Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC COMMENT PERIOD
REGARDING THE MODIFICATION OF A NJPDES-DGW PERMIT FOR A SANITARY LANDFILL**

Notice is hereby given that the Division of Solid and Hazardous Waste of the New Jersey Department of Environmental Protection (Department) proposes to modify New Jersey Pollutant Discharge Elimination System-Discharge to Groundwater (NJPDES-DGW) Permit NJ0053457 issued to Little Egg Harbor Township for the groundwater monitoring wells at the Little Egg Harbor Township Sanitary Landfill in Ocean County, New Jersey. This notice is being given in accordance with the provisions of the New Jersey Water Pollution Control Act (N.J.S.A. 58:10A-1 *et seq.*) and its implementing regulations (N.J.A.C. 7:14A-1 *et seq.*). The modification involves reducing the frequency of groundwater monitoring from quarterly to annual. Copies of this Notice have been sent to the Little Egg Harbor Township, the Ocean County Health Officer, and the Ocean County Solid Waste Coordinator.

The permit modification is based on the administrative record which is on file at the offices of the Department's Division of Solid and Hazardous Waste located at 401 East State Street, Trenton, Mercer County, New Jersey. It is available for inspection between 8:30 a.m. and 4:30 p.m., Monday through Friday. Further information regarding file inspection may be obtained by contacting Ms. Lisa Offredo at (609) 984-5950.

Interested persons may submit written comments on the proposed permit modification to:

Mail Code 401-02C
Anthony Fontana, Chief
Bureau of Solid Waste Permitting
NJ Department of Environmental Protection
P.O. Box 420
Trenton, New Jersey 08625-0420

All comments must be submitted within 30 days of the date of this public notice. The Department shall make a final decision after the close of the public comment period. Prior to the issuance of a final decision, the Department shall consider all comments submitted by interested persons in response to this notice within the public comment period. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of the final decision.

Any person may request in writing that the Department conduct a non-adversarial public hearing on the proposed action. Said request shall state the nature of the issues to be raised at the hearing and shall be submitted to the above address within 30 days of the date of this public notice. A public hearing shall be conducted whenever the Department determines that there is a significant degree of public interest in the permit action. If a public hearing is held, the public comment period shall automatically be extended to the close of the hearing.

Additional information, as well as a fact sheet concerning the proposed permit modification, may be obtained by contacting John Shevlin of the Bureau of Solid Waste Permitting at the above address or at (609) 292-9880.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO SETTLE**

WATERFRONT DEVELOPMENT PERMIT APPLICATION

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement and issue a Waterfront Development Permit and a Coastal Wetlands Permit (Authorization) that would resolve the appeal of Waterfront Development and Coastal Wetlands Permit #1517-07-0028.1 WFD120001, CSW120001. Said Authorization would permit the construction of a 4' x 34' dock with a ladder at the terminus for access. The Authorization will be issued pursuant to the Rules on Coastal Zone Management (N.J.A.C. 7:7E-1.1 *et seq.*) and the Coastal Permit Program Rules (N.J.A.C. 7:7-1.1 *et seq.*). The project is shown on the plan entitled "*Map*

to Accompany a Waterfront Development Application Lot 11 Block 1.79 and Lot 7, Block 1.77, Tax Map Sheet #7 Long Beach Township, Ocean County, New Jersey”, dated May 1, 2007, last revised September 18, 2014 and prepared by James D. Brzozowski and Robert G. de Blois. The applicant is Margaret Norton. Notice of the final permit decision will appear in the DEP Bulletin under the section entitled Division of Land Use Regulation.

IN THE MATTER OF: Margaret Norton
NJDEP FILE #1517-07-0028.1
Blocks 1.79, Lot 11 and
Block 1.77, Lot 7
Long Beach Township, Ocean County

Comments regarding this settlement or requests for information regarding this action should be sent to: Shorefront Region Section Chief, Division of Land Use Regulation, Mail Code 501-02A, PO Box 420, Trenton, NJ 08625-0420 or by e-mail care of chris.dolphin@dep.nj.gov, or the office may be reached by telephone: (609) 777-0454. Comments must be received by NJDEP within 15 days of this publication.

Trenton, New Jersey 08625-0420**

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications
Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resource Management Coordination, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department’s subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

Adopted Amendment to the Ocean County Water Quality Management Plan

**Public Notice
Cedar Swamp Development**

Take notice that on **March 19, 2015** pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), the Department of Environmental Protection (Department) adopted an amendment to the Ocean County WQMP. This amendment, entitled “Cedar Swamp Development” submitted on behalf of Cedar Swamp Development LLC, expands the Ocean County Utilities Authority (OCUA) sewer service area (SSA) by 5.07 acres. The proposed project site is located in Jackson Township, Ocean County on Block 4201, Lot 3 on the eastern side of the parcel (Property).

This amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L 2013, c.188. This notice represents the Department's determination that the amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

As outlined at N.J.A.C. 7:15-5.24(a), sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24(b), ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Review of the proposed project site has determined that there are no ESA's identified on the Property.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the site information has determined that no threatened or endangered species habitat exists on the Property.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the site information has determined that no Natural Heritage Priority Sites exist on the Property.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) - (h). In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation, L.O.I. #1511-06-0019.1 FWW060001, issued by the Department's Division of Land Use Regulation (DLUR) on March 8, 2007 was submitted to the Department, confirming the presence and boundaries of exceptional and intermediate resource value wetlands, requiring 150 and 50 foot buffers, respectively. These wetlands areas are located on the western side of Lot 3. In compliance with the L.O.I., the proposed SSA excludes the mapped wetlands. This L.O.I. remains valid under the Permit Extension Act at N.J.A.C. 7:1B until June 30, 2016.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the Property.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Where a narrative approach has been used, it is noted as text on the adopted FWSA map. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations that prohibit the extension of sewers identified under N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the Property.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the existing zoning for the above mentioned lots has been evaluated. The Department has determined that the OCUA Northern Wastewater Pollution Control Facility has adequate available capacity to treat the proposed wastewater flow from the lots should they be developed in accordance with existing zoning regulations. Currently the OCUA Northern WPCF (NJ0028142) is permitted to discharge up to 32 Million Gallons per day (MGD) of treated wastewater to the Atlantic Ocean. Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from the OCUA Central WPCF was calculated to be 22.18 MGD. The addition of the wastewater flow from any proposed development on the site would not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the OCUA Central WPCF.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for any proposed development on the property will be provided by the Jackson Township Municipal Utilities Authority which is a public water system which withdraws water from the Potomac-Raritan-Magothy aquifer. It is currently permitted under PWSID No. 1511001 to allocate 312.350 million gallons per month (MGM) and has a water supply surplus of 91.540 MGM. Therefore sufficient water supply is available to serve any proposed development on the site within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Jackson Township has an adopted stormwater management ordinance (No. 08-06) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 5.25(h)5, riparian zones are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.25(h)i –vii. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. Review of the site information has determined that no riparian zones exist on the Property.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the Property.

This amendment proposal was noticed in the Department Bulletin on September 17, 2014, Volume 38 Issue 18, pages 7-9, and no comments were received during the comment period.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resource Management Coordination has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Colleen Kokas, Acting Director
Water Resource Management
Office of Water Resource Management Coordination
Mail Code 401-02A
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

Proposed Amendment to the Tri-County Water Quality Management Plan

Public Notice

Bankcroft Facility

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management (WQM) Plan. This amendment proposal, submitted by Dewberry Engineers, Inc. on behalf of Bankcroft, would expand the sewer service area (SSA) of the Mount Laurel Municipal Utilities Authority, Hartford Road Water Pollution Control Facility (permitted under NJ0025178) to include a portion of Block 509, Lot 1.04, in Mount Laurel Township, Burlington County. This proposal is named "Bankcroft Neurohealth Facility".

The proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq and Section 6(h) of P.L. 2011, c. 203, as amended and supplemented P.L. 2013, c. 188, which allows for the consideration of an application for a WQMP amendment for a proposed activity that delineates as SSA a parcel, not to exceed 100 acres in size, that had been previously included in a formerly adopted SSA, provided it can be demonstrated with the use of updated or more accurate information that the parcel complies with the regulatory criteria for the delineation of a SSA established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, C1 special water resource protection areas are not to be included in the proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) - (h). No C1 waterways are within 300 feet of the project site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 0324-02-0019.1-FWW080002 was submitted, which re-delineates the wetlands and their associated transition areas, and these areas are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

All other special restricted areas as defined at N.J.A.C. 7:15-5.24(d)1-4; areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains; and beaches, coastal high hazard areas, and dunes are not applicable to the proposed amendment's site location.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater

treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Mario Iannelli, PE, Manager of Land Development Services, Dewberry Engineers, Inc, 600 Parsippany Road, Suite 331, Parsippany, NJ 07054. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Proposed Amendment to the Upper Raritan Water Quality Management Plan

Public Notice

Old Church Road

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Upper Raritan Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of PK Environmental, would expand the sewer service area (SSA) of the Somerset Raritan Valley Sewerage Authority treatment facility in order to serve a proposed project consisting of a 9-lot residential subdivision that would generate a sewage flow of 2,700 gallons per day located in Warren Township, Somerset County on Block 96, Lot 20

This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25, as modified by P.L. 2011, c. 203 and P.L. 2013, c. 188.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15, as modified by P.L. 2011, c. 203 and P.L. 2013, c. 188. This preliminary notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria.

In accordance with N.J.A.C. 7:15-5.24(b), environmentally sensitive areas have been assessed to determine what areas are appropriately included in the proposed sewer service area. Pursuant to N.J.A.C. 7:15-5.24, environmentally sensitive areas are defined as contiguous areas of 25 acres or larger, alone or in combination, consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands. These environmentally sensitive areas are not included in the proposed sewer service area except as noted below.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered,

Threatened or Other Priority Species (Landscape Project), version 3.1. A review of the Landscape Project indicated that the project location is identified as threatened and endangered species habitat for the wood turtle, red-headed woodpecker, great blue heron, and cooper's hawk. However, pursuant to N.J.A.C. 7:15-5.26, a habitat suitability determination was performed by the Department which found that the current conditions at this project location are not suitable for the aforementioned species.

In accordance with N.J.A.C. 7:15-5.24(b)2 through 4, (c) and (d), no portion of the proposed SSA for the development on site is identified as within a Natural Heritage Priority Site, a special water resource protection area along a Category One water, wetlands or associated buffer, coastal planning area, coastal resource, or an environmentally sensitive area limited by Federal 201 grant restrictions. These environmentally sensitive areas are not included in the proposed sewer service area except as noted below.

In accordance with N.J.A.C. 7:15-5.24(b)4, to determine areas designated as wetlands, the Department utilized the Department's "Wetlands 2007" map. There are no wetlands present within the boundaries of the proposed sewer service area or in the transitional zone of 150 feet. Further, pursuant to N.J.A.C. 7:15-5.24(e)2 a Letter of Interpretation was completed and the wetland boundaries depicted in the application are accurate.

In accordance with N.J.A.C. 7:15-5.25(h)1, a build-out analysis was conducted to identify future projected flow for all new proposed wastewater generating structures and/or activities. Application of the appropriate criteria at N.J.A.C. 7:14A-23.3 for these various new wastewater generating activities results in a projected wastewater flow of 2,700 gpd.

In accordance with N.J.A.C. 7:15-5.25(h)3, the Department evaluated the water supply availability for the proposed project. New Jersey American Water has a water supply allocation of 6761.500 MGM with a surplus of 979.265 MGM (as of February 2015). The proposed water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 132,525 GPM; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

To demonstrate compliance with non-point source pollution control pursuant to N.J.A.C 7:15-5.25(h)4, the Department confirmed that the Township of Warren Somerset County, New Jersey has adopted a stormwater control ordinance (Ord. #15-10B) in accordance with N.J.A.C. 7:8. Therefore, a review for compliance with the Stormwater Management rules is required to be conducted under the township's authority. Consequently, the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied.

To demonstrate compliance with non-point source pollution control pursuant to N.J.A.C 7:15-5.25(h)5, the Department has confirmed that no new development is proposed with a riparian zone as required at N.J.A.C. 7:15-5.25(g)2.

To demonstrate compliance with non-point source pollution control pursuant to N.J.A.C 7:15-5.25(h)6, the Department has confirmed that no portion of the proposed development is located within a steep slope as required at N.J.A.C. 7:15-5.25(g)6.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Upper Raritan WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, New Jersey 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-0431.

Interested persons may submit written comments on the amendment to WQM Program Docket, at the Department address cited above with a copy sent to: Mr. John Peel, PK Environmental, 205 Main Street PO BOX 1066, Chatham, NJ 07928. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this public notice to WQM Program Docket at the Department address cited above. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Pilar Patterson, Chief

REGENCY @ SUSSEX APT NJ0029041 DSW Minor	10 Layton Rd Wantage Twp, NJ 07461 Sussex County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Unnamed Trib. of Wantage Brook FW2-NT(C2) Walkkill River (below road to Martins)	Surface Water Renewal Permit Action This existing facility discharges treated, disinfected domestic wastewater into an unnamed tributary of of Wantage Brook, classified as FW2-NT (C2) waters. Wantage Brook is located in the Wall Kill River Basin. The existing facility has a NJPDES flow value of 0.080 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 0.019 MGD. This action proposes limitations based upon a flow of 0.080 MGD.
SUSSEX CNTY MUA UPPER WALLKILL FACILITY NJ0145688 DGW	3500 Rt 94 Hardyston Twp, NJ 07460 Sussex County	Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021	Glacial Drift II-A	Ground Water Renewal Permit Action This NJPDES-DGW permit action authorizes a discharge to two disposal areas via expansion to the SCMUA Upper Walkkill Wastewater Treatment Plant. The discharge consists of treated wastewater from approved sewer service areas in Vernon Township, including the Town Center and Mountain Creek Developments. Wastewater disposal is facilitated through subsurface disposal beds with a total area of 81,154 sq. ft. The wastewater treatment facility expansion is designed and constructed to be capable of compliance with applicable Ground Water Quality Standards (GWQS) for all parameters of concern, except fecal coliform bacteria, prior to discharge to the disposal areas.
WANAQUE VALLEY REGIONAL SEWERAGE AUTHORITY NJ0053759 DSW Major	101 Warren Hagstrom Blvd Wanaque, NJ 07465 Passaic County	Dwayne Kobesky Bureau of Surface Water Permitting (609)292-4860	Wanaque River FW2-NT(C2) Wanaque River	Surface Water Renewal Permit Action This is for a renewal of a NJPDES permit to discharge up to 1.25 million gallons per day (MGD) of treated, disinfected domestic wastewater.
BEACON HILL WTF NJ0105228 DGW	Ellisdale Rd Upper Freehold Twp, NJ 08501 Monmouth County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Englishtown II-A	Ground Water Renewal Permit Action The Beacon Hill WTP serves the Beacon Hill residential Development which consists of 473 total units. The development has 174 three (3) bedroom age restricted units, 213 two (2)bedroom age restricted units, 86 four (4) bedroom single family units and an recreational complex. Total flow from the facility shall not exceed 103,660 gpd. The wastewater is treated by an advanced wastewater treatment plant, with disinfection, and discharged to four (4) 13,110 square foot disposal fields.

<p>PATHMARK SUPERMARKET NJ0108243 DGW</p>	<p>757 Rt 15 & Bowling Green Pkwy Jefferson Twp, NJ 07849 Morris County</p>	<p>Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021</p>	<p>Crystalline Rocks II-A</p>	<p>Ground Water Renewal Permit Action This facility is a 50,750 ft2 supermarket, with 30 full time and 30-50 part time employees with approximately 74 8-hour employee shifts per day. On an average day, the supermarket will serve 250 to 350 customers. Operations are year-round, 24 hours per day. Wastewater is generated by employee/customer lavatories, a janitorial lavatory, separate kitchens (with grease traps) for meat, fish, and baked goods, and floor drains receiving wastewater from cleaning operations and condensate from refrigerators and freezers.</p>
<p>WYNDHAM POINTE WWTP NJ0128848 DGW</p>	<p>6 Fernwood Ct (rear) Mount Olive Twp, NJ 07836 Morris County</p>	<p>Gregory Chin Bureau of Nonpoint Pollution Control (609)633-7021</p>	<p>Crystalline Rocks II-A</p>	<p>Ground Water Renewal Permit Action This is the renewal of the NJPDES-DGW permit for the Wyndham Pointe WWTP (formerly known as Rickland Village). The project consists of 98 single family homes served by an advanced wastewater treatment plant with a daily design flow of 30,000 gpd. The treated effluent is discharged to subsurface disposal fields.</p>

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
