VII. Eligible entities

Nonprofit organizations and municipalities servicing Atlantic, Bergen, Burlington, Camden, Cape May, Essex, Gloucester, Hunterdon, Monmouth, Ocean, Passaic, Salem, and Sussex counties that have at least three (3) years of experience successfully administering and operating

homelessness prevention, street outreach, homelessness diversion, and/or rapid re-housing programs.

Agencies selected must service the entire county and agencies may collaborate together to provide HPRP2 services (with an executed memorandum of understanding [MOU] outlining the collaboration or partnership). However, in partnership or HPRP2 projects, no more than one agency may be selected as the lead agency in a for a collaborative award and the maximum grant awarded will not exceed the chart above.

Lastly, all applicants must demonstrate:

1. Existing homelessness prevention, street outreach, homelessness diversion, or rapid re-housing programs and demonstrable experience in serving individuals and families experiencing homelessness and imminently homeless families.

- a. When speaking to an agency's experience, both the integration of prevention principles and the incorporation of lowest-barrier possible services (understanding that ESG eligibility criteria should be the only barrier) into the agency's portfolio must be clearly articulated with collateral data speaking to the tangible outcomes and impact of services.

This includes statistics regarding the number of individuals and families served, the percentage of those who were able to transition to stable housing, and the length of time in which they were able to achieve this.

Moreover, it is crucial that the agency can provide evidence of the efficiency and effectiveness of their services, such as demonstrating lower rates of recidivism into homelessness, increases in self-sufficiency among clients, and improvements in overall wellbeing.

The collateral data should also include testimonials or case studies that illustrate successful prevention and/or rapid re-housing stories, underlining the agency's ability to help those in need.

2. A diverse compilation of resources and partnerships to support and assist households that are homeless and at risk of homelessness exit those situations and circumstances.

- a. An agency's application should demonstrate a diverse compilation of resources and partnerships. Acceptable examples are found below:

- 1. **Resource Inventory:** Clearly catalogue and describe the range of resources that the agency has available for persons experiencing homelessness and

those at risk of homelessness. This could include direct services such as emergency shelter and food, case management, job training, mental health counseling, other OHP programs, or substance abuse treatment. The inventory should also include indirect resources like connections to affordable housing, educational programs, healthcare facilities, and legal aid. The more comprehensive and diversified the resource inventory, the better equipped the agency is to handle various cases of homelessness.

2. **Partnership Network:** Provide evidence of partnerships that the agency has formed with other organizations in the community, whether they are governmental, non-profit, or private entities. This can be through formal memoranda of understanding, joint programs, shared funding or co-hosted events.
3. **Success Stories:** Showcase success stories that have resulted from the use of these resources and partnerships. This might involve detailing case studies of individuals or families who were able to exit homelessness with the agency's assistance, highlighting how the agency's resources and partnerships were instrumental in their transition.
4. **Outcomes Data:** Demonstrate with data the effectiveness of the agency's resources and partnerships. This could involve statistics on the number of people served, the rate of successful housing placements, improvements in employment status, reductions in recidivism, etc. The data should be presented in a way that is transparent and easy to understand.
5. **Feedback from Clients and Partners:** Include feedback or testimonials from clients who have benefitted from these resources and partnerships, as well as from partners who have collaborated with the agency. This will provide a first-hand account of the agency's work and its impact.
6. **Innovative Solutions:** Detail any innovative or unique solutions that have been developed through these resources and partnerships. This could involve cutting-edge programs, unique partnerships, or novel resources that the agency has put into place to address homelessness. This demonstrates the agency's commitment to continuous improvement and creative problem-solving.

3. The willingness and capacity to partner with local and county law enforcement, the service area's correspondent Continuum-of-Care (CoC), public services (e.g., libraries), and regional and local health care providers.

- a. Agencies should demonstrate this will and capacity through executed MOU/MOA/Letters of Support.
- b. All agencies applying for funding through this program must be active members of their correspondent CoC.

4. Commitment to Housing First:

- a. Housing First is an approach to quickly and successfully connect individuals and families experiencing homelessness to permanent housing without preconditions and barriers to entry, which include but are not limited to:
 1. Ensuring low-barrier, easily accessible assistance to all people, including, but not limited to, people with no income or income history, and people with active substance abuse or mental health issues;
 2. Helping participants quickly identify and resolve barriers to obtaining and maintaining housing;
 3. Seeking to quickly resolve the housing crisis before focusing on other non-housing related services;
 4. Allowing participants to choose the services and housing that meets their needs, within practical and funding limitations;
 5. Connecting participants to appropriate support and services available in the community that foster long-term housing stability.

- b. Agencies must demonstrate commitment to the above outlined principles either via memorandum or board resolution and provide proof of same.

5. Commitment to the Inclusion of & Incorporation of Feedback from Persons with Lived Experience & Expertise (PWLEE):

- a. OHP is committed to incorporating the perspectives and insights of persons with lived experience and expertise (PWLEE) of homelessness and housing instability in feedback and program evaluation processes.
 1. OHP regularly receives this feedback through the DCA Statewide PWLEE Advisory Board, which meets on a monthly basis with OHP and a quarterly basis with DHCR and DCA leadership.

- b. As this feedback is critical to promoting inclusion, equity, diversity, and access in the homelessness prevention and services ecosystem (HPSE), all OHP grantees must affirm and provide proof of organizational alignment with (or the good faith effort of development of alignment with) the following key principles for ensuring the inclusion of PWLEE in feedback in their programs and organization:
 1. Centering the voices of PWLEE: PWLEE have a unique perspective on the experience of homelessness and offer valuable insights into the challenges and barriers they face. It is essential to center their voices in feedback processes to ensure that their experiences and needs are accurately represented.

2. Creation of a safe and supportive environment: PWLEE may have experienced trauma or marginalization related to their experiences of homelessness. It is important to create a safe and supportive environment for them to share their feedback, where they feel heard and respected.

3. Using inclusive language and communication: Feedback processes should use language and communication that is inclusive and accessible to all. This includes using plain language, avoiding jargon or technical terms, and ensuring that all communication is available in formats that are accessible to individuals with disabilities.

4. Providing opportunities for meaningful engagement: PWLEE should have opportunities to provide feedback in ways that are meaningful and accessible to them. This may include one-on-one conversations, focus groups, surveys, or other methods of engagement that suit their preferences and needs.

5. Recognition of power imbalances: Power imbalances can and often do exist between PWLEE and those collecting feedback, which can lead to a lack of representation or influence. It is important to recognize and address these imbalances to ensure that the perspectives and experiences of PWLEE are fully represented and considered in feedback processes.

c. Applicants for OHP funding are required to document affirmation of the principles through supplementary materials submitted as addenda to their application.

Acceptable materials indicating affirmation include, but are not limited to:

1. Centering PWLEE Voices: This could be proven through agency protocols highlighting how PWLEE's perspectives are prioritized, or instances where their insights have influenced changes in the program.

2. Creating Safe Environments: Evidence of this could include policies or guidelines about creating respectful and supportive spaces for PWLEE, and possibly testimonials from PWLEE on their experience participating in feedback processes.

3. Inclusive Language and Communication: Applicants may share their guidelines or examples of accessible, jargon-free communication materials, including different formats for individuals with disabilities.

4. Opportunities for Meaningful Engagement: This could be shown through the variety of feedback methods employed to suit different preferences and needs of PWLEE, and how this feedback has been utilized by applicant.

5. Recognition of Power Imbalances: Applicant could provide evidence of their strategies to identify and address power imbalances, such as policies for equitable treatment, or practices promoting shared decision-making.

6. Active Pursuit of Inclusion, Equity, Diversity, and Access: Applicant may share the organization's policies, training programs, and examples of actions taken to uphold these values.

7. Evidence of Good Faith Effort: For organizations still developing alignment with these principles, they should provide a detailed plan showcasing their understanding of these principles and their steps towards incorporating them. This can include timelines, measurable goals, and designated personnel responsible for each step.

VIII. Ineligible entities

1. Entities listed on the DCA list of High-Risk grantees and, as applicable, the current audit submission is not overdue.
2. Entities listed on the State Debarment list, located at www.state.nj.us/cgi-bin/treas/revenue/debarsearch.pl
