

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

Proclamation

WHEREAS, Sudden Unexplained Death in Childhood (SUDC) is the unexpected death of a child over the age of 12 months, which remains unresolved after an investigation is conducted, including a full and thorough review by a licensed Medical Examiner; and

WHEREAS, each year, there are approximately 400 sudden, unexpected child deaths in the United States among children between the ages of one and 17 years; and

WHEREAS, more than 200 children between the ages of one and four die without any clear cause or explanation, making SUDC the fifth-leading cause of death among that age group; and

WHEREAS, while less common than Sudden Infant Death Syndrome (SIDS), which occurs before a child's first birthday, SUDC is as mysterious and a significant health concern deserving of increased public awareness and research; and

WHEREAS, at this time, there is no cure or way to prevent SUDC since its cause(s) is not yet known; and

WHEREAS, it is hoped that future medical research will identify the risk factors and underlying causes of SUDC in an effort to create preventative methods; and

WHEREAS, the State of New Jersey recognizes the dedicated efforts of organizations, medical professionals and volunteers that work to better understand the causes of sudden unexplained death, to improve the health of infants and children, and to provide much needed hope and support for families grieving the sudden unexplained death of a child; and

WHEREAS, Sudden Unexplained Death in Childhood Awareness Month provides an opportunity to honor the memory of the young lives lost, to show encouragement and support for the families and loved ones forever devastated by their loss, and to increase public awareness of SUDC and the ongoing search for answers;

NOW, THEREFORE, I, Philip D. Murphy, Governor of the State of New Jersey, do hereby proclaim:
