Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications pursuant to P.L.2011, c.203

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, c.203 which was enacted on January 17, 2012. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2011, c.203 directs the Department to accept and process certain site specific amendment proposals despite

the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2011, c.203, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C

Trenton, New Jersey 08625-0420

**ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
PROPOSED AMENDMENT TO THE MERCER COUNTY WATER QUALITY MANAGEMENT PLAN
PUBLIC NOTICE**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Mercer County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, would expand the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include portions of Block 24, Lot 1 in Robbinsville Township, Mercer County. The SSA expansion would include the proposed development of restroom facilities and a concession stand with cooking facilities, which would serve approximately 350 visitors per day at Community Park.

This proposal would amend the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Community Park Development in

the Hamilton Township WPCF SSA. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 5,250 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.005 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.005 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of

endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that Landscape Project identifies bobcat habitat in a 2.5 acre linear stretch along the drainage ditch onsite, however the Department's Endangered and Nongame Species Program has indicated that this habitat is not significant for the bobcat. Additionally, SSA is not proposed in this area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. There are no riparian zones on the project site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The drainage ditch onsite identifies as wetlands on Department mapping, is less than 25 acres, and is not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.001 MGD or 0.030 MGM, which is diminimus; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Mercer County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Mercer County Planning Division, McDade Administration Building, Room 411, 640 South Broad Street, P.O. Box 8068, Trenton, New Jersey 08650 and the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling either the Mercer County Planning Division at (609) 989-6545 or the Division of Coastal and Land Use Planning at (609) 984-6888.

A public hearing will be held by the Mercer County Planning Board on the proposed WQM Plan amendment. The public hearing will be on June 11, 2014 at 9:00 a.m., in Room 211 of the McDade Administration Building.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to the Secretary, Mercer County Planning Board at the address cited above. All comments must be submitted within 15 days following the public hearing. All comments submitted prior to the close of the comment period shall be considered by the County Planning Board and the County Executive in reviewing the amendment request. If the amendment is adopted by Mercer County, the Department must review the amendment prior to final adoption. The comments received in reply to this notice and to the public hearing will also be considered by the Department during its review.

**ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
PROPOSED AMENDMENT TO THE MERCER COUNTY WATER QUALITY MANAGEMENT PLAN
PUBLIC NOTICE**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Mercer County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, would expand the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include the proposed development of a recreation building with restroom facilities and a concession stand with cooking facilities, which would serve approximately 150 visitors per day, at Tindall Park on of Block 10, Lot 8.03 in Robbinsville Township, Mercer County.

This proposal would amend the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Tindall Park Development in the Hamilton Township WPCF SSA. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 2,250 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.002 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.002 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability

Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that Landscape Project identifies bobcat habitat onsite, however SSA is not proposed in this area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A riparian zone has been identified onsite. In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The soils onsite are identified as acidic soils from the Merchantville formation, therefore the required riparian buffer width for the unnamed tributary to the Assunpink Creek identified onsite is 150 feet from top of bank. SSA is not proposed in this area.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Wetlands are identified onsite, however, are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.000 MGD or 0.000 MGM, which is diminimus; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Mercer County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Mercer County Planning Division, McDade Administration Building, Room 411, 640 South Broad Street, P.O. Box 8068, Trenton, New Jersey 08650 and the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling either the Mercer County Planning Division at (609) 989-6545 or the Division of Coastal and Land Use Planning at (609) 984-6888.

A public hearing will be held by the Mercer County Planning Board on the proposed WQM Plan amendment. The public hearing will be on June 11, 2014 at 9:00 a.m., in Room 211 of the McDade Administration Building.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to the Secretary, Mercer County Planning Board at the address cited above. All comments must be submitted within 15 days following the public hearing. All comments submitted prior to the close of the comment period shall be considered by the County Planning Board and the County Executive in reviewing the amendment request. If the amendment is adopted by Mercer County, the Department must review the amendment prior to final adoption. The comments received in reply to this notice and to the public hearing will also be considered by the Department during its review.

**ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
PROPOSED AMENDMENT TO THE MERCER COUNTY WATER QUALITY MANAGEMENT PLAN
PUBLIC NOTICE**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Mercer County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, would expand the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include portions of Block 9, Lots: 1, 25.01, and 55 in Robbinsville Township, Mercer County. The SSA expansion would include the proposed development of 50 single family homes named Edinburg Village, formerly known as Washington Woods.

This proposal would amend the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Edinburg Village Development in

the Hamilton Township WPCF SSA. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 15,000 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.015 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.015 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of

endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A Riparian zone has been identified on the project site. In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The soils onsite are identified as acidic soils (Magothy and Merchantville formations), therefore the required riparian buffer width for the unnamed tributary to the Assunpink Creek identified onsite is 150 feet from top of bank. The proposed development has obtained Department-issued Flood Hazard Area Permits under file number 1112-07-0012.1, which allow disturbance in the Riparian Zone. Specifically, most of the disturbance is proposed within the riparian zone and stream corridor enhancement area where the perpendicular farm ditch (the unnamed tributary) will be realigned into a meandering stream through the clustered development. Robbinsville Township has adopted Riparian Corridor protections in Ordinance 2004-30; however, the ordinance is not in full compliance with the aforementioned regulations. To become compliant, and in accordance with N.J.A.C. 7:15-5.25(h)5iii, the Riparian Corridor Analysis has been satisfied by applying the 150 foot buffer to the new stream as approved by Department permits and removing the riparian zone from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 1112-07-0012 was submitted, which re-delineates the wetlands and their associated buffers, and these areas are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.016 MGD or 0.480 MGM; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an

engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Mercer County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Mercer County Planning Division, McDade Administration Building, Room 411, 640 South Broad Street, P.O. Box 8068, Trenton, New Jersey 08650 and the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling either the Mercer County Planning Division at (609) 989-6545 or the Division of Coastal and Land Use Planning at (609) 984-6888.

A public hearing will be held by the Mercer County Planning Board on the proposed WQM Plan amendment. The public hearing will be on June 11, 2014 at 9:00 a.m., in Room 211 of the McDade Administration Building.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to the Secretary, Mercer County Planning Board at the address cited above. All comments must be submitted within 15 days following the public hearing. All comments submitted prior to the close of the comment period shall be considered by the County Planning Board and the County Executive in reviewing the amendment request. If the amendment is adopted by Mercer County, the Department must review the amendment prior to final adoption. The comments received in reply to this notice and to the public hearing will also be considered by the Department during its review.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notice of Public Comment Period for Request for Federal Consistency Determination

The requests for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.

DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 05/07/2014
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
HAMILTON TWP WPCF NJ0076643 DGW	300 Hobson Ave Hamilton, NJ 08610 Mercer County	Matt Klewin Bureau of Nonpoint Pollution Control (609)633-7021	Raritan-Magothy II-A	Ground Water Renewal Permit Action The Hamilton Township Water Pollution Control Facility (WPCF) has a residuals infiltration/percolation lagoon located adjacent to the WPCF which covers approximately 5.4 acres. The discharge of residuals in the lagoon from the WPCF ceased in 1981. The Township of Hamilton continues ground water sampling for the residuals infiltration/ percolation lagoon and modified ground water sampling plan.
NESTLE USA INC NJ0105856 DGW	61 Jerseyville Ave Freehold, NJ 07728 Monmouth County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Red Bank II-A	Ground Water Renewal Permit Action Nestle USA manufactures instant coffee and tea. The facility has an aerated surface impoundment which is part of the industrial wastewater treatment system. The surface impoundment receives approximately 720,000 gallons per day of process wastewater from the manufacture of instant coffee and tea. Treated water from this system is discharged through Freehold Township Sewer System to the Ocean County Utilities Authority Northern Treatment Plant. Quarterly monitoring of the treatment plant effluent and three monitor wells surrounding the impoundment will be conducted to assess any potential discharges to groundwater from the impoundment.
WHEELABRATOR GLOUCESTER CO LP NJ0102296 DGW	600 Us Rte 130 West Deptford Twp, NJ 08093 Gloucester County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Raritan-Magothy II-A	Ground Water Renewal Permit Action This facility is a electric generating plant using recycled solid wastes from Gloucester County for the energy source. The site is located on a 152-acre site. Stormwater generated on-site is collected in two (2) stormwater detention ponds before ultimate disposal through surface water outfalls (regulated under NJPDES-DSW permit NJ0062391). Discharge samples are taken at the basins, and ground water monitoring wells are also sampled as part of the facility's Ground Water Protection Program.
VINELAND KOSHER POULTRY CO INC NJ0064572 SIU	1100 S Mill Rd Vineland, NJ 08360 Cumberland County	Fayard Ali Bureau of Pretreatment and Residuals (609)633-3823	LANDIS SEWER AUTH WWTP & PUMP STATION	Significant Indirect User (SIU) Renewal Permit Action The applicant operated a poultry slaughter house and preparation plant, SIC 2015. The facility has not discharged since December 2010. When discharging, approximately 140,000 gallons per day of wastewater from various processes was being discharged to LSA. The process wastewater was pretreated prior to discharge. The pretreatment system consisted of screening, dissolved air flotation and skimming processes.

LENAPE REGIONAL HIGH SCHOOL DISTRICT NJ0136239 DGW	Carranza Rd Tabernacle, NJ 08088 Burlington County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey I-PL	Ground Water Renewal Permit Action Seneca High School is an education facility serving grades 9-12, consisting of classroom and office buildings, a gymnasium, and a cafeteria. The maximum occupancy permitted at the facility is 2,000 students and faculty staff. Sanitary wastewater generated by the facility is treated by an on-site wastewater treatment system, and discharges a maximum of 30,000 gpd to the on-site disposal beds. Treated effluent is discharged to two (2) subsurface disposal beds, with a total area of 8,025 sq. ft., and two (2) reserve disposal areas with an additional 8,025 sq. ft. are maintained. Treated effluent meets I-PL standards for nitrate (2 mg/l) prior to discharge.
NJPDES MASTER GENERAL PERMIT PROGRAM INTEREST NJ0215546 RES	401 E State St Trenton, NJ 08625 Mercer County	Patrick Brown Bureau of Pretreatment and Residuals (609)633-3823		Residual Master General Permit New This new general permit is issued in accordance with N.J.A.C. 7:14A, and applies to those Public Water Treatment Systems that generate sludge (reporting categories 10, 11, 12, and 13). The permit is intended to implement the provisions of the Sludge Quality Assurance Regulations (SQAR, N.J.A.C. 7:14C) for residual quality and quantity monitoring as well as other general conditions required by N.J.A.C. 7:14A-6.
UNITED SUPPORT SOLUTIONS INC NJ0141411 SIU	134 Sand Park Rd Cedar Grove, NJ 07009 Essex County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	CEDAR GROVE TWP MUA STP	Significant Indirect User (SIU) Renewal Permit Action The facility provides metal coating and allied services, SIC Code 3479. Fabricated steel and aluminum products are silk screened and painted, after surface preparation. An average of about 2455 gallons per day of process wastewater along with approximately 1000 gallons per day of sanitary wastewater is discharged to the Township of Cedar Grove's sewage treatment plant. Wastewater from parts washing and from automatic hoist Iridite and Bonderize operations is pretreated by pH adjustment if necessary. An in-process ion exchange unit allows most of the water to be recirculated and reused.
NEW AGE METAL FABRICATING CO INC NJ0170020 SIU	26 Daniel Rd W Fairfield, NJ 07004 Essex County	Fayard Ali Bureau of Pretreatment and Residuals (609)633-3823	FAIRFIELD PEQUANNOCK LINCOLN PARK 2 BRIDGES STP	Significant Indirect User (SIU) Renewal Permit Action The applicant at this facility manufactures metal parts such as covers from computers, stereos, etc. from sheet metal, SIC 3444. Aluminum parts are dipped into four (4) solutions each followed by rinse. Parts are either painted or chromated. Approximately 2000 gallons per day of secondary rinse water is collected in a holding tank and discharged to the Two Bridges Sewerage Authority's wastewater treatment plant. Surface preparation operations such as iriditing, etching, cleaning, neutralizing and associated rinse baths are subject the Federal Categorical Pretreatment Standards for Metal Finishers, 40 CFR 433.
AMERICAN IRON AND METAL INTERNATIONAL NJ0201685 DST	301 12th St South Millville, NJ 08332 Cumberland County	David Pepe Bureau of Nonpoint Pollution Control (609)292-1900	Maurice River (above Sherman Ave Bridge)	Stormwater Discharge New Permit Action Discharge of Stormwater associated with the industrial activity at a scrap processing facility to an infiltration basin.

HIGHVIEW ESTATES NJ0205893 DGW	Rt 94 Fredon Twp, NJ 07860 Sussex County	Matt Klewin Bureau of Nonpoint Pollution Control (609)633-7021	Martinsburg Formation II-A	Ground Water New Permit Action The proposed property is approximately 154 acres in size and will consist approximately of 69 single family residences. The property is located along Route 94 at Block 104, Lot 19 & Block 801, Lot 1.01 in Fredon Township, Sussex County, New Jersey. The proposed treatment plant will treat 19,950 GPD wastewater to groundwater quality standards (GWQS) prior to discharging the effluent to a 10,000 square foot disposal field located in the northwest portion of the property.
---	--	---	-----------------------------------	---

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

New Jersey Department of Environmental Protection
Land Use Management
Division of Coastal and Land Use Planning

**Notice of Public Comment Period Regarding submission of
Municipal Public Access Plans**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following application(s) for NJDEP approval of a Municipal Public Access Plan requesting approval in accordance with N.J.A.C. 7:7E (the Coastal Zone Management Rules).

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. A copy of these plans can be found at <http://www.state.nj.us/dep/cmp/access/mpaplandraft.htm>.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:
