.

5. *Land Use Regulations*

Promote the establishment of a Land Use Court. Greater efficiency in the disposition of lawsuits over land use could be achieved through the creation of a specialized court within the Superior Court. Judges who are familiar with the intricacies of the law could deliver decisions faster and of higher quality and consistency than is presently the norm. A land use court has been a topic of interest for a number of years among developers and attorneys as well as state policy makers. Legislation was introduced in 2005, but was not adopted.

The DCA also proposes that all land development requirements are adopted into a single code to be enforced at the municipal level.

6. *Development Standards*

New Jersey adopted a Rehabilitation Subcode that has decreased rehabilitation costs by 25 percent and increased rehab activity by approximately 25 percent. Rehabilitation codes encourage reinvestment in older buildings by setting specific standards that recognize their special characteristics.

The State will promote transit accessible, pedestrian-friendly and environmentally responsible communities within easy reach of employment opportunities.

The Transit Village Initiative creates incentives for municipalities to redevelop or revitalize areas around transit stations using design standards of “Transit Oriented Development” (TOD). This initiative encourages the development of pedestrian friendly neighborhoods.

7. *Redundancy in the Permit Process for Economic Development Projects*

On March 1, 2012, Governor Christie signed into law Assembly Bill No. 2853 which directs state and local agencies that issue permits to businesses related to economic development to streamline the process by which the permits are issued and monitored for compliance. The law requires State agencies to review the permits they currently issue to identify permits which: 1) can be administered through expedited processes, such as developing procedures for the electronic submission of permit applications; or 2) may be obsolete, are no longer necessary or cost more to administer than the benefits they provide.

8. *Infrastructure Financing*

DCA will continue to provide funds for infrastructure through its CDBG Program.

9. *Property Taxes*

In an effort to curb the highest property taxes in the country, the Christie administration enacted a 2% constitutional cap on annual property tax collections.

10. *Redevelopment*

The State will place a high priority on the long-term preservation of existing, viable affordable housing stock. Rehabilitating and improving existing affordable housing units produces less construction waste, uses fewer new materials and requires less energy than demolition and new construction. The following strategies to preserve and sustain New Jersey’s affordable units can help meet some of the affordable housing need.

Invest funds and use regulatory authority to economically, environmentally and socially revitalize our older communities and address our State’s housing needs.

Prevent and mitigate the impact of foreclosures on neighborhoods. The cost of foreclosure is not solely borne by individual homeowners. Properties left vacant for long periods have many negative impacts on a community. The surrounding neighbors are likely to see the value of their homes decline. The presence of abandoned houses in a neighborhood is a deterrent to buyers. Once a cluster of homes become vacant, the entire neighborhood is at risk.

- *National Foreclosure Mitigation Program:* HMFA was awarded a total of \$2.5

million under the National Foreclosure Mitigation Counseling Program. HMFA is allocating the funds to nonprofit housing counseling agencies throughout the State to enable them to provide increased foreclosure prevention counseling.

- *New Jersey Judiciary's Foreclosure Mediation Program (NJJFM)*: HMFA partnered with the Office of the Courts and the Attorney General's Office to administer the NJJFM Program. NJJFM provides homeowners with access to housing counselors and court trained mediators to resolve foreclosure actions by proposing work-out and payment arrangements between distressed borrowers and lenders. The program also provides free legal services to income-eligible homeowners.
- *New Jersey Homeownership Preservation Effort (NJ HOPE)* is a voluntary public/private alliance of government agencies, nonprofit organizations, and financial institutions committed to preserving homeownership status by raising consumer awareness of available mortgage products and funding, providing increased access to credit and loan counseling for those who need it, and providing temporary assistance to consumers who are in immediate danger of foreclosure.
- The *HomeKeeper Program* offers financial assistance to homeowners who are in danger of losing their homes as a direct result of unemployment or underemployment. Eligible homeowners may receive up to \$48,000 in assistance for a term of up to 24 months.

Low Income Housing Tax Credit Program

Section 42 of the Internal Revenue Code of 1986 created the Low-Income Housing Tax Credit (LIHTC) program, which may be applied against the federal income tax of persons or associations that have invested in certain developments providing housing for low-income families.

The tax credit, rather than a direct federal subsidy, provides a dollar for dollar reduction (or credit) to offset an owner's federal tax liability on ordinary income. Tax credit interest may be syndicated or sold to generate equity for the developments, thus reducing the necessary mortgage financing and providing more affordable terms. The tax credit frequently provides the last critical element to ensure the financial feasibility of the project. In New Jersey, the LIHTC Program is administered by the New Jersey Housing and Mortgage Finance Agency (HMFA).

The amount of tax credits available for allocation each year by HMFA is established pursuant to the Internal Revenue Code. Tax Credits are awarded for specific projects pursuant to the State's Low-Income Housing Tax Credit Qualified Allocation Plan. In order to be considered for tax credits in New Jersey, the proposed property must entail new construction, substantial rehabilitation, or acquisition and substantial rehabilitation.

Each year, the State publishes funding cycles and the amount of credits available in each cycle in The Atlantic City Press, The Record, Newark Star Ledger, The Courier News, The Asbury Park Press, The Camden Courier Post, Bridgeton Evening News and The Trenton Times. The program currently has four funding cycles:

1. *Family Cycle for non-age restricted developments.* This cycle has two set-asides:
 - HOPE VI/ CHOICE Neighborhood set-aside: The first reservation of credits from the Family Cycle shall be given to the highest-ranking eligible application from HOPE VI or CHOICE Neighborhood project with a majority of its units within a Qualified Census Tract.
 - Preservation set-aside: The second reservation of credits from the Family Cycle shall be given to the highest-ranking eligible application from a preservation project that meets all of the following criteria: project-based rental assistance expires/lapses earlier than the mortgage if paid off; project-based rental assistance subsidizes at least 50% of the total units; and the project has achieved a REAC score of 60 or higher (if applicable) for the preceding three years or, if the REAC score is below 60, the general partner/managing member of the proposed rehabilitation project shall not be a related party to the current ownership entity. Should no such projects apply, then the second reservation of credits from the Family cycle shall be given to the highest-ranking eligible applications from a preservation project.

2. *The Senior Cycle has one set-aside*, the HOPE VI/ CHOICE Neighborhood Set-Aside, described above in the Family Cycle.
3. *Special Needs Supportive Housing Cycle* for projects in which a minimum of 25% of the total number of project units is rented to a special needs population. At a minimum, a supportive housing project must have a social service coordinator and a social services plan that addresses the needs of the identified special needs population.
4. Final Cycle: All projects, including minimum rehabilitation projects, may apply to this cycle.

Action Plan

This action plan identifies how DCA will utilize its various resources to meet the housing needs of New Jersey residents during the next year.

Public Housing

The Department of Community Affairs is the State Public Housing Authority (PHA). In addition to administering over 21,000 vouchers, DCA oversees a Section 8 Homeownership Program and the Family Self-Sufficiency Program.

- The **Section 8 Homeownership Program** allows families who are receiving Section 8 rental assistance to use that assistance to help pay the mortgage on a home they buy. In order to qualify the family must:
 - Be a first-time homebuyer;
 - Be employed full time for at least one year with a minimum earned income of \$20,800 (except elderly and disabled for which the minimum income requirement is 12 times the monthly SSI/SSD amount);
 - Have credit score of at least 680; and
 - Successfully complete housing counseling homebuyer/education (HMFA has allocated funds to cover the cost of the housing counseling sessions).

During FY 2014 the DCA's Homeownership Program has received applications from 40 applicants, 18 of which are in housing counseling, 10 are mortgage ready, 9 are in housing search and 3 have closed on homes. To date, the program has 102 active homeowners.

- The **Family Self-Sufficiency Program (FSS)** assists low-income tenants build assets and increase their earnings so that they can better meet their families' needs and become independent of welfare assistance. As part of the program, DCA establishes an interest-bearing FSS escrow account for each participating family. An escrow credit, based on increases in earned income of the family, is credited to this account during the five-year term of the FSS contract. To date, DCA has 172 active clients.

PHA needs are based on the client level data collected from the households on DCA's waiting lists and on the needs identified in the Consolidated Plan's Housing Needs Assessment. DCA's waiting list data shows the following:

- Age: 26.7% of the applicants are 30 years old or younger; 59.4% are 31-64 years old; and 13.8% are 65 years old or older.
- Gender: 74.3% of the applicants are female.

- Race: 32.7% of the applicants are White, 61.6% are Black, .6% are Asian, 4.6% are Native Hawaiian/Pacific Islander and .52% are American Indian/Alaskan Native.
- Ethnicity: 13.6% of applicants are of Hispanic origin.
- Disabled: 29.3% of the applicants are disabled.
- Family size: 6.9% of the applicants are large households (5 or more people); and 93.1% are small households (1-4 people)

Troubled Public Housing Authorities: DCA will continue to work in conjunction with the HUD-Newark office to address the needs of struggling public housing authorities throughout the State.

Homelessness

New Jersey will continue its continuum of care approach to address homelessness in the State. This includes programs and services addressing each stage of the homeless continuum: homeless prevention, rapid re-housing, emergency shelter, supportive housing and permanent supportive housing programs.

Homelessness Prevention

The State of New Jersey will continue to provide temporary financial assistance to low and moderate-income homeless households or households in imminent risk of homelessness due to a rental eviction through the Homelessness Prevention Program (HPP). The HPP can provide the following types of assistance:

1. Rental Arrears – a maximum of 3 months back rent plus any court fees, legal fees and other late fees included as rent in a written lease.
2. Relocation: security deposit of up to 1 ½ months' rent and 2 months' rent.

Rapid Re-Housing

The State of New Jersey will continue to provide rapid re-housing assistance through the Homelessness Prevention and Rapid Re-Housing 2 Program to homeless households at or below 30 percent of Area Median Income (AMI). Rapid re-housing assistance includes: financial assistance, case management, housing search and placement, credit repair, money management and budgeting

Emergency Shelter

The State of New Jersey will continue to provide funds to maintain shelter facilities through the Shelter Support Program. The Shelter Support Program provides funding to do the following:

1. Address life and safety issues in emergency shelters and transitional housing facilities
2. Purchase equipment and furnishings that will provide direct benefits to the shelter's residents

3. Create new emergency shelter beds when needed

The State has a broad array of programs and initiatives to serve the emergency shelter needs of individuals with special needs, including the elderly and frail elderly, persons with disabilities, those who are chronically homeless or in danger of becoming homeless, or are making the transition to permanent housing and independent living. The State will pursue specific activities during FFY 2014 to address emergency shelter and transitional housing needs of homeless individuals and families with children, to prevent low-income individuals and families with children (especially those with incomes below 30 percent of median family income) from becoming homeless, and to help homeless persons (including persons with special needs) make the transition to permanent housing and independent living.

Rental assistance will continue to be provided to people who are homeless and working towards self-sufficiency through the Housing Choice Voucher, State Rental Assistance and HOME Tenant-Based Rental Assistance programs. In addition, in collaboration with local Continuum of Care agencies, DCA serves as the “project sponsor” for 20 Shelter Plus Care grants.

Chronic Homelessness

Continuum of Care agencies (CoCs) across the State are working diligently to develop and implement a ten-year plan for ending chronic homelessness. In addition, all of the COCs in New Jersey have implemented a Homeless Management Information System (HMIS) to improve the accuracy of their chronic homeless counts.

Homeless Veterans

DCA continues to provide HUD-Veterans Affairs Supportive Housing vouchers (VASH) to homeless veterans, many of whom have chronic health conditions. The program provides permanent housing in combination with medical services.

Interagency Council on Homelessness

This State Council has been tasked with developing a comprehensive approach to breaking the cycle of poverty that leads to chronic homelessness. The Council has been meeting over the last 1 ½ years to develop a 10-year plan to end homelessness in the State. The Council’s report and recommendations will be submitted to the Governor’s office by the end of this calendar year.

Discharge Coordination Policy

The State will utilize the following programs to assist households being discharged from publicly funded institutions and systems of care:

- *Another Chance Initiative:* DCA has partnered with the State Parole Board to expand housing resources available to inmates released from prison without a stable living arrangement. The program provides temporary housing assistance (up to 6 months) to offenders being released from designated Department of Correction’s facilities

that do not have an approved residence of record. The program is currently operating in Camden, Jersey City, Newark, New Brunswick and Trenton.

- *Housing Opportunities for Persons with AIDS – Post Incarcerated Program* provides housing assistance to individuals recently released from prison who have HIV/AIDS.
- *State Rental Assistance Program*: DCA continues to provide SRAP rental assistance to 500 Olmstead clients.
- *Transitional and Permanent Housing Loan Program for Aging Out Youth* provides low-interest financing to organizations and public entities developing service enriched transitional and permanent housing opportunities for youth aging out of foster care, homeless youth and youth leaving the Juvenile Justice System.

Specific Objectives of Action Plan

<input type="checkbox"/>	Objective Category Decent Housing Which includes:	<input type="checkbox"/>	Objective Category: Expanded Economic Opportunities Which includes:	<input type="checkbox"/>	Objective Category: Expanded Economic Opportunities Which includes:
X	assisting homeless persons obtain affordable housing	X	improving the safety and livability of neighborhoods	X	job creation and retention
X	assisting persons at risk of becoming homeless	X	eliminating blighting influences and the deterioration of property and facilities	X	establishment, stabilization and expansion of small business (including micro-businesses)
X	retaining the affordable housing stock	X	increasing the access to quality public and private facilities	X	the provision of public services concerned with employment
X	increasing the availability of affordable permanent housing in standard condition to low-income and moderate-income families, particularly to members of disadvantaged minorities without discrimination on the basis of race, color, religion, sex, national origin, familial status, or disability.	X	reducing the isolation of income groups within areas through spatial de-concentration of housing opportunities for lower income persons and the revitalization of deteriorating neighborhoods	X	the provision of jobs to low-income persons living in areas affected by those programs and activities under programs covered by the plan
X	increasing the supply of supportive housing which includes structural features and services to enable persons with special needs (including persons with HIV/ADOS) to live in dignity and independence	X	restoring and preserving properties of special historic, architectural, or aesthetic value	X	availability of mortgage financing for low income persons at reasonable rates using non-discriminatory lending practices
X	providing affordable housing that is accessible to job opportunities	X	conserving energy resources and use of renewable energy sources	X	access to capital and credit for development activities that promote the long-term economic social viability of the community

Priority Needs

The following tables outline the priority needs level within the categories addressed in the housing needs assessment. Rankings of high priority, medium priority and low priority were used. These rankings, as mandated by HUD, are defined as the following:

High priority: Activities to address this need will be funded by the State of New Jersey during the fiscal year.

Medium priority: If funds are available, activities to address this need may be funded during the fiscal year.

Low priority: The State will not fund activities to address this need during the fiscal year. The State will consider certifications of consistency for other entities' applications for federal assistance.

The Department has placed a high priority on serving all household types with income levels between 0-80 percent of Area Median Income (AMI) and special needs households.

Affordable Housing Allocation Priority Needs

The State is dedicated to serving populations that traditionally have the highest need for assistance:

- Very low-income households (0-50 percent AMI);
- Low-income individuals and households (51-80 percent AMI);
- Special needs populations including elderly persons, frail elderly persons, persons with disabilities, persons with alcohol and/or other drug addictions, persons with HIV/AIDS, victims of domestic violence, and veterans.

General Data:

Another housing problem that can be related to affordability is the incidence of overcrowding of large related households in all income groups. While overcrowding is found among just 4% of New Jersey households overall, many of these large households are not able to secure large rental units that are in standard condition and affordable.

Non-Homeless Special Needs

The State ranked the elderly, frail elderly, persons with severe mental illness, developmentally disabled, physically disabled, alcohol/other drug addiction and persons with HIV/AIDS and their families as high priorities.

The highest priority activities for these populations are rental assistance and support services.

Public Housing residents received a medium priority. If federal funds are available, activities to address this population will occur during the fiscal year.

Prioritization Explanation: The State ranked persons with special needs as a high priority because of the following:

- Adults between 16 and 62 years old with a disability are less likely to be employed than their non-disabled counterparts.
- The majority of New Jersey's elderly households have housing problems and are cost burdened because of their limited fixed incomes. Sixty-five percent of extremely low-income households (0 to 30% of AMI) have housing problems, and 64% are cost-burdened. The percentages are a little higher for very low-income households (31-50% of AMI): 66% have housing problems, and 65% are cost-burdened.
- Individuals with HIV/AIDS need various types of housing and support services. As previously stated, the effects of HIV/AIDS range from loss or reduction of income to the inability to live independently due to declining health. A range of housing options are needed, including options that allow for in-home caregivers at certain points. Housing linked to mental health and chemical dependency case management is needed for persons who are dually or triply diagnosed, which is a growing portion of the HIV/AIDS population.

Figure 3: Non-Homeless Special Needs Priority Needs

	Alcohol/Other Drug Addicted	HIGH
	Persons w/ HIV/AIDS & their families	HIGH
	Public Housing Residents	MEDIUM

Homeless Needs

The State ranked homeless individuals, homeless families and chronic homeless as a high priority.

Prioritization Explanation: It is difficult to determine exactly how many people are homeless or at-risk of becoming homeless in New Jersey. Therefore, the State utilized the data collected on the January 29, 2014 Point in Time Survey. The survey showed that there were 13,868 homeless men, women and children that night; 12,939 sheltered and 929 unsheltered. The majority of the respondents were black females over the age of 24.

The Point in Time Survey also collected data on the chronically homeless. On January 29, 2014, there were 1,449 chronically homeless (1,033 sheltered and 416 unsheltered). The majority of the chronic homeless were White, men over the age of 24.

The major causes of homelessness cited include the following:

Figure 4: Causes of Homelessness

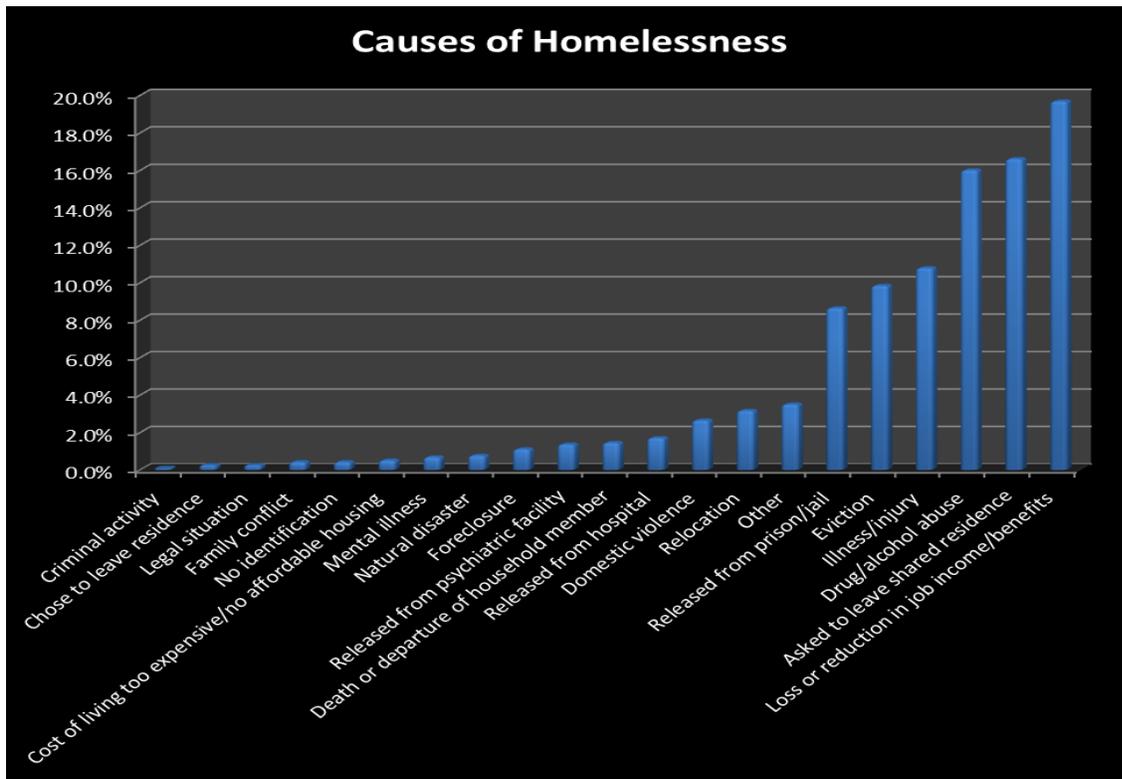

Figure 5: Homeless Priority Needs

Homeless Needs Table: Individuals		Priority
Beds	Emergency Shelters	High
	Transitional Housing	High
	Permanent Supportive Housing	High
Chronically Homeless		High
Homeless Needs Table: Families		Priority
Beds	Emergency Shelters	High
	Transitional Housing	High
	Permanent Supportive Housing	High

Goals

In order to address the identified needs, the State will pursue the following 9 goals over the next year:

1. Expand the availability and supply of safe, decent, affordable, and accessible rental housing for very-low and low-income individuals and families.
2. Improve and preserve the existing affordable housing stock and neighborhoods.
3. Increase homeownership opportunities for low and moderate-income households.
4. Assist homeless or at risk of becoming homeless and special needs individuals and families and obtain and maintain permanent housing, with needed support services to become self-sufficient.
5. Support local jurisdictions' planning process to reduce and end homelessness.
6. Promote lead-based paint education and abatement efforts.
7. Preserve and maintain safe and decent housing stock to assure a mix of housing options in all neighborhoods, including temporary and permanent housing.
8. Support community and economic development programs that expand business enterprises and increase job opportunities for low- and moderate-income households.
9. Promote fair housing practices and educate the public about the benefits and the need for affordable housing.

1. *Expand the availability and supply of safe, decent, affordable, and accessible rental housing for very low and low-income individuals and families.*

STATE FISCAL YEAR	2015
GOAL	<i>5,559 new units</i>

HOME Production Programs provide non-interest bearing, interest bearing and deferred loans, and grants to certified State Community Housing Development Organizations for the purpose of creating affordable housing for low and moderate-income households throughout the State.

Low-Income Housing Tax Credit Allocation Program was created by Section 42 of the Internal Revenue Code of 1986, which may be applied against the federal income tax of persons or associations who have invested in certain buildings providing housing for low-income families.

The tax credit, rather than a direct federal subsidy, provides a dollar for dollar reduction (or credit) to offset an owner's federal tax liability on ordinary income. Tax credit interest may be syndicated or sold to generate equity for the developments, thus reducing the necessary mortgage financing and providing more affordable terms.

Low Income Housing Tax Credit (LIHTC) Preservation Set-aside prioritizes the rehabilitation of existing, currently occupied affordable housing projects at risk of losing their affordability controls via a set-aside of competitive credits in its Family Cycle.

Multi-Family Rental Housing Program provides low-interest financing for construction, rehabilitation and/or permanent financing loans for the creation and/or preservation of multi-unit rental housing for low- and moderate-income families and individuals.

Uniform Housing Affordability Controls require rental housing developments to provide a deeper subsidy to ensure that a portion of the units are affordable to households earning at least 35% of the regional median income.

2. Improve and preserve the existing affordable housing stock and neighborhoods.

STATE FISCAL YEAR	2015
<i>GOAL</i>	<i>275 new units</i>

To achieve this goal, the State will utilize the following programs:

Choices in Home Ownership Incentives Created for Everyone (CHOICE) provides a menu of home ownership production options that can be mixed and matched to meet local conditions and goals, allowing for a mix of income opportunities within a neighborhood or municipality. The program provides construction financing jointly with a private lender (50% HMFA and 50% private lender). Subsidies are provided for the affordable housing units and emerging market units. The purchasers of the homes may be eligible for homebuyer below market interest-rate loans and closing cost/down payment assistance.

Neighborhood Preservation Balanced Housing furthers the Mount Laurel Doctrine by creating housing opportunities in viable neighborhoods for households of low- and moderate-income.

Small Rental Project Loan Program provides funding for small (5-25 unit) rental projects, which includes secondary financing of up to \$50,000 per unit. Projects may include income-restricted units that will allow for subsidies of up to \$50,000 per unit or rent restricted units that allow for subsidies of up to \$25,000 per unit or a combination of both.

3. Increase homeownership opportunities for low and moderate income households.

STATE FISCAL YEAR FISCAL YEAR	2015
<i>GOAL</i>	<i>2,148 households</i>

To achieve this goal, the State will utilize the following programs:

First Time Homebuyer Program provides below-market, fixed interest rates to first-time homebuyers and urban area buyers.

HOPE Program is an employer guaranteed loan program that offers no down payment, below-market, fixed rate mortgages to eligible employees without private mortgage insurance. Employers must be approved by the HMFA.

Live Where You Work Homebuyer Program (LWYW) is a homebuyer incentive program that provides low-interest mortgage loans to homebuyers purchasing homes in towns where they are employed. Other benefits include down payment and closing cost assistance in an amount up to 5% of the mortgage amount.

100% Financing is available for purchasers of homes in pre-approved Agency financed construction projects. No down payment or mortgage insurance is required.

Police and Fireman’s Retirement System Mortgage Program provides first mortgages and refinancing for active members of the PFRS Pension Program with at least one year of service in the pension. The interest rate is set at 1% over the 10-year treasury rate. The rate is set semi-annually.

Section 8 Home Ownership Program helps qualified DCA Section 8 participants purchase a home using their Section 8 Housing Voucher. Vouchers are applied toward the participant’s mortgage and other home ownership expenses.

Smart Start Program is offered in conjunction with HMFA’s Home Buyer Program mortgage loans. Smart Start provides families purchasing homes in Smart Growth areas a second mortgage for down payment and/or closing costs. Borrowers are eligible to receive up to 4% of the first mortgage amount.

4. Assist homeless and special needs individuals and families obtain permanent housing with needed supportive services.

STATE FISCAL YEAR	2015
<i>GOAL</i>	<i>27,336 households</i>

The State has a broad array of programs and initiatives to serve individuals with special needs, including the elderly and frail elderly, persons with disabilities, those who are

chronically homeless, in danger of becoming homeless, or are making the transition to permanent housing and independent living. To achieve this goal, the State will utilize the following programs:

Emergency Solutions Grant (ESG), under the umbrella of the Shelter Support Program, provides funds to nonprofits and local governments to renovate and construct homeless shelters and transitional housing facilities.

HOME-Tenant-Based Rental Assistance helps reduce the housing costs of very low-income households by providing direct rent subsidy payments to their landlords. Assistance is provided to participants for a period of up to 24 months.

HomeKeeper Program offers financial assistance to homeowners who are in danger of losing their homes as a direct result of unemployment or underemployment and have been unemployed for a period of up to 36 months. Eligible homeowners may receive up to \$48,000 in assistance for a term of up to 24 months.

Homelessness Prevention and Rapid Re-Housing 2 Program provides temporary financial assistance to very low-income families to help them avoid homelessness. Eligible participants must have experienced a life-changing event that caused them to experience a housing crisis. Participants may receive assistance for up to 12 months.

Housing Choice Voucher Program assists very low-income families, the elderly, and the disabled to afford decent, safe and sanitary housing. Rental units must meet minimum housing quality standards. A housing subsidy is paid to the landlord directly on behalf of the participating family. The family pays the difference between the actual rent charged by the landlord and the amount subsidized by the program.

Housing Opportunities for Persons with AIDS (HOPWA) provides tenant-based rental assistance to persons with HIV/AIDS and their families.

Housing Opportunities for Persons with AIDS – Post Incarcerated Program provides housing assistance to individuals recently released from prison who have HIV/AIDS. *Non-Elderly Disabled (NED) Vouchers* enable non-elderly persons or families with disabilities to access affordable housing on the private market.

Shelter Housing Exit Program provides security deposits and rental assistance to victims of domestic violence and their children who are currently living in shelters or in transitional housing facilities.

Shelter Plus Care Program provides rental assistance to homeless persons with disabilities, in collaboration with local nonprofit agencies under their jurisdictional “Continuum of Care”—the vehicle for homeless planning activities. Funds for this program have been granted in Atlantic, Burlington, Cape May, Essex, Gloucester, Hudson, Middlesex, Monmouth, Morris, Passaic and Warren Counties.

State Rental Assistance Program provides up to five years of temporary rental

assistance to low-income individuals and households, and unlimited assistance to elderly and disabled households. The program is available to State residents who are not currently holders of the federal Section 8 vouchers.

Veterans Affairs Supportive Housing Program combines rental assistance for homeless Veterans with case management and clinical services provided by the Department of Veterans Affairs.

5. Support local jurisdictions' planning processes to reduce and end homelessness.

STATE FISCAL YEAR	2015
GOAL	300 Agencies

To achieve this goal, the State will utilize the following programs:

Homeless Management Information Systems (HMIS). HMFA is the administrative entity for the Homeless Management Information System, which provides a single software solution to homeless prevention agencies to track and manage their client cases. The HMIS Collaborative was established in 2003 in response to the federal Department of Housing and Urban Development's mandate that all local agencies develop and implement sophisticated tracking systems for reporting purposes. Currently in the HMIS system there are 300 agencies.

6. Promote lead-based paint education and abatement efforts.

STATE FISCAL YEAR	2015
GOAL	NA

7. Preserve and maintain safe and decent housing stock to assure a mix of housing options in all neighborhoods.

STATE FISCAL YEAR	2015
GOAL	290,000 households

To achieve this goal, the State will utilize the following programs:

Neighborhood Stabilization Program funds help revitalize housing markets that have been disrupted by the fallout from subprime lending practices. These areas are identified as those hard hit by foreclosures and which are statistically at high risk of continued market deterioration, but otherwise have attributes that will help ameliorate the impact of the foreclosures. The State's priority is to focus on neighborhoods with existing community planning infrastructure and relevant low-income assistance

programs. These neighborhoods include those that:

1. Are participating in the State's Neighborhood Preservation Program;
2. Have plans and private investment through the Neighborhood Revitalization Tax Credit;
3. Have ongoing CDBG investment;
4. Have been targeted for other state, county or local investment or where other state or local investments are ongoing.

Section 8 Single Room Occupancy – Moderate Rehabilitation assists in rehabilitating privately owned, substandard single-room occupancy rental units to provide housing for homeless and very low-income individuals who are eligible for Section 8 rental assistance.

Weatherization Assistance & Low-Income Home Energy Assistance assists elderly, handicapped and low-income persons in weatherizing their homes, improving heating system efficiency, conserving energy and emergency heating assistance. Assistance is provided to low-income occupants and community agencies assisting units occupied by low-income individuals.

8. Support community and economic development programs that expand business enterprises and increase job opportunities for low and moderate income households.

STATE FISCAL YEAR	2015
GOAL	32 grants

The Improvement Districts Program provides information and technical assistance to more than 80 municipalities regarding the establishment and management of Special Improvement Districts. The program also includes (as resources permit) the Improvement District Challenge Grants and the Downtown Business Improvement Zone (DBIZ) Loan Fund, a revolving 0% interest program to support physical improvements in certified DBIZ districts.

Main Street New Jersey is a nationally recognized professional downtown revitalization program providing business communities with the skills and knowledge to manage their own center business districts, thus, improving the economy and the appearance and image of their traditional downtown through the organization of business persons, local citizens and resources. In 2012, The MSNJ program provided technical assistance, training and education to 26 designated downtown management organizations and 12 selected associate municipalities, as well as direct services to business and property owners in the areas of architectural design, branding, marketing, business retention and recruitment.

Neighborhood Revitalization Tax Credit Program provides funding to community-based organizations to implement revitalization activities and offers businesses a 100 % tax credit against various New Jersey State taxes for investing in the revitalization of low- and moderate-income neighborhoods in eligible cities.

Neighborhood Revitalization Tax Credit Planning Grants provides funding for the development of a comprehensive neighborhood plan

Small Cities Community Development Block Grant funds economic development, housing rehabilitation, community revitalization and public facility projects designed to principally benefit people of low- and moderate-income to prevent or eliminate slums and blight, or to address local needs of recent origin for which no other source of funding is available. Assistance is provided to non-entitlement municipalities and counties.

9. Promote fair housing practices and educate the public about the benefits and the need for affordable housing.

STATE FISCAL YEAR	2015
GOAL	TBD

Goal: If funding is available, develop an education campaign to address the negative public perceptions about affordable housing. Geographic Distribution of Funds

The State of New Jersey distributes the formula funds through a competitive, open process via the Department of Community Affairs' System for Administering Grants Electronically (SAGE) and, therefore, cannot predict the ultimate geographic distribution of these funds. Feasible projects submitted that are ready to proceed will receive priority.

The State is committed to addressing housing, economic and community development needs statewide, and will utilize the New Jersey State Development and Redevelopment Plan to identify specific areas of the State for revitalization. The purpose of the State Development and Redevelopment Plan is to coordinate planning activities and establish statewide planning objectives in the following areas: land use housing, economic development, transportation, natural resource conservation, agriculture and farmland retention, recreation, urban and suburban redevelopment, historic preservation, public facilities and services, and intergovernmental coordination (N.J.S.A. 52:18A-200(f)).

The major goals of the State Development and Redevelopment Plan are:

- To revitalize the State's cities and towns by protecting, preserving and developing the valuable human and economic assets in cities, towns and other urban areas.

- To conserve the State's natural resources and systems by promoting ecologically sound development and redevelopment.
- To promote beneficial economic growth, development and renewal for all residents of New Jersey, particularly the poor and minority communities through partnerships and collaborative planning with the private sector.
- To protect the environment, prevent and clean up pollution by developing standards of performance and creating incentives to prevent and reduce pollution and toxic emissions at the source.
- To provide adequate public facilities and services at a reasonable cost.
- To provide adequate housing at a reasonable cost through public/private partnerships that create and maintain a broad choice of attractive, affordable, ecologically designed housing, particularly for those most in need.
- To preserve and enhance areas with historic, cultural, scenic, open space and recreational value.
- To ensure sound and integrated planning and implementation statewide.

Anti-Poverty Strategy

Understanding the nature and causes of poverty helps shape the State's goals, programs and policies for reducing the number of people in poverty. The data suggests that there is a correlation between education and poverty: the more education, the less likely people are to be under the poverty line. Without a good education, there is little hope of escaping poverty in today's competitive job market. Other factors include poor transportation and inadequate child care that prevent many from finding better jobs and escaping chronic poverty.

The following State Departments provide resources to help address poverty in New Jersey:

- The **Department of Community Affairs** has an important role in addressing poverty in New Jersey. As a major player in the provision of services to low- and moderate-income families, DCA will be instrumental in addressing many problems plaguing New Jersey's most vulnerable residents. Since 1969, DCA has been assisting low-income persons by providing the following types of programs: rooming and boarding homes; production of affordable housing, family-self-sufficiency; Section 8 Rental Assistance; homelessness prevention; shelter support; transitional housing; neighborhood preservation; fire safety and energy conservation. DCA believes that the only way to ameliorate poverty is to promote economic self-sufficiency by providing support services and affordable housing to low-income individuals and families.

- The **Department of Human Services (DHS)** is the primary State agency that addresses the effects of poverty in the State. DHS serves more than one million of New Jersey's most vulnerable citizens, or about one of every eight New Jersey residents.

DHS serves individuals and families with low incomes; people with mental illnesses, developmental disabilities, or late-onset disabilities; people who are blind, visually impaired, deaf, hard of hearing, or deaf-blind; parents needing child care services, child support and/or healthcare for their children; and families facing catastrophic medical expenses for their children.

DHS strives to help individuals and families in need keep their lives on track, their families together, a roof over their heads, and their health protected. The programs and services offered through DHS give individuals and families the breathing room they need in order to find permanent solutions to otherwise daunting problems.

- The **Department of Children and Families** is New Jersey's State child welfare agency (DCF). DCF is focused on strengthening families and achieving safety, well-being and permanency for all New Jersey's children. In addition to focusing on the fundamentals of child welfare, DCF has also embarked on several important initiatives, including: rebuilding specialized adoption practice; building a robust network of support in our local communities; re-engineering child abuse prevention; building capacity in the child behavioral health system; and improving the system of health care for children in the State's care.
- The **Department of Labor and Workforce Development** provides employment supports. Vocational rehabilitation departments and One-Stop Career Centers offer training, counseling, financial support for education, transportation, and other services designed to help people with disabilities find and retain jobs and live in their communities. These types of services are for people who are looking for work, and want and need these types of supports.

State Initiatives to Address Poverty

The State will continue to address the problem of poverty by providing emergency assistance. Such actions will include the following:

1. Providing shelter, food, clothing, and social services to families in crisis;
2. Supporting the development of permanent, transitional and affordable housing and shelter facilities;
3. Providing health care to homeless people;
4. Aiding homeless runaway youth;
5. Assisting individuals who are mentally or physically impaired;
6. Helping victims of domestic violence;
7. Providing low-income energy services;
8. Administering rental assistance programs;

9. Providing job training to low-income and homeless individuals; and
10. Providing funding for literacy education.

The State will continue to support Housing First/Rapid-Rehousing programs that move homeless households from shelters into permanent supportive housing with a level of services commensurate with their needs.

Fair Housing Impediments

The following are impediments to fair housing choice in New Jersey and actions the State is continuing to take to address the barriers. DCA is committed to working with communities and its partners to mitigate the identified impediments to fair housing access.

In 2011, the State conducted an extensive data analysis to identify impediments to fair housing choice. Fair housing choice is the right to equal access to all types of housing. Fair housing choice exists when everyone has the ability to freely choose where they want to live.

DCA examined Home Mortgage Disclosure Data (HMDA) and Census data to determine differences in housing need based on race, household size, income and ethnicity. The Department also reviewed data affecting persons identified with Limited English Proficiency (LED); and analyzed federal and State fair housing complaint data.

Based on this analysis, the following major impediments were identified:

- Perception of affordable housing by those who don't need it;
- Limited English proficiency;
- Lack of information regarding fair housing rights and responsibilities;
- Fair housing choices for persons with disabilities;
- Racial and ethnic concentration; and
- Land use and zoning barriers.

Impediment 1: Perception of Affordable Housing/Section 8

Perhaps the primary obstacle to affordable housing is the overall misconception as to how affordable housing impacts a community. The public perception is that it will attract a population full of the poor and uneducated, bringing about increased crime, decreased property values and social unrest. Community leaders are very much influenced by these public misconceptions. As a result, even if a municipality has the land and physical plant to support denser, more affordable housing, it may lack the will to do so.

The Not in My Backyard (NIMBY) syndrome, a type of neighborhood opposition to affordable housing or any type of new housing, is an example of discrimination if its effect is to discourage certain protected classes from obtaining housing. Although

people agree that affordable housing is necessary and an admirable endeavor, few want low-moderate income housing in their neighborhoods.

Action: Develop an educational campaign to address the negative public perceptions often associated with affordable housing and residents on housing assistance. The campaign should focus on actual developments that have been successful in providing different types of affordable housing such as apartments, condominiums and townhouses and showcase the type of tenant that is residing in these projects. In addition, the State will promote planning practices that gives residents the opportunity to participate in the early development stages of proposed projects in their area. This will allow the residents the opportunity to direct some of their questions and concerns to those individuals that are key players in the building process.

Impediment 2: Limited English Proficiency

English as a second language is becoming more prevalent as New Jersey becomes more diverse. Limited proficiency in English increases an immigrant's vulnerability to discriminatory housing practices. Persons who do not speak English may encounter difficulties with housing choice, or may not understand their rights as a tenant or homeowner, which leaves those households vulnerable to discrimination. While most people in New Jersey speak, write and understand English, there is a growing population where English is not their primary language.

Those individuals having a limited ability to speak or understand English are considered to be Limited English Proficient (LEP). Language limitations can be a barrier to accessing and maintaining housing assistance and other important benefits or services.

Action: The Department of Community Affairs (DCA), as a recipient of federal assistance, has taken steps to ensure that New Jersey residents have access to all of its programs by reducing language barriers. DCA has developed a Limited English Proficiency Policy that outlines its procedures to address the language barriers of its applicants and participants. The policy, which is utilized for both the State Rental Assistance Program and the Housing Choice Voucher Program, is part of the Housing Choice Voucher Administrative Plan which is posted on the Department of Community Affairs' web site at <http://www.nj.gov/dca/divisions/dhcr/publications/docs/adminplansfy2013.pdf>.

Impediment 3: Lack of Information about Fair Housing Laws and Protections

There is a need for additional fair housing education. Although several organizations including the Division on Civil Rights have provided information on housing discrimination and related topics, the lack of knowledge on fair housing laws and protections appears to be an impediment for protected class members. Much of the training provided is directed toward housing providers. Renters and buyers are often harder to reach but are perhaps the most in need of education.

Action: Federal and State fair housing laws will only be effective if residents know their rights, landlords know their responsibilities, advocacy groups know their options, and lenders and insurers understand how the law affects their operations.

The Internet can be an effective tool for disseminating information regarding fair housing rights and how to file a fair housing complaint. Therefore the Department of Community Affairs' Division of Housing and Community Resources is in the process of creating a web page, in English and Spanish designed to increase the knowledge of tenants' fair housing laws and protections. The web page will contain information on fair housing, links to the fair housing laws and other resources, information about predatory lending, frequently asked questions and the procedures for filing a discrimination complaint.

Because some residents may not have access to the Internet or be proficient with the Internet, the fair housing information will be published in both electronic and paper formats for people who feel they have been discriminated against and are seeking assistance. The brochures created will be forwarded to libraries, faith-based organizations, community action agencies and schools for dissemination.

The State will also distribute brochures to its shelter grantees with the request that they are displayed in a prominent location for client access.

The State believes that fair housing education is an integral part of eliminating illegal discrimination practices; an educated public and housing community will be more likely to identify illegal discrimination and utilize federal, State and local fair housing resources to help alleviate the situation. The goals of this initiative are: 1) to reduce housing discrimination through education and outreach efforts; and 2) to increase the number of complaints referred to the US Department of Housing and Urban Development (HUD), the State Civil Rights Office or a local fair housing agency.

Impediment 4: Challenges for Persons with Disabilities

Persons with disabilities comprise another population sensitive to fair housing issues and for whom special programming must be reviewed. Disability is defined by the Census Bureau as a lasting physical, mental or emotional condition that makes it difficult for a person to do activities or impedes them from being able to go outside the home or to work by themselves. Defined in this fashion, the number of persons having disabilities in New Jersey is 4.1% of the population for the ages of 5-17 years old, 8.1% of the population between 18-64 years old and 49.7% of the population above 65.

Many of these individuals rely on State and/or federal benefit programs as their only sources of income thereby placing them in the low-income bracket. Because of housing affordability issues for low-income persons, housing opportunities for persons with physical or mental challenges is more limited. For many, housing opportunities are further limited by accessibility issues.

Action: The State will promote the creation of more affordable and accessible housing to meet the housing needs of people with disabilities. HMFA will continue to use its

Special Needs Trust Fund Program to increase the number of affordable, accessible housing units for persons with special needs. In addition, the State will continue to support the development of housing options and programs, which enable persons with special needs to reside in non-institutional settings. The Department of Community Affairs will continue to apply for additional federal housing vouchers to assist New Jersey's disabled population.

Impediment 5: Racial and Ethnic Housing Concentration

The 2010 Census clearly shows that minorities are highly concentrated in the northern part of the State, comprising 25% of the entire population with only 6.5% of minorities residing in Southern New Jersey. Essex County alone is made up of 57.4% minorities: Hudson, Mercer, Middlesex, Passaic and Union County all have minority populations over 35%. Essex County has a primarily Black population (49.9%) while Middlesex County has an extremely large Asian population at 21.4%, a 15.3% increase since 1990. Passaic County has a large mix of Hispanics/Latinos representing 37% of their population. Hudson County has a large Hispanic/Latino population at 42.2% - while Essex, Cumberland and Union Counties' Hispanic/Latino population exceeds 20%.

Action: The State of New Jersey will:

1. Promote higher density residential zoning in Transit Oriented Development areas, when revitalization occurs.
2. Promote the development of mixed-income communities throughout the State to help low-income working families move to neighborhoods offering greater access to opportunity or better schools, housing and transportation.
3. Continue to identify and investigate potential patterns of discrimination via the Division on Civil Rights (DCR) Multiple Dwelling Report. The Multiple Dwelling Reporting Rule requires property owners with 25 or more rental units to submit by January 31 of each year, an annual report to the DCR detailing the racial and ethnic composition of their tenants and applicants during the preceding year. More than 3,500 multiple-dwelling complexes are obligated to file reports under this regulation. The report assists DCR in identifying potential patterns of housing discrimination and includes information on the degree of access property owners provide to persons with disabilities and Section 8 rental subsidies.
4. Continue to support the New Jersey Housing Resource Center <http://www.njhrc.gov/> which: 1) provides an on-line resource for property managers to market affordable rental and sales units statewide; and 2) provides a convenient resource for prospective renters to locate affordable and accessible housing. This website is free and searches can be conducted in both English and Spanish.

5. Continue to ensure that all of DCA's housing and community development funds provide benefits and opportunities to residents regardless of race, color, religion, sex, disability, familial status, and national origin by monitoring grantee's projects and program files.

Impediment 6: Land Use and Zoning Barriers

Restrictive land use and zoning policies can pose significant impediments to fair housing choice by limiting the range of market rate and affordable housing options (i.e., higher-density housing, multi-family rental housing, accessory units, and manufactured homes). During the planning and development phases, property owners and developers must comply with the New Jersey Municipal Land Use Law. Most municipalities also create zoning laws for its residential areas. These zoning laws and ordinances govern and restrict land use within these zones. The ordinances set guidelines for many aspects of land use including the type of housing, size of the units and lot size. These policies may prevent the development of affordable housing in many suburban areas and in other areas of high job growth, forcing low-income households to live in locations far from job opportunities.

The Federal Fair Housing Act prohibits local governments from exercising their land use and zoning powers in a discriminatory way. Decisions related to the development or use of land may not be based upon the race, sex, religion, national origin, color, disability, or familial status of the residents or potential residents who may live in the dwelling. Zoning ordinances may not contain provisions that treat uses such as affordable housing, supportive housing, or group homes for people with disabilities differently than other similar uses, and municipalities may not enforce ordinances more strictly against housing occupied by members of the protected classes.

The Fair Housing Act gives HUD the power to receive and investigate complaints of discrimination, including complaints that a local government has discriminated in exercising its land use and zoning powers. In matters involving zoning and land use, HUD does not issue a charge of discrimination; instead, HUD refers matters it believes may have merit to the Department of Justice for further investigation and possible legal action.

Action: The State of New Jersey will:

1. As part of its education campaign, develop materials geared specifically to local governments on the topic of land use and zoning and the requirements of the Federal Fair Housing Act.
2. Continue to address regulatory barriers to affordable housing, in particular exclusionary zoning. The use of inclusionary zoning has resulted in over 20,000 affordable units. Inclusionary zoning has the added benefit of lowering the costs of market-rate homes in inclusionary developments by allowing for enhanced densities.

Institutional Structure

The 2014 Action Plan reflects the continued participation and coordination of many State agencies, municipalities, nonprofit and for-profit housing and service providers. During the next year, the State will continue to pursue the following strategies to enhance coordination between public and private housing and social services:

- *Coordination of housing development with economic opportunities and community development:* This comprehensive approach, which ties job opportunities and social services to housing revitalization, will help stabilize depressed areas as well as promote self-sufficiency of the area's residents.
- *Provision of planning and technical assistance for non-urban counties and municipalities:* Non-urban communities often do not make affordable housing a financial or political priority. This creates a severe problem in rural counties where hundreds of subsidized units are lost through the repayment of HUD mortgages. Remedial actions to be undertaken by DCA will include outreach, education and technical assistance to these rural areas.

Coordination

The State recognizes that the expeditious delivery of housing services relies on improving and expanding intergovernmental and institutional cooperation on the State, county and local levels to coordinate effectively the delivery of public and private resources. The State, through DCA and HMFA, has made significant strides in coordinating the policies and programs of government agencies that are direct providers of housing. Improved coordination among agencies is essential since many initiatives require some participation from each of the State agencies.

The Department of Community Affairs will continue to improve the coordination between housing providers and health and service agencies by doing the following:

- Maintaining an excellent working relationship with various State departments, including the Department of Health, the Department of Children and Families, and the Department of Human Services, in order to implement a statewide homelessness strategy, which includes assisting DYFS families.
- Continuing to build on-going relationships with housing providers who manage, rehabilitate and construct affordable housing and homeless facilities.
- Expanding and improving existing housing programs.
- Continuing to coordinate the services of HMFA's first-time homebuyer programs with DCA's Section 8 Homeownership Program.

- Providing professional development training to the State's public housing authority managers. DCA sponsors a comprehensive training program for executive directors and commissioners of the State's local housing authorities. The program, developed in cooperation with two statewide housing associations, provides courses in areas such as ethics and resident initiatives. The resident initiative course encourages housing authority managers to allow public housing residents to become more involved in management and participate in homeownership.

Monitoring

Each grantee and sub-recipient receiving federal funds from DCA will be monitored in the following manner:

- Receive at least two field visits during the duration of the contract. The site-visits usually consist of an overview of the agency and the program, a tour of the site, a review of the files (to ensure that the statutory and regulatory requirements are being adhered to) and meetings with programmatic and fiscal staff. Any deficiencies identified will be addressed and corrected immediately. Additional monitoring visits will be scheduled, if needed.
- Periodic telephone calls to check on the status of the grant and resolve any problems.
- DCA will also monitor how each of the HUD programs is progressing. Monthly Integrated Disbursement and Information System (IDIS) reports will be created to determine the number and type of activities set-up and the amount of funds committed and dispersed. These reports will help determine whether funds for the program activities are being distributed according to the goals and objectives identified in the Consolidated Plan and whether they are sufficient. Any impediments identified will be addressed.
- Staff also provides technical assistance on the day-to-day operation of the program.

Compliance: In order to ensure the long-term compliance with State and local housing codes, staff will conduct on-site inspections of HOME-assisted rental housing developments no less than:

- Every 3 years for projects of 1 to 4 units;
- Every 2 years for projects with 5 to 25 units; and
- Annually for projects with 26 or more units.

The general rule is to inspect at least 20 percent of the HOME-assisted units in a project and at least a unit in every building.

The State's on-site physical inspection process ensures that the units meet or exceed

the State of New Jersey's Hotel and Multiple Dwelling Law (N.J.S.A. 55:13A-1 et seq.)
The HOME program uses a 3 stage intervention for projects in non-compliance.

- Low-level intervention
 - A clearly written letter identifying the problem areas and recommended corrective action is sent to the grantee
 - A meeting is scheduled with the grantee to address the identified problems
 - Additional reporting and monitoring reviews will be required

- Moderate-level intervention
 - Impose probationary status
 - Accelerate loan terms
 - Restrict grantee's payment request

- High-level intervention
 - Suspend grantee
 - Initiate legal action

Program Requirements

Community Development Block Grant Program

FFY 2014 Total Allocation: \$ 5,965,982

State Administration: \$ 278,879

FFY 2014 Funds:	\$ 5,687,003
Emergency Housing Repair	\$ 20,000
Innovative Development	\$ 500,000
Housing Rehabilitation	\$ 1,000,000
Public Facilities	\$ 4,167,003

Application Submission Schedule

Emergency Housing Repair Fund	Pre-applications accepted throughout the program year, forms are available on the Program's website.
Innovative Development Fund	Pre-applications must be submitted no later than Friday, September 5, 2014; forms are available on the Program's website.
Housing Rehabilitation Fund	SAGE applications must be submitted no later than Friday, September 5, 2014.
Public Facilities Fund	SAGE applications must be submitted no later than Friday, September 5, 2014.

Objectives

State Conformance to National Objectives: The State of New Jersey will be guided by applicable federal rules and regulations in carrying out the Small Cities Community Development Block Grant (CDBG) program. All project activities must meet one of the three national program objectives set forth in the Housing and Community Development Act of 1974, as amended:

1. To undertake community development activities that principally benefit persons of low and moderate income;
2. To prevent or eliminate slums and blight; and
3. To meet urgent community development needs for which no other resources are available.

The State of New Jersey certifies that not less than 70 percent of the funds will be used for activities that benefit persons of low and moderate income. Low and moderate income is defined in the New Jersey Small Cities CDBG Program as the income of “lower income” families as set forth in the Section 8 Assisted Housing Program of the US Department of Housing and Urban Development (US HUD). The US HUD provides applicable standards, and the standards are included in application instructions distributed to all eligible units of local government (list attached).

State Program Objectives:

- Support housing rehabilitation programs that maintain the supply of safe, decent, and affordable housing.
- Support and encourage efficient patterns of community development, redevelopment, and capital funding by giving priority to proposals that address documented health and safety concerns.
- Encourage innovative proposals that improve housing, and other eligible activities to renew designated revitalization areas.
- Encourage the development of facilities needed to support welfare to work programs such as job training and child and elder care.
- Support and encourage neighborhood revitalization efforts identified in locally developed plans and strategies.
- Improve the availability and adequacy of essential public facilities, and remedy serious deficiencies in areas that principally serve people of low or moderate income.

- Ensure that municipalities have the capacity to implement community development programs and maintain community development improvements.
- To support community development projects of particular urgency where existing conditions pose a serious and immediate threat to the health or welfare of the community, and where other financial resources are unavailable.

Programmatic:

The Small Cities CDBG program consists of four separate program funds:

Emergency Housing Repair Fund: The Emergency Housing Repair Fund has been established to correct emergency conditions in owner-occupied housing where the owner is income-eligible and unable to obtain assistance from any other public or private source. Assistance will be provided on a first-come, first-served basis to the extent funds are available. Only eligible units of local government may apply on behalf of the homeowner.

The maximum grant award in this category will be \$10,000. However, the DCA will consider exceeding this ceiling if the applicant presents compelling reasons to do so. Prospective applicants are required to contact the Small Cities CDBG Program before submitting a proposal for assistance.

Innovative Development Fund: This fund provides assistance for activities that meet one of the three national objectives of the program, but that does NOT qualify for consideration under any of the other Small Cities Funds. Grants may not exceed \$450,000 unless compelling reasons for exceeding that amount are set forth by the applicant and accepted by the DCA.

Housing Rehabilitation Fund: This fund will be used for activities that improve the condition of affordable housing in New Jersey. County-managed programs may be awarded up to \$400,000. Multi-jurisdictional programs may receive grants of up to \$300,000. Awards to programs serving only one municipality may not exceed \$200,000. The fund is designed to rehabilitate only single-family owner occupied housing.

Public Facilities Fund: This fund is established to assist units of local government to construct or improve essential public facilities that will primarily benefit people of low and moderate income. The maximum grant awarded in this category will be \$400,000. However, this maximum may be exceeded if compelling reasons are presented and accepted by the DCA.

Matching Requirements

Units of local government seeking assistance from the Innovative Development Fund, the Public Facilities Fund, and the Housing Rehabilitation Fund are required to commit a percentage of the grant request, based on the applicable Municipal Distress Index ranking (MDI Rank). The matching share is determined as follows:

MDI Rank	Matching Share
0 to 100	5%
101 to 200	10%
201 to 300	15%
301 to 400	20%
401 and above	25%

The MDI rank for each Small Cities-eligible unit of government is provided in the Appendix. Where more than one municipality is participating in the proposed project, the matching requirement will be determined by combining the MDI of each participant and dividing by the number of participating municipalities.

Where costs for professional services will be used, identified costs borne by the applicant must be consistent with established DCA standards as set forth in the applicable application guide in SAGE. Applicants to the Innovative Development Fund may request a reduced matching share percentage with justification. The matching fund requirement does not apply to Emergency Housing Repair assistance.

Number of Applications

Applicants may apply for one Housing Rehabilitation grant, one Public Facilities grant, and one Innovative Development grant per year. Each grant application can only cover one specific project. The Department retains the discretion to award only one grant a year per jurisdiction.

Open Balances of Prior Awards

The Department reserves the right not to fund an applicant should a substantial balance exist in prior grant awards at the time of application.

Reallocation of Funds

The DCA may transfer funds (including those recaptured from cancellations or closeout balances and program income) among funding categories based on demand for assistance demonstrated by the number of applications received.

Evaluation Criteria

Emergency Housing Repair

Funding to correct emergency conditions in single family owner-occupied housing units may be requested by an eligible local government at any time throughout the funding year and will be evaluated according to the following considerations:

- Compliance with one of three statutory National Objectives.
- Documented needs and costs.
- Certification that other public or private funding sources are not available.
- Date of submission.

Innovative Development

. Priority will be given to programs that are designed to provide 100 percent benefit to people of low and moderate-income, or programs that meet one of the national objectives and are designed to create alternative energy sources and encourage energy conservation are eligible. A pre-application must be submitted first, which can be downloaded from the Program's website. The Program will invite applicants to submit full applications.

Housing Rehabilitation, Public Facilities and Innovative Development Funds

All proposals will be subject to the following review process. Utilizing a standardized Application Review Form staff of the Small Cities CDBG Program will review all applications to determine if threshold requirements are met. Applications that fail to meet a threshold requirement may not be funded.

Threshold Requirements

- Threshold Requirements appear in the Small Cities Application Review Form. See the SAGE Application Instructions for more details. Please also see 2015 Small Cities Final Plan at <http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html>.
- **All Federal Compliance Items:** (click on link and submit the following)
 - 1) [Resolution for citizen participation and plan.](#)
 - 2) [Resolution for affirmatively furthering fair housing.](#)
 - 3) [Grant management plan and resolution.](#)
 - 4) [Environmental Review Record \(ERR\)](#). One of the following may be submitted:
 - a. Complete draft of the environmental review record (ERR) for the level of review required (completed to the point before publishing a public notice) and include a draft Notice of Intent to Request Release of Funds, (NOI/RROF), or combined notice of Finding of No Significant Impact (FONSI) and NOI/RROF, and comments on potential problems encountered with the ERR.
 - b. Final or completed ERR, the final ERR must include proof of official public notice, NOI/RROF or combined FONSI and NOI/RROF notice, and letters documenting findings from a phase I environmental.
 - 5) Professional services agreement drafts specific to the project.
 - 6) Third party cooperative agreement draft for ID projects.
 - 7) Adopted policies and procedures manual and resolution for housing programs.
 - 8) Matching funds certification.

All items above, except for the ERR, must be 100 percent complete and executed before submitting the application. Applicants that do not complete the above items and do not submit them with the application may not be eligible for funding. Please refer to the Program's web page at <http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html> for more information.

All Housing Rehabilitation Applications: Housing rehabilitation programs must establish a revolving loan fund and include such provision in an adopted policies and procedures manual. At least 50 percent of the funds provided to homeowners must in the form of a loan. Beginning this year programs that provide 100 percent loans will receive 100 points in the application review and rating process.

Rated Criteria

Applications that meet all threshold requirements will then be scored based upon the following criteria:

Municipal Distress: The relative need of an applicant will be evaluated by using the Statewide Municipal Distress Index (MDI). The indices are used by State agencies in allocating need-based assistance to municipalities. Applicants may receive up to 100 points as follows:

MDI Rank	Score
0 to 100	100 Points
101 to 200	80 Points
201 to 300	60 Points
301 to 400	40 Points
401 and above	20 Points

Readiness to Proceed: The degree to which an applicant is ready to proceed with the proposed project will be evaluated as follows:

1. Housing Rehabilitation applications that include a list of three or more income-eligible households with biddable work write-ups and a copy of the resolution to implement a property maintenance code will receive 100 points and another 100 points for total loans
2. Public Facilities and Innovative Development applications that include biddable plans and specifications will receive 100 points.

Balance Ratio: Applicants will be rated on the remaining balance of grant awards received in a funding category over a three year period, including all open grants at the time of application. Applicants with ratios of .50 or less will receive 100 points and applicants with ratios above .50 will receive zero points.

Program Impact: A Public Facility application having a project which serves 20 to 99 low and moderate income people will receive 75 points. A Public Facility application having a project which serves 100 or more low and moderate income people will receive 150 points.

Past Performance: Past performance will affect an applicant's overall rated score. Good past performance will increase the score. However, multiple instances of poor performance in managing grants (e.g., where concerns and findings were documented as a result of monitoring visits and failure to adhere to reporting requirements and policies) will lower the overall rated score.

Past Performance Rating	Range of Score
Good	51 to 100 Points
Fair	1 to 50 Points
Poor	0 to -100 Points

The Department reserves the right not to fund an applicant based on the past performance, competency and experience of the management team including the project coordinator, which may be an employee or consultant. Slow progress and multiple and repetitive instances of noncompliance with program requirements will weigh heavily in the decision-making process.

Eligible Activities

Activities assisted under the Small Cities CDBG Program are limited to the following:

- Acquisition of real property that is blighted, appropriate for rehabilitation, appropriate for preservation as a historic site, or used for provision of public works or other public purposes.
- Acquisition, construction, reconstruction, or installation of public works or facilities (except buildings for the general conduct of government) and site and other improvements.
- Code enforcement in deteriorated or deteriorating areas in which such enforcement may arrest the area's decline.
- Clearance, demolition, removal, and rehabilitation of buildings.
- Special projects directed to the removal of architectural barriers that restrict the accessibility of the elderly and handicapped.
- Payments to housing owners for losses of rental income incurred in holding units for relocated individuals and families displaced by activities under the program.
- Disposition of real property acquired pursuant to the program.
- Provision of public services if the local government has not provided such services during the 12-month period immediately preceding implementation of the program.
- Payment of the non-Federal share required in connection with a Federal grant-in-aid program undertaken as part of this program.

- Payment of the cost of completing a project funded under Title I of the Housing Act of 1949.
- Relocation payments for displaced individuals, families, businesses, and organizations as a result of activities under the program.
- Activities necessary to develop a comprehensive community development plan and to develop a policy-planning-management capacity to enable the recipient to more effectively administer the program.
- Payment of reasonable administrative costs.
- Activities carried out by public or private non-profit organizations including: planning, acquisition, construction, reconstruction, rehabilitation, or installation of public facilities (except for buildings for the general conduct of government), site improvements, and utilities and commercial or industrial buildings or structures.
- Assistance to non-profit organizations serving non-entitlement areas, local development corporations or entities organized under the Small Business Investment Act of 1985 to carry out a neighborhood revitalization or community economic development or energy conservation projects, including the development of shared housing opportunities for the elderly (other than by construction of new facilities).
- Activities necessary to the development of a comprehensive community-wide energy-use strategy.
- Assistance to private, for-profit entities, when the assistance is appropriate to carry out an economic development project.
- Rehabilitation or development of housing assisted under Section 17 of the United States Housing Act of 1937.
- Assistance to facilitate the substantial reconstruction of housing owned and occupied by low- and moderate-income persons.
- Technical assistance to increase the capacity of public or non-profit entities to carry out eligible neighborhood revitalization or economic development activities.
- Housing services designed to assist homeowners, tenants, and others seeking to participate in eligible housing activities.
- Assistance to institutions of higher education capable of implementing eligible activities.

- Assistance to public and private organizations (for-profit as well as non-profit) to facilitate the development, stabilization, and expansion of micro-enterprises.
- Assistance to facilitate and expand homeownership by subsidizing interest rates, financing acquisition, guaranteeing mortgages, paying up to 50% of down payments, or paying reasonable closing costs for income-eligible people.
- Activities necessary to repair and operate housing units acquired through tax foreclosure to prevent abandonment and deterioration.

Grant Funds Recaptured and Other Recaptured Funds (Program Income)

Grant funds recaptured will remain with the grantee when the grantee demonstrates, as determined by the State, that recaptured funds can be distributed in a timely way to carry out the same activity for a specific project in accordance with a reuse plan that has been approved by the State.

The State of New Jersey interprets the phrase “the same eligible activity” to mean that the grantee must use the recaptured funds for the same activity for which it was originally funded, as taken from the list of eligible activities (see pages 9-11). For example, if the recaptured funds were derived from a loan to a private firm, it must be used again for loans to private firms. This does not mean that the income may only be used for an additional loan to the same firm. Nor can “continuing the activity” be so broadly defined as to mean use for the same general purpose, such as economic development.

The State will consider exceptions to this policy on a case-by-case basis. However, in the event a grantee fails to demonstrate an acceptable reuse of recaptured funds, the State will recapture program funds and distribute such funds in accordance with the provisions set forth in the applicable plan for Distribution of Allocation.

Recaptured Funds Statement

A recaptured funds statement must be included in the application documenting the balance of all previous grant funds recaptured by applicant as of the date of application. The Department reserves the right not to fund a new project should a substantial balance exist that is not obligated in a particular funding category.

Applicants are required to submit a summary statement each year on the balance of the revolving loan funds. The funds must be in separate accounts that are based on the original activity of the local program from the Housing Rehabilitation, Innovative Development, and Employment Development funds. Refer to the Small Cities Program Handbook, Grant Management Section, and Revolving Loan Fund Reporting Procedures for further guidance.

Displacement

The Small Cities CDBG Program will seek to minimize involuntary displacement of persons from their neighborhoods and homes and to mitigate the adverse effects of any such displacement on low-and moderate-income persons. The State will require applicants to assess all feasible alternatives to any activity resulting in involuntary displacement.

In the event that involuntary displacement is the only feasible alternative, the State will require that grantees comply with the requirements of the Housing and Community Development Act of 1974, as amended; the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended; and the statutory amendments implementing regulations (CFR Part 24). In addition, the State will require that grantees comply with the requirements of the New Jersey Relocation Assistance Acts (P.L. 1971, c.362 and P.L. 1967, c. 79) and the New Jersey Regulations for Provision of Relocation Assistance (N.J.A.C. 5:40-1 et seq.).

Notice of Awards

DCA will announce the 2014 Small Cities CDBG awards on the Department and Small Cities' website page at <http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html>.

Additional Awards

The Small Cities CDBG Program may consider awards of additional funds to existing grants throughout the year to those grantees whose production/performance and/or nature of activity warrant additional funding.

HOME Program

Program Purpose:

The HOME Program (HOME) encourages partnerships among government, nonprofit and for-profit developers to meet the housing needs of very low, low-and moderate-income individuals and families.

Proposed Use of Funds:

DCA will receive an allocation \$3,839,607 in HOME funds. These funds will be used to fulfill the federal mandate of increasing the supply of decent, affordable housing, with a primary focus on providing services for very low-income families. Ten percent will be used for eligible administrative costs incurred by the State. The remaining funds will fund the following program activities: rehabilitation, substantial rehabilitation, new construction, and tenant-based rental assistance.

Eligible applicants for HOME funds are municipalities, nonprofit and for-profit developers.

The State's HOME funds will be allocated to the following four funding categories:

FFY 2014 Total Allocation	
State Administration	\$383,961
Programmatic Funds	
Community Housing Development Organization Production	\$575,941
Housing Production Investment	\$767,921
Tenant-Based Rental Assistance	\$2,111,784
Total	\$3,839,607

CHDO Production provides funding to eligible CHDOs producing affordable units. Eligible activities include: acquisition, demolition and removal of buildings; construction of new housing; conversion of non-residential to residential space and the substantial rehabilitation of vacant buildings. The State will use its set-aside to create approximately 6 units in FFY 2014.

Housing Production Investment provides funds to developers for the purpose of creating affordable rental and sale units. Eligible activities include: acquisition, demolition and removal of buildings; construction of new housing; conversion of non-residential to residential space and the substantial rehabilitation of vacant buildings. The program will create 10 units.

HOME Tenant-Based Rental Assistance (TBRA) helps reduce the housing costs of very low-income households by providing direct rent subsidy payments to their landlords. The program will support approximately 205 TBRA vouchers.

Geographic Distribution of Funds:

HOME funds will be distributed throughout the State. Priority assistance will be given to non-entitlement HOME communities, those that are not receiving a HOME allocation and those not able to construct or otherwise provide affordable housing without financial assistance. This will be accomplished by involving for-profit and nonprofit sponsors and developers, Community Housing Development Organizations, lending institutions, and any other entity that could bolster the implementation of the State's Consolidated Plan and HOME Programs.

Match Requirements:

In order to satisfy the 25% match requirement cited in CFR 92.218, the State of New Jersey will utilize the State Rental Assistance Program.

Homebuyer Guidelines:

The State already has a program with procedures in place to implement long-term affordability controls and price guidelines that meet the provisions of section 92.254(a) (4). The State's Housing Affordability Service performs these types of activities and controls.

HOME Program Resale Guidelines: Housing units sold during the period of affordability will be sold solely to low-income households who will use the property as their principal residence and not lease the unit. The DCA will approve all resale prices in advance to assure that the original owner receives a fair return on their investment.

All conveyances of restricted ownership units shall be made by deeds and restricted conveyances.

Affirmative Marketing and Minority Outreach:

Affirmative Marketing

In accordance with 24 CFR Part 92, the sponsor/developer of any HOME-assisted project will be required to do the following:

- Include a statement regarding its affirmative marketing policy and procedures in all media releases and reports informing the public about the program.
- Include a description of applicable fair housing laws in the information provided to the homeowners and renters.

- Include the Equal Housing Opportunity logo, slogan or statement in all newspaper and other media announcements regarding the program.
- Discuss its affirmative marketing policy and procedures and the fair housing laws directly with the homeowners and renters.

Special Minority Outreach Efforts

The State will require all grantees to solicit applications from persons not likely to apply for housing without special outreach. Outreach efforts will include notifying the following groups about available housing units: community-based organizations; churches; public housing authorities; employment centers; fair housing groups, and housing counseling agencies.

Minority Business Outreach Efforts

The State strongly encourages the use of minority and women-owned businesses in all HOME-assisted activities.

Monitoring:

DCA will monitor the grantees' records to ensure that the project continues to meet the HOME affordability and other requirements. The following types of documents will be reviewed:

- Documentation that the project meets applicable property Housing Quality Standards;
- Documentation on income and size of families;
- Documentation on rent and estimated utility levels for HOME assisted units and evidence that income targeting requirements are met;
- Documentation on the financial condition of HOME rental projects to determine continued financial viability of the project;
- For homeownership projects, records describing the income level and family size for each family assisted and documentation establishing the after-rehabilitation value of the property.

Notice of Awards

DCA will announce the 2014 HOME awards on the Department's Division of Housing and Community Resources' website page <http://www.nj.gov/dca/divisions/dhcr/offices/hprod.html>

Housing Opportunities for Persons with AIDS Program (HOPWA)

Grant Purpose

DCA administers two Tenant-Based Rental Assistance (TBRA) Programs on behalf of the New Jersey Department of Health (DOH). HOPWA enables eligible persons with HIV/AIDS and their families to secure decent, safe and sanitary housing in the private rental market by providing tenant-based rental assistance (TBRA). These Programs cover the following New Jersey Counties Atlantic, Cape May, Cumberland, Mercer, Salem and Warren (HOP-1). DCA also administers the HOPWA Post-Incarcerated Program (HOP-2) on behalf of the DOH.

The DCA works closely with community-based support organizations that provide participants with case management and ancillary services in conjunction with the rental subsidies. These agencies certify that each HOPWA participant receives required case management services and meets the criteria. HIV/AIDS service providers meet with the project sponsors on a quarterly basis in order to review program activities and progress.

A low-income individual living alone, or as a head of household, or an eligible child residing with a parent or legal guardian who is HIV/AIDS positive is qualified to receive permanent tenant-based rental assistance. Applicants must be referred to DCA by a participating HIV/AIDS service provider agency and be receiving HIV/AIDS case management. Applications will not be accepted directly from the applicant. All clients receive HIV case management and related services through State and federal (Ryan White) funded grantees in their area. At this time waiting lists for both HOPWA programs are closed and we are not accepting applications. The HOP 1 waiting list has 36 applicants waiting for assistance and the HOP 2 Program has 16 applicants waiting for assistance.

DCA will utilize \$ 1,012,963 to provide decent housing for low-income persons and their families living with HIV/AIDS in FFY 2014.

Union	2,854	NA	0
Warren	170	1	0
Totals	35,742	147	39

During SFY 2014, DCA provided rental assistance to over 147 individuals with HIV/AIDSs.

HOPWA for the Post-Incarcerated (HOP-2)

The HOP-2 Program operates in a similar manner to the HOP-1 Program with the exception that clients are all coming directly from correctional facilities. DCA anticipates providing assistance to approximately 40 households.

Clients in this HOPWA program are referred by Discharge Planners located within various State of New Jersey Correctional facilities. During SFY 2014, the program provided over 40 households with rental assistance.

Post-incarcerated persons with HIV/AIDS face huge hurdles in maintaining self-sufficiency as a result of their criminal records. Finding stable employment and housing is often hard to come by.

Emergency Solutions Grant Program

Purpose:

The purpose of the Emergency Solutions Grant (ESG) program is to assist units of government and nonprofit organizations in their efforts to provide services to homeless individuals and families.

The ESG Program funds will be used to: 1) fund the capital costs to rehabilitate properties to create new emergency shelters and transitional housing facilities; 2) eliminate health and safety violations in existing emergency shelters; 3) assist individuals and families living on the streets or in emergency shelter obtain permanent housing; and 4) provide prevention assistance to households in imminent risk of homelessness due to an eviction.

The Emergency Solutions Grant Program operates under the umbrella of the Shelter Support Program. The Shelter Support Program seeks to look at homelessness in a comprehensive way. So, in addition to bricks and mortar activities provided for through the ESG program, the Shelter Support Program encourages and participates in a continuum of care approach to service the many needs of homeless individuals and families. Other activities of the program include:

- Working with grantees to ensure that homeless individuals receive comprehensive case management services to help them achieve independent living.
- Collaboration with other State agencies in the planning and development of programs and services to reduce the number of homeless individuals and families, streamlining services, advocacy, and other important and relevant issues.
- Coordination of efforts with the Comprehensive Emergency Assistance System (CEAS) Committees that operate in each county.

Eligible Activities:

Emergency Solutions Grant funds may be used for one or more of the following activities:

- Renovation, major rehabilitation, or conversion of buildings for use as emergency shelter and transitional housing for the homeless.
- Construction of new transitional housing for the homeless.
- Purchase of equipment, furnishings and vans that will provide direct benefits to the shelter's residents.

- *Financial Assistance*
 - Security Deposit: up to 1 ½ months of rent.
 - Rental Assistance: up to 12 months.
 - Rental Arrears: up to 3 months
 - Utility Deposits: for electric, oil and gas
 - Utility Payments: up to 2 months for electric, oil and gas
 - Moving Cost Assistance: reasonable moving costs, such as a truck rental, hiring a moving company or short-term storage fees for a maximum of three months or until the program participant is in housing, whichever is shorter.

- *Case Management:* arrangement, coordination, monitoring, and delivery of services related to meeting the housing needs of program participants and helping them to obtain housing stability. Case management services include:
 - Developing an individualized housing and self-sufficiency plan (including job search and career advancement).
 - Identifying and obtaining services for program participants.
 - Three (3) month monitoring and evaluation of the program participant's progress.

- *Housing Search and Placement:* assist program participants locate, secure, and retain suitable housing.

- *Counseling on credit repair, budgeting, and money management.*

- *Data Collection and Evaluation:* costs associated with operating a Homeless Management Information System (HMIS) for purposes of collecting and reporting data required under the ESG program. Eligible costs include:
 - HMFA HMIS fee.
 - Staffing associated with the operation of HMIS (data entry, monitoring and reviewing data quality).

- Financial Assistance to homeless and potential homeless households.
 - Security Deposits: up to 1 ½ months of rent.
 - Rental Assistance: up to 12 months.
 - Utility Deposits and Payments.
 - Moving Cost Assistance: reasonable moving costs, such as a truck rental, hiring a moving company or short-term storage fees for a maximum of three months or until the program participant is in housing, whichever is shorter.

- Housing Search and Placement: assist program participants locate, secure, and retain suitable housing.

Eligible Applicants:

Local and county governments and nonprofit organizations may apply for funding. A private, nonprofit organization may either apply directly or through a unit of government. A nonprofit organization is defined as a secular or religious organization described in Section 501(c) of the Internal Revenue Code of 1954, making it exempt from taxation, assuming it has an accounting system, a voluntary governing board, and practices non-discrimination in the provision of services.

HUD grant funds may be used to renovate, rehabilitate or convert buildings owned by primarily religious organizations or entities provided that the funds are not used also to support inherently religious activities such as worship religious instruction or proselytizing. Religious activities that are conducted in these buildings must be voluntary for participants of HUD-funded activities and must occur separately in time and location from HUD-funded activities.

Funding Priorities:

Priority will be given to proposals that seek to:

- Create additional shelter beds and transitional housing units for the homeless, particularly for families and homeless youth (18-21 years of age) and specialized populations such as: the mentally ill homeless; persons with HIV/AIDS; veterans; and those with alcohol/substance abuse; and victims of domestic violence and homeless ex-offenders when the need for such a facility is clearly documented.
- Improve the quality of existing emergency shelters and transitional housing arrangements by eliminating code violations and improving health and safety conditions.
- Assist households who are either homeless or at-risk of homelessness to obtain and maintain permanent housing.

Program Requirements:

Shelter Support Program funds that are used for capital costs of \$100,000 or more require a mortgage (or leasehold mortgage) lien for a period of 10 years.

ESG Funds Allocated for State FY 2015: \$2,487,873

Match Requirements: In order to satisfy the 1:1 match requirement, the State of New Jersey will utilize funds from the Affordable Housing Trust and the Homelessness Prevention Program.

Notice of Awards: DCA will announce the 2015 ESG awards on the Department's Division of Housing and Community Resources' website page <http://www.nj.gov/dca/divisions/dhcr/>.

Housing Quality

The 2011 US Census American Community Survey data contains the following factors that describe the condition of the housing stock. They include the presence of kitchen and plumbing facilities, heating source and overcrowding.

- 99% of New Jersey’s housing units had kitchen facilities with only 1% lacking complete kitchen facilities.
- Only .6% of the housing units lacked complete plumbing facilities.
- Heating source: 12.3% of homes were heated by fuel oil, kerosene, coal or coke, wood, used another fuel or no fuel at all.
- Another housing problem that can be related to affordability is the incidence of overcrowding of large related households in all income groups. While overcrowding is found among just 4% of New Jersey households overall, many of these large households are not able to secure large rental units that are in standard condition and are affordable.

The below charts show that housing issues persist across races and are in line with the State’s population. As New Jersey’s population becomes more diverse, housing problems will be found among all races.

Figure 8: Housing Conditions

Low income households are those making less than 50% of AMI. The various housing problems are: lacking complete kitchen or plumbing facilities (substandard), having more than 1 person per room (overcrowded), and paying more than 30% of gross income towards housing costs (cost burdened).

Age of Housing

When looking at the age of housing, New Jersey's housing is much older than the rest of the country. Twenty-Seven percent (27.3%) of the State's housing units were constructed prior to 1950 versus 19% nationwide. New Jersey's oldest housing can be found in Bergen, Camden, Essex, Hudson, Mercer, Passaic, Salem, Union and Warren counties. New Jersey's newest housing can be found in Atlantic, Gloucester and Hudson counties. It's worth noting that 4.2% of New Jersey's housing units were built since 2005.

2011 American Community Survey

Populations with Special Needs

Elderly: According to the 2011 American Community Survey, 10% of New Jersey residents are disabled. Of those ages 65 years and over 33.3% are disabled.

Services and Assistance for the Elderly

- Pharmaceutical Assistance to the Aged and Disabled (PAAD) provides coverage for prescribed legend drugs, insulin and insulin supplies. The PAAD co-payment will be \$6 for each PAAD covered generic drug prescription and \$7 for each PAAD covered brand name drug prescription. PAAD beneficiaries may pay less for generic drugs if their Medicare prescription drug plan charges them less than the \$6 PAAD co-payment for generics.
- Lifeline is a utility assistance program that offers \$225 to persons who meet the PAAD eligibility requirements or who receive Supplemental Security Income (SSI). This includes utility customers as well as tenants whose utility bills are included in their rent.
- Hearing Aid Assistance to the Aged and Disabled provides a \$100 reimbursement to eligible persons who purchase a hearing aid.
- New Jersey Statewide Heating Assistance and Referral for Energy Services (New Jersey SHARES) provides temporary financial assistance to residents of New Jersey who are in need of temporary help in paying their energy bills.
- Safe Housing and Transportation Program provides a safe environment for senior citizens through the provision of home repair services, safety improvements, and escorted transportation services.

The escorted transportation program is prioritized to serve seniors living in high crime areas with special emphasis being placed on frail elderly (i.e., 75 plus years of age) and elderly living alone. Programs funded under Residential Maintenance focus on alleviating existing conditions which are detrimental to the health and safety of the elderly. The Safe Housing and Transportation Program is administered through the 21 Area Agencies on Aging.

Persons with Disabilities:

Disability is defined by the Census Bureau as a lasting physical, mental or emotional condition that makes it difficult for a person to do activities or impedes them from being able to go outside the home alone or to work. Defined in this fashion, the number of persons having disabilities in New Jersey is 871,783.

2011 American Community Survey

The State's Division of Disability Services (DDS) provides information and referral services to people with disabilities and their families, focusing on people who have become disabled as adults, whether through illness or injury. DDS also is responsible for overseeing various Medicaid home-and community-based waiver programs that are designed to help people with disabilities live as independently as possible.

The State's Division of Developmental Disabilities (DDD) serves more than 40,000 people with developmental disabilities including the following conditions: mental retardation; cerebral palsy; autism; epilepsy; spina bifida; traumatic brain injuries and certain neurological impairments. Today over 37,000 DDD consumers live in their communities, while the remaining 3,000 live in seven state-run Developmental Centers (DCs).

The New Jersey Council on Developmental Disabilities is New Jersey's planning body for developmental disabilities issues. Members are appointed by the governor and approved by the New Jersey Senate. The Council develops and monitors the State Plan

for Services to People with Developmental Disabilities and administers the federally assisted Basic State Grant Program, and publishes *People with Disabilities and Families* magazine.

Persons with Mental Illness: More than 276,500 New Jersey residents received mental health services through the State's Division of Mental Health Services (DMHS). DMHS serves over 6,500 people who, for some period of time, require intensive inpatient treatment in State psychiatric hospitals and over 270,000 people who are able to live more independently and use services in their own communities.

DMHS also supports through direct funding and other means people who require inpatient treatment from the six county-operated psychiatric units/hospitals; and it formally approves the quality of inpatient care provided by Short Term Care Facilities and Children's Crisis Intervention Units in local general hospitals.

In November of 2004, then Acting Governor Richard J. Codey signed the executive order that created the Governor's Task Force on Mental Health. This task force was formed to rigorously investigate New Jersey's mental health system and develop solutions to the obstacles that currently face those with mental illness – and their families.

Victims of Domestic Violence: Victims of domestic violence have significant immediate needs for shelter and crisis services, and ongoing needs for support to overcome the trauma they have experienced in order to move on with their lives.

On February 16, 2012 the New Jersey Assembly Judiciary Committee approved legislation (Bill A-321) to provide further protection against those who repeatedly commit domestic violence by authorizing the courts to impose electronic monitoring of repeat domestic violence offenders. The bill allows the courts to order electronic monitoring of someone who is likely to repeat physical abuse behavior after having been previously convicted for domestic violence or who has violated a domestic violence restraining order. If electronic monitoring is required, victims would receive notification if their offender is nearby.

Persons Living with HIV/AIDS

Persons living with HIV/AIDS vary in their needs for housing and housing related services. The effects of HIV/AIDS range from loss or reduction of income to the inability to live independently due to declining health. A range of housing options is needed, including options that allow for in-home caregivers at certain points. Housing linked to mental health and chemical dependency case management is needed for persons who are dually or triply diagnosed – a growing portion of the HIV/AIDS population. Housing and care needs can extend to assisted living support such as in-home medical services, nursing services, and hospice care.

New Jersey offers the following types of services for those who have HIV or AIDS:

- The AIDS Drug Distribution Program provides life-sustaining and life-prolonging medications to low income individuals with no other source of payment for these drugs.
- The New Jersey Health Insurance Continuation Program (HICP) is a special program for New Jersey residents with HIV or AIDS. This program allows you to keep your health insurance when you can no longer work or when you can only work part time. If you qualify, HICP will pay the monthly payments (premiums) for your health insurance, including family insurance that covers your spouse and/or children.
- The HIV Home Care Program provides Ryan White Title II funds to a statewide network of licensed/certified home health care agencies to provide comprehensive services to individuals with HIV/AIDS who are living in their homes. The program is an adjunct to the New Jersey Medicaid AIDS Community Care Alternative Program (ACCAP). The majority of HIV Home Care Program service providers are located at ACCAP sites throughout the State. Referrals into the HIV Home Care Program come from hospitals and from the community. There is no waiting period for clients who meet the eligibility criteria.
- Rental Housing Assistance: Housing Opportunities for People with AIDS enables eligible persons with HIV/AIDS and their families to secure decent, safe and sanitary housing in the private rental market by providing tenant-based rental assistance.

On March 21, 2012 the Christie Administration announced \$8.1 million in grants to hospitals, health centers, community organizations and public health agencies providing medical and support services to those living with HIV/AIDS. Seventeen organizations will receive \$6.3 million in U.S. Department of Health and Human Services' Ryan White funds to provide health care services, home health care, transportation, substance abuse treatment, mental health counseling, hospice care and other social services.

A second grant of \$1.8 million in funding from the U.S. Centers of Disease Control and Prevention (CDC) will enhance HIV testing and allow clinics in five cities to buy HIV testing kits and hire patient navigators to help those who test positive for HIV to enroll in treatment.

Substance Abuse: Substance abuse is implicated across a wide range of human service needs. It complicates treatment of mental health problems in persons who self-medicate with drugs and/or alcohol. It contributes to family conflict and dysfunction. It is frequently a factor in homelessness in both single transients and families in crisis.

Veterans: It is estimated that there are 433,765 veterans in New Jersey, of which approximately 7,000 to 8,000 are homeless.

Figure 15: Veterans

2012 American Community Survey

The State has the following programs and initiatives to help address homeless veterans:

Veterans Haven is a New Jersey State operated 54 bed transitional housing facility for homeless veterans. The facility offers a multitude of services including: mental health/ social services counseling; addictions counseling; and vocational rehabilitation counseling and training.

The Veterans Affairs, in partnership with several community-based agencies, has well over 100 units of transitional housing in New Jersey. This program provides both temporary housing (up to 2 years) and job training through the Veterans' Industries program. The later places homeless veterans into paid, on-the-job training in the following areas: construction; golf operations; horticulture; retail sales; food preparation; housekeeping; warehousing; nursing assistants; and clerical support.

Veterans Vouchers: DCA is administering HUD-Veterans Affairs Supportive Housing Vouchers which provide rental assistance to homeless veterans.

DCA has applied for additional project-based vouchers through HUD's Veterans Affairs Supportive Housing Program to obtain additional vouchers.

Causes of Homelessness

There are a variety of causes of homelessness, including but not limited to:

1. The lack of affordable housing;
2. Substance abuse and/or mental illness;
3. Aging out from the foster care system or release from a correctional facility without adequate discharge planning; and
4. Unexpected events such as the loss of job, natural disaster, fires, domestic violence, illness, and medical expenses.
5. Release from jail or prison

Homeless Needs

The needs of homeless persons also vary and are usually multiple. National data on the homeless reveal that about 35% to 40% of the homeless suffer from mental illness and approximately 30% have chronic substance abuse problems. Many of the homeless with these conditions require long-term housing with supportive services. Mental health counseling and substance abuse treatment and counseling are also necessary, as are housing and services for the victims of domestic violence. Other needs include health, vocational, educational and legal services. Case management services are needed by all homeless people to assure they are provided the services they require.

To address the homeless population, the State will continue to do the following:

1. Provide funding to increase the number of permanent, affordable and supportive housing for individuals and families that earn less than 30 percent of Area Median Income.
2. Continue to provide funds to create and maintain emergency shelters and transitional housing facilities that provide temporary housing and linkages to life skills training to help their clients move into stable housing.
3. Continue to provide homeless prevention funds through the State Homelessness Prevention Program and the federal Homeless Prevention and Rapid Re-Housing Program.

Rural Homelessness: The main causes of homelessness in rural areas are no different than those in the rest of the State. The main difference is that there are fewer shelters in rural areas. Therefore, people experiencing homelessness are less likely to live on the street or in a shelter and more likely to live in a car or with relatives in overcrowded housing.

The federal government identifies several municipalities in the following 8 counties as federal rural areas. These counties include: Atlantic County; Burlington County; Cape May County; Cumberland County; Ocean County; Salem County; and Somerset County.

Chronic Homeless: National studies indicate that while the Chronically Homeless represent only a small portion of the population (10-20%), they account for the utilization of more than 50% of the resources that are spent on homelessness. Studies indicate that it is more cost effective to permanently house this population than to have them

cycle through emergency and institutional public systems (jails and prisons, state, county, and local in-patient hospitals, and repeated enrollment in transitional housing programs).

Estimated Units with Lead-Based Paint

Lead is a highly toxic heavy metal that has been widely used in industrial processes and consumer products. The National Academy of Sciences has reported that comparatively low levels of lead exposure are harmful.

The primary method for lead to enter the body is the ingestion of substances that contain lead, mainly lead-based paint. Lead-based paint is found in housing constructed prior to 1978, before it was banned from use in residential structures. In New Jersey, the ban was partially implemented in 1971.

More than 2.4 million of our State's 3.3 million housing units were built before 1978. Based upon Title X guidelines, the presumption is some lead-based paint will be found in a substantial percentage of pre-1978 housing. The prevalence of lead-based paint and/or the percentage of lead in paint increase as the housing age increases according to both the Department of Health (DHSS) and the NJ Interagency Task Force on the Prevention of Lead Poisoning (Task Force). Both DHSS and the Task Force state that children occupying housing constructed prior to 1950 are therefore at highest risk for lead poisoning.

This increase in risk as the age of housing increases is exacerbated when that housing is not maintained. This finding of increased risk is also supported by test results achieved by the Indoor Environmental Hazards Unit (IEHU). During 17 years of experience with State and federally-funded lead hazard control programs (1995 through June 30, 2012), the IEHU tested almost 1,500 housing units scheduled for renovation or lead hazard control work. More than 95% of the units tested were built prior to 1950. More than 99% of the units tested had significant lead-based paint hazards.

With approximately 28% of New Jersey's housing (over 979,000 of our housing units) constructed prior to 1950 exposure to lead-based paint hazards and childhood lead poisoning is a health concern.

Under New Jersey's universal screening law, all children are to be tested at both one and two years of age. At a minimum all children should have at least one blood lead test before their sixth birthday. Approximately 78% of children in New Jersey have had at least one blood lead test prior to reaching three years of age.

Although the Centers for Disease Control (CDC) has reduced its recommended intervention level from 10ug/dl to a reference level of 5ug/dl, New Jersey health departments are required to conduct an environmental assessment only to a persistent 10ug/dl or one test at 15ug/dl or higher.

The DCA has taken a primary prevention role using the following:

1. Vigorous enforcement of the lead-safe maintenance requirements of N.J.A.C. 5:10 Regulation for the Maintenance of Hotels and Multiple Dwellings. This regulation requires that only individuals trained in lead-safe work practices can perform work which disturbs paint in pre-1978 buildings of 3 or more residential dwelling units. In addition, property owners must maintain records of that training as well as records of dust wipe testing following clean-up after work.
2. Each residential property constructed prior to 1978 and rehabilitated with federal funds is evaluated for lead-based paint hazards in accordance with 24 CFR 35 Lead Safe Housing Rule. Hazards are controlled as a part of the undertaking. Dust wipe tests are conducted in accordance with federal and state regulations following completion of work.
3. Conducting quarterly address matching between blood lead level test results and rental assistance recipients with children under the age of 6. Through a cooperative memorandum granting DCA limited access to the New Jersey Department of Health's 'LeadTrax' database, DCA staff address-match to see if any children under six years of age, living in a pre-1978 Housing Choice Voucher-assisted unit have been identified by a local health department as having an elevated blood lead level. DCA staff search LeadTrax to see if the unit in question has been tested; if lead hazards have been identified; and if an abatement order has been issued and the lead hazards have been abated. Families with children under six living in a unit with lead-based paint hazards present will be required to relocate.
4. Referring families to the regional lead education and outreach coalition serving their community.

Collaboration with Agencies To Address Lead Poisoning

The State of New Jersey has an Interagency Task Force on the Prevention of Lead Poisoning. The task force is comprised of representatives from various State Departments - Human Services, Community Affairs; and Environmental Protection and regional and local governmental and non-governmental agencies. The mission of the taskforce is to reduce childhood lead poisoning, promote lead-safe and healthy housing, support education and blood lead screening, and to support interagency collaboration.

State Health Facts

Housing Market Analysis

This section utilizes the most recent Census Data available to analyze New Jersey's housing market and inventory characteristics, including unmet need and economic factors affecting availability, condition and cost of affordable housing in the State.

Population

New Jersey is the 11th most populated state in the nation with an estimated population of 8.86 million and ranks first in population density, with 1,195.5 people per square mile. New Jersey is ranked 47th of the fifty states that comprise the United States in terms of area. The total area of the State is 8,729 square miles, of which 14.9% is water, and 85.1% is land. New Jersey spans 70 miles at its widest and 130 miles in length.

The most populous county in the State is Bergen with a population of 918,888. The other counties in the top five include Middlesex, with a population of 823,041; Essex with a population of 787,744; Hudson with a population of 652,302, and Monmouth with a population of 629,384.

Figure 17: Population

2012 American Community Survey

Low-income Concentration

The majority of low-income households, 46%, reside in the northern region of the State. The central region comes in second with 31%, followed by the southern region with 23% of the low-income households.

The most concentrated counties include Atlantic (32.7%), Cape May (36.5%), Cumberland (37.7%), Essex (33.8%), Hudson (33.9%), Ocean (30.1%), Passaic (35%), and Salem (34.5%).

Only 5 counties do not have a concentration of low-income households: Burlington; Hunterdon; Morris; Somerset; and Sussex counties.

The majority of New Jersey residents are White (69.2%). Hispanics are next with 18.1% followed by African Americans with 13.4%.

Racial Concentration

The next figure represents the racial breakdown of the population by County. The data shows that the African American community remains concentrated in Essex County with 40%. Other counties with a concentration of 20% or more include Cumberland County (20%), Mercer County (20%) and Union County (22%).

The counties with highest percentage of minorities are: Essex (59%); Hudson (44%); Union (41%); Middlesex (38%); and Camden and Atlantic (36%).

2011 American Community Survey

*Disability status is self-identified in the census. Persons with disabilities fill out their census forms to report if they have a disability. Disability is defined as ambulatory, hearing, vision or self-care difficulty. Population under the age of 18 years is excluded from self-care disability.

Income

The following chart shows that the median income in New Jersey is \$71,637. Households residing in Hunterdon, Somerset and Sussex have the highest income.

Figure 22: Median Income

2012 American Community Survey

Education levels also greatly impact the ability to earn a decent income. When you look at income levels by race and educational attainment, you begin to see a high correlation between income and education. Persons in New Jersey with a Bachelor’s degree out-earned those with just a high school degree by almost \$30,000.

Approximately 32% of New Jersey residents with a high school degree or less were living in poverty compared to 10.3% of residents with at least some college education.

Figure 23: Poverty and Education

Housing Characteristics

In 2012, New Jersey had a total of 3,574,558 housing units. According to the 2013 Construction Reporter, a report published by the New Jersey Department of Community Affairs, Division of Codes and Standards, new home construction accounted for \$3.2 billion, (36.1 percent more than 2012). A total of 18,733 new dwellings were authorized by permits, (23.7 percent more than 2012).

The following chart identifies the number of building permits issued in 2013 by county. Hudson and Ocean counties were issued the most permits.

Figure 24: Housing Units Authorized by Building Permits (2013)

New Jersey Department of Community Affairs, NJ Construction Reporter

Housing Quality

The Census data contains the following factors that describe the condition of the housing stock. They include the presence of kitchen and plumbing facilities, heating source and overcrowding.

- 99% of New Jersey's housing units had kitchen facilities. Only 1% lacked complete kitchen facilities.
- Only 1% of the housing units lacked complete plumbing facilities.
- Heating source: 12.5% of homes were heated by fuel oil, kerosene, coal, coke, wood, solar energy, or another type of fuel; .3% used no fuel at all.

Another housing issue that can be related to affordability is the incidence of overcrowding of large related households in all income groups. While overcrowding is found among just 4% of New Jersey households overall, many of these large

households are not able to secure large rental units that are in standard condition and are affordable.

The following two charts summarize the findings noted above.

Figure 26: Housing Conditions

Low income households are those making less than 50% of AML. The various housing problems are: lacking complete kitchen or plumbing facilities (substandard), having more than 1 person per room (overcrowded), and paying more than 30% of gross income towards housing costs (cost burdened).

2009 CHAS Data

Race and Housing Issues

The above charts show that housing issues persist across races and are in line with the State's population. As New Jersey's population becomes more diverse, these types of issues will be found among all races.

Age of Housing

When looking at the age of housing, New Jersey's housing is much older than the rest of the country. Forty-Three percent (43.2%) of the State's housing units were constructed prior to 1950 versus 30% nationwide. New Jersey's oldest housing can be found in Bergen, Camden, Essex, Hudson, Mercer, Passaic, Salem, Union and Warren counties. New Jersey's newest housing can be found in Atlantic, Gloucester, Hudson and Sussex counties.

Housing Affordability

Households spending more than 30 percent of their gross income on housing costs are considered to be cost-burdened. Households spending more than 50 percent are considered to be severely cost-burdened. Housing is generally considered to be affordable if the household pays 30 percent or less of their income on rent and utilities. Overall, 54.6% of New Jersey renters spend more than the recommended 30 percent of income for housing.

2011 American Community Survey

The National Low-Income Housing Coalition's 2014 Out of Reach report ranks New Jersey as the fifth most expensive state to rent a two-bedroom apartment behind Hawaii, District of Columbia, California, and Maryland. In New Jersey, the Fair Market Rent (FMR) for a two-bedroom apartment is \$1,296, an increase of \$4 from the 2013 report. The report states that the wage necessary to afford a 2 bedroom apartment is \$51,838 per year or \$24.92 an hour.

Figure 29: 2014 Out of Reach Data

County	Estimated Mean Renter Wage	Rent Affordable with Full-Time Job Paying Mean Renter Wage	Full-time jobs at mean renter wage needed to afford 2 bdrm FMR

Union County	\$17.35	\$902	1.4
Warren County	\$11.91	\$619	1.9

Vacant and Abandoned Buildings

Although it is difficult to determine the exact number of vacant and abandoned properties in New Jersey, the data suggests that the majority of the properties are located in urban areas and rural areas. These properties pose public safety problems, lower property values, and contribute to neighborhood blight.

Over the past 6 years, the State has enacted legislation to accelerated foreclosure action on vacant property by eliminating the waiting period between the time a potential new owner gives notice of its interest in foreclosing and lien acquisition. In addition, DCA through its Neighborhood Stabilization Program is providing funds to municipalities and for-profit/nonprofit developers to acquire and redevelop foreclosed properties that might otherwise become sources of abandonment and blight in targeted areas.

Occupied Housing Unit Characteristics

In 2011, New Jersey had 3,167,725 occupied housing units, 65% owner-occupied and 35% renter-occupied; 11.1% were vacant. The number of owner-occupied units has decreased 2.5% since 2005 from 2,114,072 to 2,060,480 in 2011 while the number of renter-occupied units has increased 3.9% from 1,027,884 in 2005 to 1,067,470 in 2011. The decrease in the number of owner-occupied units and the increase in renter-occupied units have been attributed to the 2007 recession and high rate of unemployment that continues through 2013.

Housing Costs

70.3% of homeowners had a mortgage according to the 2011 U.S Census with 65.8% of all homeowners paying \$2,000 or more per month towards their mortgage. 24.4% of residents paid less than 20% of their household income towards housing costs while 24.5% of residents paid 35% or more of their household income towards housing costs. According to the American Community Survey, New Jersey has the 5th highest home values, behind Hawaii, District of Columbia, California and Massachusetts; Massachusetts surpassed New Jersey since 2010. 29.7% of New Jersey residents did not have a mortgage in 2011. Of those without a mortgage, 62.5% paid less than 25% of their household income towards housing costs.
