---

## General Application Milestone Codes

---

Application Approved	F = Complete for Filing	P = Permit Decision Date
Application Denied	H = Public Hearing Date	R = Complete for Review
Application Withdrawal	I = Additional Information Requested	T = Additional Information Received
A= Approved	IS = Issued	W= Withdrawn
C = Cancelled	L = Legal Appeal of Permit Decision	
D= Denied	M = Permit Modification	

---

## Specific Decision Application Codes

---

O = Other

REG = HMDC/Pinelands Exemption

---

## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Coastal Permit**: A permit or an authorization issued under this chapter pursuant to CAFRA, the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., or the Waterfront Development Law, N.J.S.A. 12:5-3.

**Coastal Wetlands**: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

**Federal Consistency Activity**: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Flood Hazard Area**: A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

**Freshwater Wetlands**: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

**General Groundwater Petroleum Products Cleanup**: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits**: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility**: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Highlands Resource**: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

**Tidal Wetlands**: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval**: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development**: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment  
Applications pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resources Management Coordination, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, C.203 (amended by P.L. 2013, c.188) which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
OFFICE OF WATER RESOURCES MANAGEMENT (WRM) COORDINATION  
Adopted Amendments to the Upper Raritan Water Quality Management Plan  
Public Notice:**

**Trump National Golf Club**

**Take notice** that on December 10, 2015, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4) and Public Law (P.L.) 2013, c.188., an amendment (PI# 435434; Activity# AMD150005) to the Upper Raritan Water Quality Management Plan (WQMP) was adopted by the Department of Environmental Protection (Department). This amendment will modify the Somerset County Future Wastewater Service Area (FWSA) Map for that portion of the County within the Upper Raritan WQM Planning Area. The adoption of this amendment will provide for the construction of an indoor paddle tennis facility at the Trump National Golf Club (TNGC). The TNGC is located on Block 38, Lots 13, 13.01 & 13.02 and Block 39 Lots 10, & 10.01, Bedminster Township, Township, Somerset County. The proposed paddle tennis building is to be located on Block 39, Lot 10.

As identified on the Somerset County FWSA Map, adopted on January 24, 2013, the existing wastewater generating structures located within the TNGC property are designated as the sewer service area (SSA) of the permitted on-site discharge to ground water treatment facility (DGW), Trump National STP (NJPDES #NJ0142883). As part of this amendment, the area for the proposed paddle tennis facility is to be included as SSA of the Trump National STP to allow for the proposed

construction of this new building. Potable water for the TNGC is provided by individual on-site non-public water wells.

As calculated in accordance with N.J.A.C. 7:14A-23.3, the Trump National STP is permitted to discharge up to 29,631 gallons per day (gpd). A portion of this wastewater flow, 6,750 gpd, is attributed from golf rounds for 450 club members; with a peak wastewater projection assuming all 450 members golfed on the same day. The Department has determined, at any given time, club members would only participate in either golf rounds or utilize the proposed paddle tennis courts, therefore no expansion or adjustment of the existing approved permitted flow is necessary to accommodate this new facility. However the SSA of the TNGC STP will be expanded to allow for the footprint of development of the new construction.

This amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15-5.24 and 5.25(h), as modified by Public Law (P.L.) 2011, c. 203, as amended and supplemented by P.L. 2013, c. 188. This notice of adoption represents the Department's determination that this amendment, to the Upper Raritan WQMP, is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25.

In accordance with N.J.A.C. 7:15-5.24 environmentally sensitive areas (ESAs) are assessed to determine what areas of the property are appropriate for inclusion in the proposed SSA. ESAs are defined based on a composite geographic information systems (GIS) analysis, as any contiguous area of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination, ESAs are required to be excluded from the SSA except as provided in accordance with N.J.A.C. 7:15-5.24(e)-(h).

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species (Landscape Project), version 3.1. A review of the Landscape Project indicates no threatened or endangered species habitat is identified within the proposed new SSA.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e)-(h). A site review of the property determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, Category One (C1) special water resource protection areas are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e)-(h). The Department determined no classified C1 water bodies exist on or near the property. In addition, no portion of the proposed development on site is identified as within a riparian zone as established at N.J.A.C. 7:15-5.25(g)2-5.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations which prohibited extension of sewers within defined ESAs and excluded from the proposed SSA are not applicable to this proposed amendment. Furthermore, all other ESAs as defined at N.J.A.C. 7:15-5.24(c) 1-3; lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not applicable to this proposed amendment location nor are any ESA as defined at N.J.A.C. 7:15-5.24(d) 1-4; beaches, coastal high hazards area or dunes as defined under N.J.A.C.7:7E.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activities stormwater impact must be evaluated. Bedminster Township, Somerset County, New Jersey has adopted municipal ordinance (Ord. #05-40, §2) containing stormwater control and design measures. The Department has determined that this ordinance complies with the water quality and quantity standards in accordance with N.J.A.C. 7:8. Consequently, the requirements of N.J.A.C. 7:15-5.25(h)4 for stormwater control have been satisfied.

No portion of the proposed new development on site is identified as within a riparian zone as established at N.J.A.C. 7:15-5.25(g)2-5 or areas with a steep slope as required at N.J.A.C. 7:15-5.25(g)6.

In accordance with N.J.A.C. 7:15-5.25(h)3, the Department evaluated the water supply availability for the proposed project. The TNGC currently holds an existing water allocation permit (No. 2527P) for a total water allocation of 19.4 million gallons/month for both potable water and irrigation. Potable water obtained from groundwater withdrawals under this permit is utilized to support all on-site amenities. The total water supply needs for the TNGC site, projected based on the wastewater design flow is approximately 30,000 gpd. As the portion of this total wastewater projected at this site is calculated based on the total club membership, and the indoor paddle tennis facility will be used by members, no new wastewater has been included for this new structure. Therefore, there is no new water demand as result of the proposed additional use for the paddle tennis building.

This amendment proposal was noticed in the Department Bulletin, Volume 39; Issue 10, on May 20, 2015 and no comments were received during the comment period.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

**Adopted Amendment to the Upper Raritan Water Quality Management Plan  
Public Notice:**

**Ryland Residential Development**

**Take notice** that on December 21, 2015, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Upper Raritan WQMP was adopted by the Department of Environmental Protection (Department). This amendment, entitled “Ryland Residential Development”, submitted on behalf of Ryland Developers LLC, expands the Readington-Lebanon Sewerage Authority (RLSA) sewer service area (SSA) by 12.06 acres to allow for the construction of 21 single family homes. The amendment site is located in Readington Township, Hunterdon County on a portion of Block 14, Lot 29.02 at the intersection of Old Highway 28 and Clark Lane. The entire proposed development is for 39 single family homes, however, 18 of these homes are in the presently adopted SSA in an adjacent lot and are not the subject of this amendment. This amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L 2011, c.203 as amended and supplemented by P.L 2013, c.188. This notice represents the Department’s determination that the amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25.

In accordance with N.J.A.C. 7:15-5.24, environmentally sensitive areas (ESA's) have been assessed to determine what areas of the proposed project site are appropriate for inclusion in the SSA. Pursuant to N.J.A.C. 7:15-5.24(b), ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. No such ESA's are included in the subject SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to identify areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, areas identified as special water resource protection areas along Category One waters and their tributaries are not to be included in SSA's, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The Department has determined that no special water resource protection areas along Category One waters or their tributaries exist on the site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation; Presence/Absence Determination File # 1022-03-0005.1, FWW030001 issued by the Department's Division of Land Use Regulation on August 7, 2003 was provided, confirming that freshwater wetlands and waters are not present on the property and that no part of the above referenced property occurs within a transition area or buffer as designated in N.J.A.C. 7:7A-2.59 (d) and (e). The above mentioned approval remains valid under the Permit Extension Act at N.J.A.C. 7:1B until June 30, 2016. The provisions of N.J.A.C. 7:15-5.24(b)4, have been satisfied as there are no wetlands or transition areas within the subject SSA.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the project site.

Pursuant to N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers into specified environmentally sensitive areas are excluded from the SSA. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of this amendment and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the project site.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project is to be evaluated. However, P.L. 2013, c.188 allows the Department to approve the inclusion of land within a sewer service area notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modifications. Therefore, amendments to expand a sewer service area may be approved if such actions are compliant with the applicable sections of the WQM Planning rules (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed. Currently the RLSA STP (NJ0098922) is permitted to discharge up to 0.8 Million Gallons per Day (MGD). Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from the RLSA STP was calculated to be 0.63 MGD. The projected wastewater flow for the proposed new development, calculated in accordance with N.J.A.C. 7:14A-23.3 is 6,300 gallons per day (gpd).

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the project has been evaluated. Water supply for the proposed development will be provided by the New Jersey American Water Company-Raritan System (NJAWRS) (PWSID No. 2004002). NJAWRS is a public water system which withdraws water from the Raritan River, Millstone River and Delaware and Raritan canal. The NJAWRS has diversion privileges set by Water Allocation Permit 5033 for a total supply of 6761.5 Million Gallons per Month (MGM) and currently has a water supply surplus of 979.264 MGM. The projected water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 0.386 MGM (not 0.77 MGM as incorrectly stated in the September 15, 2015 preliminary notice which was published in the October 7, 2015 DEP Bulletin); therefore sufficient water supply is currently available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The municipal governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Readington Township has an adopted stormwater management ordinance (No.7-Nov); see N.J.A.C. 7:8-4. Readington Township is also required to implement the N.J.A.C. 7:8 requirements incorporated in the Residential Site Improvement Standards; see N.J.A.C. 5:21-7.

In accordance with N.J.A.C. 5.25(h)5, riparian zones are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.25(h)j –vii. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated in the Surface Water Quality Standards at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. In accordance with N.J.A.C. 7:15-5.25(h)5, the proposed project site is not located in a riparian zone.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope equal to or greater than 20 percent. There are no steep slopes on the subject site.

This amendment proposal was noticed in the DEP Bulletin on October 7, 2015 at Volume 39, Issue 19, pages 12-14 and no comments were received during the comment period.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. These issues may include, but are not limited to, the

following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works; development in wetlands and flood prone areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules. Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

Sewer service to any particular project is subject to contractual arrangements between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

### **Adopted Amendment to the Ocean County Water Quality Management Plan Public Notice:**

#### **Route 70 Townhouses**

**Take notice** that on December 21, 2015, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Ocean County WQMP was adopted by the Department of Environmental Protection (Department). This amendment, entitled “Route 70 Townhouses”, submitted on behalf of 3085 Route 571 Manchester Associates LLC, expands the Ocean County Utilities Authority (OCUA) Central Water Pollution Control Facility (WPCF) sewer service area (SSA) by 3.1 acres to allow for the construction of 38 three-bedroom townhouse units and 2 two-bedroom townhouse units.

The amendment site is located in Manchester Township, Ocean County on a portion of Block 52/Lot 2 near the intersection of Ridgeway Road (Route 571) and State Highway 70. The entire proposed development is for 82 units, however, 42 of these units are in the presently adopted SSA in adjacent lots and are not the subject of this amendment. An application for a Coastal Area Facility Review Act (CAFRA) individual permit, No. 1518-06-0001.2 CAF150001, is currently under review by the Department’s Division of Land Use Regulation (DLUR).

This amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L. 2011, c. 203 as amended and supplemented by P.L 2013, c.188. This notice represents the Department’s determination that the amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25.

In accordance with N.J.A.C. 7:15-5.24, environmentally sensitive areas (ESA’s) have been assessed to determine what areas of the proposed project site are appropriate for inclusion in the SSA. Pursuant to N.J.A.C. 7:15-5.24(b), ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESA’s are not included in the SSA except as noted below.

In accordance with N.J.A.C. 7:15-5.24(b)1, to identify areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife’s Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that a portion was identified as Rank 4 Timber Rattlesnake habitat in Landscape Project version 3.1.

On October 25, 2013 the Department received a Habitat Suitability Determination application (HSD), prepared by Trident Environmental Consultants. The HSD application was submitted in accordance with the provisions at N.J.A.C. 7:15-5.26. This section of the Water Quality Management Planning Rules describes the information that must be submitted by an applicant in order for the Department to re-evaluate the finding that a site is constrained for threatened and endangered species habitat. The Department concurred with the application’s finding that the site’s habitat was not of great significance in maintaining timber rattlesnake populations in the area.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, areas identified as special water resource protection areas along Category One waters and their tributaries are not to be included in SSA's, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The Department has determined no special water resource protection areas along Category One waters or their tributaries exist on the site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) through (h). In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation (LOI): Line Verification, file No. 1518-06-0001.1 FWW130001, issued by DLUR on April 17, 2014 was provided, confirming the extent of wetlands and transition areas on the site. An application for a Transition Area Waiver Averaging Plan, No. 1518-06-0001.1 FWW150001 FWTW1 is currently under review by DLUR. As per the above referenced Flood Hazard & Riparian Zone Verification Map, a portion of the transition area and the area proposed for the transition area waiver averaging plan are located in the presently adopted sewer service area that is not the subject of this amendment. The provisions of N.J.A.C. 7:15-5.24(b)4, have been satisfied by the exclusion of both the mapped wetlands and associated 50 foot transition area from the SSA.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the project site.

Pursuant to N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers into specified environmentally sensitive areas are excluded from the SSA. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of this amendment and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the project site.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project is to be evaluated. However, P.L. 2013, c.188 allows the Department to approve the inclusion of land within a sewer service area notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modifications. Therefore amendments to expand a sewer service area may be approved if such actions are compliant with the applicable sections of the WQM Planning rules (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed. Currently the OCUA Central WPCF (NJ0029408) is permitted to discharge up to 32 Million Gallons per Day (MGD) of treated wastewater to the Atlantic Ocean. Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from the OCUA Central WPCF was calculated to be 20.82 MGD. The projected wastewater flow for the proposed new development, calculated in accordance with N.J.A.C. 7:14A-23.3 is 11,850 gallons per day (gpd).

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for the proposed development will be provided by the Manchester Township Water Utility (PWSID No. 1518005) which is a public water system which withdraws water from the Kirkwood-Cohansey and the Upper Potomac Raritan Magothy aquifers. The Manchester Township Water Utility has diversion privileges set by Water Allocation Permit 5043 for a total supply of 145 Million Gallons per Month (MGM) and currently has a water supply surplus of 19.120 MGM. The projected water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 0.773 MGM (not 0.016 MGM as incorrectly stated in the September 15, 2015 preliminary notice that was published in the October 7, 2015 DEP Bulletin); therefore sufficient water supply is currently available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8-4) is not possible. The municipal governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Manchester Township has an adopted stormwater management ordinance (No. 08-012, 013); see N.J.A.C. 7:8-4. Manchester Township is also required to implement the N.J.A.C. 7:8 requirements incorporated in the Residential Site Improvement Standards; see N.J.A.C. 5:21-7.

In accordance with N.J.A.C. 5.25(h)5, riparian zones are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.25(h)i –vii. A riparian zone of the Ridgeway Branch (FW2-NT) has been identified on the property. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated in the Surface Water Quality Standards at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. The required buffer width for this section of the Ridgeway Branch is 150 feet due to the presence of acid producing soils. A Flood Hazard Area Verification Approval (No. 1518-06-0001.2 FHA140001) was obtained from the DLUR on December 15, 2014, and the Flood Hazard & Riparian Zone Verification Map that is part of the above mentioned approval depicts 150 foot riparian buffers. The provisions at N.J.A.C 7:15-5.25(h)5i, have been satisfied by the exclusion of the riparian corridor and associated 150 foot buffer from the SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope equal to or greater than 20 percent. There are no steep slopes on the subject site.

This amendment proposal was noticed in the DEP Bulletin on October 7, 2015 at Volume 39, Issue 19, pages 9-12 and no comments were received during the comment period.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. These issues may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works; development in wetlands and flood prone areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules. Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

Sewer service to any particular project is subject to contractual arrangements between municipalities, authorities and/or private parties, and is not guaranteed by this amendment

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF INTENT TO SETTLE  
WATERFRONT DEVELOPMENT PERMIT APPLICATION**

**TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION** intends to enter into a Settlement Agreement and issue a Waterfront Development Individual Permit (Authorization) that would resolve the appeal of Waterfront Development Individual Permit #1323-03-0001.1 WFD130001. Said Authorization would authorize the construction of a 4' X 135' fixed pier, a 4' X 10' fixed pier, creating a "T", a 3' X 16' ramp to an 8' x 20' floating dock creating another "T" and (2) 12' X 15' boat lifts. The Authorization will be issued pursuant to the Rules on Coastal Zone Management (N.J.A.C. 7:7E-1.1 et seq.). The project is shown on one sheet entitled, "Waterfront Development In: Parkers Creek at: Little Silver, Monmouth County, N.J. Lot 25 Block 83 Applicant: Charles B. Cresanti Daknis", dated October 23, 2013, last revised January 27, 2014, and prepared by Thomas P. Santry, P.A.

The applicant is Charles Cresanti-Daknis. Notice of the final decision will appear in the DEP Bulletin under the section entitled Division of Land Use Regulation.

IN THE MATTER OF: Charles Cresanti-Daknis  
NJDEP FILE #1323-03-0001.1  
Block 83, Lot 25  
Borough of Little Silver, Monmouth County

Comments regarding this settlement or requests for information regarding this action should be sent to: Shorefront Region Manager, Division of Land Use Regulation, Mail Code 501-02A, PO Box 420, Trenton, NJ 08625-0420 or by e-mail care of Colleen.Keller@dep.nj.gov, or the office may be reached by telephone: (609) 777-0454. Comments must be received by NJDEP within 15 days of this publication.

### **PUBLIC NOTICE**

### **NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION NOTICE OF PUBLIC HEARING**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has received applications for the installation of approximately 1,200 linear feet of 42-inch gas pipeline within Montgomery Township, Somerset County. This pipeline installation represents the final construction phase of Transcontinental Gas Pipe Line Company's (Transco) Skillman Loop. Under previous permits issued by the Department, this length of pipeline was to be installed by horizontal directional drilling (HDD), However, due to local geologic conditions, the HDD installation has been unsuccessful. Therefore, Transco is requesting a new Flood Hazard Area Individual Permit and a Major Modification to their existing Freshwater Wetlands Individual Permit that would allow this length of pipeline to be installed within regulated areas by open trenching.

APPLICANT: Transcontinental Gas Pipe Line Company  
PROJECT: Leidy Southeast Expansion Project- Skillman Loop

LOCATION: Immediately north of Cherry Valley Road (Milepost 1778.2 to 1778.5)  
Montgomery Township, Somerset County

**FILE NUMBERS:**

File No. 0000-13-0012.3 FHA 150002 (Flood Hazard Area Individual Permit)

File No. 0000-13-0012.3 FWW 150001 (Freshwater Wetlands Individual Permit- Major Modification)

The Division of Land Use Regulation invites the public to attend a Public Hearing and present comments on these applications.

HEARING DATE: **February 11, 2016**  
HEARING TIME: **7:00 P.M.**  
HEARING LOCATION: **Montgomery Township Upper Middle School**  
**375 Burnt Hill Road, Skillman, New Jersey 08558**

The Division of Land Use Regulation invites the public to submit written comments on the above referenced applications postmarked within fifteen (15) days of the close of the Public Hearing to:

Mark Harris  
Division of Land Use Regulation  
Mail Code 501-02A  
P.O. Box 420

Trenton, New Jersey 08625-0420

DATE OF THIS NOTICE: January 6, 2016

**PUBLIC NOTICE**  
**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**NOTICE OF REQUEST TO RELEASE AND MODIFY CONSERVATION EASEMENT/DEED**  
**RESTRICTION - PUBLIC HEARING -**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION (NJDEP) has received an application for the release and modification of the boundaries of the Conservation Restricted Area. The Conservation Easement/Declaration of Environmental Restriction was required by the 2002 Freshwater Wetlands Transition Area Waiver obtained by Mercer County Park Commission on behalf of Princeton National Rowing Association (PNRA). Even though the easement was not recorded the applicant/owner must follow the provisions of the "New Jersey Conservation Restriction and Historic Preservation Restriction Act." N.J.S.A. 13:8B-4 and 5.

As the 2002 Restriction remains unrecorded and the area has been impacted by the construction of a floating dock and gravel pathway and the applicant intends to construct a boathouse addition and boat ramp located to Mercer Lake through the intended conservation easement. If the request to release the 2002 Restriction and construct the boathouse addition and boat ramp is approved the applicant will record a new restriction that modifies the location of the original area to be restricted under the 2002 Restriction. The release of restrictions is authorized under the provisions of the "New Jersey Conservation Restriction and Historic Preservation Restriction Act" N.J.S.A. 13:8B-5 and 6.

APPLICANT: Princeton National Rowing Association  
FILE NUMBER: NJDEP File No. 1113-02-0008.4  
PROJECT DESCRIPTION: Release and Modification of a Conservation Restriction;  
  
MUNICIPALITY: West Windsor Township  
COUNTY: Mercer  
PROJECT ADDRESS: A Portion of Block: 23 Lots: 22 and 23  
A Portion of Block: 25 Lots: 6, 7, 10, 11 and 12  
HEARING DATE: February 24, 2016  
HEARING TIME: 7:00 pm  
HEARING LOCATION: Boathouse at Mercer Lake, Lakeview Ballroom  
(Across from the Mercer County Ranger Station)  
1638 Old Trenton Road  
West Windsor, NJ 08550

**NOTICE OF PUBLIC COMMENT PERIOD  
REGARDING A SOLID WASTE FACILITY PERMIT FOR A TRANSFER  
STATION/MATERIAL RECOVERY FACILITY**

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing Solid Waste Transfer Station for MAZZA & SONS INC. located on Block 145, Lot 26.01 at 3230 Shafto Road in the Borough of Tinton Falls.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID # 13 (Bulky Waste) and ID # 13C (Construction and Demolition Waste) with an approved capacity of 1100 tons per day, not to exceed 5400 tons per week under a weekly averaging plan. The facility operates six days a week.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana, Chief  
Bureau of Solid Waste Permitting  
New Jersey Department of Environmental Protection  
Division of Solid & Hazardous Waste  
401 E. State Street, P.O. Box 414  
Trenton, New Jersey 08625-0414  
(609) 633-1418

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste, the office of Tinton Falls Borough Clerk and the office the Monmouth County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

***Public notice of proposed permit actions***

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATER QUALITY  
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

***Written comments should be submitted to the appropriate permitting bureau:***
