**Permit Descriptions**

**CAFRA**: A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity**: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Freshwater Wetlands**: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup**: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits**: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility**: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Tidal Wetlands**: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval**: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development**: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Notice of Rule Proposal  
Financial Assistance Programs for Environmental Infrastructure Facilities, N.J.A.C. 7:22  
Public Notice

Take notice that the NJ Department of Environmental Protection and the NJ Environmental Infrastructure Trust are proposing to readopt N.J.A.C. 7:22 without change. The Financial Assistance Programs for Environmental Infrastructure Facilities rules were scheduled to expire on December 8, 2010. The filing of this proposal with the Office of Administrative Law before that date automatically extended the expiration date 180 days, until June 5, 2011, in accordance with the Administrative Procedure Act. (See N.J.S.A. 52:14B-5.1c.) The Department and the Trust have reviewed these rules and have determined them to be necessary, reasonable and proper for the purpose for which they were originally promulgated. Therefore, the Department and the Trust propose to readopt this chapter without change.

N.J.A.C. 7:22 contains the rules of the Department and the Trust governing the financial assistance application and award procedures, as well as other related requirements, for project sponsors to qualify for State monies to finance environmental infrastructure projects, including wastewater treatment, water supply and stormwater/nonpoint source management facilities. The Financing Program, administered under these rules, has provided over $5.4 billion worth of financial assistance over the past 24 years.

PUBLIC HEARING NOTICE

Department of Environmental Protection
Green Acres Program
Notice of Public Hearings on Proposed Sale of Surplus Residential Property in the Township of Hopewell, Mercer County

Take Notice that in accordance with N.J.S.A. 13:1D-51 through -58, the State of New Jersey, Department of Environmental Protection, Green Acres Program, will hold two public hearings to seek comments on the proposed sale of surplus residential property in the Township of Hopewell, Mercer County.

The property proposed for sale is an 8.5 acre parcel located within 55 acres of property acquired by the Green Acres Program for the Division of Parks and Forestry in 2003 as an addition to the Washington Crossing State Park. The property, known locally as the Blackwell Farm, is designated for tax purposes as Block 62, part of Lot 6 in the Township of Hopewell, Mercer County. The street address for the property to be sold is 401 Pennington-Titusville Road, Hopewell Township, Titusville, New Jersey 08560.

The 8.5-acre parcel to be sold includes the following structures:

- a 2-story 3 bedroom 1 bath (1584 square foot) frame farm house
- a 1-story duplex (2472 square foot) frame construction ranch type house
  - unit 1 = 1328 square foot 3 bedrooms, 1 bath
  - unit 2 = 1144 square foot 2 bedrooms, 1 bath
- a 1-story (400 square foot) 2 car block garage
- a 2-story dairy barn
- a 1-story (2000 square foot) chicken house
- a 1-story block shed / pump house
- a 1-story (864 square foot) 3 bay block garage
- a 1-story (1620 square foot) metal barn

The DEP is considering two possible scenarios for the sale of this property: (1) direct sale to the Township of Hopewell for affordable housing purposes (Scenario A) or (2) public auction of the property for residential and/or agricultural purposes (Scenario B). A copy of a report analyzing both scenarios, including photographs of the structures and a more detailed description of each structure, is available online at www.nj.gov/dep/greenacres/notices.htm. The exact lot size, minimum bid price and other conditions of the sale will be determined in consultation with the Department of Treasury prior to the sale.

As required by N.J.S.A. 13:1D-57, the proceeds of the sale will be returned to the Garden State Preservation Trust Fund (or other appropriate Green Acres bond fund) for

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATER QUALITY  

PUBLIC NOTICE  

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin and a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin only.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

This is a renewal permit action for a facility which is a golf course with 18 holes on a 430 acre site. The sanitary wastewater from the site discharges to ground water via subsurface disposal fields. The site consists of a clubhouse with a wastewater design flow of 6100 gallons per day. The clubhouse covers approximately 7400 square feet and includes a pro shop, locker room/showers and grill room. In addition, much smaller flows of wastewater come from a maintenance building, two comfort stations and a superintendent’s residence. Septic systems treat and dispose the wastewater at each facility.
| COPPER HILL SCHOOL | EVERITTS RD AND RTE 31/202 N | GREG CHIN | Bureau of Nonpoint Pollution Control | II-A | This renewal permit action for a 123,000 sq. ft. elementary school serving preschool through fifth grade. The school has a functional capacity of 850 students and at present there are 65 teachers employed. The school has a cafeteria and a gymnasium with one shower. There are no science laboratories within the facility. The conventional wastewater design flow volume of sanitary wastewater from the school is approximately 15,000 gpd, however, the school has a wastewater recycling and treatment system which recycles the majority of the treated wastewater through the school's toilets. Because the majority of the wastewater is recycled, the treatment system has been designed to discharge 3,000 gpd of effluent to ground water via four subsurface disposal beds, totaling 6,000 square feet. The wastewater is treated to Ground Water Quality Standards for all parameters of concern except fecal coliform bacteria prior to discharge. Although ultraviolet disinfection is provided, final treatment to Ground Water Quality Standards is provided by unsaturated soils within the disposal bed. The maintenance of an adequate unsaturated soil zone is assessed through required water level measurements in four monitor wells. All residuals generated by the treatment and disposal system are managed at an approved residuals management facility. The Department is granting a reduction in the number of parameters that must be reported on the annual residuals “production” Waste Characterization Report (WCR) at monitoring location SL1A, pursuant to N.J.A.C. 7:14C-1.13(c). The implementation of this change to the residuals “production” WCR is based upon the effective date of the permit renewal and will be activated at the beginning of the corresponding calendar year. |

| Bear Brook Golf Village | Route 94 | MIKE PIGLIACELLI | Bureau of Nonpoint Pollution Control | II-A | This is a renewal permit action for Bear Brook Village. The facility is an 86 unit, single-family home development, as well as an accompanying 18 hole golf course with a club house and maintenance building. Sanitary wastewater generated from the homes and golf facilities is treated at an on-site wastewater treatment plant (WTP). The treated wastewater is then discharged to four (4) lined surface impoundments. The wastewater is held in these impoundments until such time when the water can be spray irrigated onto the golf course. The discharge monitoring point S01S is located at a point before the wastewater is discharged to the surface impoundments, and the discharge monitoring point P01P is located at a point before the wastewater is discharged from a surface impoundment to the spray irrigation system. Residuals generated in the treatment process are removed from the sludge holding tank and managed at an approved sludge management facility. |

| WOODBINE AIRPORT BUSINESS PARK | DEHIRSCH AVE WOODBINE BORO, NJ | BRIAN SAGE | Bureau of Nonpoint Pollution Control | I-PL (Protection Area) | This application is for a renewal of a groundwater discharge permit. The facility is a wastewater treatment plant designed to serve the needs of the Woodbine Airport Business Park. This project will include small airport related retail businesses, golf course, office space, warehousing, technology/incubator businesses and a hotel. Wastewater generated will be treated through a system including flow equalization, tertiary biological treatment and ultra-violet disinfection. |

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Land Use Management, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

i. The Municipal Clerk
ii. The Highlands Council
iii. The Municipal Environmental Commission (if one exists);
iv. The Municipal Planning Board
v. The Municipal Construction Official
vi. The County Planning Board; and
vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP’s final determination.

Written comments should be submitted to:
