After the consulting firm has been approved by DCA, go back into **Assign additional Agency Contacts to application** section and **Add** them to the Application Contact list.

**DO NOT** add outside consultants as Agency Contacts.
2. Components

Each year the Small Cities CDBG Program sends out an RFP through SAGE. Applicants respond by submitting applications in SAGE to the DCA Small Cities CDBG Program on or before the established deadline. Applicants are also required to follow requirements in The Final Plan for New Jersey’s Administration of the Small Cities CDBG Program (Final Plan), which establishes the distribution of the allocation, matching requirements, the evaluation criteria, threshold requirements, rated criteria, eligible activities, recaptured funds and the list of eligible municipalities and counties.

A Component is a Program Type; there are three programs or funds that start the application process through SAGE: Housing Rehabilitation, Innovative Development and Public Facilities. The Innovative Development Program and the Emergency Housing Repair Program require the submission of a pre-application, which can be downloaded from the Program’s website. The Program will invite applicants to submit full applications if the pre-applications are fundable. Applicants may only submit one application for each program type. However, the Program reserves the right to limit the number of awards made per year in accordance with the Program’s Final Plan.

Please refer to the Program’s webpage at http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html for further guidance and the program’s handbooks on the following grant compliance items: grant management, grant management plan and professional services, citizen participation plan (initial public hearing), environmental review record (ERR), and civil rights including fair housing.

- In the Address fields, provide the address of the program’s day-to-day administrator

In this section, indicate the areas (counties and/or municipalities) that will benefit from this program—which may or may not be the area that your agency serves as a whole.

Documentation of Needs and Costs (No Form, see also Attachment Section). Each of the following (a. through e.) must be addressed and then mailed or uploaded in the attachment section.

a. The problem your proposed project will address. How long the problem has existed and how it developed. Be specific.

b. The extent to which the proposed project provides a long-term solution to the problem you have identified. Indicate the source of operating expenses for new facilities (e.g. senior centers, community centers).

c. Deficiencies with a certification from a qualified person or persons who is /are not employed in any manner by the applicant. This person must address the specific problem or problems that you have identified and intend to correct with the Small Cities funds requested. Projects that clearly address a severe situation affecting the health or safety of the residents of the service area must provide evidence in this section.

The certification of deficiencies must be included in this section or it will not be given credit. Do not include letters of support from local residents or others with this item.

d. Document costs with a certification from a person qualified in the field, such as an architect or engineer. The cost estimate must appear on the letterhead of the qualified person’s firm and bear an original signature of the person. This documentation must be included in this section.

Since the Davis-Bacon and NJ Prevailing Wage Acts apply to projects assisted with Small Cities funds, whoever provides the cost estimates must certify that prevailing wage rates were used in developing the estimate.

e. Provide photographs that describe the proposed project.

Community Development and Housing Needs Statement

Applicants must provide a Community Development and Housing Needs Statement consisting of three components -- community development needs, housing needs and applicable land use plans. The following must be addressed then mailed or uploaded in the attachment section.

Community Development Needs

In preparing this component of the Statement the applicant must address at least the following categories:

a. Non-residential development (e.g., commercial, major employers, business recruitment strategies)
b. Parks and recreation facilities and open space areas
c. Infrastructure (e.g., water supply, wastewater, transportation network)
d. Public buildings (e.g., senior/community centers, schools, libraries)

If there is no need for improvement in any category, the applicant must provide supporting evidence. Where there are particular needs -- even if they are not addressed through this Small Cities application -- the applicant must describe each need identified, the source of the information provided, the affect on people of low or moderate income, and identify actions taken or proposed to address the need.

Housing Needs

In preparing this component of the Statement, the applicant must address at least the following categories: rental housing, manufactured housing, existing owner-occupied housing stock, and impediments to new affordable housing development. If there is no need for action to improve conditions in any one category, the reason for that conclusion must be indicated. Where needs are identified, each must be described, information sources and the affect on people of low or moderate income indicated, and actions taken or proposed to address the need presented. The applicant must also indicate the date of the most recent housing element or comparable study and the applicant’s current COAH status.
Community Development and Housing Needs Statement (continued)

Status of Planning

In this component of the Statement, the applicant must address the status of planning by the applicant and by each participating unit of government (in cases where more than one municipality is included within the scope of the proposed program). Information presented must include the following:

- the date of the most recent master plan adoption or re-evaluation;
- the relationship of local/county plans to higher level plans (e.g., Pinelands Plan, State Development and Redevelopment Plan, county cross-accepted plans, endorsed plans, center designation); and
- the relationship of the proposed project to the plans identified (most important part of this section).

Grant Management Plan

The Small Cities Community Development Block Grant Program requires a great deal of administrative oversight. The federal statute and implementing regulations as well as all other applicable laws require careful attention by qualified people selected by the grantee. Because administration is so important in implementing a Small Cities project, the grantee must submit a GRANT MANAGEMENT PLAN to the Department for approval. The GRANT MANAGEMENT PLAN must:

1. Identify one person, either an employee or elected official, as Project Director. The Project Director shall be responsible for overseeing all grant activities and must certify that Monthly Fiscal and Program Progress Reports are accurate.
2. Identify one person as Project Coordinator with overall responsibility for day to day administration of the grant and liaison with the Small Cities Program. The Project Coordinator may be an employee or consultant hired by the Grantee for this purpose, but may not be the Project Director or Chief Financial Officer for that unit of local government (i.e., the grantee).
3. Identify the person serving as Chief Financial Officer for the grantee who will be responsible for fiscal administration of this grant.
Grant Management Plan (continued)

4. Persons serving in any of the above administrative positions may not serve in any other official capacity related to this grant.

5. Identify all other persons having any responsibility for implementing the grant. Such persons may include housing inspectors or cost estimators, engineers, architects, Lead Paint Inspectors, and Labor Standards Compliance Officer (the Project Coordinator normally has responsibility for labor standards compliance, but exceptions are allowed in certain cases).

6. Identify all administrative tasks required to implement the grant, estimating the time it will take to complete them and specifying which person(s) identified above has direct responsibility for each task.

7. Provide a schedule which indicates when each task is to be undertaken and completed.

8. Provide names, qualifications, addresses (including e-mail), cell, and telephone/fax numbers of all persons identified above. Where a consultant is involved, all individuals participating in grant activities must be identified.

9. The Grant Management Plan must be approved by Resolution at an official meeting of the governing body, as well as any changes made in the future. Both the Grant Management Plan and Resolution must be submitted to your DCA Program Manager for approval.

Public Hearing Information

All applicants must hold at least one public hearing prior to the submission of any application, even if the application has been submitted before. The purpose of this hearing is to discuss community development and housing needs and to develop proposed activities for Small Cities funding. If an award is made, a second public hearing will be required to review program performance.
Public Hearing (continued)

The first public hearing must be held at least 20 days before the application is submitted to the Department.

Each hearing must be held at a time and in a location convenient for actual or potential beneficiaries and with accommodations for the handicapped. If the area includes a significant number of non-English speaking residents, the advertisement and conduct of the hearing must facilitate their participation.

The hearing advertisement must appear at least 7 days prior to the hearing, as a Display (non-legal) advertisement, within a paper of general circulation serving the applicant’s jurisdiction.

Federal regulations require that such advertisements must include at least the following information:

1. The amount of funds expected to be available for the current fiscal year;
2. The range of activities that may be undertaken with CDBG funds;
3. The estimated amount of the CDBG funds proposed to be used for activities that will meet the national objective of benefit to low and moderate income persons
4. A description of any proposed activities likely to result in the displacement or relocation of people; and
5. The name and address of the local official to whom written statements may be submitted regarding the applicant’s proposal.

The Public Hearing Announcement must also inform citizens that comments regarding the application may be submitted to the New Jersey Department of Community Affairs, Small Cities Program, 5th Floor, PO Box 811, Trenton, NJ 08625-0811, during the ten days following the hearing. The model hearing notice that must be used is included in the Citizen Participation Plan Handbook on the Program’s webpage at http://www.nj.gov/dca/divisions/dhcr/offices/cdbg.html.

Copies of the published notice, proof of publication, and hearing minutes must be included as part of the application.

Applications that do not include evidence of compliance with public hearing requirements will be rejected.

Budget Pages

This is an overview of the budget setup from the left side of the application. The budget pages can be accessed from the right and left sides of the application. Click on the Budget Detail to review the table and make sure that all figures are correct, or enter the information.

Using the following guidelines, prepare a budget for your Small Cities project that includes Small Cities and matching funds. If your project is funded, this information may be used to prepare a grant agreement.

NOTE: If an award is made, it may be necessary to explain why consultant and contract service fees exceed guidelines established by the Department. The maximum amounts permitted are as follows:

BUDGET GUIDELINES

Public Facilities

− 12% of programmatic costs for engineering or design (including inspection services); and
− 6% of the grant award for a full administrative consultant services agreement (including preparing the Environmental Review Record and other compliance documents and reports to the Department; assuring labor standards compliance; and participating in monitoring visits by the Department). Credit towards matching funds can be granted for compliance items and related administration costs, limits set by the Program, that have been incurred before an award date if the application is funded.

Housing Rehabilitation

− $2,700 per unit of programmatic costs for Case Management and Housing Inspection Services.
− $14,850 of the grant award for a full administrative consultant services agreement (including preparation of the Environmental Review Record, preparation of the Rehabilitation Policy & Procedures Manual, monthly fiscal and program reporting, satisfy other federal assurances, final performance report, and on-going technical assistance including monitoring visits).

Note: Lead evaluation & clearance fees are considered programmatic costs (at least two proposals shall be obtained).

Credit towards matching funds can be granted for compliance items and related administration costs, limits set by the Program, that have been incurred before an award date if the application is funded.
Budget Overview (continued)

The fee schedule is applied as a maximum standard when preparing grant agreement budgets. The assumption is hourly consultant charges are $150 per hour. Add-ons for consumables, travel, and equipment are not permitted.

Hours for specific tasks may be increased if there are compelling reasons to do so. The following are examples of compelling reasons:

- Environmental Review Record requires unusual compliance activity necessitating additional time to complete;
- The Policy & Procedure Manual must be fully created for a first-time grantee necessitating more consultant staff time.
- Unanticipated additional time must be spent marketing the program to homeowners.

APPENDIX

Compliance with National Objectives

Applicants must document how each activity for Small Cities assistance addresses at least one of the national objectives of the Housing and Community Development Act of 1974:

1.) primarily benefit people of low and moderate-income,
2.) prevent or eliminate slums or blight,
3.) address an urgent need of recent origin when no other funds are available

If your application is intended to primarily benefit people of low and moderate-income and to eliminate slums or blight, please follow the instructions below and the application instructions in this document. If you are claiming 3, contact the Small Cities CDBG Program at 609-633-6283 for guidance.

Benefit to Low and Moderate-Income People (Public Facilities and Innovative Development)

The calculation of your project’s benefit to low and moderate-income people is a two step process. First the percentage benefit must be calculated for each activity. Then the separate calculations must be combined to obtain a percentage benefit for your Public Facilities project as a whole. Before you start your calculations, take a moment to understand the following standards, definitions, and requirements.

Definition of Low and Moderate Income

Low and moderate income people are those having incomes not more than the “moderate-income’ level set by the federal government for the HUD assisted Housing Program. This income standard changes from year to year and varies by household size and the metropolitan statistical area. The most recent standard is included in the HUD Income Guidelines for Small Cities Eligible Communities on the Small Cities Program’s webpage under General Information.

Benefit Requirements

For each activity principally benefiting low and moderate income people the applicant must document that:

1.) those served by the activity are presumed to be low and moderate-income (e.g., removing architectural barriers in the public building, developing centers for senior citizens) provide 100 percent benefit to persons of low and moderate-income; or
2.) at least 51 percent of the people in an area served by the activity are low and moderate-income.

Areawide Documentation (Required only if claiming number 2 above)

To document that the activity primarily benefits people of low and moderate income, the applicant must determine the area that will be served by each activity and submit one or more maps that show clearly:

a. the extent of the facility service area;
b. the location of the specific structures and facilities to be assisted with Small Cities CDBG Program funds;
c. the names of the streets in the facility service area;
d. a delineation of all structures by use with vacant structures noted; and
e. the Census tracts and block groups and their boundaries within which part or all of the facility service area is located.

Document each claim for areawide low and moderate-income benefit with the most recent US Census data or with a current income survey of area residents. Surveys must be conducted within 18 months of the application’s submission.
**Census:** If the area that will benefit is the entire municipality or a discrete Census area, submit the low and moderate income percentage of the Census area. You may obtain low and moderate-income percentages from the Small Cities program, if you identify the specific Census area(s) in which the proposed activity is to take place. Census data is available on the Small Cities Program’s webpage.

**Note:** If the area of benefit is smaller than the smallest Census area, you may still use the Census information rather than conduct a survey IF the area of benefit contains at least 50 percent of the total number of people residing in the complete Census area. **However, Census data covering an area smaller than a block group is not acceptable.**

**Survey:** If the service area cannot be described with Census data, you must conduct an income survey using the Low/Moderate Income Benefit Worksheet and Income Survey Form included in the Instructions for completing an Income Survey on the Small Cities Program’s website.

**Note:** The applicant or grantee must show how the percentage of LMI persons was calculated. The percentage of LMI persons must be calculated from the entire population of the service area, and not from the proportion of participants who responded to the survey. If for example, a town in rural America with a population of 640 conducts a census of the entire population to determine the percentage of LMI persons, and gets an 80 percent response rate. Fifty-one percent of 640 is 326, and 80 percent of 640 is 512. Of the 512 respondents, 326 of them should be LMI persons. It is inaccurate to use 51 percent of 512 which is 261. (HUD, Notice CPD-05-06, July 26, 2005)

**Housing Programs**

All housing rehabilitation programs must be targeted to people of low and moderate-income, as defined by the US Department of Housing and Urban Development. The HUD Income Guidelines for Small Cities Eligible Communities are posted on the Small Cities Program’s webpage under General Information.

**Preventing or Elimination of Slums or Blight**

Applicants who claim that their activities meet the national objective of elimination or preventing slums or blight (rather than claiming benefit to low and moderate income people) must document this claim by showing that the activities proposed will be carried out in an “area in need of rehabilitation” or a “redevelopment area” as set forth in the New Jersey Local Redevelopment and Housing Law (NJSA 40A:12A).
