- 1) Are we required to be an approved provider or licensed under DCF and/or CSOC to apply?**

No.

- 2) Must we identify a specific region on the proposal or can we just state that we are open to providing this service in any region where it is highly needed?**

As per page 4 of the RFP, the applicant must identify which region it intends to locate the program in. Provide the address if a site has already been identified.

- 3) Do we provide a separate proposal for each region?**

As per page 4 of the RFP, applicants must provide a separate proposal for each five-bed program site for which they are applying.

A successful applicant can receive no more than two awards (a maximum of two programs, each with five beds).

- 4) For the PCH RFP, one of the questions is related to previous RFPs in the past 18 months. The COVID beds were not a part of the traditional RFP process. We operated two contracts for COVID emergency beds. Is that considered via RFP?**

No, COVID emergency beds were not contracted through an RFP.

- 5) Are you considering the recent emergency TH bed transition as a new program or a submitted proposal?**

No, the recent emergency treatment home beds were not contracted through an RFP.
