ALLEGATIONS	FINDINGS	RESULTS
1. Unsafe environment: A named child was bitten on the cheek by another child, breaking the skin, and the center will not provide the parent with a plan to ensure it does not happen again.	1. At the time of the investigation, safe conditions were maintained throughout the center. Interviews with the director and staff and a review of documentation confirmed that the incident did occur, wherein the named child was bit on the cheek by another child, breaking the skin. Further interviews and documentation revealed that the center does not have a biting policy or action plan to address the concern and there was no documentation of the incident. The center completed an incident report during the investigation, however the report was incomplete and lacked a detailed description. The center needs to develop and implement an OOL approved biting policy in addition to a corrective action plan to address the specific incident and retrain all staff on completing incident reports and the center's biting policy. Additionally, the center needs to implement additional strategies to minimize incidents of biting in the classroom and ensure that safe conditions are maintained at all times.	<u>1.
