What’s New in 2017?

Supplemental Funds
Natural Resource Damages (NRD) recovered by the State and Corporate Business Tax-diesel funds (CBT-diesel) are proposed to be used, as monies are available, to help offset costs for projects that improve water quality in the following priority areas:

♦ Green Infrastructure in CSO Sewershed
♦ CSO Flow Abatement
♦ Asset Management
♦ Coastal Community Water Quality Restoration

Lead Service Line Replacement Program
90% principal forgiveness program for drinking water systems to replace lead service lines in communities serving customers whose median household incomes are less than the county median household income.

Rolling Applications
Applications will be accepted anytime of the year. There are no submission deadlines!

30 Year Loans
Loan terms have been extended from 20 years to up to 30 years; loan cannot exceed project’s useful life.

Protecting and enhancing the State's water quality and infrastructure is vital to its health and economy. While often taken for granted, significant planning and investment is required to sustain and improve New Jersey’s aging systems.

The Environmental Infrastructure Financing Program (EIFP), which administers New Jersey’s State Revolving Fund, is a partnership between the New Jersey Department of Environmental Protection and the New Jersey Environmental Infrastructure Trust (EIT) to provide low-cost financing for the design, construction, and implementation of projects that help to protect, maintain and improve water quality.

The proposed Intended Use Plan (IUP) for Federal Fiscal Year 2017 (State Fiscal Year 2018) provides information on funds available through the EIFP for clean water and drinking water projects and identifies State policies governing loan awards.

Access the full Intended Use Plan online: www.nj.gov/dep/dwq/cwpl.htm
WHO IS ELIGIBLE?

**CLEAN WATER:**
- Towns, Boroughs and Counties
- Municipal utilities authorities
- Regional water authorities
- Other local government units
- Private entities through public conduits

**DRINKING WATER:**
- Public community water systems (Privately/Publicly Owned)
- Nonprofit non-community water systems
- Water commissions
- Water supply authorities
- Water districts

WHAT PROJECTS ARE ELIGIBLE?

- Planning & Design
- Wastewater
- Drinking Water
- Stormwater
- Equipment
- Asset Management Plan
- Security Monitoring
- Green Projects
- Brownfields
- Landfills
- Open Space
- Additional Projects
