INTRODUCTION

The New Jersey Department of Environmental Protection ("Department") is responsible for administering the New Jersey Pollutant Discharge Elimination System ("NJPDES") program that regulates the discharge of pollutants to the surface and ground waters of the State. The Department's authority is derived from the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1 et seq. ("State Act"), pursuant to which New Jersey qualifies for and has primary responsibility under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) for the administration of the NJPDES permitting program.

The NJPDES program rules are set forth at N.J.A.C. 7:14A. All persons who wish to discharge wastewater in the State are required to obtain a NJPDES discharge permit from the Department. Pursuant to Section 9 of the State Act, the Department is authorized to "establish and charge reasonable annual administrative fees, which fees shall be based upon, and shall not exceed, the estimated cost of processing, monitoring and administering the NJPDES permits." Fees are assessed to cover the Department's costs to issue and manage NJPDES permits. The NJPDES budget and fee schedule covers activities including the review of NJPDES permit applications, the development of specific permit terms and conditions including wasteload allocations, water quality based effluent limitations, stream monitoring and modeling, conducting compliance and 24-hour sampling inspections, ground water compliance sampling, supervising the installation of ground water monitoring wells, evaluating and approving ground water remediation alternatives, evaluating compliance with the terms and conditions of each NJPDES permit, and providing for the general administrative costs of the NJPDES program including regulatory support, data processing, and budgeting. N.J.S.A. 58:10A-10 provides the Department with the authority to seek civil administrative penalties for failure to pay assessed NJPDES permit fees.

FY 2006 NJPDES BUDGET PROPOSAL

The NJPDES program encompasses the developing, issuing, monitoring, administering and enforcement of NJPDES permits. The Department has historically used State appropriations, and Clean Water Enforcement Act (CWEA) penalties, to fund those activities which have been deemed outside the scope of the NJPDES fee program. However, since July 1, 1995, all Department fee programs are "on budget". This results in the NJPDES and Clean Water Enforcement programs receiving state appropriations each budget cycle. Fees and penalties collected are deposited directly to the General Fund within the Department of Treasury.

The Department has presented the total cost for the Water Pollution Control Program as it pertains to NJPDES permitted facilities in the work plans and budget presented in Appendix B and C, respectively. The total costs for program activities are \$20.8 million, a decrease of \$0.2 million from the previous budget year. The portion of the NJPDES permit program which needs to be funded through NJPDES permit fees in FY2006 is \$18.3 million, including the Stormwater Permitting Program. For nine consecutive years through FY2002 the Department held the total NJPDES fee assessments, excluding Stormwater Permitting, at \$11.2 million or less. In light of State budget constraints this was no longer possible. Starting in FY2003, the Department began to recover a greater percentage of its billable NJPDES program costs through fee revenues. In FY2003 the amount assessed was increased to \$13.6 million (87% of the \$15.6 million budget). In FY2004 the amount assessed was increased to \$15.6 million (96% of the \$16.3 million budget). In FY2005 the amount assessed was increased to \$17.7 million (100% of the \$17.7 million budget). This year the Department will be assessing \$13.2 million of the total budget as fees for the non-stormwater permitting portion of the program. Additionally, the fees to be assessed for the Stormwater Permitting Program are projected to be \$5.1 million. This amounts to a total assessment of \$18.3 million (100 % of the \$18.3 million budget). The NJPDES fees for FY2006 cover the period July 1, 2005 to June 30, 2006. There are no changes to the minimum fee schedule this year (see page 3).

FY2006 WATER POLLUTION CONTROL ACT- BUDGET SUMMARY

	ENFORCEMENT SERVICES BUDGET (CWEA)	NJPDES SERVICES BUDGET	TOTAL WATER POLLUTION CONTROL PROGRAM
TOTAL WORK-YEARS	26.06	193.50	219.56
TOTAL PERSONNEL COSTS	\$2,297,182	\$17,056,971	\$19,354,152
TOTAL OPERATING COSTS	\$165,889	\$1,277,849	\$1,443,739
TOTAL PROGRAM COSTS	\$2,463,071	\$18,334,820	\$20,797,891

The FY2006 Water Pollution Control Program Budget will provide funding for a total of 219.56 work years. This represents an decrease of 7.04 work years (mostly associated with a reallocation of resources to other areas of the Enforcement Program) from the previous budget cycle, or a 3.1% decrease. The NJPDES portion of the Water Pollution Control Program budget is expected to cover the costs of 193.5 professional and support staff positions assigned to the NJPDES program. This included 137.28 work years assigned to the Division of Water Quality, 33.72 assigned to the Water Compliance and Enforcement Element and 22.50 to other DEP units. An additional 26.06 work years will be funded from the Enforcement Water Pollution Control Appropriation. These 26.06 positions are assigned to the NJPDES Program for performance of additional NJPDES related functions and activities that historically have been deemed outside the scope of the NJPDES Fee Program. The Department has included detailed workplans for the various program categories in Appendix B. The expected outputs for FY2006 are based upon current staffing. Program activities and accomplishments are presented on page 10.

COMPARISON OF NJPDES STAFFING LEVELS

BUDGET CATEGORY	FY2003	FY2004	FY2005	FY2006
MUNICIPAL	46.22	48.15	49.77	51.92
INDUSTRIAL	36.50	36.42	40.59	41.08
GROUNDWATER/STORMWATER	48.12	49.72	59.41	62.88
SIGNIFICANT INDIRECT USER	2.93	2.97	3.48	3.90
Enforcement-NJPDES funded	38.33	35.90	36.83	33.72
NJPDES PROGRAM	172.10	173.16	190.08	193.50
Enforcement-CWEA funded	31.39	31.37	36.52	26.06
TOTAL	203.49	204.53	226.60	219.56

The current average salary cost for each position in the NJPDES program is \$52,613. The average salary cost for FY2006 has been determined based upon the anticipated salary costs as of January 1, 2006 and includes annual merit increases and promotions. The fringe benefit rate of 32.75 percent has been established by the Department of Treasury in its current OMB Circular Letter. The indirect rate of 26.21 percent, of salary plus fringe, has been established by the Department of Environmental Protection for FY2006.

The Total Budget decreased from \$21.0 million in FY2005 to \$20.8 million in FY2006 mainly due to a slight reallocation of Enforcement resources from NJPDES to other program areas. The Department has included \$1.4 million for non-salary costs. This is \$0.03 million less than the previous year. Routine operational costs for office supplies, printing, copiers, telephones, postage, vehicle rental and maintenance, legal advertising and professional services total \$1.1 million. Other major operational costs include the following:

Division of Law and Public Safety and Office of Administrative Law - A total of \$318,403 has been included in the NJPDES/Enforcement-Water Pollution Control program budget to cover the legal

assistance provided by the Division of Law and Public Safety and the Office of Administrative Law. Activities to be funded include permit adjudication, general legal assistance for rule making, and enforcement action adjudication. The Clean Water Enforcement Act provides a cost recovery mechanism for unsuccessful challenges to the Department's enforcement actions. The Department must also cover the costs incurred by the Office of Administrative Law (OAL) for any permit or enforcement cases which are sent to the OAL for processing. Although many cases are settled without a hearing, the OAL still incurs costs to process these cases.

Office of Telecommunication and Information Systems (OTIS) - A total of \$52,448 has been included for OTIS in the NJPDES/Enforcement Water Pollution Control program budget for FY2006 to cover the cost of computer system operational support.

FY2006 NJPDES FEE ASSESSMENT METHODOLOGY

The Department first established a fee assessment program in 1981. Individual permit fees were based on the facility's potential environmental impact, the billing rate for the category of discharge, and the minimum fee for the category of discharge. The billing rate for each category of discharge is determined annually by subtracting the total minimum fees paid by the permittees in the category of discharge from the total budget for the category of discharge, and then dividing that value by the sum of the calculated environmental impact potentials for all of the dischargers within the category.

This year's fee schedule is assessed in accordance with the current rules. A copy of the current fee regulations is included in Appendix A. This year the percentage of the NJPDES program budget (including the Stormwater Permitting Program) derived from the assessment of minimum fees is 55% of the total program costs, which also includes fringe, indirect and operating costs. The remaining percentage of the NJPDES program costs will continue to be assessed in a manner proportionate to the relative environmental impact potential of the permittee's discharge, pursuant to the fee assessment formula at N.J.A.C. 7:14A-3.1(c) through (g). If a NJPDES permit identifies more than one discharge category, a fee is assessed for each category.

ADJUSTMENTS/CORRECTIONS TO MINIMUM FEE SCHEDULE

Minimum fees are calculated as specified in N.J.A.C. 7:14A-3.1(a)9iii. The following adjustments and/or corrections have been made to the minimum fee schedule in accordance with N.J.A.C. 7:14A-3.1(b)1v to account for changes to the specific category of discharge:

Updated NJPDES Minimum Fees – No changes this year.

The minimum fee schedule for FY2006 is summarized in the following table:

Permit Fee Category	Min Fee Code	Minimum Fee FY 2006
Major DSW Domestic Treatment Works (DTW) - Individual Permit	MMJ	\$9,650
Minor DSW Domestic Treatment Works (DTW) - Individual Permit	MMI	\$3,600
Combined Sewer Overflow - Individual Permit Component or General Permit	CSO	\$8,150
Major Industrial DSW - Individual Permit	IMJ	\$8,600
Minor Industrial DSW - Individual Permit	IMI	\$3,600
General Permit - Industrial DSW, DGW, or both (unless otherwise listed)	IGN	\$2,000
Industrial Stormwater - Individual Permit	IST	\$3,550
Stormwater - Basic Industrial General Permit (5G2)	SBG	\$750
Municipal Stormwater – Tier A General Permit (R9) Range 1k	SA1	\$600
Municipal Stormwater – Tier A General Permit (R9) Range 5k	SA2	\$1,050
Municipal Stormwater – Tier A General Permit (R9) Range 10k	SA3	\$2,000
Municipal Stormwater – Tier A General Permit (R9) Range 15k	SA4	\$3,000
Municipal Stormwater – Tier A General Permit (R9) Range 20k	SA5	\$4,050
Municipal Stormwater – Tier A General Permit (R9) Range 25k	SA6	\$5,250
Municipal Stormwater – Tier A General Permit (R9) Range 25k+	SA7	\$9,000
Municipal Stormwater – Tier B General Permit (R10)	STB	\$500
Municipal Stormwater – Public Complex General Permit (R11) Range 3k	SP1	\$900
Municipal Stormwater – Public Complex General Permit (R11) Range 6k	SP2	\$1,500
Municipal Stormwater – Public Complex General Permit (R11) Range 9k	SP3	\$2,600
Municipal Stormwater – Public Complex General Permit (R11) Range 9k+	SP4	\$3,600
Municipal Stormwater – Highway Agency General Permit (R12) Range 9	SH1	\$550
Municipal Stormwater – Highway Agency General Permit (R12) Range 199	SH2	\$2,450
Municipal Stormwater – Highway Agency General Permit (R12) Range 399	SH3	\$5,100
Municipal Stormwater – Highway Agency General Permit (R12) Range 400+	SH4	\$9,800
DGW – Initial Individual Permit ²	GWN	\$5,950
DGW – Renewed or Continued Individual Permits ²	GWE	\$2,400
DGW - General Permit (I1, I2 and LSI)	GGN	\$750
DGW - General Permit (T1)	GT1	\$350
DGW - Operating Landfill Individual Permit	LND	\$5,950
Residuals Use or Disposal Operations (unless otherwise listed)	RES	\$10,100
Residuals - Food Processors / WTPs ³ Individual Permit	RFP	\$3,800
Residuals - Category Z Individual Permit ⁴	RTZ	\$1,800
Residuals - General Permit (ZG and 4G)	RTG	\$450
Residuals - Category 04 Individual Permit ⁵	RPH	\$700
Residuals – Land Application General Permit (unless otherwise listed)	RSG	\$750
Significant Indirect User (SIU) (Pretreatment)	SIU	\$5,450

² For a domestic or industrial facility issued an individual NJPDES Discharge to Groundwater permit, the minimum fee is \$5,950 for the first 5 years of the initial permit, and \$2,400 if the permit is renewed or administratively continued. All other domestic or industrial facilities issued an individual NJPDES Discharge to Groundwater permit shall be assessed a minimum fee of \$2,400.

³ WTPs refer to potable water treatment plants.

⁴ Refers to a Residuals Transfer Facilities individual permit.

⁵ Refers to a Residuals - Reed Beds individual permit.

FY2006 PERMIT FEE SCHEDULE & ENVIRONMENTAL IMPACT CALCULATIONS

For FY2006, the total amount to be assessed through permit fees is \$18.3 million, including the Stormwater Permitting Program. Fees are assessed based on the minimum fee for each facility and the facility's potential impact on the environment. The environmental impact fee component is calculated in accordance with the NJPDES regulations in N.J.A.C. 7:14A-3.1 (see Appendix A). The total pollutant load for a surface water discharge represents the total relative impact of the regulated pollutants discharged. The minimum fee is added to the fee calculated based on the environmental impact potential of the discharge. An analysis of the rate calculations is provided in Appendix D.

Municipal Surface Water Permit Fees - The FY2006 NJPDES budget for this permit category is \$5,524,710. The total amount of fees to be assessed for municipal surface water permits is \$5,530,000. Minimum fees from 226 municipal facilities will generate \$1,505,500 (27%) of the total billings. This year's environmental impact portion of the fee is based on the loadings of BOD/COD/CBOD reported during the period January 1, 2004 through December 31, 2004.

Industrial Surface Water Permit Fees - The NJPDES industrial program budget for FY2006 is \$4,625,594. The total amount of industrial permit fees assessed in the category is \$4,630,000. Minimum fees from 418 industrial facilities will provide \$1,482,000 (32%) of the total billings. This year's fees are based on the loadings for all limited pollutants reported during the period January 1, 2004 through December 31, 2004 and the risk factor associated with each parameter. As in years past, where a facility's discharge is limited for BOD, COD and/or TOC, the Department is using the discharger's BOD loading for the pollutant loading calculation, rather than the oxygen demand parameter discharged in greatest quantity, provided the facility is meeting its whole effluent toxicity limits.

Significant Indirect Users (SIU's) - The NJPDES SIU program budget is \$478,669. The total amount of fees to be assessed is \$479,000. Minimum fees from 70 facilities will provide a total of \$381,500 (80%) of the total billings. The environmental impact calculation for SIU permits is based on the total weighted loading of all limited pollutants discharged during the period January 1, 2004 through December 31, 2004 and the risk factors for SIUs. These risk factors are presented in Table I of N.J.A.C. 7:14A-3.1 as the category of risks entitled, "Indirect Users".

Residuals - The Department will assess fees totaling \$206,250 to 56 facilities which handle, distribute and land apply sludge. These facilities are charged applicable minimum fees and are not subject to an environmental impact calculation.

Nonpoint Pollution Control Permit Fees - The NJPDES Nonpoint Pollution Control program budget is \$7,705,848. The program issues permits for Operational Ground Water Discharges and for the Stormwater Permitting Program.

Operational Ground Water Permit Fees - The total amount of fees to be assessed for ground water discharge permits is \$2,370,000. Minimum fees from 897 DGW permits and 23 landfill permits will provide \$1,342,200 (57%) of the total billings. Fees for operating landfills regulated by the Division of Water Quality are based upon the cubic yards of waste received during the period 1985 through 2004 and the acres filled as of 1985. Fees for operating discharges are based on reported flow during the period January 1, 2004 to December 31, 2004.

Stormwater Permitting Program Fees - Fees for Industrial Stormwater General and Individual Permits are set in the NJPDES Rules (N.J.A.C. 7:14A-3.1 - Table III). Fees for the Construction Stormwater General Permit are set in the NJPDES Rules (N.J.A.C. 7:14A-3.1(j)) at \$300 one time charge for all

permittees (revised February 2, 2004, see 36 N.J.R. 813). Fees for the Construction Stormwater General Permit (with the exception of Construction Permit authorizations issued to the N.J. Department of Transportation which are paid to the Department) are used entirely by the Soil Conservation Districts (SCD) and the Department of Agriculture which provides support for SCD operations, and are therefore itemized separately. The total amount of stormwater fees to be assessed from 3374 stormwater permits is \$5,080,700. These facilities are not subject to an environmental impact calculation.

Proposed fee schedules for the various discharge categories begin on page 48. Any questions concerning individual fee assessments should be directed to the NJPDES Fee Management Unit within the Division of Water Quality at (609) 984-4428.

PROPOSED FY2006 NJPDES FEE SCHEDULES AND RATES

Discharge Category	Assessment	Rate
Municipal Surface Water Permits	\$5,530,000	108.1180
Industrial Surface Water Permits	\$4,630,000	3.7942
Pretreatment (SIU's Permits)	\$479,000	4.8821
Municipal/Industrial Ground Water Permits	\$1,920,000	3624.7192
Land Applications of Residuals	\$206,250	0
Operating Landfills	\$450,000	2.4794
NON-STORMWATER NJPDES BILLING	\$13,215,250	
Stormwater Permits	\$5,080,700	0
TOTAL NJPDES BILLING	\$18,295,950	

ACTUAL EXPENDITURES AND FEE COLLECTIONS

The actual costs for FY2004 and FY2005 are based upon program specific activity codes. Each employee completes a bi-weekly time sheet whereby the employee's time is coded to a program activity code or benefit time. Direct program specific codes were summed and general administrative, personnel, and program-wide activity costs were allocated based on the percentage of program specific permitting coding. The appropriate fringe benefit rate and indirect cost rate established by the Department of Treasury and the Department of Environmental Protection were added to the total salary cost to obtain total personnel costs.

The fringe benefit and indirect cost rates assessed to the NJPDES program are as follows. Please note, the Indirect Cost rate is applied to Salary plus fringe benefits.

	FY2004	FY2005
Fringe Benefits	29.15	33.25
Indirect Cost	26.19	26.21

Operating costs for both FY2004 and FY2005 were charged against the NJPDES Account. Operating expenditures have been calculated for each category of discharge based upon the percentage of direct NJPDES program coding.

The Department's fee programs have undergone a significant transition over the past ten years. Specifically, since July 1995 the majority of the DEP's dedicated fee and enforcement programs have been placed "On Budget". What this means is that DEP's programs are appropriated funds through

the annual state budget process and all fee and penalty revenues are deposited directly into the general treasury.

FY2005 Actual Expenditures and Fee Collections

For State Budget purposes, the Water Pollution Control Program includes the Clean Water Enforcement Program, the NJPDES Program, the Stormwater Permitting Program, and the Treatment Works Approval Program. The total cost (not including fringe benefit and indirect costs) to administer the Water Pollution Control Program by the Department during the period July 1, 2004 to June 30, 2005 (FY2005) was unavailable at time of preparing this report.

Fees for the NJPDES Program totaling \$12,706,800 and fees for the Stormwater Permitting Program totaling \$4,964,250 were assessed by the Department on February 7, 2005. The total fees received by the Department as of September 30, 2005 against the FY2005 fee assessment was \$11,036,031 for the NJPDES Program and \$4,347,905 for the Stormwater Permitting Program. The Department is continuing its efforts to collect the remaining overdue balance.

NJPDES FEE COLLECTION FY2005

Billing Category	Initial Billing	Billing Adjustment	Credit from FY2004	Adjusted Billing	Paid YTD	Percent Paid
Municipal SW	\$ 5,240,000	\$ (2,091)	\$ -	\$ 5,237,909	\$ 4,579,918	87.44%
Industrial SW	\$ 4,620,000	\$ (131,892)	\$ -	\$ 4,488,108	\$ 4,095,154	91.24%
Land Application	\$ 211,800	\$ -	\$ -	\$ 211,800	\$ 186,430	88.02%
Municipal/Industrial GW	\$ 1,800,000	\$ (54,232)	\$ -	\$ 1,745,768	\$ 1,434,265	82.16%
SIU	\$ 435,000	\$ (5,461)	\$ -	\$ 429,539	\$ 396,688	92.35%
Landfills	\$ 400,000	\$ (2,238)	\$ -	\$ 397,762	\$ 343,576	86.38%
Total Non-Stormwater	\$ 12,706,800	\$ (195,914)	\$ -	\$ 12,510,886	\$ 11,036,031	88.21%
Stormwater	\$ 4,964,250	\$ (1,450)	\$ -	\$ 4,962,800	\$ 4,347,905	87.61%
TOTAL NJPDES	\$ 17,671,050	\$ (197,364)	\$ -	\$ 17,473,686	\$ 15,383,936	88.04%

as of 9/30/2005

FY2004 Actual Expenditures and Fee Collections

For State Budget purposes, the Water Pollution Control Program includes the Clean Water Enforcement Program, the NJPDES Permitting Program, the Stormwater Permitting Program, and the Treatment Works Approval Program. The total cost (not including fringe benefit and indirect costs) to administer the Water Pollution Control Program by the Department during the period July 1, 2003 to June 30, 2004 (FY2004) was \$15,486,973. The program expenditures for FY2004 are presented below.

FY2004 Budget for the WATER POLLUTION CONTROL PROGRAM

Resources	
Appropriations:	\$13,454,000
Credits:	\$1,953,348
Transfers:	\$106,747
Carry Forward:	\$4,555
Reverted:	(\$0)
TOTAL RESOURCES:	\$15,518,650
Expenditures	
Salary Costs:	\$13,848,822
Operating:	
Encumbered	\$27,212
Expended	\$1,610,939
TOTAL EXPENDITURES:	\$15,486,973
BALANCE	\$31,677
Off Budget Costs	
Fringe Benefit Costs:	\$4,036,932
Indirect Costs:	\$4,687,856
TOTAL OFF BUDGET COSTS:	\$8,724,788
TOTAL PROGRAM COSTS:	\$24,211,761

Delinquent Fee Collections

The Department has been pursuing an initiative to collect the remaining overdue fee balances from prior years. The initial effort was directed at delinquent fees from fiscal years 1993 to 1999. Current efforts are focused on the FY2000 and later delinquent fees. The Department of Treasury fee collection database (VCL) was compared to the NJPDES fee records to identify permittees with potentially overdue fee balances. Letters were sent to affected permittees advising them of their potential delinquency and requesting they review their records to verify whether the listed fees were previously paid, and if not, to submit the delinquent fees. Adjustments for recalculations, overpayments, previous unposted payments, duplicate or erroneous bills, and uncollectable bills are accounted for. Following is a summary of the collection status for this effort:

NJPDES DELINQUENT FEE COLLECTION EFFORT

Collection Status As of 9/30/2005	a	b	c	d	e	f	g
Billing Year	Expected Billing as per VCL	Billing Adjustment	Adjusted Billing	Paid since 10/1/2004	Total Paid to Date	Balance Outstanding	Percent Paid
	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	
FY2004	\$ 15,735,278	\$ (118,840)	\$ 15,616,438	\$ 600,345	\$ 14,660,137	\$ 956,301	93.9%
FY2003	\$ 13,568,600	\$ (330,812)	\$ 13,237,788	\$ 62,929	\$ 12,183,233	\$ 1,054,555	92.0%
FY2002	\$ 12,650,750	\$ (175,706)	\$ 12,475,044	\$ 25,448	\$ 12,136,227	\$ 338,817	97.3%
FY2001	\$ 12,491,850	\$ (293,723)	\$ 12,198,127	\$ 14,079	\$ 11,418,403	\$ 779,724	93.6%
FY2000	\$ 12,586,800	\$ (486,448)	\$ 12,100,352	\$ -	\$ 11,270,076	\$ 830,276	93.1%
Cummulative Total				\$ 702,801		\$ 3,959,673	

The Department is continuing its efforts to collect fees from delinquent facilities. Actions taken by the Department may include issuance of Administrative Orders with Civil Penalties by the Department's Water Compliance and Enforcement Element. The Department will conduct a similar collection effort to collect the overdue balances from subsequent fiscal year billings. Additional avenues being pursued for collection of delinquent fees include the referral of the delinquent facilities to a collection agency.

NJPDES PERMIT PROGRAM

Through the NJPDES permitting program, the Division of Water Quality (Division) regulates all operational discharges to the surface and ground waters of the State and for residuals generated from treatment systems. This Program also regulates industrial wastewater discharges from Significant Indirect Users ("SIU") to Domestic Treatment Works. The permit process involves pre-application conferences, application tracking, administrative and technical review of the permit applications, preparation of a detailed fact sheet on the facility and the permitted discharge activities, the development of technology and water quality based effluent limitations for conventional, non-conventional and toxic pollutants (including whole effluent toxicity), applicable anti-degradation and anti-backsliding analyses, monitoring requirements, site inspections, permit coordination, the review of public comments and agency responses, public hearings, permit issuance, and responses to requests for stay of permit conditions and adjudicatory hearings. In addition, the Division provides general information and assistance to all interested parties, reviews the toxicity testing results, utilizes computer models to calculate water quality based effluent limits, reviews sludge quality reports, and oversees local pretreatment programs. Furthermore, the Division participates in adjudicatory hearings and provides technical support on enforcement matters.

As part of the NJPDES program, the Division also implements the Stormwater Permitting Program which is a federally mandated program. A portion of the Stormwater Permitting Program (i.e., the Construction Stormwater General Permit) is administered through the State Soil Conservation Committee, New Jersey Department of Agriculture, and the 16 local Soil Conservation Districts.

The Department has developed and adopted a series of general permits to implement certain major aspects of the Stormwater Permitting Program. The Department also issues individual stormwater NJPDES permits. Where stormwater discharges are included in addition to wastewater, process water, and other non-stormwater discharges, individual NJPDES permits for Discharge to Surface Water are handled by either the Bureau of Point Source Permitting Region 1 or Region 2, and are processed jointly with the Bureau of Nonpoint Pollution Control.

NJPDES PERMIT PROGRAM SIGNIFICANT ACTIVITIES & ACCOMPLISHMENTS

NJPDES Permit Universe Status

The total NJPDES issued permits universe as of September 30, 2005 is 5305 permits. This is up from 5088 permits as of September 30, 2004, a 4.3% increase. Of these 5305 permits, 4993 (94%) are current, while only 312 are beyond their expiration date. The number of expired permits decreased from 328 as of September 30, 2004 to the current 312, a 4.9% reduction in one year. The Division is continuing its efforts to further reduce the number of permits operating with expired but administratively extended permits.

Municipal Stormwater Regulation Program

As part of its continuing efforts to implement the federally mandated Stormwater Regulation Program, the Department has developed a Statewide Stormwater/Nonpoint Education Program (Program). The Program consists of three phases: developing and distributing a series of posters to all municipalities, libraries, schools, highway rest stops, and public complexes; broadcasting radio public service announcements via a contract with the New Jersey Broadcasters Association; and developing and airing television commercials to be aired on New Jersey broadcast and cable stations. This program is designed to provide a comprehensive and cost-effective method to meet the federal public education requirements, and to educate New Jersey's citizens about their role in preventing nonpoint pollution.

Since the adoption of the NJPDES rule amendments and issuance of the Tier A, Tier B, Public Complex and Highway Agency Stormwater General Permits, the Department has continued to work closely with municipalities, stakeholders, and the New Jersey State League of Municipalities. As a result of these discussions, the Department modified all four (4) General Permits to address a number of concerns. These modifications were issued on August 1, 2005 and became effective September 1, 2005 and affect each of the 676 permittees within the program.

T1 Subsurface Disposal General Permit Coordination with Local Health Departments

The Division is working with local Health Departments to identify those facilities who have failed to obtain authorization under the Existing Sanitary Septic System General Permit NJ0130281. There are about 600 facilities presently authorized under this general permit. All of these sites were initially approved for discharge by local Health Departments, however, subsequent regulatory changes required them all to obtain a NJPDES permit. Based on conversations with representatives from some of the Health Departments, there are estimated to be hundreds of additional unpermitted sites statewide. The Division will be working with the Health Departments in an effort to identify and permit these unpermitted facilities.

Mining and Quarry General Permit

A general permit has been adopted by the Division for the Mining and Quarry industries effective May 1, 2005. This general permit for all facilities which engage in mining and quarrying operations established numeric limitations as well as the requirement for the facilities to implement a Stormwater Pollution Prevention Plan (SPPP). The purpose of the SPPP is to eliminate or minimize the discharge of pollutants to the environment by implementing Best Management Practices for industrial activities and their source materials. The permit also regulates the discharge of process water (mine dewatering) by establishing limits and effluent target numbers. Facilities can either discharge mine dewatering to surface waters and meet effluent limitations outlined in Part III of this permit, or design, construct, and maintain a system to contain or treat the volume of waste water/stormwater which result from a 10-year 24-hour storm event, plus sediment storage. The implementation of this

standard ensures that the facility does not discharge to surface waters except during the most extreme precipitation events.

A facility will also have to establish drainage control for their facility which requires that all facilities divert all stormwater to permitted outfalls or basins. Many mining and quarrying operations may also have hot mix asphalt and/or concrete plants in operation at their site. These facilities may be authorized under this permit provided they have drainage control and meet the other industry specific requirements.

The Mining and Quarry General Permit is presently being modified to address certain issues raised by the regulated community. The final modification is anticipated to be issued by the end of 2005.

NJPDES Stormwater and Ground Water Permit Short Course at Rutgers University, New Brunswick

The Division presented a short course on stormwater and ground water permits on September 21, 2005. The course provided an overview and update of who is regulated and the differences between general and individual permits. It covered information about industry specific general permits for facilities such as scrap metal, concrete, asphalt producers, and quarry and mining. It also provided information about the permitting of sanitary and industrial wastewater discharges, as well as lined surface impoundment operation and maintenance. The workshop was open to the regulated community, government regulators, attorneys and other interested parties.

Municipal and Industrial Surface Water Permitting

The Division has continued to work towards its goals of reducing its backlog for both industrial and municipal permits. The backlog for majors has continued in its steady downward trend, beginning with a high of 35% in January 2002, to 14% as of September 2005. The Division will maintain its focus on renewal of major permits and reduction of the backlog. As part of the above actions, the Division has successfully renewed a number of old permits that had been expired for over 10 years.

New Remediation Clean-up General Permit

In April 2005, the Division issued a new General Remediation Clean-up Permit (permit category "BGR") to authorize the point source discharges to surface water from primarily non-petroleum product related remediation projects. This new master general permit mirrors the existing master general petroleum product clean-up permit (permit category "B4B") which was renewed in 2003. Under this master general permit, the Division has renewed 46 existing individual permits by converting them from individual permits to general permit authorizations and has also authorized 5 new remediation projects.

Renewed DSW General Permits

In April 2005, the Division renewed the NJPDES general permits for Construction Dewatering (permit category "B7") and for Hydrostatic Test Water Discharges (permit category "BG"). The Construction Dewatering general permit authorizes discharges of groundwater that result from lowering the groundwater table during construction. The Hydrostatic Test Water general permit should interest those in the utilities, construction, and petroleum storage tank terminal industries. It covers discharges occurring during the hydrostatic testing of storage tanks and pipelines that have been cleaned pursuant to recognized federal, state, or general industry documented procedures.

In addition, the general renewal permit for Swimming Pool Discharges was issued draft on May 23, 2005, with finalization anticipated in the near future. This general permit authorizes discharges from

municipal, commercial and other non-residential swimming pools. These discharges result from the backflushing of filtration equipment used to remove solids and other materials from pool water.

Sludge Quality Assurance Regulations (N.J.A.C. 7:14C) Proposed for Reoption

The Division has proposed for reoption with amendments the Sludge Quality Assurance Regulations (N.J.A.C. 7:14C). These rules establish the conditions for sludge quality assurance reporting of all domestic and industrial treatment works that generate sludge in the State of New Jersey or that transport sludge into the State for use or disposal. The rules prescribe the method and frequency for reporting on the quantity, quality, and management method of sludge generated by such treatment works. The rules do not establish sludge limits, but only serve as the mechanism to gather data on sludge. The proposed amendments included: a reduction in the frequency of reporting of certain sludge generation information for domestic and industrial treatment works; an increase in the reporting frequency for certain industrial treatment works; the addition of parameters for which certain domestic or industrial treatment works must conduct monitoring; and, a clarification that all potable water treatment plants in New Jersey, whether or not they have a New Jersey Pollutant Discharge Elimination System permit to discharge, fall within the scope of the rules.

The proposal was published in the *New Jersey Register* dated November 7, 2005.

Statewide Sludge Management Plan Update

In Spring 2005, the Department of Environmental Protection proposed and sought comment on its update of the Statewide Solid Waste Management Plan (Plan) to be adopted under the Solid Waste Management Act, N.J.S.A. 13:1E-6. The 1978 amendments to the New Jersey Solid Waste Management Act (N.J.S.A. 13:1E-46) require that the Statewide Solid Waste Management Plan contain a sewage sludge management strategy. Section K of the Plan fulfills the statutory mandate and replaces the 1987 Statewide Sludge Management Plan (SSMP). Key components of this SSMP include the following:

- A historical perspective of sludge management in New Jersey;
- A policy that promotes beneficial use, but also recognizes the need for diversification;
- New Jersey's regulatory approach to sludge including a description of permitted and prohibited practices;
- An overview of existing management including production, quality and management statistics; and
- A description of ongoing and emerging issues including phosphorus limitations in land application, odors, mercury, radionuclides, dioxins, and the most recent recommendations of the National Academy of Sciences.

The Department held public hearings on the proposed update of the Plan in June 2005. Final adoption of the updated Plan is anticipated before the end of 2005.

NJPDES Program for Submission of Electronic Monitoring Report Forms

Electronic Data Interchange (EDI) was initiated by the Division beginning in July 2003. The electronic Monitoring Report Form (MRF) is designed to utilize a Microsoft Excel '97 based template. Permittees are now able to submit all of their MRFs electronically via the Internet. Information on the program and the NJPDES EDI application is available through the NJDEP On-Line web portal at: <https://www.njdeponline.com>. Once the Division receives an EDI application form and approves it, permittees have the ability to access and download their MRFs on-line. New participants continue to sign up for the convenience, accuracy and savings offered by EDI. As of September 30, 2005, 123

permittees are signed up to use EDI to submit their monitoring data. EDI accounted for 12.6% of the total records entered into the NJPDES database during the most recent quarter.

Information Available on DWQ Web Site

The Division of Water Quality continues to maintain a number of helpful documents on its website which were previously distributed to permittees with their Monitoring Report Forms (MRF). These may be accessed at: www.nj.gov/dep/dwq/bpm.htm.

Additionally, various NJPDES permit forms and checklists may be accessed at: www.nj.gov/dep/dwq/forms.htm.

Other permitting and technical information may be viewed and/or downloaded at: www.nj.gov/dep/dwq/permitng.htm. Added to the web site in recent years was a link to download data on sewage sludge production for 2002 and 2003. In the Fall of 2005, data on sewage sludge production for 2004 is being added to the available downloads. The sludge production information lists the modes of sewage sludge management used by domestic treatment plants and is organized by municipality and county.

The Division receives many public requests for information from the NJPDES database. Some of the more popular and most requested information has been posted on the web site for download and updates and expanded information is made available on a periodic basis. The direct link for accessing this information is www.nj.gov/dep/dwq/database.htm. The Division web site also includes a crosslink to a series of reports that are available through the Department's Open Public Records Act web site (i.e., via the DEP Data Miner utility). These semi-custom reports are generated through a link to the NJEMS database system. In addition to lists of permits selectable by a variety of categories, this interactive link allows for the retrieval and download of NJPDES DMR and WCR data. The DMR and WCR data is available for user selected periods beginning in July 2000. The report displays the raw data as reported by the permittees to the Department.

ENFORCEMENT ACTIVITIES

The Water Compliance and Enforcement Element monitors compliance with and enforces as necessary permits issued under the New Jersey Pollutant Discharge Elimination System (NJPDDES). In addition to the self monitoring reports submitted by the permittee, periodic on-site compliance evaluation inspections are carried out by enforcement staff as a means to evaluate the facilities compliance with all conditions of the permit. In addition, the compliance sampling inspections serve as a means of checking the validity of the self-monitoring data and the previously conducted compliance inspection.

The Department publishes an annual report on the implementation and enforcement actions taken by the Department and delegated local agencies during the preceding year pursuant to the Clean Water Enforcement Act.

Below are the tables summarizing the results of the Department's inspections, the enforcement actions issued and the penalties collected during FY2005.

FY 2005 INSPECTION ACTIVITY

Program	Total Inspections	Regular Inspections	Follow-up Inspections
Surface Water	1081	926	145
CSO/Collection System	122	122	N/A
Ground Water & GW-UIC's	1070	1026	44
Pretreatment	83	75	8
General Stormwater	915	852	63

FY 2005 PENALTY ASSESSMENT RECORD

Program	Amount Assessed	* Amount Collected
All programs	\$2,304,853	\$1,379,612

* The difference between the amount of penalties imposed and the amount of penalties collected is the result of penalties being contested through the Administrative Hearing process, the disposition of these cases not being resolved as of this date, and penalties collected from previous year's assessments.

APPENDIX A

NJPDES REGULATIONS

N.J.A.C. 7:14A-3.1

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

SUBCHAPTER 3. DETERMINATION OF PERMIT FEES

7:14A-3.1 FEE SCHEDULE FOR NJPDES PERMITTEES AND APPLICANTS

- (a) Except as provided in (j) and (l) below, the general conditions and applicability of the fee schedule for NJPDES permittees and applicants are as follows:
1. Except as provided by (k) below, the Department shall collect an annual fee for the billing year July 1 to June 30 from all persons that are issued a NJPDES permit or authorization to discharge under a NJPDES general permit or submit a NJPDES permit application or request for authorization.
 2. The Department shall not assess any fee to public schools or religious or charitable institutions.
 3. All NJPDES permittees/applicants that are issued a draft or final NJPDES permit, or that are issued an authorization to discharge under a final NJPDES general permit, shall submit payment within 30 days of assessment of the fee by the Department.
 - i. Upon receipt of a completed application or request for authorization, the Department shall assess the minimum fee as set forth in (h) below.
 - ii. Upon issuance of the final permit or of an authorization to discharge under a final NJPDES general permit, the annual fee shall be calculated and pro-rated for the period of the fee year remaining. The minimum fee already paid shall then be subtracted from the pro-rated assessment. In no case, however, will such payment of a pro-rated fee result in a fee that is less than the minimum fee for the category of discharge. The permittee may request a fee recalculation as provided at (a)6 below, once the first required monitoring report has been completed.
 4. Payment of all fees shall be made by check or money order, payable to "Treasurer, State of New Jersey" and submitted to:

New Jersey Department of the Treasury

Division of Revenue

PO Box 417

Trenton, New Jersey 08625-0417

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

5. If the permittee/applicant fails to submit payment to the Department of the Treasury within 30 days of assessment of the fee, the Department may, in its discretion, take one or more of the following actions:
 - i. Return the NJPDES permit application or request for authorization to the applicant;
 - ii. Deny issuance of a final permit or authorization under a final general permit;
 - iii. Revoke a final permit (including revocation of a permittee's authorization to discharge under a general permit); and/or
 - iv. Assess penalties pursuant to N.J.S.A. 58:10A-10 and N.J.A.C. 7:14-8.
6. If the permittee objects to the assessment, the Department shall recalculate a permit fee upon receipt of a request from the permittee in writing within 30 days of assessment of the fee. The Department shall not recalculate a fee where the permittee has failed to submit information in compliance with its NJPDES permit.
 - i. A permittee may only contest a fee imposed pursuant to (k) below based on the following:
 - (1) The Department has no factual basis to sustain the charges assessed in the fee;
 - (2) The activities for which the fee was imposed did not occur;
 - (3) The charges are false or duplicative; or
 - (4) The charges were not properly incurred because they were not associated with the Department's oversight or remediation of the case.
 - ii. A permittee may not contest a fee imposed pursuant to (k) below if the challenge is based on the following:
 - (1) An employee's hourly salary rate;
 - (2) The Department's salary additive rate, indirect rate, or fringe benefit rate; or
 - (3) Management decisions of the Department, including decisions regarding who to assign to a case, how to oversee the case or how to allocate resources for case review.
 - iii. A permittee objecting to a fee imposed pursuant to (k) below shall

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

include the following in a request for a fee review:

- (1) A copy of the bill;
 - (2) Payment of all uncontested charges, if not previously paid;
 - (3) A list of specific fee charges contested;
 - (4) The factual questions at issue in each of the contested charges;
 - (5) The name, mailing address and telephone number of the person making the request;
 - (6) Information supporting the request or other written documents relied upon to support the request.
7. The Department, in calculating Environmental Impact, shall use information reported by the permittee on Discharge Monitoring Reports (DMRs) and/or Monitoring Report Forms (MRFs) for the 12 month period for which data is available on the Department's computer. The selected 12 month monitoring period will be documented in the Annual NJPDES Fee Schedule Report. Where this information is not available, the Department shall use permit limitations, information submitted in permit applications, technical reports prepared by the Department or submitted by the permittee, or other permits issued by the Department.
8. Except as provided by (k) below, the Department, upon the revocation of a NJPDES permit, or revocation of a NJPDES/SIU permit in accordance with N.J.A.C. 7:14A-21.9, shall upon written request of the permittee prorate the fee for the number of days that the facility was in operation or was discharging under a valid NJPDES/SIU permit during the billing year and return to the permittee the amount that is in excess of the minimum annual fee for the specific category of discharge.
9. Except as provided by (k) below, the annual fee for all discharges is calculated by applying the formula:

Fee = (Environmental Impact x Rate) + Minimum Fee, where:

- i. Environmental Impact is the Department's assessment of potential risk of discharge to the environment as derived under (c) through (g) below.
- ii. Rate is the dollar cost for each weighted unit of Environmental Impact. Rate is calculated as follows:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Rate = (Budget-Sum of Minimum Fees)/Total Environmental Impact

- (1) Budget is the total budget for the category of Discharge.
- (2) The Sum of Minimum Fees is the total amount of minimum fees to be paid by all dischargers in the category of discharge.
- (3) Total Environmental Impact is the sum of environmental impact for all dischargers in the category.
- (4) The budget and the total environmental impact shall be adjusted to reflect those facilities, if any, assessed a maximum permit fee.

- iii. The minimum fee is a base cost to which the product of the Environmental Impact and the Rate identified under (a)9i and ii above is added. The minimum fee for any permit category is calculated by using the following formula and rounding to the nearest \$50.00 increment:

Minimum Fee = $\frac{\text{Hours} \times \text{Cost Per Hour}}{5}$, where:

Hours = Total hours allocated by the Department on the administration, including permit issuance, inspection and data management, of the permit per facility over a five year period in each category.

Cost Per Hour = Total personnel cost per hour, including fringe benefits and indirect costs.

The minimum fees are set forth in Table III below. For any new or revised category of discharge, the Department shall calculate a minimum fee and shall list it in the Annual NJPDES Fee Schedule Report for public comment under (b) below.

10. The maximum fee to be assessed for any category of discharge shall be 10 percent of the budget for the category of discharge.
 11. If a factual dispute involving a fee imposed pursuant to (k) below cannot be resolved informally, a permittee may request an adjudicatory hearing on the matter pursuant to N.J.A.C. 7:14A-17.2.
- (b) The Department shall prepare an Annual NJPDES Fee Schedule Report and provide for a public hearing on the Report.
1. The Annual NJPDES Fee Schedule Report shall include the following:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- i. A detailed financial statement of the actual administrative cost of the NJPDES program by account title;
 - ii. A detailed financial statement of the actual revenue collected, including any surplus which can be credited or any deficit to be assessed in determining the fee schedule;
 - iii. A detailed financial statement of the anticipated cost of the NJPDES program, including:
 - (1) A breakdown of the program by account title;
 - (2) An estimate of the amount of fees that will be collected; and
 - (3) The current year's fee schedule.
 - iv. A report of the NJPDES program activities, including:
 - (1) A list of permits issued;
 - (2) A list of facilities inspected;
 - (3) A list of administrative orders and administrative consent orders issued by the Department (by type of order and discharge involved); and
 - (4) A summary of variance request activities under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.).
 - v. A list of all minimum fees calculated in accordance with (a)9iii above, and the basis for any new or revised minimum fee.
2. The Department shall provide for a hearing on the Annual NJPDES Fee Schedule Report. The Department shall provide public notice of the hearing at least 30 days prior to the date of the hearing:
 - i. In the New Jersey Register and one newspaper of general circulation; and
 - ii. By mailing a copy of the Report to each NJPDES applicant/permittee the Department identifies as subject to a NJPDES annual fee.
3. The Department shall publish a Notice of Adoption of the Annual NJPDES Fee Schedule Report, which shall include a summary of the public comments and Department responses. Upon publication of this Notice of Adoption in the New Jersey Register, any adopted new or revised minimum fee(s) identified in the Notice of Adoption shall be

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

incorporated into Table III as an administrative change.

- (c) The annual fee for discharges to surface water is calculated by using the following Environmental Impact in the annual fee formula:
1. The Environmental Impact of a discharge to Surface Water from an industrial treatment works (ITW) regulated under an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Total Pollutant Load + Heat Load) where:

- i. Total Pollutant Load is the sum of all limited pollutants (in kilograms per day) multiplied by their associated risk factors as listed in Table I below.
 - (1) Net loadings will be used if a net limit has been established in the NJPDES permit. If a permittee reports a pollutant load less than zero, a zero will be used to calculate the Total Pollutant Load.
 - (2) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.
 - ii. Heat Load is the average mBTU's (million British Thermal Units) per hour of the effluent discharged. Where Heat Load is not reported in mBTU's per hour, the Department shall estimate the Heat Load using the calculated difference between the influent and effluent temperature (in degrees celsius) multiplied by the amount (in million gallons per day) of effluent discharged and a unit conversion factor of 0.6255. The Department shall use an average influent temperature of 5.57 degrees celsius during the period November to April and 18.87 degrees celsius during the period May to October.
2. The Department shall assess an additional fee to NJPDES permittees who request a variance under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.). The annual fee shall be assessed on the basis of the administrative cost that is incurred by the Department and the cost of the technical review performed by a consultant hired by the Department.
 3. The Environmental Impact of a discharge to surface water from a domestic treatment works (DTW) regulated under an individual NJPDES permit is derived by applying the formula:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Environmental Impact = Average kilograms per day of oxygen demand discharged, as measured by Biochemical Oxygen Demand (BOD5), Carbonaceous Biochemical Oxygen Demand (CBOD5) or other oxygen demand parameter selected by the Department, as determined in accordance with (a)7 above.

4. The Environmental Impact value for any type of discharge to surface water regulated under a general permit shall be zero.
- (d) Except as provided by (k) below, the annual fee for discharges to groundwater, except for residuals and landfills covered in (e) and (f) below, is calculated by using the following Environmental Impact in the annual fee formula:
1. The Environmental Impact of a Discharge to Groundwater regulated by an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Risk x Quantity x Groundwater Rating Factor)
where:

- i. Risk is the sum of the rating numbers, based on the degree of hazard, assigned by the Department to each type of waste stored, treated or discharged. The rating numbers are assigned as follows:

<u>Rating</u>	<u>Risk</u>
1	Non-contact cooling water, treated groundwater filter backwash, sanitary wastewater with at least secondary treatment
2	Other treated and untreated sanitary wastewater, food processing waste, stormwater runoff including runoff from non-hazardous waste storage areas, sanitary sludge, discharge from quarry operations including sand and gravel operations
5	Non-hazardous industrial process waste
15	Metal plating waste, hazardous industrial process waste, landfill leachate, or groundwater, wastewater, stormwater runoff or sludge containing hazardous constituents

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

ii. Quantity is the average daily volume in millions of gallons discharged by the permittee for the monitoring period selected by the Department in (a)7 above. Where quantity is unavailable or is unknown, the Department shall assign a default quantity of 0.002 million gallons per day for discharges from domestic treatment works and a default quantity of 0.001 million gallons per day for other discharges.

iii. Groundwater Rating Factor is one tenth of the sum of the Groundwater Monitoring Status Factor, the Aquifer Factor, Groundwater Use Factor and Permeability Rating where:

(1) Ground Water Monitoring Status Factor is the rating number, assigned to the facility based on the level of monitoring and/or remediation required at the facility, as set forth in the NJPDES permit, administrative order, administrative consent order or directive letter as follows:

<u>Rating</u>	<u>Status</u>
1	Permittee is not required to conduct groundwater monitoring under the NJPDES permit
2	Permittee is conducting post-closure or post remediation monitoring
2	Permittee is required to conduct detection monitoring
5	Groundwater remediation and/or hydraulic source control is being performed at the site.
5	Alternative concentration limits have been established
10	Compliance monitoring is required as groundwater contamination has been identified in detection monitoring phase and/or groundwater remediation is required

(2) Aquifer Factor is the rating number, based on ground water yield potential, assigned to each formation listed in Table II below. Where a facility is located on an unlisted formation, the Department shall determine the aquifer factor. Where the facility is located on more than one formation the highest rating number will be assigned.

(3) Ground water use is the rating number assigned to the municipality where the permitted facility is located based on the

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

percentage of the municipality that relies on public or private wells for drinking water and the volume of ground water withdrawn in million gallons per day (MGD). The Department, in the Annual NJPDES Fee Schedule Report, prepared pursuant to (b) above, shall set forth the individual ratings assigned to each municipality. Where a municipality's percent use and volume result in different ratings, the highest Ground Water Use rating number derived below shall apply. Ground Water Use rating numbers are assigned as follows:

Rating	Ground Water Use	Percent Use	Volume in MGD
5	A	>50%	>3
3	B	10% - 50%	1 - 3
1	C	<10%	<1

- (4) Permeability Rating is the rating number, based on hydraulic conductivity in centimeters per second, of the geological formation immediately beneath the regulated unit or if present, the facility liner material for facilities in detection monitoring. For all other facilities, the permeability rating is based on the hydraulic conductivity of the geological material contaminated. Facilities assigned a Groundwater Monitoring Status factor of 10, that have demonstrated control of the plume of groundwater contamination shall be assigned a permeability rating of 10. Where permeability is unavailable or is unknown, the Department shall assume a permeability rating of 20. The rating numbers are assigned as follows:

<u>Rating</u>	<u>Permeability</u>
10	$<10^{-7}$
11	10^{-6}
12	10^{-5}
14	10^{-4}
18	10^{-3}
20	10^{-2}
22	$>10^{-2}$

2. The Environmental Impact value of any type of discharge to ground water regulated under a general permit shall be zero.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- (e) The Environmental Impact value for facilities which land apply, handle or distribute residuals listed in (h)3 below shall be zero.
- (f) Except as provided by (k) below, the annual fee for discharges to ground water from sanitary landfills and sites containing wrecked or discarded equipment is calculated by using the following Environmental Impact in the annual fee formula:
 - 1. The Environmental Impact of a Discharge to Ground Water from sanitary landfills and sites containing wrecked or discarded equipment is derived by applying the formula:

Environmental Impact = (W1 + W2) x (Closure Status Factor + Ground Water Rating Factor) where:

- i. W1 is the total number of acres filled as of January 1, 1985 multiplied by the sum of the rating numbers, based on the degree of hazard, assigned by the Department to each waste type (as set forth in N.J.A.C. 7:26-2.13) permitted for disposal before January 1, 1985. The rating numbers are assigned as follows:

Rating	Waste Type
1	Types 13, 23
2	Types 10, 12, 27, 72, 73, 74
4	Types 18, 25
8	Types 26, 70 and wrecked or discarded equipment
16	Types 17, 28, 76, 77

- ii. W2 is the total cumulative amount of each waste type received (in cubic yards) since January 1, 1985 divided by 4,840 (the square yards in an acre) and multiplied by the rating number assigned to each waste type as set forth in (f)1i above.
- iii. Closure Status Factor is the rating number, based on the operating status of the landfill, assigned by the Department to each facility. The rating numbers are assigned as follows:

Rating	Closure Status
1.0	Operating landfill and sites containing wrecked or discarded equipment
0.5	Landfill terminated after January 1, 1982 without a Department approved closure plan

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- 0.2 Landfill terminated prior to January 1, 1982
- 0.1 Landfill terminated and properly closed in accordance with a Department approved closure plan

iv. Ground Water Rating Factor is the number derived under (d)iii above.

(g) The annual fee for discharges by a significant indirect user to a domestic treatment works is calculated by using the following Environmental Impact in the annual fee formula:

1. The Environmental Impact of a discharge by a significant indirect user (SIU) to a domestic treatment works (DTW) is derived by applying the formula:

Environmental Impact = (Total Pollutant Load)

- i. Total Pollutant Load is the sum of all limited pollutants (in kilograms per day) multiplied by their associated risk factors as listed in Table I below.

- (1) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.

(h) The fees for exemptions for certain types of residual use or disposal operations shall be assessed as follows:

1. Permit exemptions or Letters of Land Application Management Approvals authorizing the land application of sludge-derived products at specific sites in accordance with a Department-approved distribution program shall be assessed a fee of \$250.00 for the duration of the permit exemption or Letter of Land Application Management Approval. The Department will not consider a request for a permit exemption or Letter of Land Application Management Approval complete unless the request is accompanied by the fee; and
2. General distribution permit exemptions providing Department approval of a sludge derived product distribution program which is not directly regulated for residuals handling through an individual NJPDES permit

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

shall be assessed a fee of \$2,700 for the duration of the exemption. The Department will not consider a request for a permit exemption complete unless the request is accompanied by the fee.

- (i) (Reserved)
- (j) For NJPDES Permit No. NJ0088323 (referred to as the category 5G3 "construction activity" stormwater general permit), there is no annual or minimum fee. Instead, a fee of \$300.00 shall be paid by check or money order, payable to "Treasurer, State of New Jersey," and submitted to the applicable soil conservation district along with each request for authorization submitted under that permit, except as provided in (j)1 below. The soil conservation district shall forward all such checks and money orders to the State Soil Conservation Committee in the Department of Agriculture, which shall cause such checks and money orders to be deposited to the credit of the State. The soil conservation district shall not certify any request for authorization that is not accompanied by this fee.
 - 1. For a project that the New Jersey Department of Transportation (NJDOT) is constructing or proposes to construct for which a stormwater discharge is regulated under this general permit, the fee of \$300.00 shall be paid to the Department.
- (k) The fee for discharges to groundwater required for conducting remediation, as defined by N.J.A.C. 7:26E, of contaminated sites, and for any NJPDES discharge to groundwater permits issued by the Site Remediation Program, is calculated and billed through requirements specified in N.J.A.C. 7:26C-9.3.
- (l) The Department shall assess, where applicable, the fee for laboratory certification pursuant to the schedule set forth at N.J.A.C. 7:18.
- (m) Any fee under this section that is subject to N.J.A.C. 7:1L shall be payable in installments in accordance with N.J.A.C. 7:1L.

Minimum Fees

<u>Permit Fee Category¹</u>	<u>Min Fee Code</u>	<u>Minimum Fee</u>
1. Major DSW Domestic Treatment Works (DTW) – Individual Permit	MMJ	\$9,650
2. Minor DSW Domestic Treatment Works (DTW) – Individual Permit	MMI	\$3,600
3. Combined Sewer Overflow – Individual Permit Component or General Permit	CSO	\$8,150
4. Major Industrial DSW – Individual Permit	IMJ	\$8,600
5. Minor Industrial DSW – Individual Permit	IMI	\$3,600
6. General Permit – Industrial DSW, DGW, or both (unless otherwise listed)	IGN	\$2,000
7. Industrial Stormwater - Individual Permit	IST	\$3,550
8. Stormwater - Basic Industrial General Permit (5G2)	SBG	\$750
9. Municipal Stormwater – Tier B General Permit (R10)	STB	\$500
10. Municipal Stormwater – Tier A General Permit (R9)		
(population range 0-1,000)	SA1	\$600
(population range 1,001-5,000)	SA2	\$1,050
(population range 5,001-10,000)	SA3	\$2,000
(population range 10,001-15,000)	SA4	\$3,000
(population range 15,001-20,000)	SA5	\$4,050
(population range 20,001-25,000)	SA6	\$5,250
(population range 25,000+)	SA7	\$9,000
11. Municipal Stormwater – Public Complex General Permit (R11)		
(population range 1,000-2,999)	SP1	\$900
(population range 3,000-5,999)	SP2	\$1,500
(population range 6,000-8,999)	SP3	\$2,600
(population range 9,000+)	SP4	\$3,600
12. Municipal Stormwater – Highway Agency General Permit (R12)		
(milage range 0-9)	SH1	\$550
(milage range 10-199)	SH2	\$2,450
(milage range 200-399)	SH3	\$5,100
(milage range 400+)	SH4	\$9,800
13. DGW – Initial Individual Permit ²	GWN	\$5,950
14. DGW – Renewed or Continued Individual Permits ²	GWE	\$2,400
15. DGW - General Permit (I1, I2 and LSI)	GGN	\$750
16. DGW - General Permit (T1)	GT1	\$350
17. DGW - Operating Landfill Individual Permit	LND	\$5,950
18. Residuals Use or Disposal Operations (unless otherwise listed)	RES	\$10,100
19. Residuals - Food Processors / WTPs ³ Individual Permit	RFP	\$3,800
20. Residuals - Category Z Individual Permit ⁴	RTZ	\$1,800
21. Residuals - General Permit (ZG and 4G)	RTG	\$450
22. Residuals - Category 04 Individual Permit ⁵	RPH	\$700
23. Residuals – Land Application General Permit (unless otherwise listed)	RSG	\$750

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

24. Significant Indirect User (SIU) (Pretreatment)	SIU	\$5,450
25. Landfills operating or terminated after January 1, 1982 without an approved closure plan	⁶	\$2,500
26. Terminated Landfills properly closed or closed prior to January 1, 1982	⁶	\$500.00
27. Emergency Permit issued pursuant to N.J.A.C. 7:14A-6.14		⁷

¹ For names corresponding to the general permit category see N.J.A.C. 7:14A-6.13(c).

² For a domestic or industrial facility issued an individual NJPDES Discharge to Groundwater permit, the minimum fee is \$5,950 for the first five years of that permit, and \$2,400 if the permit is renewed or administratively continued. All other domestic or industrial facilities issued an individual NJPDES Discharge to Groundwater permit shall be assessed a minimum fee of \$2,400.

³ WTPs refer to potable water treatment plants.

⁴ Refers to a Residuals Transfer Facilities individual permit.

⁵ Refers to a Residuals - Reed Beds individual permit.

⁶ This permit is issued and administered by the Division of Solid and Hazardous Waste.

⁷ Fee based on category for type of discharge.
