V-A. Explanation of Need for Transitional Aid

Explain the circumstances that warrant Transitional Aid in narrative form. Include factors that result in a constrained ability to raise sufficient revenues to meet budgetary requirements, and if such revenues were raised, how it would jeopardize the fiscal integrity of the municipality. If a municipality received aid in FY2022 do not repeat the same information that was provided in the previous year's application.

In the SFY2023 application, the city is requesting additional aid in response to budgetary losses. As you know, the city, not unlike other municipalities throughout the State has been severely impacted by the Covid-19 pandemic. Currently the Covid-19 pandemic is still having a severe impact on the city. This unforeseen event has caused a severe and far-reaching affect not only on the city, but on residents and businesses. The economic impact on the city will not be fully realized for years to come.

In an effort to lessen the severity of the impact on the budget, the city is continuing to review ways to reduce expenditures and increase revenues. The number of Covid-19 expenditures has increased exponentially, along with a substantial decrease in revenues the past two (2) years and although the CARES Act, FEMA and ARP has covered a major part of the revenue and expenses, a number of unanticipated expenditures and continuous decreases in local revenues will have to be funded through the city's budget.

Also, the city is currently having a tax revaluation performed. This will have a negative effect on the city's budget, the resident and businesses. The ratable base used for Union City in 2022 was \$4,787,614,996. The city's ratio is 32.42 and with a revaluation being performed, it is estimated that our county taxes can rise 5%, due to the increase in the ratable base. This shift of taxes will be clearly given to the residential properties, which are at their peak in the market. The city has seen the effect it has had on a neighboring town in which County taxes have increased over \$7M after revaluation. As you know this could be disastrous to the city. The 2023 class two (2) ratable could increase 13%. Average assessed properties could go from \$8,840 to \$9,989. This increase will be a burden to the city and its tax payers.

In addition to the above, inflation has had an effect on the City's budget. The annual inflation rate is approximately 8.5% for the 12 months ended July, 2022 after rising 9.1% previously. The most since November 1981. Energy prices have increased also over the pat two (2) years and it has been the largest since 1973. They are expected to rise more before easing in 2023.

Without the additional aid, the city's budget would be severely negatively impacted and may result in cutbacks in municipal services and limit the city's ability to protect the public's safety, health and welfare.

The city will only allocate funding for emergency or priority projects. Several projects involving the city's infrastructure have not been completed due to these financial constraints. If the city does not dedicate funding to these projects, emergency repairs will continue and result in a more costly expenditure for the city.

The Division's guidance will be instrumental in the recovery of all municipalities during these unprecedented times. Allowing the city to use a 3-year average for revenue anticipation or allowing additional deferred charges is of great assistance but is not enough. Additionally, the city will continue to explore all options to place the city finances in the most encouraging position without excessively burdening the tax payers who cannot afford a larger tax bill.

An increase in Transitional Aid for SFY 2023 of approximately \$10M would assist the city with more financial stability to continue to take the necessary steps to increase rates, identify additional cost savings and eliminate redundancies while recovering from the impacts of the Covid-19 pandemic and the effects of the revaluation that will be incurred. We look forward to working the Division staff to assist us in achieving this goal.

Over the years, the city has worked to identify and implement cost savings measures through interlocal agreements, contract concessions, grant funding and restructuring of departments. The city will continue to explore any avenue that will achieve cost savings without jeopardizing the interests of the public.

Redevelopment discussions are on-going for a few major properties in the city. The Covid-19 pandemic has delayed many projects and discussions are now on-going as to the feasibility and continuation of a few projects. One project, which is promising, would create market rate housing and another public park for the city. This project, if agreed upon, would not require a PILOT and would provide a new rate for the city. The city is exploring resources as an Opportunity Zone municipality to attract long-term economic development to the city. The city recognizes that attracting new development and investments will allow for more rates, jobs and economic stability for the community.

The city remains committed to continuing to work with the Division of Local Government Services to determine further opportunities for reductions in expenditures and improve the municipality's financial outlook. The city will continue to work to create long lasting structural and financial changes that would eliminate its reliance of Transitional Aid.

V-B. Demonstration of Revenue Loss/Substantial Cost Increase

Show: (1) specific, extraordinary revenue losses, but not as the aggregate of many revenues line items; and (2) specific, extraordinary increases in appropriations, but not as the aggregate of many appropriation line items. Describe the item in the cell below each entry. If applicable, indicate in the description of the extraordinary increase in expenditure if the increase was the result of a policy decision made by the municipality (i.e., a back-loaded debt service schedule, deferred payment, costs associated with additional hires, etc.)

V-C. Actions to Reduce Future Need for Aid

Detail the steps the municipality is taking to reduce the need for future aid. Include details about shared services and consolidation, long-term cost cutting and enhanced revenue plans, impact of new development, potential for grants to offset costs, and estimated short and long-term annual savings.

These steps should demonstrate initiatives taken to bring structural balance to the Municipality's finances and shall include, but are not limited to the following:

Use additional pages if necessary

- Efforts to bring economic development to the Municipality; and
- A plan to constrain or reduce staffing costs through collective negotiation, attrition, consolidation, restructuring, or other personnel actions; and
- A plan to eliminate, reduce or constrain the costs of non-essential services and activities; and
- A plan to maximize recurring revenues, including, as appropriate: updating fees, fines and penalties; maximizing enforcement of delinquencies; and selling surplus land and property; and
- A plan to address findings contained in various audits, investigations, and reports with respect to the Municipality, including municipal audits, applicable State Comptroller and State Auditor reports and audits, federal program audits, and other audits as identified by the Director.

The city has combined job duties and to eliminate the replacement of employees through attrition, with the exception of positions essential to conduct city business. Employees have increased their job responsibilities and job titles have been combined where appropriate to further accommodate staff reductions. When possible and applicable, the city hires part-time employees to save on benefit costs. This policy has enabled the city to reduce full-time budgeted positions and decrease health benefits costs.

The city has entered into more interlocal agreements than in past years. Interlocal agreements for a health officer, snow removal, solid waste disposal, security services and crossing guard agreements have resulted in costs savings for the city. The city will continue to seek interlocal agreements whenever possible and cost effective.

The city realized a significant savings from enrollment of qualified retirees in the Medicare Advantage Plan. The city will receive a savings with this plan change. Additionally, the city will continue to offer employees incentives to switch to more cost-effective plans creating a savings for the city.

The city is reviewing fee ordinances and will update and increase fees where appropriate.

The city has been discussing new development projects in order to increase ratables. One project could bring 100 market rate residential units to Union City on a now vacant lot. Additionally, another project is being discussed to bring a hotel to Union City, which will create jobs and provide a hotel +tax.

V-D. Discussion of Health Benefits

Skip this section if using SHBP. If not using SHBP, explain why the municipality's current health benefits plan is cheaper, or what other reasons exist to reject this alternative. Additionally, list all brokers (primary broker or risk manager, all co-brokers, and sub-brokers) together with their compensation for the current and prior two fiscal years. Compensation must be disclosed in this section whether provided directly by the municipality or as a commission from the insurance provider. It is the municipality's right, and obligation, to determine whether the broker is compensated with commission in order to fully complete this section. If commissions are being earned, provide both how the commission is calculated (percentage of premium or self-insurance) and the actual \$ value of the commission received in each year.

The city's current health benefits plan is privately insured through Horizon BCBS. The city is required to provide benefits equal to or greater than the current negotiated benefits. SHBP represents a diminution of the contractually negotiated benefits in place.

In 2016, the city moved to a self-funded platform to help reduce costs. The city has provided, and continues to make available, lower cost options for employees to consider, including the implementation of the Horizon OMNIA plan. The City's costs are comparable to the SHBP based on the analysis provided by our broker.

In 2018, the city experienced an unprecedented increase in costs due to a record amount of employee illness. The city faced a challenging influenza season with an extraordinary number of employees who became ill, frequenting the doctor and further utilizing prescription coverage for longer periods of time. A total of 15 employees developed severe illness resulting in a total of bills of \$175,000 each and one employee a total of \$200,000. Being self-insured, the stop loss insurance does not commence until the city expends \$175,000 for each employee. The total claims for just 15 employees were over \$2.6m. The city could not have planned for this outcome.

In reviewing the trends and the average age of the city's employees, a self-funded plan was beneficial. The city received an additional cost savings of approximately \$2.7M for 2021, approximately \$2.5M for 2022 and is projected to save \$3M for 2022 with the Medicare Advantage Plan and other lower cost plans.

The City of Union City engages Reliance Insurance Group through a competitive Request for Proposal process for the City's medical benefits. Their services include bi-lingual, full-time, on-site staffing and provide full service for all aspects of the insurance program. They are compensated as a broker, with health commission paid through the insurance provider. Paid compensation is as follows:

Fiscal Year 2022, \$446,490

Fiscal Year 2021, \$451,984

Fiscal Year 2020, \$421,575

Fiscal Year 2019, \$308,382

Commissions for the current year approximate 1.80% of premium and total approximately \$446,490. With the move to self-insurance, the broker compensation will be paid as a percentage of stop loss premium and a per contract per month Horizon TPA fee. Therefore, broker commissions may fluctuate based on enrollment but are equal to \$18 per contract per month through Horizon third party administration services and 6% of the medical stop loss costs.

Section XI – Impact of Limited or No Aid Award

Describe in detail the impact if aid is not granted for the current fiscal year. Essential services needs should be given priority. List the appropriate category of impact if the aid is not received. Rank each item from both lists as to the order in which elimination will take place. If across the board cuts will be made, indicate under service. **For rank order purposes, consider the two sections as one list. The cuts outlined here are one that the municipality will make absent a grant of aid.**

Rank Order	Department	# Of Layoffs	Effective Date	2022 Full Time Staffing	2023 Full Time Staffing	\$ Amount to be Saved
	There is no funding source available to cover the shortfall in revenue. Only minimal cuts could be made without affecting essential services					

If services will be reduced, describe the service, impact and cost savings associated with it.

Rank Order	Service	Cost Savings	Impact on Services

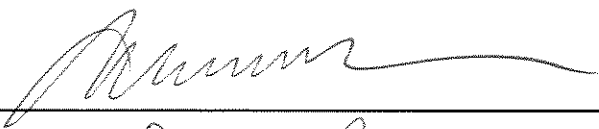

XII. Agreement to Improve Financial Position of Municipality

If aid is granted, the municipality will be required to submit to certain reporting conditions and oversight as authorized by law and a new Memorandum of Understanding will need to be signed. Please mark each box below indicating that the applicant understands and agrees to comply with these broad reporting and oversight provisions.

	Yes	No
1. Allow the Director of Local Government Services to assign management, financial, and operational specialists to assess your municipal operations.	X
