General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Narrative	
	Edward Tomao is seeking a waiver of strict compliance with DEPs Submerged Vegetation Habitat (SVH) Rule, N.J.A.C. 7:7E-3.6(b)6.vi, requiring a 4 MLW at a proposed residential dock mooring area. DEP denied a waterfront development permit for Property at 245 West 21st Street, Borough of Surf City, Block 90, Lots 17 and 17.01. The proposed dock length is 50, with 2 MLW at the mooring area. A waiver is sought on grounds of conflicting rules. The SVH Rule conflicts with DEPs Docks and Piers Rule, N.J.A.C. 7:7E-4.5(b)8, requiring that the proposed structure not hinder navigation or access to the water. The proposed structure would be generally consistent in length to nearby existing structures. But to achieve a water depth of 4 MLW, it would have to be constructed more than 280 outshore of the existing bulkhead. This would outdistance the existing nearby dock structures and would create a potential impediment to navigation to adjacent water areas. Additionally, construction to 4 MLW would bisect the mapped SAV habitat for a significant length, cause more shading and would condemn a greater area of mapped shellfish habitat. Compliance with provisions of both the SVH Rule and the Docks and Piers Rule is impractical and impossible. Compliance with N.J.A.C. 7:7E-3.6(b)6.vi would also pose an actual, exceptional hardship and result in an excessive cost, and is unduly burdensome. Water areas offshore of the Property are shallow and constructing the dock to 4 MLW would be an excessive length in comparison to surrounding structures. Effectively nullify the value of the existing riparian grant, would cost considerably more than the proposed project, and would not achieve a greater benefit to safety and the environment. For these reasons, and the reasons detailed in the Report submitted herewith, the requested waiver should be granted.
