MSW recycled includes all paper and beverage containers, anti-freeze, lead acid (auto) batteries, tires, motor oil, brush, grass, leaves, consumer electronics, food waste, dry cell batteries, other glass, other plastic and textiles when they are generated by a non-industrial generator. 10% of total metal has been included as non-industrial.

Street sweepings are no longer counted as a recyclable due to their management as a BUD. (NJAC 7:26A-1.3)

NOTES: Several towns show N/A in one or multiple locations on the Municipal rate table. N/A could represent towns that submit no recycling data and towns whose solid waste (SW) and/or recycling data creates unrealistic recycling rate percentages. Some towns show very low or zero SW tonnage on the report, thus artificially inflating the recycling rates. Several other towns have average SW data, but reported very little recycling, thus artificially decreasing the recycling rates. Those rates are shown as N/A so we only show the most accurate information possible.
