

Notice of Potential Funding Opportunity

The Department of Children and Families' Division on Women (DCF-DOW) is pleased to announce that it may in the next twelve months issue a Request for Proposal for a grant opportunity. This is not a commitment but a forecast of the potential business needs of DCF.

Hunterdon County Domestic and Sexual Violence Services

DCF-DOW will seek to fund an agency to provide a comprehensive array of services to meet the needs of victims of domestic and sexual violence in Hunterdon County. These services will include crisis intervention, counseling, 24/7 hotline, advocacy and safe shelter.

Opportunities are "forecasted" when funds are not yet formally available and are pending budgetary and discretionary spending approvals and federal agency program decisions. Once the forecasted opportunities are made final as a viable funding announcement, you will be able to complete and apply for consideration of funding within the timeframe prescribed by the Request for Proposal deadline date.
