General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Basis for Waiver

Narrative	
	<p>A complete explanation of the basis for the waiver request is set forth in the attached waiver request prepared by Annette G. Kavanagh, CWD of French & Parrello Associates and the letter of Paul Schneider dated June 3, 2015. In summary, Jesse A. Howland & Sons and CJM Associates of Sea Bright, LLC (Howland) seek a waiver of N.J.A.C. 7:27E-3.23 (Filled Waters Edge Rule) on the grounds that strict compliance would be an exceptional hardship and because Howland's proposal would result in a net environmental benefit. Howland proposes to redevelop a 3.27 acre parcel that extends along the South Shrewsbury River in the Borough of Sea Bright, replacing abandoned industrial warehouses and residential uses with three, 4-floor multi-family residential buildings. The redevelopment will bring a public walkway along the entire length of the waterfront as well as three waterside public greens; there is no access to the waterfront or public use today. Additionally, the current bulkhead along the South Shrewsbury River at the project site is at elevations between 3.8 feet to 4.5 feet. While not otherwise required, as part of this 147 unit multi-family development Howland proposes to reconstruct and raise the elevation of the existing bulkhead to match the 7-foot elevation of the bulkheads being reconstructed by the Borough on adjacent public properties as part of a DEP and the U.S. Army Corps of Engineers-approved Flood Mitigation Project. Due to the exceptional narrowness of the property, strict compliance with the 100 foot setback requirement of the Filled Waters Edge Rule would result in an exceptional hardship, while Howland's voluntary elevation of the bulkhead will result in a net environmental benefit. Howland submits this waiver request prior to submitting a CAFRA individual permit application.</p>
