**Notice of SIP Revision Proposal and Public Hearing**

**Proposed Revision of the State of New Jersey, State Implementation Plan (SIP) for the Attainment and Maintenance of the Fine Particulate Matter (PM#[2.5]#) National Ambient Air Quality Standards, Redesignation Request and Maintenance Plan**

**Take notice** that the New Jersey Department of Environmental Protection (Department) is proposing a revision to the State Implementation Plan (SIP) for the Attainment and Maintenance of the Fine Particulate Matter (PM#[2.5]#) National Ambient Air Quality Standards (NAAQS). A copy of the proposed SIP revision was forwarded to the United States Environmental Protection Agency (USEPA) on July 19, 2012.

The Department is proposing a revision to the SIP to request that the USEPA redesignate both of the multi-state fine particulate matter (PM#[2.5]#) nonattainment areas associated with New Jersey to attainment in accordance with the Clean Air Act. This SIP revision presents the data and information that the USEPA requires in order to redesignate the areas to attainment. The document contains: (1) air quality monitoring data that shows compliance with the NAAQS and a decreasing trend in PM#[2.5]# concentrations over time; (2) a summary of control measures that New Jersey has implemented to bring the State into attainment; (3) a maintenance plan that demonstrates a projected continuing downward trend in emissions through 2025; (4) a contingency plan that would be implemented should the air quality violate NAAQS in the future; (5) transportation conformity budgets; and (6) other information that supports the request for redesignation.

Copies of the Department's proposed SIP revision are available from the Department's web site at <http://www.state.nj.us/dep/baqp/sip/siprevs.htm> and the Department's Public Information Center at 401 E. State Street in Trenton.
