⁽¹⁾ County of Incident is based on the municipality of incident. There are cases in each county in which abuse/neglect figures were not reported at the municipality level. In these instances, if one of the parents' municipalities was populated, it was substituted for the incident municipality. The mother's (Parent 2) municipality was substituted first. Where this was missing, the father's (Parent 1) municipality was referenced.

⁽²⁾ A report for an investigation can involve several children or a child with several allegations or both. This chart counts by children by separate incident, not allegations or investigations. If a child is the subject of several reports related to the same incident, that is counted once. But if that child is the subject of reports on separate occasions - e.g. once in March and once in September - both of those incidents are included.

⁽¹⁾ There are cases in each county in which abuse/neglect figures were not reported at the municipality level. In these instances, if one of the parents' municipalities was populated, it was substituted for the incident municipality. The mother's (Parent 2) municipality was substituted first. Where this was missing, the father's (Parent 1) municipality was referenced.

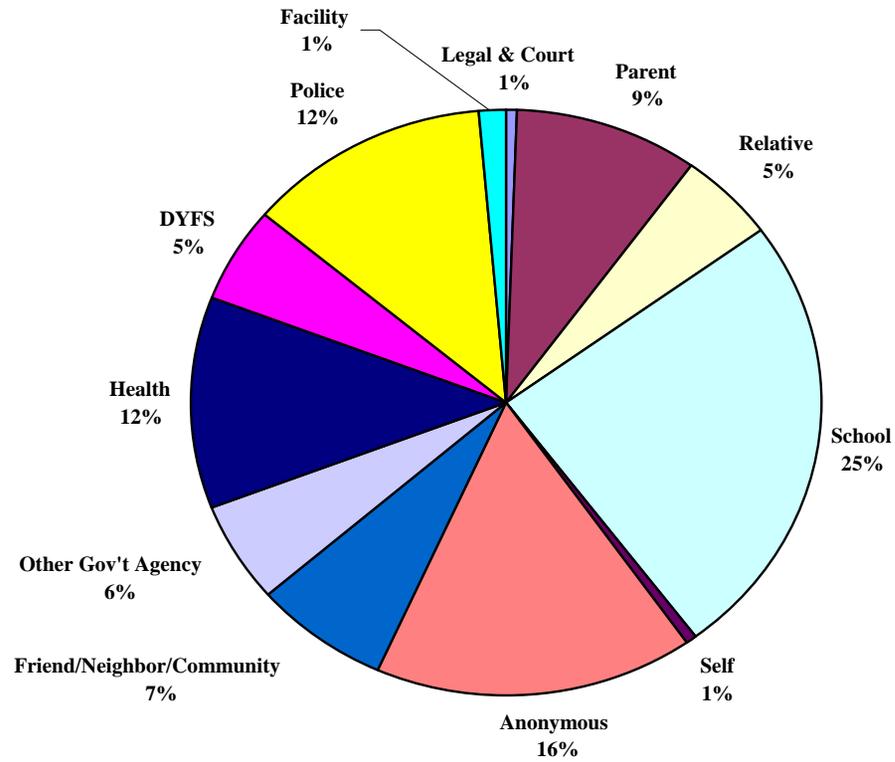

⁽²⁾ A report for an investigation can involve several children or a child with several allegations or both. This chart counts by children by separate incident, not allegations or investigations. If a child is the subject of several reports related to the same incident, that is counted once. But if that child is the subject of reports on separate occasions - e.g. once in March and once in September - both of those incidents are included.

⁽³⁾ Refers to instances for which the data were not reported at the municipal level, and there were no valid substitutions.

⁽⁴⁾ Cape May Point Boro had one CPS report involving one child during CY 2006. During the course of the investigation, one other child was noted on the report and substantiated, for a total of one report and two substantiations.
