REG = HMDC/Pinelands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

**Department of Environmental Protection
Green Acres Program**

**Notice of Public Hearings on Proposed Exchange of Property with Township of South Brunswick for Route 522
Extension Project (South Brunswick Township, Middlesex County)**

Take Notice that in accordance with N.J.S.A. 13:1D-51 through –58, the State of New Jersey, Department of Environmental Protection (“NJDEP”), Green Acres Program, will hold two **public hearings** to seek comments on a proposed exchange of property with the Township of South Brunswick, Middlesex County.

The NJDEP property proposed for exchange is an approximately 5-acre portion of a 30-acre property acquired by the Green Acres Program for the Division of Parks and Forestry in 1982 as an addition to Pigeon Swamp State Park. The property is designated for tax purposes as Block 18, Lot 20.01 in the Township of South Brunswick, Middlesex County. The street address for the property is Fresh Ponds Road (but the property does not have direct access to Fresh Ponds Road).

The Township has also requested that the NJDEP convey temporary and permanent easements in Block 18, Lot 10.01 and Block 18, Lot 20.01, as follows:

Block/Lot	Proposed Acreage	Conveyance Type
Block 18, Lot 10.01	4.2 acres	Temporary Easement
Block 18, Lot 10.01	0.25 acre	Permanent Easement
Block 18, Lot 20.01	4.6 acres	Fee
Block 18, Lot 20.01	0.54 acre	Temporary Easement
Block 18, Lot 20.01	0.10 acre	Permanent Easement

The proposed conveyances are needed by the Township in conjunction with the construction of a two (2) mile, two (2) lane segment of County Route 522 extending between US Route 130 and Cranbury – South River Road (County Route 535). Although the segment of Ridge Road that runs between US Route 130 and County Route 535 is currently designated as a part of County Route 522, the Township proposes to construct a new roadway north of (and parallel to) Ridge Road as the final segment of Route 522 in order to divert commercial truck traffic away from residential areas along Ridge Road. The proposed road project also involves the construction of a connector road from Route 522 to Fresh Ponds Road in order to limit access by trucks from Route 130 to Fresh Ponds Road. All properties proposed to be conveyed to the Township are wooded undeveloped lands located at the southern edge of Pigeon Swamp State Park and are not currently in active recreational use.

In exchange for the proposed conveyances, the Township and the County will convey to the NJDEP, in fee, two properties totaling approximately 59 acres for addition to Pigeon Swamp State Park (a 5-acre portion of Block 18, Lot 19.01 and all of Block 18, Lot 23). Block 18, Lot 19.01 is primarily wooded uplands; Block 18, Lot 23 contains a large pond, extensive freshwater wetlands and wooded uplands. The acreage proposed for conveyance is approximate and is subject to adjustment of up to 10 percent on the basis of a survey to be reviewed and approved by the NJDEP’s Green Acres Program as part of the execution of conveyance documents for this transaction.

A copy of a report analyzing the exchange, including maps and a more detailed description of the exchange, is available online at www.nj.gov/dep/greenacres/notices.htm.

State House Commission approval is required for this proposal. If approved, the Department anticipates that the exchange will occur in late 2014.

In accordance with N.J.S.A. 13:1D-52a(4), two public hearings have been scheduled on the proposed conveyance.

The **first public hearing** will be held on:

Wednesday, December 18, 2013 at 6:30 PM at the
Township of South Brunswick
South Brunswick Utilities Building, Conference Rooms A & B
540 Ridge Road
Monmouth Junction, New Jersey 08852
(732) 329-4000

The hearing record for the first public hearing will close on January 6, 2014. Interested persons may obtain information from David Smith in the Green Acres Program or Superintendent Mark Pitchell in the Division of Parks and Forestry at the addresses below and may submit written comments to Mr. Smith until the close of business on January 6, 2014.

The **second public hearing** will be held on:

Monday, January 6, 2014 at 4:30 PM at the
Department of Environmental Protection
4th Floor Large Conference Room
501 East State Street
Trenton, New Jersey 08625

The hearing record for the second public hearing will close on January 20, 2014. Interested persons may obtain information from David Smith in the Green Acres Program or Superintendent Mark Pitchell in the Division of Parks and Forestry at the address below and may submit written comments to Mr. Smith until the close of business on January 20, 2014.

Persons wishing to make oral presentations at either of the public hearings are asked to bring a written copy of their comments to the hearing for use by the NJDEP. For further information on the proposal, please contact:

DATE: _____

Bob Martin, Commissioner
Department of Environmental Protection

ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
Proposed Amendment to the Monmouth County Water Quality Management Plan
Public Notice

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Monmouth County Water Quality Management (WQM) Plan. This amendment proposal, entitled “Riverside Center”, submitted on behalf of XXXIII Associates/Riverside Center, LLC, would designate a 46.8 acre portion of Block 18, Lot 2.02 in Millstone Township, Monmouth County as a discharge to groundwater service area (SSA) of 19,999 gallons per day (gpd) to be served by on-site septic systems to serve a proposed 9 major lot subdivision. The subject property, located on the northern side of Route 33 about 1,000 feet east of the intersection with Jamesburg-Perrineville Road, totals 57.43 acres. 10.94 acres of the property are wetlands, wetlands buffers, and flood plain that will not be developed. Therefore, the proposed SSA would be 46.8 acres in order to accommodate the entire proposed development of 9 lots which would each range in size from 2.5 to 13.5 acres.

This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25.

Pursuant to P.L. 2011, c. 203, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:9A-7.4 is 19,999 gpd. The proposed project will be required to meet the 10 parts per million (ppm) nitrate dilution requirement for the New Jersey Pollutant Discharge Elimination System (NJPDES) permit that will allow for wastewater disposal via a new discharge to groundwater. A 19 acre portion of the neighboring Block 8, Lot 8.01 in Monroe Township, Middlesex County will be used for dilution purposes in order to meet the above referenced nitrate dilution requirement. Provisions of the above referenced NJPDES permit require the permittee to give written notification to the Department of any planned physical or operational alterations or additions to the permitted facility when the alteration is expected to result in a significant change in the permittee's discharge and/or residuals use or disposal practices; as well as notify the Department prior to any changes in ownership that require the transfer of the NJPDES permit. These requirements are specified in the NJPDES rules at N.J.A.C. 7:14A-4.2, and N.J.A.C. 7:14A- 6.7; and N.J.A.C. 7:14A-16.2, respectively.

As outlined at N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These areas are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A Riparian zone has been identified on the property. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The required buffer width for the Millstone River which is designated FW2-NT, is 50 feet. An April 26, 2006 Stream Encroachment Jurisdictional Flood Hazard Area Control Act letter from the Department's Division of Land Use Regulation states that a stream encroachment permit is not required as no grading is proposed in the floodplain.

In order to satisfy the Riparian Corridor Analysis, Millstone Township has adopted Ordinance No. 10-18 to satisfy the Riparian Corridor Analysis and to ensure the protection of the riparian corridors along all perennial and intermittent streams. As required, the adopted ordinance establishes and protects Water Resource/Buffer Conservation Zones ("stream corridor buffer") adjacent to New Jersey Surface Water Quality Standards designated waters (excluding man-made) and regulates development within those zones. The stream corridor buffers vary in width depending upon the water body's classification in the Surface Water Quality Standards at N.J.A.C. 7:9B-1.15. To become compliant, and in accordance with N.J.A.C. 7:15-5.25(h)5i, the Riparian Corridor Analysis has been satisfied by applying the 50 foot buffer to the applicable portions of the Millstone River, the adoption of Ordinance 10-18 and exclusion of the buffer area from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 0000-02-0039.3, issued by the Department on January 23, 2009 was submitted to the Department, confirming the presence and boundaries of ordinary and intermediate resource value wetlands, requiring a 50-foot buffer. The applicant has also received a Freshwater Wetlands General Permit No 11Water Quality Certification and Transition Area Waiver Averaging Plan (0000-02-0039.2 FWW070001 GP11 and FWW070004 TW1) on August 12, 2010. A Grant of Conservation Restriction/Easement for the transition area and adjacent wetland dated November 3, 2010 for the property was recorded with the Monmouth County Clerk's office on November 8, 2010. In compliance with the LOI, the proposed SSA excludes both the mapped wetlands and associated 50-foot buffer.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for the proposed development will be provided by 9 individual wells which withdraw water from the Englishtown and Upper Potomac-Raritan-Magothy Aquifers. A water use analysis indicates that based on the wastewater design flow, a water use registration will be sufficient for the project unless significant amounts of water will be needed for a use that will not discharge to the wastewater system, i.e. irrigation. All wells that are installed must be constructed in accordance with N.J.A.C. 7:9D-2 et. seq.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 directs there be a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Millstone Township has adopted stormwater management ordinance (No.14 APR) which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

This notice is being given to inform the public that a plan amendment has been proposed for the Monmouth County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Ms. Lorali Totten, P.E., Crest Engineering Associates, Inc., 100 Rike Drive, Millstone, NJ 08535. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan
Amendment Applications pursuant to P.L.2011, c.203**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, c.203 which was enacted on January 17, 2012. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2011, c.203 directs the Department to accept and process certain site specific amendment proposals and review such proposals for compliance with the Water Quality Management Plan rules despite the absence of an updated comprehensive wastewater management plan.

Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2011, c.203, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below, or the date that notice is provided in a local newspaper, whichever occurs later. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Manager
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
**Proposed Amendment to the Lower Delaware Water Quality Management Plan
Public Notice**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Lower Delaware Water Quality Management (WQM) Plan. This amendment, submitted on behalf of the Cumberland County Board of Chosen Freeholders, would identify sewer service area (SSA) for the Cumberland County Fairgrounds on Block 4, Lot 1 in the City of Millville, Cumberland County. Currently, the subject property bordered by Carmel Road (CR 608), Morias Avenue (CR 714), and Fairstand Road totals approximately 65 acres, and is located in an area designated by the Lower Delaware WQM Plan as the City of Millville Wastewater Treatment Plant (WTP) SSA.

Wastewater flow has been projected pursuant to N.J.A.C. 7:9A-7.4 to be a total of 9,390 gallons per day which discharge to 6 onsite existing septic systems. Pursuant to P.L. 2011, c. 203, a proposed development or activity having a wastewater planning flow of greater than 8,000 gallons per day (gpd) and less than 20,000 gpd that results in a discharge to groundwater shall be processed by the Department as a site specific amendment, and may be approved if it meets the technical requirements for eligibility for a New Jersey Pollutant Discharge Elimination System (NJDPES) Discharge to Ground Water (DGW) permit issued pursuant to the "Water Pollution Control Act, " P.L. 1997, c. 74 (C.58:10A-1 et seq.) and rules and regulations adopted pursuant thereto.

Pursuant to P.L. 2011, c. 203, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed. However, in this case, the Department's Bureau of Nonpoint Source Pollution has determined that the Cumberland County Fairgrounds facility will be reviewed and processed as a NJPDES DGW T1 general permit. This general permit authorizes the discharge of sanitary sewage from facilities to a subsurface disposal (septic) system with a design volume in excess of 2,000 gpd and which was designed and approved in accordance with either N.J.A.C. 7:9A-1et seq. or its regulatory precursors prior to January 1, 1990. Therefore the existing wastewater generating facilities only are proposed as SSA. These facilities include the fair main entrance, main office, Sheriff/EMT office, the Community Display/Home Arts building, main grandstand restroom, 4H restroom/showers, the 4H, Big Johns, and open rented food booths with sinks, and campsite area and total approximately 0.8 acres.

In accordance with N.J.A.C. 7:15-5.24, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1)

special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(g)3, the riparian zone analysis shall be satisfied by the submission of up to date municipal riparian zone protection ordinance. In the absence of the municipal riparian zone ordinance, riparian zones as described at N.J.A.C. 7:15-5.25(g)2, are not to be included in the proposed SSA. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. No riparian zones have been identified on site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). No wetlands have been identified on site.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The water at the existing fairgrounds is supplied from two private wells which have been in use since the 1970's and are located in the Maurice River watershed, withdrawing from the Kirkwood Cohansey Aquifer. As the Cumberland County fairgrounds utilize a discharge to groundwater within the Maurice River watershed, no significant depletive water loss would result within the region.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 directs there be a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. As such, the City of Millville has adopted up to date Stormwater Management Plan as evidenced by Resolution 13-2007.

This preliminary notice represents the Department's determination that the proposed SSA is in compliance with the regulatory criteria for identifying SSAs pursuant to N.J.A.C. 7:15-5.24 and 5.25.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Lower Delaware WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to Mr. Robert Brewer, Planning Director, Cumberland County Department of Planning, 790 East Commerce Street, Bridgeton, N.J. 08302. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this public notice to WQM Program Docket at the Department address cited above. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz

DIVISION OF WATER QUALITY**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
