O = Other

REG = HMDC/Pinelands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO SETTLE
WATERFRONT DEVELOPMENT PERMIT APPLICATION**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement that would authorize the construction of a fixed pier extension and installation of two open style boat lifts. Based on this action, the Department will issue a Waterfront Development Permit for the removal of the two (2) existing mooring pilings, construction of a 4' x 50' dock extension to an existing 7.5' x 30' fixed pier (for a total pier length of 80'), and installation of two (2) 12' x 12' open style boat lifts (one on each side of the pier) under the Rules on Coastal Zone Management (N.J.A.C. 7:7E-1.1 et seq.) and the Coastal Permit Program Rules (N.J.A.C. 7:7-1.1 et seq.). The project is shown on the plan entitled "Application for Waterfront Development Lots 6 and 6.01, Block 29 Borough of Mantoloking, Ocean County, New Jersey", dated May 26, 2012, last revised on January 28, 2014 and prepared by Walter Scharfenberg. The applicant is the Estate of Joyce M. Cooper. Notice of the final permit decision will appear in the DEP Bulletin under the section entitled Division of Land Use Regulation.

IN THE MATTER OF:

Estate of Joyce M. Cooper
c/o Jonathan Cooper, Executor
NJDEP FILE #1519-02-0010.1
Block 29, Lots 6 and 6.01
Borough of Mantoloking, Ocean County

Comments regarding this settlement or requests for information regarding this action should be sent to: Shorefront Region Section Chief, Division of Land Use Regulation, Mail Code 501-02A, PO Box 420, Trenton, NJ 08625-0420 or by e-mail care of chris.dolphin@dep.nj.gov, or the office may be reached by telephone: (609) 777-0454. Comments must be received by NJDEP within 10 days of this publication, or by _____.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE
A FRESHWATER WETLANDS PROTECTION ACT VIOLATION
And
A WATERFRONT DEVELOPMENT STATUTES VIOLATION**

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below site, as related to the named parties below only, for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j; and the Waterfront Development Statutes, N.J.S.A. 12:5-1 et seq. (the “WD Statutes”):

IN THE MATTER OF: D.C. Trucking Corp., D.C. Demolition & Recycling, LLC, D.C. Trucking & Excavating, LLC and Donna Giordano
NJDEP Enforcement File # 1225-02-0020.1
Superior Court of NJ Chancery Div. Docket # C-107-11
U.S. Bankruptcy Court District of NJ Case # 12-25288 and Adv. Pro. No. 12-01811 (MBK); OAL Docket Nos.: ESA 06181-2004S and ESA 10220-04S
Block 531B and Lot 100
Woodbridge Township, Middlesex County, New Jersey

This Matter being considered for discharge by the U.S. Bankruptcy Court, District of New Jersey, by Judicial Consent Order and Final Judgment by the Honorable Michael B. Kaplan, U.S.B.J., and to be considered for settlement in the Superior Court of New Jersey, Chancery Division, Honorable Travis L. Francis, A.J.S.C.; and the Office of Administrative Law, Honorable Jeff S. Masin, A.L.J. Comments regarding this settlement or requests for a copy of the settlement should be sent to: Dwayne Snead, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, Mail Code 401-04C, PO Box 420, Trenton, New Jersey 08625-0420 or via email at Dwayne.Snead@dep.state.nj.us. Comments must be received by NJDEP within 30 days of this publication to be considered.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE
A FRESHWATER WETLANDS PROTECTION ACT
And
A WATERFRONT DEVELOPMENT STATUTES VIOLATION**

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to dismiss an enforcement action pertaining to the below site, as related to the named party below only, for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j; and the Waterfront Development Statutes, N.J.S.A. 12:5-1 et seq. (the “WD Statutes”):

IN THE MATTER OF: Thomas Giordano
NJDEP Enforcement File # 1225-02-0020.1
Superior Court of NJ Chancery Div. Docket # C-107-11
U.S. Bankruptcy Court District of NJ Case # 12-25288 and Adv. Pro. No. 12-01811 (MBK); OAL Docket Nos.: ESA 06181-2004S and ESA 10220-04S
Block 531B and Lot 100
Woodbridge Township, Middlesex County, New Jersey

Thomas Giordano passed away on March 5, 2014. Thomas Giordano was granted a Chapter 7 bankruptcy discharge on May 29, 2014. Therefore, NJDEP intends to enter into a Stipulation of Dismissal of its Complaint against Thomas Giordano and will seek to have it approved by the Superior Court of New Jersey, Chancery Division, Middlesex County and if necessary the United States Bankruptcy Court for New Jersey. Comments regarding this dismissal or requests for a copy of the stipulation should be sent to: Dwayne Snead, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, Mail Code 401-04C, PO Box 420, Trenton, New Jersey 08625-0420 or via email at Dwayne.Snead@dep.state.nj.us. Comments must be received by NJDEP within 30 days of this publication to be considered.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C

PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
Proposed Amendment to the Tri-County Water Quality Management Plan
Public Notice:**

Camelot, Phase III

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management Plan, which would modify the current Gloucester County Utilities Authority (GCUA) wastewater management plan (WMP), adopted by the Department on December 10, 2008. This amendment proposal, submitted on behalf of Aura Development Group, LLC, would expand the sewer service area (SSA) of the GCUA wastewater treatment plant (WWTP) to include portions of Block 196.01, Lot 4; Block 197, Lot 1; and Block 198.10, Lot 1 located in the Borough of Glassboro, Gloucester County. The SSA expansion would accommodate the proposed development of Camelot, Phase III, Sections 1 & 2, consisting of: 66 3-bedroom townhomes; one 3-bedroom single family home; 120 2-bedroom apartments; 4,800 square feet of community center use; 75,000 square feet of commercial/retail use; and restaurant seating to accommodate 1,000 patrons.

This application has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. The Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed.

Notwithstanding, the projected wastewater flow of the project has been evaluated in accordance with N.J.A.C. 7:15-5.25(h)1. The subject development's proposed wastewater flow, calculated in accordance with N.J.A.C. 7:14A-23.3, is 0.09 million gallons per day (MGD). Currently, the GCUA WWTP (NJDPES #NJ0024686) is permitted to discharge up to 27 MGD of treated wastewater to the Delaware River. Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from GCUA WWTP was calculated to be 19.3 MGD. The addition of the proposed development's projected wastewater flow, estimated as 0.09 MGD, would not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the GCUA WWTP.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered,

Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened) , 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation (LOI) # 0806-02-0003.1 FWW 020001, dated September 8, 2003, its amendment LOI # 0806-04-0001.1 FWW 040001, and LOI # 0806-04-0001.1 FWW 040001 dated July 19, 2004, were submitted. Areas subject to those LOIs which were delineated as wetlands, including any associated buffers, are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by the Borough of Glassboro Water and Sewer Department, which is currently permitted under water allocation permit number WAP 5135 and PWSID No.: 0806001 to allocate 140.65 million gallons per month (MGM) and currently has a water supply surplus of 23.956 MGM. The proposed water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 3.495 MGM; therefore, sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. Compliance with this standard shall be demonstrated by the adoption of a municipal stormwater management ordinance that conforms with the requirements of N.J.A.C. 7:8 (Stormwater Management Rules). The Borough of Glassboro has adopted stormwater control ordinance §06-35 amending Chapter 107, Article X of the Borough code which complies with the performance standards of the Stormwater Management Rules. Consequently the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to,

the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Division of Coastal and Land Use Planning at the Department address cited above with a copy sent to Rosie Wolk, P.E. of Consulting Engineer Services, 645 Berlin Cross-Keys Road, Suite 1, Sicklerville, NJ 08081. All comments must be submitted within 30 days of the date of this published notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications
Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
OFFICE OF COASTAL AND LAND USE PLANNING
Adopted Amendment to the Tri-County Water Quality Management Plan (WQMP)
Public Notice
Northern Mansfield Service Area Transfer**

Take notice that June 16, 2014 , pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Tri-County WQMP was adopted by the Department of Environmental Protection (Department). This amendment, submitted by Mansfield Township, Burlington County, modifies both the Burlington County Future Wastewater Service Area Map and the Mansfield Township Wastewater Management Plan (WMP) to expand the Mansfield Farms Sewage Treatment Plant (STP) sewer service area (SSA) to include 61.09 acres located on Block 3, Lots 5.01 and 10.01, and Block 4, Lots 6.01 and 7, in Mansfield Township, Burlington County. The Northern Mansfield STP currently serves this area; therefore, the amendment proposes to transfer the designated sewer service for this area from the Northern Mansfield STP to the Mansfield Farms STP. The Mansfield Farms STP operates under New Jersey Pollutant Discharge Elimination System (NJPDES) permit number NJ0108120.

Adoption of the proposed amendment would allow for the construction of a proposed commercial development consisting of a 365,535 square foot (sq. ft.) retail commercial building, four restaurants with 1,072 total seats, one gas station with eight filling stations, an 80 seat fast food restaurant, a 4,769 sq. ft. mini market, four retention basins, and 2,095 parking spaces. The proposed project site, located on Block 3, Lots 5.01 and 10.01, and Block 4, Lots 6.01 and 7, in Mansfield Township, is bisected by Route 206 and is currently used as agricultural hay fields. The total projected wastewater flow, calculated in accordance with N.J.A.C. 7:14A-23.3, is 76,750 gallons per day (gpd).

Originally, a proposed 700,000 sq. ft. retail development was to be served at this location by a new 70,000 gpd on-site discharge to groundwater treatment plant as proposed in the Mansfield Township WMP, which was adopted on November 20, 2012. See 45 N.J.R. 57(b). The site was designated in the WMP as the Northern Mansfield Service Area. It was discovered through testing and analyses that an on-site disposal system would be substantially limited in hydraulic capacity due to soil quality, and, thus, the development would require an alternative wastewater disposal location. An evaluation of alternative locations determined that the Mansfield Farms STP SSA was a viable wastewater disposal alternative for Northern Mansfield. As a result, this amendment proposal would transfer the previously adopted Northern Mansfield Service Area to the Mansfield Farms SSA.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L 2013, c.188.

In accordance with N.J.A.C. 7:15-5.24(b)1 to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in the proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) through (h). Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in the proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, the Department has determined there are no special water resource protection areas along Category One waters on the site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation, L.O.I. # 0318-02-0005.1 FWW080001, issued by the Department's Division of Land Use Regulation (DLUR) on October 31, 2008, was submitted to the Department, confirming the presence and boundaries of ordinary and intermediate resource value wetlands, requiring a 50-foot buffer. The 50 foot buffer is depicted on the site plans submitted with the proposed amendment. In compliance with the LOI, the proposed SSA excludes both the mapped wetlands and associated 50-foot buffer. This L.O.I. remains valid under the Permit Extension Act at N.J.A.C. 7:1B until June 30, 2015.

In accordance with N.J.A.C. 5.25(h)1, the future needs of the sewer service area were evaluated to determine whether sufficient capacity exists at the Mansfield Farms STP to serve the proposed project.

Improvements to the Mansfield Farms STP (including but not limited to an increase in its treatment capacity and collection system improvements) will need to be made to ensure that it will be able to adequately serve the proposed project. This will require a modification to the Plant's NJPDES permit that will allow it to accept the additional wastewater flow. In addition, the New Jersey American Water Company will be required to submit a re-rating Treatment Works Approval application to the Department's Bureau of Construction and Connection Permits (BCCP) for the Plant to certify that it is able to meet the modified NJPDES permit limits at the higher permitted flow amount. BCCP may also require a Treatment Works Approval permit for other construction projects at the Plant in order to treat the proposed additional flow. A NJPDES application is expected to be submitted to the Department's Bureau of Nonpoint Pollution Control this month.

Pursuant to P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a sewer service area (SSA) notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modifications. Therefore, amendments to update a SSA may be approved if such actions are compliant with the applicable sections of the WQM Planning rules (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed. Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

In accordance with N.J.A.C. 5.25(h)3, an analysis of the water supply needs of the project was performed. The proposed commercial development will be provided public water by New Jersey American Water Company's Mount Holly Water System (Public Water System I.D. #0323001) within an existing allocation utilizing the confined Middle Potomac Raritan Magothy aquifer. In accordance with N.J.A.C. 7:15-5.25(h)3, a comparison of the water demand calculated for the proposed project and the remaining firm water capacity of the Mount Holly Water System shows that the existing Mount Holly Water System has the available capacity to supply water to the proposed development. The location of the diversion is located at Route 206 and Mansfield Road East, and the water allocation permit number is 5378. A December 12, 2012, letter from the Department's Bureau of Water Allocation and Well Permitting directs the New Jersey American Water Company to provide sufficient water to meet the water supply requirements of the lots listed above for the proposed site in accordance with condition 5 of a 1997 Stipulation of Settlement entered into by New Jersey American Water Company, Mount Holly Water Company, and the Department.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Mansfield Township has an adopted stormwater management ordinance (2008-5) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 5.25(h)5, riparian zones have been identified on the proposed project site as it is bordered to the north and south by Crystal Creek (FW2-NT) and its tributaries. Riparian zones or buffers are established along

all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The required buffer width for Crystal Creek is 50 feet. A Flood Hazard Area and Riparian Zone Verification (0318-02-0005.2) was obtained from the Department's Division of Land Use Regulation (DLUR) on March 5, 2009, and site plans submitted with the proposed amendment depict 150 foot riparian buffers. Mansfield Township has adopted Ordinance No. 2012-3 to satisfy the Riparian Corridor Analysis and to ensure the protection of the riparian corridors along all perennial and intermittent streams. As required, the adopted ordinance establishes and protects Water Resource/Buffer Conservation Zones (stream corridor buffer) adjacent to New Jersey Surface Water Quality Standards designated waters (excluding man-made) and regulates development within those zones. In accordance with N.J.A.C. 7:15-5.25(h)5i, the Riparian Corridor Analysis has been satisfied by applying a 150 foot buffer to the applicable portions of Crystal Creek, the adoption of Ordinance 2012-3, and the exclusion of the buffer area from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, new disturbance in areas with a steep slope is not permitted. There are no steep slopes on the proposed project site.

This amendment proposal was noticed in the Department Bulletin on February 5, 2014, Volume 38 Issue 3, pages 6-9, and no comments were received during the comment period.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any other Federal, State, County or municipal review agency with jurisdiction over this project activity.

SIGNED

Elizabeth Semple, Acting Director
Office of Coastal & Land Use Planning
Department of Environmental Protection

June 16, 2014

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

Public notice of proposed permit actions

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 07/09/2014
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
HESS CORPORATION - PORT READING REFINERY NJ0142549 DST	750 Cliff Rd Woodbridge, NJ 07064 Middlesex County	Shashi Nayak Bureau of Nonpoint Pollution Control (609)633-7021	Arthur Kill SE3(C2) Rahway River / Woodbridge Creek	Stormwater Discharge Renewal Permit Action This is a stormwater discharge permit renewal action for Hess Corporation - Port Reading Terminal facility. The facility was involved with petroleum refining under the Standard Industrial Classification(SIC) code 2911. The refinery operation and the wastewater treatment system is currently being decommissioned and removed from the site. The facility will begin operating under the SIC code 5171 for Petroleum Bulk Stations and Terminals. This permit regulates stormwater discharges to the Arthur Kill, classified as SE3(C2) and to the north tidal ditch leading to the Arthur Kill classified as FW2-NT(C2) .
ACUA HOWARD F HANEMAN ENVIRONMENTAL PARK NJ0073849 DST	6700 Delilah Rd Egg Harbor Twp, NJ 08234-5623 Atlantic County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Jarrets Run FW2-NT(C2) Absecon Creek	Stormwater Discharge Renewal Permit Action The above named applicant has applied for a NJPDES permit renewal to the NJDEP, Bureau Nonpoint Pollution Control. The applicant is involved with the disposal of nonhazardous waste under the Standard Industrial Classification (SIC) 4953. Atlantic County Utilities Authority (ACUA) owns and operates a sanitary landfill, transfer station/material recovery facility and vegetative waste composting facility at the above location. This permit action is specific to the sanitary landfill. The existing permit regulates stormwater discharges to the Jarrett's Run via outfall DSN001A and Abel's Run via outfall DSN002A. Both waterways are classified as FW2-NT(C2).
HARRISON BROOK STP NJ0022845 DSW Major	726 Martinsville Rd Liberty Corner, NJ 07938 Somerset County	Leon Moss Bureau of Surface Water Permitting (609)292-4860	Dead River FW2-NT(C2) Passaic River Upr (above Pine Bk br)	Surface Water Renewal Permit Action This renewal is for a NJPDES permit to discharge an average of 1.98 MGD of treated disinfected domestic wastewater with no industrial contribution via outfall DSN-001A to the Dead River and into the groundwaters of the State, located in stratified glacial drift of the Quaternary Age, via infiltration and percolation lagoons. The sanitary wastewater is treated via mechanical bar screen, aerated grit remover, oxidation ditch with activated sludge, final settling tank, tertiary stabilization lagoons and chlorine contact tanks with sulfur dioxide addition. The facility is a non-delgated pretreatment facility with a NJPDES flow value of 2.5 MGD.

MENU FOODS INC NJ0031216 DSW Minor	9130 Griffith Morgan Ln Pennsauken, NJ 08110 Camden County	Ramanathan Asokan Bureau of Surface Water Permitting (609)292-4860	Pennsauken Creek FW2-NT(C2) Pennsauken Creek	Surface Water Renewal Permit Action The facility receives various commercial food ingredients and processes these into dog and cat food. The Standard Industrial Classification (SIC) Code for this operation is 2047. The facility discharges approximately 33,000 gallons per day of non-contact cooling water, used for cooling the pans of two hydrostatic cookers, and commingled stormwater from roof drains through DSN 001B to Pennsauken Creek. The facility uses the municipal water supply and discharges sanitary and process wastewater and blowdown water from steam generators to Camden County Municipal Utilities Authority's sewer treatment plant.
LANDIS SEWERAGE AUTHORITY NJ0025364 DGW	1776 S Mill Rd Vineland, NJ 08360 Cumberland County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey II-A	Ground Water Renewal Permit Action Landis Sewage Authority of Vineland, Cumberland County, has applied for a renewal NJPDES-DGW permit. This facility requested a modification to their renewal to include an increase in effluent flow from 8.2 million gallons per day discharge to 10.2 million gallons per day discharge. This waste water treatment plant consists of bar screening, pre-aeration, equalization, primary settling, biological nitrification-denitrification, secondary settling and chlorination. After treatment, the effluent is discharged to groundwater via 130 acres of spray irrigation fields and 125 acres of infiltration percolation lagoons.
NORTHERN WATER POLLUTION CONTROL FACILITY NJ0028142 DSW Major	255 Mantoloking Rd Brick Town, NJ 08723 Ocean County	Rachael Pepe Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean SC(C2) Kettle Creek / Barnegat Bay North	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected, domestic wastewater into the Atlantic Ocean with industrial contribution, classified as SC waters. This facility has a NJPDES flow value of 32 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 22.4 MGD. This action proposes effluent limitations based on a flow of 32 MGD. The sanitary wastewater is treated through bar screens, grit chambers, primary clarifiers, activated sludge treatment units, secondary clarifiers, and chlorine contact tanks.
PEQUEST STATE FISH HATCHERY NJ0033189 DSW Minor	605 Pequest Rd Warren County Oxford, NJ 07863 Warren County	Ben Manhas Bureau of Surface Water Permitting (609)292-4860	Pequest River FW2-NT(C1) Pequest River (below Bear Swamp)	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge an average of 9.08 MGD of treated domestic and industrial wastewater as well as once through untreated raceway water.
EXXONMOBIL RESEARCH & ENGINEERING CO NJ0078018 DSW Minor	1545 Us Hwy 22 E Annandale, NJ 08801 Hunterdon County	Surya Shah Bureau of Surface Water Permitting (609)292-4860	Beaver Brook FW2-TP(C1) Raritan River SB (3 Brdgs to Spruce Run)	Surface Water Renewal Permit Action ExxonMobil Global Services Co is now proposing, under the NJPDES/DSW permit NJ0078018, to redesign a sanitary wastewater treatment plant with a discharge flow of 0.2 MGD. This flow will include the 0.05 MGD which is presently discharged via 50-acre spray irrigation field from the currently operating sanitary package plant (covered by the NJPDES/DGW permit NJ0089338). This proposed discharge to Beaver Brook will be routed through the outfall pipe used for a separate NJPDES/DSW permit NJ0035084 for treated industrial wastewater discharge outfall DSN001A. The facility is classified as a minor discharger by the Department in accordance with the EPA rating criteria.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
