### AGENCY REQUEST FOR PROPOSAL

**STATE OF NEW JERSEY**  
**DEPARTMENT OF THE TREASURY**  
**AGENCY REQUEST FOR PROPOSAL**

**VENDOR NAME AND ADDRESS:**  
RETURN THIS PROPOSAL TO:  
Catherine Jedrzejczyk  
Catherine.Jedrzejczyk@dep.nj.gov

DELIVER TO:  
Catherine Jedrzejczyk  
Geological and Water Survey  
Mail Code: 29-01  
P.O. Box 420  
Trenton, NJ 08625-0420

**FAX NO:** 609-633-1004

**SBE CATEGORY:**

**NOTE:** This proposal must be received by:  
JUNF 7, 2022 no later than 4pm EST

**AGENCY PERSON TO CONTACT:**  
Catherine Jedrzejczyk  
catherine.jedrzejczyk@dep.nj.gov  
609-633-1002

**FISCAL YEAR:** 2022  
**ACCOUNT NUMBER:**  
**AGENCY REFERENCE NO.:** Well - 060722  
**COMMODITY CODE NO.:** 962-96

Scope of Work for Monitoring Well Installation

Drilling, installation, and development of two monitoring wells by a New Jersey-licensed well driller with oversight from New Jersey Geological & Water Survey (NJGWS) staff. Final well depths will be determined based on observations of groundwater during drilling. These monitoring well will be used for ambient (background) groundwater sampling, so it is essential that all tooling be steam cleaned/pressure washed and free of any contamination prior to mobilization.

Assumptions for Both Wells

- Unconsolidated/overburden monitoring wells to monitor background/ambient water quality in shallow groundwater
- Sonic drilling with soil/cuttings extruded into plastic sample bags/sleeves
- For estimation purposes, assume a depth of 50 ft (depth and screened interval to be determined by observations of groundwater during drilling)
- Well construction:
  - 10 feet of 10 slot 2” Schedule 40 PVC screen
  - 2” Schedule 40 PVC casing
  - #1 sanc filter pack and 00 sand choker
  - Neat cement grout
  - Stickup completion with locking cap (no locks) and well plug
- Cuttings to be crammed in clean drums. No cement or concrete to be disposed of in drums.
- Well development (pump and surge with surge block) with purge water to be discharged to ground surface – assume 2 hours per well
- No water available at the locations
- Level D PPE

Location Information

Proposed MW-97R

Location: Farm in Fredcn Township, Sussex County, NJ

Approximate coordinates: 41°02'09.4"N 74°46'04.9"W (41.035950, -74.768019)

Location note: Depending on ground conditions, this location might not be accessible by heavy support trucks. Delivery truck for track-mounted sonic rig and support truck should be able to park on gravel pull-off on US-206. Please include cost for skid steer or similar to transport the water tote and any other support material for drilling from US-206 to well location. The need for this would be confirmed prior to scheduling the work.

Proposed MW-141R.2

Location: Municipal property in Cedar Grove Township, Essex County, NJ

Approximate coordinates: 40°51'49.8"N 74°13'32.7"W (40.863827, -74.225749)

Waste Disposal

Please include an estimate for maximum anticipated cost for the disposal of the drums containing non-hazardous soil/cuttings including any fuel surcharges and documentation fees.

NJDEP reserves the right to not issue an award.
