

'TIS THE SEASON TO SHOP LOCAL

This holiday season, be more sustainable in your gift giving by shopping local.

Supporting local artisans and shop owners is a great way to boost our local economies and take better care of our environment.

Locally produced items don't require long-distance shipping to get to you, meaning less transportation and carbon emissions.

More of the money you spend supporting local businesses goes back to the community to buy local supplies, pay local wages, and support local events and community organizations.
