

In-Home Recovery Program
Technical Assistance Staff Requirements

1. Staff Composition

It is strongly recommended to have two TA staff members for IHRP. One parent/child consultant and one substance use consultant.

- I. Parallel process with team structure and approach
- II. Model fidelity – minimizes drift to one model component
- III. Training and consultation needs more effectively managed and covered with two individuals

2. Staff Qualifications

- I. Academic Achievement
 - a. Master's degree or higher in a mental health field

- II. Clinical Experience
 - a. 10+ years providing clinical services to children, adults and/or families
 - b. Provides model specific therapy
 - c. Understands model fidelity

- III. Supervisory Experience
 - a. One year or more of providing supervisory experience to masters level clinicians (not intern or trainee)
 - b. Provides clinical and administrative supervision
 - c. Provides reflective supervision if possible

- IV. Training Experience
 - a. Group trainings
 - b. Creates training materials

- V. Parent/Child Consultant
 - a. Infant mental health experience
 - b. Dyadic work experience
