M = Permit Modification

P = Permit Decision Date
R = Complete for Review
T = Additional Information Received
W= Withdrawn

Specific Decision Application Codes

O = Other

REG = HMDC/Pinlands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, (now referred to as P.L. 2013, c.188). P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

PROPOSED AMENDMENTS TO THE MERCER COUNTY WATER QUALITY MANAGEMENT PLAN
PUBLIC NOTICE
Edinburg Village

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Mercer County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, would expand the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include portions of Block 9, Lots: 1, 25.01, and 55 in Robbinsville Township, Mercer County. The SSA expansion would include the proposed development of 50 single family homes named Edinburg Village, formerly known as Washington Woods.

This proposal would amend the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Edinburg Village Development in the Hamilton Township WPCF SSA. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 15,000 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.015 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.015 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A Riparian zone has been identified on the project site. In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The soils onsite are identified as acidic soils (Magothy and Merchantville formations), therefore the required riparian buffer width for the unnamed tributary to the Assunpink Creek identified onsite is 150 feet from top of bank. The proposed development has obtained Department-issued Flood Hazard Area Permits under file number 1112-07-0012.1, which allow disturbance in the Riparian Zone. Specifically, most of the disturbance is proposed within the riparian zone and stream corridor enhancement area where the perpendicular farm ditch (the unnamed tributary) will be realigned into a meandering stream through the clustered development. Robbinsville Township has adopted Riparian Corridor protections in Ordinance 2004-30; however, the ordinance is not in full compliance with the aforementioned regulations. To become compliant, and in accordance with N.J.A.C. 7:15-5.25(h)5iii, the Riparian Corridor Analysis has been satisfied by applying the 150 foot buffer to the new stream as approved by Department permits and removing the riparian zone from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 1112-07-0012 was submitted, which re-delineates the wetlands and their associated buffers, and these areas are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.016 MGD or 0.480 MGM; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Mercer County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Mercer County Planning Division, McDade Administration Building, Room 412, 640 South Broad Street, P.O. Box 8068, Trenton, New Jersey 08650 and the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling either the Mercer County Planning Division at (609) 989-6545 or the Division of Coastal and Land Use Planning at (609) 984-6888.

A **public hearing** will be held by the Mercer County Planning Board on the proposed WQM Plan amendment. The public hearing will be on June 11, 2014 at 9:00 a.m., in Room 211 of the McDade Administration Building.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to the Secretary, Mercer County Planning Board at the address cited above. All comments must be submitted within 15 days following the public hearing. All comments submitted prior to the close of the comment period shall be considered by the County Planning Board and the County Executive in reviewing the amendment request. If the amendment is adopted by Mercer County, the Department must review the amendment prior to final adoption. The comments received in reply to this notice and to the public hearing will also be considered by the Department during its review.

PROPOSED AMENDMENT TO THE MERCER COUNTY WATER QUALITY MANAGEMENT PLAN CONTINUED
PUBLIC NOTICE
Tindall Park

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Mercer County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, would expand the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include the proposed development of a recreation building with restroom facilities and a concession stand with cooking facilities, which would serve approximately 150 visitors per day, at Tindall Park on of Block 10, Lot 8.03 in Robbinsville Township, Mercer County.

This proposal would amend the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Tindall Park Development in the Hamilton Township WPCF SSA. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 2,250 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.002 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.002 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that Landscape Project identifies bobcat habitat onsite, however SSA is not proposed in this area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A riparian zone has been identified onsite. In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The soils onsite are identified as acidic soils from the Merchantville formation, therefore the required riparian buffer width for the unnamed tributary to the Assunpink Creek identified onsite is 150 feet from top of bank. SSA is not proposed in this area.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Wetlands are identified onsite, however, are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.000 MGD or 0.000 MGM, which is diminimus; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Mercer County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Mercer County Planning Division, McDade Administration Building, Room 412, 640 South Broad Street, P.O. Box 8068, Trenton, New Jersey 08650 and the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling either the Mercer County Planning Division at (609) 989-6545 or the Division of Coastal and Land Use Planning at (609) 984-6888.

A **public hearing** will be held by the Mercer County Planning Board on the proposed WQM Plan amendment. The public hearing will be on June 11, 2014 at 9:00 a.m., in Room 211 of the McDade Administration Building.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to the Secretary, Mercer County Planning Board at the address cited above. All comments must be submitted within 15 days following the public hearing. All comments submitted prior to the close of the comment period shall be considered by the County Planning Board and the County Executive in reviewing the amendment request. If the amendment is adopted by Mercer County, the Department must review the amendment prior to final adoption. The comments received in reply to this notice and to the public hearing will also be considered by the Department during its review.

PROPOSED AMENDMENT TO THE MERCER COUNTY WATER QUALITY MANAGEMENT PLAN CONTINUED
PUBLIC NOTICE
Community Park

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Mercer County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Mr. Timothy McGough, Professional Engineer, Township of Robbinsville, would expand the sewer service area (SSA) of the Hamilton Township Water Pollution Control Facility (WPCF) to include portions of Block 24, Lot 1 in Robbinsville Township, Mercer County. The SSA expansion would include the proposed development of restroom facilities and a concession stand with cooking facilities, which would serve approximately 350 visitors per day at Community Park.

This proposal would amend the Mercer County Wastewater Management Plan (WMP) adopted October 9, 2013, as well as the Robbinsville Township WMP chapter, to include the Community Park Development in the Hamilton Township WPCF SSA. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 5,250 gallons per day. Currently, Hamilton Township WPCF is permitted to discharge 16 million gallons per day (MGD) of treated wastewater to Crosswicks Creek under NJDPES permit number NJ0026301. The average of the last twelve months of discharge monitoring data show that Hamilton Township WPCF has discharged an average daily flow of 8.09 MGD. The additional 0.005 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the Hamilton Township WPCF.

The Hamilton Township WPCF provides treatment for Robbinsville, Hamilton, and West Windsor Townships. As part of the Mercer County WMP, an environmental constraints/build out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Robbinsville Township has a projected need to treat a total wastewater flow of 2.5 MGD and the total buildout for Hamilton Township WPCF SSA is 12.735 MGD, including 0.156 MGD from West Windsor and 10.079 from Hamilton Township. The additional 0.005 MGD of planned wastewater flow will not cause the future wastewater generation potential of the expanded SSA to exceed the 16 MGD permitted capacity of the Hamilton Township WPCF.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that Landscape Project identifies bobcat habitat in a 2.5 acre linear stretch along the drainage ditch onsite, however the Department's Endangered and Nongame Species Program has indicated that this habitat is not significant for the bobcat. Additionally, SSA is not proposed in this area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. There are no riparian zones on the project site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The drainage ditch onsite identifies as wetlands on Department mapping, is less than 25 acres, and is not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Aqua New Jersey, Inc., which is currently permitted under water allocation permit number WAP1000001 and PWSID1103001 to allocate 283 million gallons per month (MGM) and has a water supply surplus of 45.801 MGM. The proposed water demand of the project is 0.001 MGD or 0.030 MGM, which is diminimus; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Robbinsville Township has adopted stormwater control ordinance #2006-16 (refer to Chapter 142, Section 35 of their Land Use Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Mercer County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Mercer County Planning Division, McDade Administration Building, Room 412, 640 South Broad Street, P.O. Box 8068, Trenton, New Jersey 08650 and the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling either the Mercer County Planning Division at (609) 989-6545 or the Division of Coastal and Land Use Planning at (609) 984-6888.

A **public hearing** will be held by the Mercer County Planning Board on the proposed WQM Plan amendment. The public hearing will be on June 11, 2014 at 9:00 a.m., in Room 211 of the McDade Administration Building.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Coastal and Land Use Planning, at the Department address cited above with a copy sent to the Secretary, Mercer County Planning Board at the address cited above. All comments must be submitted within 15 days following the public hearing. All comments submitted prior to the close of the comment period shall be considered by the County Planning Board and the County Executive in reviewing the amendment request. If the amendment is adopted by Mercer County, the Department must review the amendment prior to final adoption. The comments received in reply to this notice and to the public hearing will also be considered by the Department during its review.

**PROPOSED AMENDMENT TO THE TRI-COUNTY WATER QUALITY MANAGEMENT PLAN
PUBLIC NOTICE**

Soboleski Property

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of David Soboleski, would modify the Burlington County Future Sewer Service Area Map (FWSA) to expand the sewer service area (SSA) by 32.277 acres on Block 11.52, Lot 3, in Evesham Township, Burlington County.

This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188).

Pursuant to P.L. 2011, c. 203 as amended by P.L. 2013, c. 188, the Department may approve an amendment to a wastewater management plan or water quality management plan that would delineate as a sewer service area a parcel, not to exceed 100 acres in size, that had been previously included in a formerly adopted sewer service area, provided that the applicant can demonstrate with the use of updated or more accurate information that the parcel complies with the regulatory criteria for the delineation of a sewer service area established at N.J.A.C. 7:15-5.24. Block 32.77, Lot 3 in Evesham Township had been removed from SSA due to the presence of wetlands as indicated on the Department's Geographic Information System data layer for wetlands. The applicant has submitted a Letter of Interpretation, L.O.I. # 0313-12-0009.1, which more accurately re-delineates the wetlands and their associated buffers. The parcel now complies with the regulatory criteria for the delineation of a sewer service area established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B,

under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. No riparian zones have been identified on the site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 0313-12-0009.1 was submitted, which re-delineates the wetlands and their associated buffers.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed amendment has been evaluated. Under current zoning, the site could accommodate 129 dwelling units, and would be served by the public water supply provided by the Evesham Township Municipal Utilities Authority, which is currently permitted under water allocation permit number WAP 090001 and PWSID 0313001 to allocate 149 MGM million gallons per month (MGM) and has a water supply surplus of 42.3 MGM.

The potential water demand of the project is 0.0419 MGD or 1.25 MGM; therefore sufficient water supply is available to serve the proposed amendment within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Evesham Township has adopted stormwater control ordinance # 29-10-2004. (refer to Chapter 139 of the Evesham Township Municipal Code), which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An

appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Mr. Rick Ricciardi, P.P., Marathon Engineering and Environmental Services, 553 Beckett Rd., Suite 608, Swedesboro, NJ 08085. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of this public notice to Mr. Rick Ricciardi, P.P., at the Marathon Engineering and Environmental Services address cited above, with a copy sent to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE A FRESHWATER WETLANDS
And A WATERFRONT DEVELOPMENT VIOLATION**

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below site and responsible party for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j and the Waterfront Development Statutes, N.J.S.A. 12:5-1 et seq. (the “WD Statutes”),

IN THE MATTER OF: D.C. Trucking Corp., D.C. Demolition & Recycling, LLC, D.C. Trucking &
Excavating, LLC and Thomas and Donna Giordano
Enforcement File # 1225-02-0020.1
Block 531B and Lot 100
Woodbridge Township, Middlesex County, New Jersey

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Dwayne Snead, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, Mail Code 401-04C, PO Box 420, Trenton, New Jersey 08625-0420 or via email at Dwayne.Snead@dep.state.nj.us. Comments must be received by NJDEP within 30 days of this publication to be considered.

Waiver Rule Requests

NOTE: Pursuant to N.J.A.C. 7:1B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.

Narrative	<p>The applicant is proposing to construct the new dwelling to meet the affordable housing needs of the community. The project is being constructed in conjunction with the ARC of Hunterdon County. The applicant has done everything practicable to design the project to minimize the disturbance of wetlands. However, the only developable upland onsite is to the north of Plum Brook Creek. The front portion of the site which provides frontage and access to the parcel is entirely wetland. The applicant has requested access through the adjoining parcels to minimize wetlands disturbance and was rejected. The proposed driveway must cross approximately 415 feet of wetlands to access the upland area. The applicant has reduced the driveway width to the maximum extent possible to minimize wetland disturbance but the project still exceeds the 0.10 acres allowed without mitigation. The project will disturb 0.18 acres and mitigation is required. The applicant has contacted the mitigation bank for the watershed and the cost to purchase the required credit is \$72,000. The mitigation cost is excessive and the project is no longer economical to build. The applicant has prepared two estimates for the project with and without mitigation. The project turns a slight profit of \$2568 per year without any required mitigation. If the applicant is required to mitigate, the project results in a yearly loss of \$3432.</p>

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

ENVIRONMENTAL DISPOSAL CORP NJ0033995 DSW Major	Rts 202/206 S Pluckemin, NJ 07978-0000 Somerset County	Surya Shah Bureau of Surface Water Permitting (609)292-4860	Raritan River via tributary FW2-NT(C2) Raritan River NB (above Lamington)	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected, domestic wastewater with some commercial distribution, into the unnamed tributary to the North Branch of the Raritan River, classified as FW2-NT waters. The facility has a flow value of 2.1 MGD and currently discharges a monthly average flow of approximately 1.35 MGD.
MORRISTOWN SEWER UTILITY NJ0025496 DSW Major	80 East Hanover Ave Cedar Knolls, NJ 07927 Morris County	Ramanathan Asokan Bureau of Surface Water Permitting (609)292-4860	Whippany River FW2-NT(C2) Whippany River	Surface Water Renewal Permit Action This application is for the renewal of a NJPDES permit to discharge an average of 3.45 million gallons per day (MGD) design flow of treated domestic wastewater. This permit also authorizes future flows of 4.8 MGD and 6.3 MGD when the flow reaches that level. Treatment units consist of bar screens, grit chambers, primary clarifiers, aeration basins, secondary clarifiers, sand filters, mixing tank, chlorination basin, and post aeration basins with dechlorination.
REFLECTION LAKES GARDEN APTS STP NJ0027201 DSW Minor	1177 Union Valley Rd West Milford Twp, NJ 07480 Passaic County	Lisa Hoare Bureau of Surface Water Permitting (609)292-4860	Belchers Creek FW2-NT(C2) Wanaque River	Surface Water Renewal Permit Action This permit action is a DSW renewal for the Sewage Treatment Plant which services the Reflection Lakes Garden Apartments. The existing facility discharges treated, disinfected, domestic wastewater into an unnamed tributary to Belchers Creek which ultimately discharges to the Wanaque River, which is classified as FW2-NT waters. The facility has a permitted flow value of 5,000 gpd.
METEDECONK NATIONAL GOLF CLUB INC NJ0109193 DGW	50 Hannah Hill Rd Jackson Twp, NJ 08527 Ocean County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Kirkwood II-A	Ground Water Renewal Permit Action The Metedeconk National Golf Club is a 27-hole, private establishment located situated on approximately 300 acres in Jackson Township, Ocean County and serves approximately 300 members. The facility consists of two (2) golf practice areas, a maintenance building, a comfort station, an 18,900 square foot clubhouse, and an 8 room/16 bed annex building. The clubhouse contains a pro shop, a 40 seat bar and two separate dining areas with total seating for 84.

MEL CHEMICALS INC NJ0128911 DGW	500 Barbertown Point Breeze Rd Flemington, NJ 08822 Hunterdon County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Lockatong II-A	Ground Water Renewal Permit Action MEL Chemical Inc. has applied for a renewal NJPDES DGW permit. This is a chemical manufacturing facility which produces zirconium products through the reaction with sodium carbonate. The ground water discharge at the site consists of 2 sanitary septic systems and 7 lined surface impoundments that receive process wastewater, remedial waters and non-contact cooling water. Ground water is monitored via 18 wells and effluent quality is monitored at an effluent sampling point by this permit. The facility is also regulated under stormwater permit NJ0113883.
HARRINGTON PARK CORPORATE HQTS NJ0212423 DSW Minor	200 Old Hook Rd Harrington Park, NJ 07640 Bergen County	Heather Genievich Bureau of Surface Water Permitting (609)292-4860	Oradell Reservoir FW2-NT(C1) Hackensack R (above Hirshfeld Brook)	Surface Water New Permit Action This application is for a new NJPDES permit to discharge an average flow of 0.24 million gallons per day (MGD) of untreated non-contact cooling water into the Oradell Reservoir, classified as FW2-NT(C1) waters.
READY PAC FLORENCE NJ0141771 SIU	700 Railroad Ave Florence, NJ 08518 Burlington County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	FLORENCE TWP DPW SEWER AUTH STP	Significant Indirect User (SIU) Renewal Permit Action The facility generates about 0.400 million gallons daily of wastewater from washing of fresh cut vegetables for the wholesale market, SIC Code 5148. This process wastewater is pretreated with a rotary screen and de-chlorinated before discharge to TFWTP, along with about 2000 gallons daily of sanitary wastewater, through one discharge location point to be designated as DSN 001L.
MEDTRONIC NJ0221643 SIU	201 Industrial Way Eatontown, NJ 07724 Monmouth County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	TWO RIVERS WATER RECLAMATION AUTH STP	Significant Indirect User (SIU) New Permit Action The facilities operations include production process for human bone tissues for replacement bone surgical procedures, NAICS 339113. The wastewater generated from various operations is neutralized prior to its discharge.
TRENTON BIOGAS LLC NJ0218791 SIU	1600 Lamberton Rd Trenton, NJ 08611 Mercer County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	TRENTON CITY DPW SEWER AUTH	Significant Indirect User (SIU) New Permit Action The applicant has proposed to utilize existing (not currently being used) Mercer County Regional Sludge Management Facility to construct food product to energy facility. The proposed facility will use food products, pharmaceutical grade alcohols and glycerin to produce methane, compost and fertilizer. The permit is to discharge approximately 107,000 gallons per day of process wastewater to the Trenton Sewer Utility's wastewater treatment plant.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

Land Use Management
Division of Coastal and Land Use Planning

**Notice of Public Comment Period Regarding submission of
Municipal Public Access Plans**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following application(s) for NJDEP approval of a Municipal Public Access Plan requesting approval in accordance with N.J.A.C. 7:7E (the Coastal Zone Management Rules).

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. A copy of these plans can be found at <http://www.state.nj.us/dep/cmp/access/mpaplandraft.htm>.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.
