Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
EVENTS OF PUBLIC INTEREST

DATE: February 19, 2014

TIME: 9:30 a.m.

PLACE: Landscape Irrigation Contractors Examining Board
Public Meeting
401 East State Street, 5th floor Conf. Room (5E002)
Trenton, NJ

PUBLIC NOTICE
NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION NOTICE OF APPLICATION

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has inadvertently overlooked the submittal of an application for Transition Area Waiver for Redevelopment from the applicant listed below. The TAW-Redevelopment application was submitted on February 13, 2012. This application is part of a Flood Hazard Area Individual Permit application and Transition Area Waiver –Averaging Plan application for the construction of a 360 unit multifamily development in two buildings, a parking structure, an outfall structure in the flood hazard area of the Rahway River Branch 10-24, and the modification of a portion of Birchwood Ave. The proposed project is located within Block 291, Lot 15.01 and Block 292, Lot 2, in the Township of Cranford, Union County, New Jersey.

The final decision date for the other applications was January 8, 2014. However, this date was extended to February 7, 2014 to facilitate a public hearing which was held on January 16, 2014 at 6:00pm at the Cranford Township Municipal Building, 8 Springfield Avenue, Cranford, NJ, regarding the project referenced above.

APPLICANT: Cranford Development Associates, LLC
DLUR FILE NUMBER: 2003-08-0006.1; FWW 120001 (Transition Area Waiver for Redevelopment)
MUNICIPALITY: Township of Cranford
COUNTY: Union County
PROJECT ADDRESS: 215 & 235 Birchwood Avenue, Cranford, New Jersey

The Division of Land Use Regulation invites the public to submit written comments on the above-referenced application to:

Joslin Tamagno
Division of Land Use Regulation
Mail Code 501-02A
P.O. Box 420
Trenton, New Jersey 08625-0420

Comments must be received within 30 days of this Notice.

NOTICE OF STATE PERMIT APPLICATION PUBLIC HEARING

TAKE NOTICE that the New Jersey Department of Environmental Protection, Division of Land Use Regulation will hold a Public Hearing regarding the following permit application which was submitted under the Coastal Area Facilities Review Act, N.J.S.A. 13:19-1 (et seq.).

Applicant: Middle Township Housing Associates, LLC
File No: 0506-09-0005.1 (CAF 130001)
Project: Conifer Village at Cape May Court House
Project Description: To construct a 48 unit residential development with a community building and associated parking and stormwater management facilities.
Location: Block 56.01 Lot 46
Municipality: Middle Township
County: Cape May County

The Division of Land Use Regulation invites the public to attend the Public Hearing and present written or oral comments about the application.

Hearing Date: Wednesday, February 26, 2014
Hearing Time: 6:00 P.M.
Hearing Location: Middle Township Municipal Building
Courtroom
33 Mechanic Street
Boyd Street Entrance
Cape May Court House, NJ 08210
Hearing Officer: Eric M. Virostek

The Division of Land Use Regulation invites the public to submit written comments about the above-referenced permit application within fifteen (15) days following the public hearing to:

Eric M. Virostek
NJDEP
Division of Land Use Regulation
PO Box 420, Mail Code 501-02A
Trenton, New Jersey 08625

DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
REVISION TO THE Ocean County WATER QUALITY MANAGEMENT PLAN

TAKE NOTICE that on _____, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A.58:11A-1 et seq., and the Statewide Water Quality Management Planning rules at N.J.A.C. 7:15-3.5, a revision to the Ocean County Water Quality Management Plan (WQMP) was adopted by the Department.

This revision will alter the Future Sewer Service Area map of Eagleswood Township to place Block 4 Lot 263.02 in Eagleswood Township, also known as 100 Beta Drive, West Creek, within the Future Sewer Service Area. The parcel, which encompasses about 0.75th of an acre, fronts on US Route 9 and is bounded to the north by an existing church and to the south by an existing dwelling. A 66 foot wide easement crosses the eastern rear of the lot and is used by the Ocean County Utilities Authority (OCUA) to convey wastewater to the County's Southern Wastewater Treatment Plant. Both the church and the adjacent dwelling are connected to the Southern Ocean County Utilities Authority collection system. Wastewater collection service to the lot is proposed to be provided by a 138 foot long 4 inch diameter PVC pipe which would connect at an existing manhole on the adjacent lot occupied by the church. The connection point to the wastewater collection system on the adjacent lot was required by the OCUA as a lateral connection to the existing 48 inch diameter gravity line that runs through lot 263.02 would not be allowed. The Department notes that a single family home has already been constructed as permitted by a Construction Permit issued by a Eagleswood Township's Construction Code Official on October 12th, 2012.

The lot does not encompass any Environmentally Sensitive Areas as defined at N.J.A.C. 7:15-5.24(b), special restricted areas as defined at N.J.A.C. 7:15-5.24(d), but does lie in a Rural Coastal Planning Area, a Coastal Planning Area which N.J.A.C. 7:15-5.24(c) requires shall not be identified as sewer service area. The inclusion of the projected sewage flow of approximately 300 gallons per day will have no measurable impact on to the County's Southern Wastewater Treatment Plant or adversely affect its capacity. The inclusion of the lot within a SSA will not create a significantly new pattern of sewer development such that a significant potential or incentive is created for additional revisions or amendments to open new areas to sewer development. This site complies with the requirements at N.J.A.C. 7:15-3.5(b)4.v. and is considered a revision. The Department has determine that the addition of this lot to the Eagleswood FWSA complies with the provisions at N.J.A.C. 7:15-5.25 (d), (e), (f), (h) and (g).

The Department has determined that, due to the particular circumstances of the subject site related to its location, size and condition, and in the State's interest in the protection groundwater quality in the area, this lot be included within the SSA depicted on the Eagleswood FWSA map and as part of the Ocean WMP.

SIGNED
Ray Cantor

Date

**NOTICE OF PUBLIC HEARING
HEREFORD INLET TO CAPE MAY INLET - FEASIBILITY REPORT AND INTEGRATED
ENVIRONMENTAL ASSESSMENT**

TAKE NOTICE that the New Jersey Department of Environmental Protection, Bureau of Coastal Engineering will hold a Public Hearing on the following feasibility study pursuant to P.L. 2007, CHAPTER 278 §1 - C.13:19-16.3.

APPLICANTS: U.S. Army Corp of Engineers, Philadelphia District and NJDEP - Bureau of Coastal Engineering
U.S. ARMY CORPS OF ENGINEERS PUBLIC NOTICE NO.: CENAP-PL-E-13-02

Bureau of Coastal Engineering Project No.: 6040

PROJECT NAME: Hereford Inlet to Cape May Inlet - Draft Feasibility Report and Integrated Environmental Assessment

PROJECT DESCRIPTION: The recommended plan in the feasibility report is the restoration of a berm and dune utilizing sand hydraulically back-passed from the beaches of Wildwood, Wildwood Crest and Lower Township. This plan was developed after evaluating structural and non-structural alternatives to protect property within the study area. The beaches in these areas have historically accreted large quantities of sand, and sand can be redistributed from the beach in Wildwood, Wildwood Crest and Lower Township to provide beach nourishment material to reduce storm damage to the entire island in the form of a storm protective berm and dune.

LOCATION: Oceanfront beaches of North Wildwood, Wildwood, Wildwood Crest and Lower Township

MUNICIPALITY: North Wildwood, Wildwood, Wildwood Crest and Lower Township

COUNTY: Cape May

The Bureau of Coastal Engineering invites the public to attend the Public Hearing and present written or oral comments on the feasibility report, the environmental assessment and the recommended plan. A copy of this report has been provided to each municipality and can also be located at:

<http://www.nap.usace.army.mil/Missions/CivilWorks/PublicNoticesReports.aspx>

HEARING DATE: February 21, 2014

HEARING TIME: 2:00 PM

HEARING LOCATION: North Wildwood City Hall – Public Meeting Room
901 Atlantic Ave.
North Wildwood, NJ, 08260

The Bureau of Coastal Engineering invites the public to submit written comments on the above-referenced feasibility study within fifteen (15) days of the Public Hearing to:

Christopher Constantino, Project Manager/Environmental Specialist 3

NJDEP - Bureau of Coastal Engineering

1510 Hooper Avenue, Suite 140

Toms River, New Jersey 08753

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has received the following Water Quality Management (WQM) Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 16, 2014. This legislation modifies some aspects

of the WQM Planning Program for a period of up to two years. P.L. 2013, c.188 directs the NJDEP to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the WQM Planning rules at N.J.A.C. 7:15. Pursuant to the provisions of the WQM Planning rules at N.J.A.C. 7:15-3.4, notices of amendment proposals and the NJDEP's subsequent final actions are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the NJDEP Bulletin.

Notice of site specific amendment proposals that qualify for review under P.L. 2013, c.188 are individually provided below.

Water Quality Management Plan Amendment Proposals
ENVIRONMENTAL PROTECTION
OFFICE OF COASTAL AND LAND USE PLANNING
Proposed Amendment to the Ocean County Water Quality Management Plan
Public Notice

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Ocean County Water Quality Management (WQM) Plan. This amendment proposal, entitled "Freedom Village at Toms River", submitted on behalf of Toms River Township, would expand the Ocean County Utilities Authority (OCUA) sewer service area (SSA) to allow for the construction of an apartment complex. This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L. 2013, c.188. This preliminary notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

The proposed project site is located in Toms River Township, Ocean County on Block 164/Lot 4. This amendment would allow for the construction of 6 apartment buildings with a total of 14 one-bedroom apartments, 40 two-bedroom apartments, 18 three-bedroom apartments, and a clubhouse on the above referenced parcel. The projected wastewater flow for the proposed new development, calculated in accordance with N.J.A.C. 7:14A-23.3, is 16,574 gallons per day (gpd).

The currently adopted SSA excludes a significant portion of the above referenced property due to the presence of a Special Water Resource Protection Area (300-foot buffer) on the Slab Branch, a Category One Tributary to the Toms River, which had been mapped as being located on the property. A subsequent report dated August 14, 2013 prepared by Trident Environmental Consultants on behalf of the applicant determined that the Slab Branch does not, in fact, exist on the property and had been mapped incorrectly. The report found that the Slab Branch actually terminates approximately 115 feet south of the proposed project site. The Department's Division of Land Use Regulation (DLUR) has conducted a site visit of the area and accepted the findings of the report. DLUR will be updating the stream mapping to reflect this new information.

While the newly mapped Slab Branch is no longer located on the property, a portion of its 300 foot buffer area still extends partially onto the proposed project site. This area will still remain excluded from the SSA. No sewage producing structures are proposed for this portion of the property.

Of Block 164, Lot 4's total of 10.02 acres, the portion proposed to be added to the SSA is 6.89 acres. 2.45 acres of a conservation easement and the remainder of the 300 foot buffer not included in the conservation easement will remain outside of the SSA.

As outlined at N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Aside from portion of the 300 foot buffer associated with the Slab Branch that extends partially onto the proposed project site, as noted above, there are no environmentally sensitive areas identified on the parcel.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the project site.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Where a narrative approach has been used, it is noted as text on the adopted FWSA map. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations that prohibit the extension of sewers identified under N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the project site.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The Department has determined that the OCUA Northern Wastewater Pollution Control Facility has adequate available capacity to treat the proposed wastewater flow from this project.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for the proposed development will be provided by the United Water Toms River which is a public water system which withdraws water from the Kirkwood Cohansey, Middle PRM, Upper PRM, and Piney Point Aquifers. The location of the diversion is Toms River and the water allocation permit number is WAP1000002, permit # 5000X. The existing water allocation permit will not require modification to serve the proposed project

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Toms River Township has an adopted stormwater management ordinance (No. 4060-06) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 7:15-5.25(h)5, the proposed project is not located in the riparian zone. As noted above, a portion of the 300 foot buffer associated with the Slab Branch still extends partially onto the proposed project site. This area will still remain excluded from the SSA. No sewage producing structures are proposed for this portion of the property.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened) , 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A Riparian buffer zone, as described above has been identified on the property. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules.

To become compliant, and in accordance with N.J.A.C. 7:15-5.25(h)5i, the Riparian Corridor Analysis has been satisfied by applying the 300 foot buffer to the applicable portions of the Slab Branch, and the exclusion of the buffer area from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation: Presence/Absence Determination File # 1507-09-0006.1, FWW090001 issued by DLUR on March 11, 2009 was submitted to the Department, confirming that freshwater wetlands and waters are not present on the property and that no part of the above referenced property occurs within a transition area or buffer as designated in N.J.A.C. 7:7A-2.59d) and (e).

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

This notice is being given to inform the public that a plan amendment has been proposed for the Ocean County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above, with a copy sent to Ms. Jessica Staszewski, FWH Associates, 1856 Route 9, Toms River, NJ 08755. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment proposal.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Narrative	
	Due to severe silting in Schellenger Creek, the applicants' existing dock system is no longer usable during much of the tidal cycle. They propose to create a functioning dock system and to legalize an oversized fixed pier by partially reducing its width and offsetting the remaining overwidth by removing other existing legal structures so as to reduce water area coverage by almost 50% more than a non-oversized pier alone. Specifically applicants will reduce the existing 11'X 20' fixed pier to 9'X 20' and relocate legally existing ramp and floating dock to the end of the fixed pier into navigable water. A net environmental benefit will be achieved by removing the legally existing walkway/deck along the southwest side of the legally existing dwelling and 8 legally existing pilings(net). This configuration will result in a significant net environmental benefit by reducing water area coverage and allowing better light penetration compared to a 6' X 20' pier which would be allowed by rule without the waiver.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 02/19/2014
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
BURLINGTON CNTY RESOURCE RECOVERY COMPLEX NJ0211664 SIU	21939 Florence Columbus Rd Florence, NJ 08518 Burlington County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	FLORENCE TWP DPW SEWER AUTH STP	Significant Indirect User (SIU) Major Mod Permit Action The facility is a solid waste complex consisting of composting operations and an existing municipal solid waste landfill. The leachate generated at the landfill along with sanitary wastewater, potable water backwash and wastewater from bio-filters at composting operations is being discharge to FTWTP (via tank trucks).
ESSENTIAL POWER LLC LAKEWOOD COGENERATION NJ0074012 DGW	123 Energy Way Lakewood, NJ 08701 Ocean County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Kirkwood II-A	Ground Water Renewal Permit Action The facility is a 210 megawatt (nominal) natural gas fired cogeneration facility that provides electric power to Jersey Central Power and Light and thermal energy to non-affiliated customers in the Lakewood Industrial Park. Stormwater is directed to lined catch basins where sediment is collected. Sediment reduced stormwater is then directed to a perforated underground pipe recharge system. Four groundwater monitor wells are sampled semi annually to assess compliance with the groundwater quality standards.
GENIE HOUSE NJ0064971 DGW	139 Red Lion Rd Southampton Twp, NJ 08088 Burlington County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Kirkwood II-A	Ground Water Renewal Permit Action Site discharges various acids, alkaline solutions, phosphates and metal oxides from manufacturing processes of lighting fixtures. Untreated wastewater discharged to septic system from troughs within the building. Four monitor wells are sampled semi-annually to assess compliance with the groundwater quality standards.
GENERAL MILLS INC/PROGRESSO QUALITY FOODS NJ0076805 SIU	500 W Elmer Rd Vineland, NJ 08360-6394 Cumberland County	Fayard Ali Bureau of Pretreatment and Residuals (609)633-1317	LANDIS SEWER AUTH WWTP & PUMP STATION	Significant Indirect User (SIU) Renewal Permit Action The primary activity at this facility is food processing, SIC 2032, 2041 and 2091. Approximately 0.46 million gallons per day of wastewater generated from various processes is being discharged to LSA through discharge location point designated as DSN002L. The process wastewater is being pretreated prior to discharge. The pretreatment system consists of equalization, oil-water separator and neutralization processes. Approximately 6000 gallons per day of sanitary wastewater and 40,000 gallons per day of boiler water is also being discharged to LSA without any pretreatment.

PENNYTOWN WWTP NJ0101028 DGW	145 Rt 31 N Pennington, NJ 08534 Mercer County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Brunswick II-A	Ground Water Renewal Permit Action Pennytown WWTP previously serviced five (5) on-site, mixed use buildings with a total wastewater design flow of 14,210 gpd. However, all buildings have been demolished and the facility is currently generating no wastewater. Hopewell Twp. is maintaining the WWTP, and this permit, for possible future uses on the site. No wastewater is currently being generated by the facility. Discharge & Residuals monitoring will be inactivated upon issuance of this permit. The permit will need to be modified when any new facilities are constructed.
CSX TRANSPORTATION NJ0140872 DST	700 Old Fish House Rd Kearny, NJ 07032 Hudson County	Daniel Kuti Bureau of Nonpoint Pollution Control (609)633-7021	Hackensack River SE2(C2) Hackensack R (below/incl Hirshfeld Bk)	Stormwater Discharge Renewal Permit Action Issuance of a renewal permit Authorization to discharge Stormwater under NJPDES Industrial Stormwater Individual permit NJ0140872. The facility operates under standard industrial code 4011, rail transportation. The general activities occurring on-site include, but are not limited to, railcar and vehicle maintenance, mobile fueling, parts storage, and rail car transfer. The site ultimately discharges to the Hackensack River.
NORTH HANOVER UPPER MIDDLE SCHOOL NJ0146587 DGW	Monmouth Rd North Hanover Twp, NJ 08562 Burlington County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey II-A	Ground Water Renewal Permit Action Effluent from North Hanover Township Elementary School and the Charles B. Lamb School will be pretreated in a package treatment plant prior to discharge into a single subsurface disposal bed of 20,000 ft ² . The design flow of sanitary wastewater from the schools is 15,900 gpd. Wastewater is treated to meet groundwater standards before being discharged into the waters of the state. An additional seepage pit system will be used for the backwash of the water treatment system of the potable well. Ground water monitoring wells are located throughout the site as the point of compliance for Nitrate-Nitrogen and Ammonia-Nitrogen parameters.
TAYLOR FARMS NJ NJ0172944 SIU	406 A Heron Dr Logan Twp, NJ 08085 Gloucester County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	LOGAN TWP MUA WWTP	Significant Indirect User (SIU) Major Mod Permit Action The manufacturing operations at this facility include fresh prepared dinners, SIC 5149, and packaging of whole fresh fruits, SIC 5148. A maximum of 76,500 gallons of wastewater generated from manufacturing operations is to be discharged to Logan Township Municipal Utilities Authority's (LTMUA) wastewater treatment plant. Only the changes being proposed are revised effluent limitations for flow, oil & grease, BOD5 and TSS in this draft document are open to comment. All conditions of the existing permit remain in full effect.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Land Use Regulation, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for. The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 501 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for. The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP’s final determination.
