Brief Q & A  [No public testimony taken at this time]

Break

11:00 Public Testimony
     Specifically the Council seeks input and reaction to the following questions:
     • What standards of performance should apply to asset management?
     • Who should be responsible for compiling, releasing and publicizing assessments?
     • How should we recognize and reward successful utilities for doing a good job?
     • How should we facilitate improvements for utilities that are doing a poor job?
     • How should NJ assure sufficient funding and budgeting for proper asset management?
     • How do we convince the public to support these actions?

End of Public Testimony – 1:00 or end of testimony, if earlier
