## Permit Descriptions

---

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, C.203 (amended by P.L. 2013, c.188) which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
OFFICE OF WATER RESOURCES MANAGEMENT (WRM) COORDINATION  
Adopted Amendment to the Upper Raritan Water Quality Management Plan  
Public Notice:  
Pike Run Plaza**

Take notice that on JUL 29, 2015, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment (PI# 435434; Activity# AMD150002) to the Upper Raritan WQMP was adopted by the Department of Environmental Protection (Department). This amendment will modify the Somerset County Future Wastewater Service Area (FWSA) Map for that portion of the County within the Upper Raritan WQM Planning Area. This amendment will provide for the construction of a

portion of the proposed Pike Run Plaza commercial development project, to be located on the site that was formerly to be utilized as the U.S. Route 206 Bypass Right of Way (Bypass ROW). The 7.89 acre parcel, where the Bypass ROW was to be located, is at the intersection of Belle Mead Griggstown Road and U.S. Route 206, known locally as Van Horne Road in Montgomery Township, Somerset County.

The area of the former Bypass ROW is now to be a component of the mixed use development plan proposed by Country Club Meadows, LLC, consisting of several larger parcels located in the northern portion of Montgomery Township known as Belle Mead. As part of the site plan approval process for the Country Club Meadows development plan, the area of the former Bypass ROW is to be reconfigured as a new lot. The proposed site of the Pike Run Plaza is to encompass an existing parcel; Block 5023, Lot 2 and the new lot to be created from the former Bypass ROW area.

As identified on the Somerset County FWSA Map, adopted on January 24, 2013 all parcels to be incorporated in the Country Club Meadows, LLC development plan, with the exception of the property located on the former Bypass ROW, is designated as the sewer service area (SSA) to the Pike Brook Sanitary Treatment Plant (NJPDES# NJ0060038). As part of this proposed amendment, the former area for the Bypass ROW is proposed to be included as SSA to allow for the proposed construction of Pike Run Plaza commercial development.

Based on the current conceptual design plan, the total projected wastewater flow to be generated from the entire commercial development within the Pike Run Plaza project property, calculated in accordance with N.J.A.C. 7:14A, is approximately 19,750 gallons per day (gpd). This estimated wastewater flow includes any potential wastewater generated from the proposed development to lie within the former Bypass ROW. Potable water for the proposed development is to be provided by New Jersey American Water (NJAW).

This amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15-5.24 and 5.25(h) and Public Law (P.L.) 2013, c.188. This adoption notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25.

In accordance with N.J.A.C. 7:15-5.24(b), environmentally sensitive areas have been assessed to determine what areas are appropriately included in the proposed SSA. Pursuant to N.J.A.C. 7:15-5.24, environmentally sensitive areas are defined as contiguous areas of 25 acres or larger, alone or in combination, consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas (riparian buffer), and wetlands. These environmentally sensitive areas are not included in the proposed sewer service area except as noted below.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species (Landscape Project), version 3.1. A review of the Landscape Project indicates no threatened or endangered species habitat is identified within the proposed new SSA.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, no portion of the proposed development on site is identified as within a Natural Heritage Priority Site, the riparian buffer associated with a C1 water body or wetlands.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations prohibited from extension of sewers and excluded from the proposed SSA are not applicable to this amendment. Furthermore, all other ESA as defined at N.J.A.C. 7:15-5.24(c) 1-3; lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not applicable to this amendment location nor are any ESA as defined at N.J.A.C. 7:15-5.24(d) 1-4; beaches, coastal high hazards area or dunes as defined under N.J.A.C.7:7E.

Montgomery Township, Somerset County, New Jersey has adopted "The Code of the Township of Montgomery" containing stormwater control and design measures at Sub-Chapter No. §16-5.2. The Department has determined that this sub-chapter/ordinance complies with the water quality and quantity standards in accordance with N.J.A.C. 7:8. Consequently, the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied.

No portion of the proposed development on site is identified as within a riparian zone as established at N.J.A.C. 7:15-5.25(g)2-5 or areas with a steep slope as required at N.J.A.C. 7:15-5.25(g)6.

In accordance with N.J.A.C. 7:15-5.25(h)3, the Department evaluated the water supply availability for the proposed project. Potable water to the proposed development is to be supplied by the NJAW, Raritan System (PWSID# 2004002) which has an identified available surplus capacity of approximately 979 million gallons per month. Therefore, the Department determined

there is sufficient water supply available within the existing water allocation permit to serve the proposed new on-site development.

This amendment proposal was noticed in the Department Bulletin, Volume 39; Issue 10, on May 20, 2015 and no comments were received during the comment period.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resource Management Coordination, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, C.203 (amended by P.L. 2013, c.188.) directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Office of Water Resource Management Coordination at (609) 777-4349. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**Written comments should be submitted to:**

Colleen Kokas, Director  
Office of Water Resource Management Coordination  
Mail Code 401-02A  
PO Box 420, 401 East State Street  
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**OFFICE OF WATER RESOURCES MANAGEMENT COORDINATION**  
**Propose Amendment to the Northeast Water Quality Management Plan**  
**Public Notice:**  
**Glenmont Commons**

**Take notice** that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Northeast Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of Glenmont Commons Developers LLC, would expand the sewer service area (SSA) of the Rockaway Valley Regional Sewerage Authority (RVRSA) to include an approximately 3 acre portion of Block 10002, Lot 3, a 13.2 acre parcel within Denville Township, Morris County. This proposed amendment (Program Interest No.: 435442; Activity No.: AMD14003) would provide for the Glenmont Commons Subdivision to create four new individual lots with one residential unit to be constructed on each lot.

This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25(h), as modified by P.L. 2011, c. 203 (amended by P.L. 2013, c. 188). This preliminary notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25(h).

In accordance with N.J.A.C. 7:15-5.24 environmentally sensitive areas (ESAs) are assessed to determine what areas of the property are appropriate for inclusion in the proposed SSA. Environmentally sensitive areas are defined based on a composite geographic information systems (GIS) analysis, as any contiguous area of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination, ESAs are required to be excluded from the SSA. As describe below, the Department determined that inclusion of the 3 acres as SSA within the 13.5 acre site is compliant with N.J.A.C. 7:15-5.24(b).

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Landscape Project version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e)-(h). A review of the Landscape Project Maps determined that the site location was identified as potential Rank 5 Forest Habitat for both Bobcat and Indiana Bat.

As a result of the above, pursuant to N.J.A.C. 7:15 5.26(a) the applicant submitted a Habitat Suitability Determination (HSD) application to refute the presumption that the parcel was in fact suitable and critical habitat for the identified species. A review of the HSD application and site investigation conducted by the Department's Endangered and Nongame Species Program determined that, site disturbance has been minimized to the maximum extent practicable, based upon the site plans for the proposed 4 lot subdivision. Therefore, the Department concluded that the 3 acre footprint of development within the 13.2 acre property would not adversely impact the suitability of the habitat of the local population of the species. As a result of this finding, the Department determined that this analysis has been satisfied.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e)-(h). A site review of the property determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, Category One (C1) special water resource protection areas are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e)-(h). The Department determined no classified C1 water bodies exist on or near the property. In addition, no portion of the proposed development on site is identified as within a riparian zone as established at N.J.A.C. 7:15-5.25(g)2-5.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not proposed as SSA. In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation (LOI) file No. 1408-05-0009.1, dated August 15, 2011 verified the presence and extent of the regulated wetlands and associated transmittal buffers located within Block 10002, Lot 3. No area identified as a regulated wetland or buffer on the property are proposed as SSA as part of this proposed amendment.

All other ESA as defined at N.J.A.C. 7:15-5.24(c) 1-3; lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not applicable to this proposed amendment location nor are any ESA as defined at N.J.A.C. 7:15-5.24(d)1-4; beaches, coastal high hazards area or dunes as defined under N.J.A.C.7:7E.

In accordance with N.J.A.C. 7:15-5.24(d)1, the proposed site contain ESA as defined under the Federal 201 grant limitations that prohibit the extension of sewers to these areas. The RVRSA Federal 201 Grant (#C-389-06), Findings of No Significant Impact (FOSI), dated June 23, 1984, defines the specific ESA's as "mapped wetlands in accordance with the National Wetlands Inventory Maps" and/or areas within "the 100 year flood-plain (flood hazard area (FHA)) as defined by the federal Department of Housing and Urban Development". As described above, wetlands are excluded from the proposed SSA and this site is not within mapped FHA.

Furthermore, as noted as text on the adopted Morris County FWSA map which states: "Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities) which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of this amendment and compliance is required". Compliance of this condition can only occur if and when an applicant requesting sewer service for any development on the subject property has obtained a USEPA grant mapping waiver. Such waivers are only issued through a formal request through the grantee (RVRSA). This request must include the submission of wetlands verification via a Department LOI confirming that ESA's will not be impacted if sewer conveyance systems are constructed to serve development. Since, prior to any Department and/or RVRSA approvals for the extension of sewer infrastructure to serve any proposed development will require a USEPA mapping waiver issued at the request of the grantee to serve the development, the stated grant condition will be satisfied at that time.

Denville Township, Morris County, New Jersey has adopted "Land Use Ordinance Chapter XIX, Sub-Chapter No. §19-4.16, which contains stormwater control and design measures. The Department has determined that this sub-chapter/ordinance complies with the water quality and quantity standards in accordance with N.J.A.C. 7:8. Consequently, the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied.

N.J.A.C. 7:15-5.25(h)6 does not permit new disturbance in areas with a gradient equal to or greater than 20 percent (20%), except as provided by N.J.A.C. 7:15-5.25g(g)ii. As identified on the submitted approved subdivision site plans, the project proposes minimal disturbance of steep slopes with a gradient of equal to or greater than 20%. In accordance with N.J.A.C. 7:15-5.25g(g)ii new disturbance located in areas of steep slopes can occur if it is necessary "to prevent extraordinary hardship on the property owner, peculiar to the property; or to prevent extraordinary hardship, provided the hardship was not created by the property owner, that would not permit a minimum economically viable use of the property based upon reasonable investment". To that effect, as part of this proposed amendment, the applicant supplicated their application with additional information including an economic analysis to demonstrate that the steep slope disturbance meets this hardship exception.

In support of the assertion that the applicant incurred significant aggregated monetary investment towards the proposed development of the site, expenditures provided included the cost for land acquisition and taxes, site survey, environmental assessments, engineering and site plan design, obtaining local preliminary major subdivision approval, Department freshwater wetlands and Individual Flood Hazard Area permits and Morris County Soil Conservation District soil erosion plan approval.

To demonstrate that the hardship was peculiar to the property and not created by the property owner, the applicant provided evidence that the approved site plans met Denville Township's Land Use Ordinance Chapter XIX, Sub-Chapter No. 19-4.508 which regulates development within steep slopes, defined as greater than or equal to fifteen percent (15%). This ordinance allows for disturbance within steep slope gradient between 20% and 30%, however, up to only 30 percent of the total area of these steep slopes onsite can be impacted. The applicant indicated that, as shown on the approved subdivision site plans, titled "Preliminary Major Subdivision, Block 10002 - Lot 3 Township of Denville, Morris County, NJ, minor impacts are proposed within steep slope areas greater than 20% on less than the allowable 30 % of the total area of the site. This approved disturbance is mainly for the centralized roadway to gain access to the four units within the 13.2 acre property. The applicant noted that the parcel, an oblong pie shape lot, and as noted here, is constrained by the onsite steep slopes and wetlands. The applicant contends that the final alignment for the access road minimized, to the greatest extent possible disturbance to the on-site constraints, while providing for the least minimum residential units necessary to obtain a viable return in the applicant's total financial investments.

In addition, the applicant stated that, at the time the Preliminary Major Subdivision Approval was originally granted on December 9, 2009, the property was within approved SSA. Therefore, the applicant acquired the property with the intentions to develop the parcel within the site constraints; as permissible under the residential zoning and applicable land use

ordinances. The applicant then sought and was issued Department freshwater wetlands and Individual Flood Hazard Area permits necessary for the construction of the approved 4 dwelling units on individual lots.

Based on the above, the Department determined that the proposed minimum disturbance within the steep slopes, as approved on the Preliminary Major Subdivision Plan, was necessary to avoid additional ESA impacts due to the constraints peculiar to the site. Furthermore, the Department concurred that the proposed disturbance within these steep slopes were necessary in order for the property owner to obtain a viable return to the overall financial investments made from the purchase to the property and gaining all obligatory local and Department approvals. As a result, pursuant to N.J.A.C. 7:15-5.25(g)ii, in order to prevent a hardship, not created by the property owner, that would not permit a minimum economically viable use of the property based upon reasonable investment, has been met.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Northeast WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management (WRM) Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, New Jersey 08625. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of WRM Coordination at (609) 777-4349.

Interested persons may submit written comments on the amendment to WQM Program Docket, at the Department address cited above with a copy sent to Patrick D. McClellan, Project Engineer, MCB Engineering Associates LLC, 11 Furler Street, P.O. Box 588, Tolowa, New Jersey 07511. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this public notice to WQM Program Docket at the Department address cited above. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATER QUALITY  
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

***Written comments should be submitted to the appropriate permitting bureau:***
