

RADON

IS YOUR HOME SAFE?

Radon is a radioactive gas that comes from the breakdown of naturally occurring uranium in soil and rock

RADON IS

Invisible • Odorless • Tasteless

RADON IS

The 2nd Leading Cause of Lung Cancer in the United States

The Leading Cause of Lung Cancer for Non-Smokers

Responsible for up to 22,000 Deaths per Year

TAKE ACTION!
TEST YOUR HOME!

Homeowners can test for Radon themselves or hire a New Jersey Certified Radon Measurement Company

Test Kits are available from Hardware Stores, Local Health Departments or Certified Businesses

MITIGATE YOUR HOME!

The New Jersey Department of Environmental Protection recommends you mitigate your home if your test results indicate radon levels of 4 pCi/L or more
