General Application Milestone Codes

- Application Approved: A = Approved
- Application Denied: D = Denied
- Application Withdrawal: C = Cancelled
- Application Approved: F = Complete for Filing
- H = Public Hearing Date
- I = Additional Information Requested
- L = Legal Appeal of Permit Decision
- M = Permit Modification
- P = Permit Decision Date
- R = Complete for Review
- T = Additional Information Received
- W = Withdrawn

Specific Decision Application Codes

- AVE PLAN = Averaging Plan
- PA/SOW = Presence/Absence/State Open Waters Only
- FP/A = Footprint/Absence of Wet., Waters & Transition Area
- FP/T = Footprint/Transition Area Present Only
- PA/P = Presence-Absence/Wetlands Present
- PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area
- PA/R = Special Activity for Redevelopment
- PA/P = Presence-Absence/Wetlands Present
- V = Verification
- M = Permit Modification
- REG = HMDC/Pinelands Exemption
- R = Reductions
- SA/GP = Special Activity for Statewide Gen. Permit Activity
- SD = Municipal Subdivision Approval
- SA/R = Special Activity for Redevelopment
- SV = Municipal Sewerage
- SP = Municipal Site Plan Approval
- W = Withdrawn
- VERIFIED = Verified Line

Permit Descriptions

- **CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

- **Federal Consistency Activity**: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

- **Freshwater Wetlands**: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

- **General Groundwater Petroleum Products Cleanup**: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

- **NJPDES permits**: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

- **Solid Waste Facility**: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

- **Tidal Wetlands**: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

- **Treatment Works Approval**: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

- **Waterfront Development**: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402
NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE FACILITY PERMIT
FOR A SW Transfer Station Permit

The New Jersey Department of Environmental Protection, Solid & Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing LEMCOR, INC. solid waste transfer station located at 170 Frelinghuysen Avenue, Newark.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 Municipal Waste (Household, Commercial and Institutional), ID 13 Bulky Waste, ID 13C Construction and Demolition Waste and ID 27 Dry Industrial Waste with an approved capacity of 630 tons per day, seven (7) days per week, but not to exceed 3150 tons of waste in a given week.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments concerning the draft permit action to:

Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Solid & Hazardous Waste Management Program
Bureau of Transfer Stations and Recycling Facilities
401 E. State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 633-1418

Upon written request of any interested party which, in the opinion of the Department, raises significant issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid & Hazardous Waste Management Program, the office of Newark City Clerk and the office of the Essex County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
SOLID AND HAZARDOUS WASTE MANAGEMENT PROGRAM
NOTICE OF PUBLIC COMMENT PERIOD
FOR RENEWAL OF A HAZARDOUS WASTE FACILITY PERMIT

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Hazardous Waste Facility Permit renewal application submitted by Solvay Solexis, Inc., located in West Deptford Township, Gloucester County, for the continued operation of a non-commercial hazardous waste storage and treatment facility. This permit covers ongoing hazardous waste activities that are regulated by the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act (RCRA) on the Federal level.

The facility’s address is Crown Point Road, Thorofare, New Jersey 08086. The facility has an approved storage capacity of 54, 300 gallons in six (6) aboveground tanks. The facility is also authorized to treat on-site generated hazardous waste in an on-site liquid-injection incinerator.
The public comment period on this tentative approval begins on November 30, 2009 and will close on January 14, 2010. During this period, any interested person may submit written comments concerning the tentatively approved permit to:

Robert M. Confer, Chief
Bureau of Landfill and Hazardous Waste Permitting
Solid and Hazardous Waste Management Program
New Jersey Department of Environmental Protection
401 East State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 984-6985

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department’s response will be set forth in a response document which shall become part of the administrative record upon which the Department shall base its final decision. Any person who has submitted relevant written comments will receive notification of the Department’s final decision. Upon the written request of any interested party which, in the opinion of the Department, raises significant issues relevant to the proposed permit issuance during the public comment period, a public hearing will be scheduled regarding the proposed permit issuance.

Copies of the draft permit and supporting permit application are available for inspection at the office of the Department’s Solid and Hazardous Waste Management Program listed above. Anyone wishing to obtain a copy of a fact sheet on the facility, the draft permit, and/or further information, or to arrange to review the administrative record should first contact Ms. Lisa Offredo at the address listed above or contact her at (609) 984-5950. The files may be inspected by appointment only, weekdays between the hours of 9:00 AM and 5:00 PM.

**Water Policy & Climate Change**

*An Informational Session and Public Hearing sponsored by the Clean Water Council of New Jersey*

**Monday, December 7th, 2009, 9:00 am - 1:00 pm**

**NJ Department of Environmental Protection - Public Hearing Room**

**401 East State Street, Trenton, New Jersey**

**PURPOSE OF THE HEARING**

The Clean Water Council of New Jersey seeks public testimony on the risks posed to water quality and water infrastructure by climate change and on effective means to adaptively manage the risks. Climate change is causing warmer air and surface water temperatures, more intense storms intermixed with longer periods of dry weather, and rising sea levels. While the contributory causes can be debated, the potential impacts of climate change on water resources and related infrastructure need to be identified and properly managed. The Council has formulated two questions for public consideration and response. Based upon the testimony at this hearing, the Council will develop a set of recommendations for the NJDEP Commissioner. Therefore, the members seek comments from interested persons so that they can recommend improvements to New Jersey’s approach to water resource policy issues.

**HOW TO TESTIFY**

The Council will provide 5 minutes per oral presentation. The Council encourages the submittal of detailed written comments on disk or CD as well as paper, to augment your testimony. Written comments will be accepted until December 31, 2009, and can be sent to the Clean Water Council of New Jersey, c/o DEP - Division of Water Quality, 401 East State Street, P.O. Box 425, Trenton, New Jersey 08625-0425 or by fax at (609) 341-4518. If submitting on disk or CD, the preferred format is Microsoft Word 6.0 or above. Macintosh formats should not be used.

For more information, please contact Stanley Cach at stanley.cach@dep.state.nj.us or (609) 292-8961. To reserve a time period to testify in person, please contact Gerry Skrajewski at geraldine.skrajewski@dep.state.nj.us or (609) 292-8961.

**BACKGROUND**

Under New Jersey law, the Clean Water Council of New Jersey is required to hold a public hearing once a year regarding water pollution related issues and report its recommendations to the Commissioner of the Department of Environmental Protection.

Specifically the Council seeks input and examples that address the following questions:

What are the high priority risks to clean water posed by the increasing variability of climate and weather events?

What changes to water management policies are needed to increase flexibility and adaptive management, and how will NJ meet the cost?
Specific recommendations on the following issue areas, as well as others, are welcomed:

- STORMWATER
- INSTREAM/PASS-BY FLOWS
- WASTEWATER
- AGRICULTURE & GREEN INDUSTRY
- DRINKING WATER
- WATER INFRASTRUCTURE

NJ Clean Water Council Public Hearing
WATER POLICY & CLIMATE CHANGE
Monday, December 7, 2009
Public Hearing Room, 401 East State Street, Trenton NJ

The Clean Water Council of New Jersey is seeking public testimony on the risks posed to water quality and water infrastructure by climate change and on effective means to adaptively manage the risks. Climate change is causing warmer air and surface water temperatures, more intense storms intermixed with longer periods of dry weather, and rising sea levels. While the contributory causes can be debated, the potential impacts of climate change on water resources and related infrastructure need to be identified and properly managed.

Agenda

9:00  Welcome & Introductionss  ~  Russell Furnari, Chairman NJCWC
9:10  Opening Remarks  ~  Mark Mauriello, Acting Commissioner, NJDEP
9:20  Climate Change in New Jersey  ~  Dr. David Robinson, NJ State Climatologist
9:40  Climate Change & Water Resource Management  ~  Carol Collier, Executive Director, Delaware River Basin Commission
10:00  NJ’s Climate Change & Water Resource Policy Initiatives ~  Dr. Marjorie Kaplan, Office of Climate & Energy, NJDEP

10:30  Public Testimony

The Council welcomes testimony on the following questions:

What are the high priority risks to clean water posed by the increasing variability of climate and weather events?

What changes to water management policies are needed to increase flexibility and adaptive management, and how will NJ meet the cost?

Specific recommendations on the following issue areas are encouraged:

- Stormwater
- Instream/pass~by flows
- Wastewater
- Agriculture and green industry
- Drinking water
- Water infrastructure
NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notice of Public Comment Period for Request for Federal Consistency Determination

The requests for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.

None at this time

For additional information on the proposed project, please contact the project manager listed above at (609) 292-0060. Written comments should be submitted within 15 days of publication date to:

New Jersey Department of Environmental Protection  
Division of Land Use Regulation  
PO BOX 439  
Trenton, New Jersey 08625-0439  
Attn: (Name of project manager listed above)
Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625
## Public notice of proposed permit actions

<table>

</tbody>
</table>
Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin and a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin only.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Pilar Patterson, Chief
Bureau Surface Water Permitting
PO Box 029
Trenton, NJ 08625

Barry Chalofsky, Chief
Bureau of Nonpoint Pollution Control
PO Box 029
Trenton, NJ 08625

Mary Jo Aiello, Chief
Bureau of Pretreatment and Residuals
PO Box 029

<td>Neyra Industries Trenton has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit Revocation and Reissuance to the New Jersey Department of Environmental Protection (NJDEP), Bureau Nonpoint Pollution Control. The applicant is an asphalt and tar emulsion facility classified under the Standard Industrial Classification (SIC) 2951 for asphaltic pavement-sealing products. The permittee is currently authorized under the Basic Industrial Stormwater General Permit (5G2). However, the 5G2 is available to regulated industrial facilities that have eliminated all exposure of industrial materials or activities to stormwater (rainfall and snowmelt waters). Neyra Industries, Inc. has exposed materials and is in need of an individual stormwater permit. Thus, the facility’s currently active 5G2 will be revoked and an individual industrial stormwater permit will be reissued. The individual industrial stormwater permit will regulate stormwater discharges to the Assunpink Creek, classified as FW2-NT(C2).</td>
<td></td>
</tr>
</tbody>
</table>
| Pathmark Supermarket | Rte. 15 & Bowling Green Parkway | Mike Pigliacelli | Bureau of Nonpoint Pollution Control | II-A | This is a renewal permit action for Pathmark Supermarket in Jefferson Twp. This facility is a 50,750 ft² supermarket, with 30 full time and 30-50 part time employees with approximately 74 8-hour employee shifts per day. On an average day, the supermarket will serve 250 to 350 customers. Operations are year-round, 24 hours per day. Wastewater is generated by employee/customer lavatories, a janitorial lavatory, separate kitchens (with grease traps) for meat, fish, and baked goods, and floor drains receiving wastewater from cleaning operations and condensate from refrigerators and freezers. This condensate will not come in contact with the interior or moving parts of the refrigerators or freezers. The discharge will meet ground water quality standards for nitrogen before being discharged to the disposal area.

The wastewater treatment and disposal system consists of an extended aeration tank, constructed wetlands for nitrification/denitrification, ultraviolet disinfection, and a 5,040 ft² subsurface disposal field. The wastewater treatment system is designed to meet ground water quality standards for nitrogen prior to discharge to the disposal field. Flow from the facility shall be limited to 10,000 gallons per day (gpd), and an adjacent 5,040 ft² reserve subsurface disposal area is available if needed. One monitoring well (MW-2) shall be used to monitor for ground water elevations only.

The Department has reduced the number of parameters required to be reported on the Annual Residuals Waste Characterization Report (RWCR). Since the sample required to be obtained for the Annual Residuals Discharge Monitoring Report is a proportional sample, multiple total solids analyses on the RWCR was determined not to be necessary. In addition, the Department has further simplified the RWCR, and no longer requires the reporting of information on the management mode. |

| Plains Products Terminals, LLC | 3rd St. and Billingsport Rd, Paulsboro | Eline Megalla | Bureau of Nonpoint Pollution Control | Delaware River FW2-NT(C1) 02040202140010 | This is a renewal permit action for Plains Products Terminals, LLC. The facility has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit Renewal to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved with the Petroleum Storage and Distribution under the Standard Industrial Classification (SIC ) 5171. The existing permit regulates stormwater discharges through outfall DSN 001A to the Delaware River, classified as FW2-NT. Stormwater runoff from truck rack and tank farm drains through oil/water separator # 1, then oil/water separator # 2 which leads to outfall DSNO01A that discharges into the Delaware River. Petroleum products are received via pipeline, ship, and barge. The primary products handled are Gasoline, Kerosene based jet fuel, #2 fuel oil, diesel fuel, and Ethanol. The facility has a structural and nonstructural control measures to reduce pollutants in the stormwater that discharges into surface water of the State. |
The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Bureau of Watershed Regulation, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

i. The Municipal Clerk
ii. The Highlands Council
iii. The Municipal Environmental Commission (if one exists);
iv. The Municipal Planning Board
v. The Municipal Construction Official
vi. The County Planning Board; and
vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP’s final determination.

Written comments should be submitted to:

Terry Pilawski, Chief
Division of Watershed Management
Bureau of Watershed Regulation
PO Box 418
Trenton, NJ 08625

The New Jersey Department of Environmental Protection, Division of Watershed Management, has reviewed the below-listed Highlands Applicability and Water Quality Management Plan (WQMP) Consistency Determination Application(s) according to the requirements under N.J.S.A. 13:20 (The Highlands Water Protection and Planning Act) and issued the indicated determinations.

| Project Name                | Property Owner          | Project Street Address | Block/Lot     | Municipality/County                  | Exemption Applied For      | Date of Determination | Determination   |
|-----------------------------|-------------------------|------------------------|--------------|--------------------------------------|----------------------------|-----------------------|----------------|----------------|

Any person may request an adjudicatory hearing in accordance with N.J.A.C. 7:38-1.5 to contest a Department determination. Hearing requests shall be submitted within 30 days of this notice and should be sent to:

Office of Legal Affairs  
Attention: Adjudicatory Hearing Requests  
Department of Environmental Protection  
P.O. Box 402  
Trenton, New Jersey 08625-0402

With a copy sent to:

Terry Pilawski, Chief  
Division of Watershed Management  
Bureau of Watershed Regulation  
P.O. Box 418  
Trenton, New Jersey 08625
The following projects were either canceled or withdrawn. While comment on these projects is not being accepted at this time, if applications for these projects are resubmitted in the future and are determined to be administratively complete, they will be re-noticed in the DEP Bulletin and public comment will be invited at that time.
