INTRODUCTION

The New Jersey Department of Environmental Protection ("Department") is responsible for administering the New Jersey Pollutant Discharge Elimination System ("NJPDES") program that regulates the discharge of pollutants to the surface and ground waters of the State. The Department's authority is derived from the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1 et seq. ("State Act"), pursuant to which New Jersey qualifies for and has primary responsibility under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) for the administration of the NJPDES permitting program.

The NJPDES program rules are set forth at N.J.A.C. 7:14A. All persons who wish to discharge wastewater in the State are required to obtain a NJPDES discharge permit from the Department. Pursuant to Section 9 of the State Act, the Department is authorized to "establish and charge reasonable annual administrative fees, which fees shall be based upon, and shall not exceed, the estimated cost of processing, monitoring and administering the NJPDES permits." Fees are assessed to cover the Department's costs to issue and manage NJPDES permits. The NJPDES budget and fee schedule covers activities including the review of NJPDES permit applications, the development of specific permit terms and conditions including wasteload allocations, water quality based effluent limitations, stream monitoring and modeling, conducting compliance and 24-hour sampling inspections, ground water compliance sampling, supervising the installation of ground water monitoring wells, evaluating and approving ground water remediation alternatives, evaluating compliance with the terms and conditions of each NJPDES permit, and providing for the general administrative costs of the NJPDES program including regulatory support, data processing, and budgeting. N.J.S.A. 58:10A-10 provides the Department with the authority to seek civil administrative penalties for failure to pay assessed NJPDES permit fees.

FY 2008 NJPDES BUDGET PROPOSAL

The NJPDES Program encompasses both permitting and enforcement activities. Permitting activities include developing, issuing, monitoring and administering NJPDES permits. Enforcement activities include inspections and, when appropriate, follow up activities to gain permit compliance. The total Water Pollution Control (WPC) budget consists of the NJPDES and Enforcement Services budgets that are funded by State appropriations given at the start of the State fiscal year. The Department assesses permit fees to cover 100% of the NJPDES Services budget and all fees collected are deposited directly into the General Fund within the Department of the Treasury. Similarly, all penalties collected are also deposited into the General Fund.

The total costs for the WPC as it pertains to NJPDES permitted facilities in the work plan and budget are presented in Appendix B and C respectively. For fiscal year (FY) 2008, the total costs for program activities are \$24.8 million, an increase of \$2.5 million from the previous budget year. The portion of the NJPDES program that needs to be funded through NJPDES permit fees in FY2008 is \$21.6 million. The Department assessed \$12.5 million of the total budget as fees for the Surface Water portion of the program; \$0.5 million for the Significant Indirect User portion; \$2.8 million for the Ground Water (including Landfills) portion; \$0.2 million for the Residuals portion and \$5.6 million for the for the Stormwater portion. This amounts to a total assessment of \$21.6 million (100 percent of the \$21.6 million budget). The NJPDES fees for FY2008 cover the period July 1, 2007 to June 30, 2008. There are no changes to the minimum fee schedule this year.

FY2008 WATER POLLUTION CONTROL ACT- BUDGET SUMMARY

	ENFORCEMENT SERVICES BUDGET (CWEA)	NJPDES SERVICES BUDGET	TOTAL WATER POLLUTION CONTROL PROGRAM
TOTAL WORK-YEARS	26.77	177.45	204.22
TOTAL PERSONNEL COSTS	\$3,031,152	\$20,092,567	\$23,123,718
TOTAL OPERATING COSTS	\$165,124	\$1,540,416	\$1,705,540
TOTAL PROGRAM COSTS	\$3,196,276	\$21,632,983	\$24,829,258

The FY2008 Water Pollution Control Program Budget will provide funding for a total of 204.22 work years. This represents a decrease of 11.69 work years from the previous budget cycle. The NJPDES portion of the Water Pollution Control Program budget is expected to cover the costs of 177.45 positions assigned to the NJPDES program. This includes 127.38 work years assigned to the Division of Water Quality, 28.57 assigned to the Water Compliance and Enforcement Element and 21.5 to other DEP units. An additional 26.77 work years will be funded from the Enforcement Water Pollution Control Appropriation. These 26.77 work years are assigned to the NJPDES Program for performance of additional NJPDES related functions and activities that historically have been deemed outside the scope of the NJPDES Fee Program. The Department has included detailed workplans for the various program categories in Appendix B. The expected outputs for FY2008 are based upon current staffing.

COMPARISON OF NJPDES STAFFING LEVELS

BUDGET CATEGORY	FY2005	FY2006	FY2007	FY2008
MUNICIPAL	49.77	51.92	51.19	50.29
INDUSTRIAL	40.59	41.08	41.62	40.05
GROUNDWATER/STORMWATER	59.41	62.88	61.61	55.50
SIGNIFICANT INDIRECT USER	3.48	3.90	3.87	3.04
Enforcement-NJPDES funded	36.83	33.72	33.21	28.57
NJPDES PROGRAM	190.08	193.50	191.50	177.45
Enforcement-CWEA funded	36.52	26.06	24.41	26.77
TOTAL	226.60	219.56	215.91	204.22

The current average salary cost for each position in the NJPDES program is \$70,695. The average salary cost for FY2008 has been determined based upon the anticipated salary costs as of January 1, 2008 and includes annual merit increases and promotions. The fringe benefit rate of 33.15 percent has been established by the Department of Treasury in its current OMB Circular Letter. The indirect rate of 20.29 percent, of salary plus fringe, has been established by the Department of Environmental Protection for FY2008.

The Total Budget increased from \$22.3 million in FY2007 to \$24.8 million in FY2008 mainly due to increased salary costs. The Department has included \$1.71 million for non-salary costs. This is an increase of \$0.41 million over the previous year. Routine operational costs for office supplies, printing, copiers, telephones, postage, vehicle rental and maintenance, legal advertising and professional services total \$1.32 million. Other major operational costs include the following:

Division of Law and Public Safety and Office of Administrative Law - A total of \$358,422 has been included in the NJPDES/Enforcement-Water Pollution Control program budget to cover the legal assistance provided by the Division of Law and Public Safety and the Office of Administrative Law. Activities to be funded include those related to permit adjudication, general legal assistance for rule making, and enforcement action adjudication. The Clean Water Enforcement Act provides a cost recovery mechanism for unsuccessful challenges to the Department's enforcement actions. The Department must also cover the costs incurred by the Office of Administrative Law (OAL) for any permit or enforcement cases which are sent to the OAL for processing. Although many cases are settled without a hearing, the OAL still incurs costs to process these cases.

Office of Information Technology (OIT) - A total of \$29,288 has been included for OIT in the NJPDES/Enforcement Water Pollution Control program budget for FY2008 to cover the cost of computer system operational support.

FY2008 NJPDES FEE ASSESSMENT METHODOLOGY

The Department first established a fee assessment program in 1981. Individual permit fees were based on the facility's potential environmental impact, the billing rate for the category of discharge, and the minimum fee for the category of discharge. The billing rate for each category of discharge is determined annually by subtracting the total minimum fees paid by the permittees in the category of discharge from the total budget for the category of discharge, and then dividing that value by the sum of the calculated environmental impact potentials for all of the dischargers within the category.

The fee schedule is assessed in accordance with current rules. A copy of the current fee regulations is included in Appendix A. This year the percentage of the NJPDES program budget derived from the assessment of minimum fees is 51% of the total program costs, which also includes fringe, indirect and operating costs. The remaining percentage of the NJPDES program costs will continue to be assessed in a manner proportionate to the relative environmental impact potential of the permittee's discharge, pursuant to the fee assessment formula at N.J.A.C. 7:14A-3.1(c) through (g). If a NJPDES permit identifies more than one discharge category, a fee is assessed for each category.

ADJUSTMENTS/CORRECTIONS TO MINIMUM FEE SCHEDULE

Minimum fees are calculated as specified in N.J.A.C. 7:14A-3.1(a)9iii. No changes to the minimum fees are proposed this year.

The minimum fee schedule for FY2008 is summarized in the following table:

Permit Fee Category	Min Fee Code	Minimum Fee FY 2008
Major DSW Domestic Treatment Works (DTW) - Individual Permit	MMJ	\$11,150
Minor DSW Domestic Treatment Works (DTW) - Individual Permit	MMI	\$4,200
Combined Sewer Overflow - Individual Permit Component or General Permit	CSO	\$9,450
Major Industrial DSW - Individual Permit	IMJ	\$9,950
Minor Industrial DSW - Individual Permit	IMI	\$4,200
General Permit - Industrial DSW, DGW, or both (unless otherwise listed)	IGN	\$2,300
Industrial Stormwater - Individual Permit	IST	\$4,100
Stormwater - Basic Industrial General Permit (5G2)	SBG	\$800
Municipal Stormwater – Tier A General Permit (R9) Range 1k	SA1	\$600
Municipal Stormwater – Tier A General Permit (R9) Range 5k	SA2	\$1,050
Municipal Stormwater – Tier A General Permit (R9) Range 10k	SA3	\$2,000
Municipal Stormwater – Tier A General Permit (R9) Range 15k	SA4	\$3,000
Municipal Stormwater – Tier A General Permit (R9) Range 20k	SA5	\$4,050
Municipal Stormwater – Tier A General Permit (R9) Range 25k	SA6	\$5,250
Municipal Stormwater – Tier A General Permit (R9) Range 25k+	SA7	\$9,000
Municipal Stormwater – Tier B General Permit (R10)	STB	\$500
Municipal Stormwater – Public Complex General Permit (R11) Range 3k	SP1	\$900
Municipal Stormwater – Public Complex General Permit (R11) Range 6k	SP2	\$1,500
Municipal Stormwater – Public Complex General Permit (R11) Range 9k	SP3	\$2,600
Municipal Stormwater – Public Complex General Permit (R11) Range 9k+	SP4	\$3,600
Municipal Stormwater – Highway Agency General Permit (R12) Range 9	SH1	\$550
Municipal Stormwater – Highway Agency General Permit (R12) Range 199	SH2	\$2,450
Municipal Stormwater – Highway Agency General Permit (R12) Range 399	SH3	\$5,100
Municipal Stormwater – Highway Agency General Permit (R12) Range 400+	SH4	\$9,800
DGW – Initial Individual Permit ²	GWN	\$6,000
DGW – Renewed or Continued Individual Permits ²	GWE	\$2,750
DGW - General Permit (I1, I2 and LSI)	GGN	\$900
DGW - General Permit (T1)	GT1	\$450
DGW - Operating Landfill Individual Permit	LND	\$6,900
Residuals Use or Disposal Operations (unless otherwise listed)	RES	\$10,600
Residuals - Food Processors / WTPs ³ Individual Permit	RFP	\$4,000
Residuals - Category Z Individual Permit ⁴	RTZ	\$2,050
Residuals - General Permit (ZG and 4G)	RTG	\$500
Residuals - Category 04 Individual Permit ⁵	RPH	\$850
Residuals – Land Application General Permit (unless otherwise listed)	RSG	\$800
Significant Indirect User (SIU) (Pretreatment)	SIU	\$5,750

² For a domestic or industrial facility issued an individual NJPDES Discharge to Groundwater permit, the minimum fee is \$6,000 for the first 5 years of the initial permit, and \$2,750 if the permit is renewed or administratively continued.

³WTPs refer to potable water treatment plants.

⁴ Refers to a Residuals Transfer Facilities individual permit.

⁵ Refers to a Residuals - Reed Beds individual permit.

FY2008 PERMIT FEE SCHEDULE & ENVIRONMENTAL IMPACT CALCULATIONS

For FY2008, the total amount to be assessed through NJPDES permit fees is \$21.6 million. Fees are assessed based on the minimum fee for each facility and the facility's potential impact on the environment. The environmental impact fee component is calculated in accordance with the NJPDES regulations in N.J.A.C. 7:14A-3.1 (see Appendix A). The minimum fee is added to the fee calculated based on the environmental impact potential of the discharge. An analysis of the rate calculations is provided in Appendix D.

Municipal Surface Water Permit Fees - The FY2008 NJPDES budget for this permit category is \$6,731,318. The total amount of fees to be assessed for municipal surface water permits is \$6,731,318. Minimum fees from 220 municipal facilities will generate \$1,708,800 (25%) of the total billings. This year's environmental impact portion of the fee is based on the loadings of BOD, COD or CBOD reported during the period January 1, 2006 through December 31, 2006.

Industrial Surface Water Permit Fees - The NJPDES industrial program budget for FY2008 is \$5,737,125. The total amount of industrial permit fees assessed in the category is \$5,737,125. Minimum fees from 402 industrial facilities will provide \$1,591,200 (28%) of the total billings. This year's fees are based on the loadings for all limited pollutants reported during the period January 1, 2006 through December 31, 2006 and the risk factor associated with each parameter. As in years past, where a facility's discharge is limited for BOD, COD and/or TOC, the Department is using the discharger's BOD loading for the pollutant loading calculation, rather than the oxygen demand parameter discharged in greatest quantity, provided the facility is meeting its whole effluent toxicity limits.

Significant Indirect Users (SIU's) - The NJPDES SIU program budget is \$520,482. The total amount of fees to be assessed is \$520,482. Minimum fees from 72 facilities will provide a total of \$408,250 (78%) of the total billings. The environmental impact calculation for SIU permits is based on the total weighted loading of all limited pollutants discharged during the period January 1, 2006 through December 31, 2006 and the risk factors for SIUs. These risk factors are specified in Table I of N.J.A.C. 7:14A-3.1 entitled, "Indirect Users".

Residuals - The Department will assess fees totaling \$190,050 to 55 facilities which handle, distribute and land apply sludge. These facilities are charged applicable minimum fees and are not subject to an environmental impact calculation.

Nonpoint Pollution Control Permit Fees - The NJPDES Nonpoint Pollution Control program budget is \$8,644,058. The program issues permits for Operational Ground Water Discharges and for the Stormwater Permitting Program.

Operational Ground Water Permit Fees - The total amount of fees to be assessed for ground water discharge permits is \$2,819,058. Minimum fees from 914 DGW permits and 23 landfill permits will provide \$1,538,000 (55%) of the total billings. Fees for operating landfills regulated by the Division of Water Quality are based upon the cubic yards of waste received at the landfill during the period 1985 through 2006 and the acres filled as of 1985. Fees for operating discharges are based on reported flow during the period January 1, 2006 to December 31, 2006.

Stormwater Permitting Program Fees - The total amount of stormwater fees to be assessed from 3574 stormwater permits is \$5,634,950. These facilities are not subject to an environmental impact calculation. Fees for Industrial Stormwater General and Individual Permits are set in the NJPDES Rules (N.J.A.C. 7:14A-3.1 - Table III). Fees for the Construction Stormwater General Permit are set in the NJPDES Rules (N.J.A.C. 7:14A-3.1(j)) at \$300 one time charge for all permittees (revised February 2, 2004, see 36 N.J.R. 813). Fees for the Construction Stormwater General Permit (with the exception of Construction Permit authorizations issued to the N.J. Department of Transportation which are paid to the Department) are used entirely by the Soil Conservation Districts (SCD) and the Department of Agriculture which provides support for SCD operations, and are therefore itemized separately.

Proposed fee schedules for each permitted facility under the various discharge categories are included in Appendix E. Any questions concerning fee assessments for individual facilities should be directed to the NJPDES Fee Management Unit within the Division of Water Quality at (609) 984-4428.

PROPOSED FY2008 NJPDES FEE SCHEDULES AND RATES

Discharge Category	Assessment	Rate
Municipal Surface Water Permits	\$6,731,318	150.9705
Industrial Surface Water Permits	\$5,737,125	4.7628
Pretreatment (SIU's Permits)	\$520,482	3.9605
Municipal/Industrial Ground Water Permits	\$2,269,058	5300.9344
Land Applications of Residuals	\$190,050	0
Operating Landfills	\$550,000	2.6496
Stormwater Permits	\$5,634,950	0
TOTAL NJPDES BILLING	\$21,632,983	

ACTUAL EXPENDITURES AND FEE COLLECTIONS

The actual costs for FY2006 and FY2007 are as reported by the New Jersey Comprehensive Financial System (NJCFS). The appropriate fringe benefit rate and indirect cost rate established by the Department of Treasury and the Department of Environmental Protection were added to the total salary cost to obtain total personnel costs. Operating costs for both FY2006 and FY2007 were charged against the NJPDES Account as reported by NJCFS.

The fringe benefit and indirect cost rates assessed to the NJPDES program are as follows. Please note, the Indirect Cost rate is applied to Salary plus fringe benefits.

	FY2006	FY2007
Fringe Benefits	32.75	34.75
Indirect Cost	26.21	21.24

FY2007 Actual Expenditures and Fee Collections

For State Budget purposes, the Water Pollution Control Program includes the Clean Water Enforcement Program, the NJPDES Program and the Treatment Works Approval Program. The total cost (not including fringe benefit and indirect costs) to administer the Water Pollution Control Program by the Department during the period July 1, 2006 to June 30, 2007 (FY2007) was \$18,038,589. The program expenditures for FY2007 are presented below.

FY2007 RESOURCE/EXPENDITURE ANALYSIS WATER POLLUTION CONTROL PROGRAM

Resources	
Appropriations:	\$14,161,000
Additional Appropriation:	\$2,455,762
Credits:	\$1,282,389
Transfers:	\$607,263
Carry Forward:	
Reverted:	(\$715)
TOTAL RESOURCES:	\$19,892,398

Expended:	\$1,690,074
TOTAL EXPENDITURES:	\$18,038,589
BALANCE	\$1,853,809
 Off Budget Items	
Additional Revenue	\$5,996,000
Fringe Benefit Costs:	\$5,517,401
Indirect Costs:	\$4,544,258
TOTAL OFF BUDGET COSTS:	(\$4,065,659)

Fees for the NJPDES Program totaling \$19,768,700 were assessed by the Department on January 8, 2007. Billing adjustments totaling \$413,052 reduced the original assessment to \$19,355,648. The total fees received by the Department as of September 30, 2007 against the FY2007 adjusted fee assessment is \$18,703,096. The Department is continuing its efforts to collect the remaining overdue balance and substantial progress is being made.

NJPDES FEE COLLECTION FY2007 as of September 30, 2007

Billing Category	Initial Billing	Billing Adjustment	Credit from FY2006	Adjusted Billing	Paid YTD	Percent Paid
Municipal SW	\$ 5,883,000	\$ (11,403)	\$ -	\$ 5,871,597	\$ 5,834,855	99.37%

Delinquent Fee Collections

The Department continues to pursue remaining overdue fee balances from prior years. Current efforts are focused on the FY2001 and later delinquent fees. The Department has sent second and third notices to all permittees with potentially overdue fees up through and including fiscal year 2007. The third notices were sent by certified mail advising the affected permittees of their delinquency and notifying them to pay the delinquent fees. Additionally, some of the delinquent facilities have been referred to a collection agency. Adjustments for calculation errors, overpayments, previously unposted payments, duplicate or erroneous bills, and uncollectable bills are accounted for. Following is a summary of the collection status for this effort:

NJPDES DELINQUENT FEE COLLECTION EFFORT

Collection Status As of 9/30/2007	a	b	c	d	e	f	g
Billing Year	Initial Billing	Billing Adjustment	Adjusted Billing	Paid since 10/1/2006	Total Paid to Date	Balance Outstanding	Percent Paid
FY2006	\$ 18,295,950	\$ (425,319)	\$ 17,870,631	\$ 86,236	\$ 17,488,648	\$ 381,983	97.9%
FY2005	\$ 17,671,050	\$ (528,500)	\$ 17,142,550	\$ 1,500	\$ 16,732,451	\$ 410,099	97.6%
FY2004	\$ 15,735,278	\$ (338,183)	\$ 15,397,095	\$ 10,050	\$ 14,936,217	\$ 460,878	97.0%
FY2003	\$ 13,568,600	\$ (482,262)	\$ 13,086,338	\$ 47,880	\$ 12,648,793	\$ 437,545	96.7%
FY2002	\$ 12,650,750	\$ (383,135)	\$ 12,267,615	\$ 2,950	\$ 12,073,213	\$ 194,402	98.4%
FY2001	\$ 12,491,850	\$ (510,746)	\$ 11,981,104	\$ 1,800	\$ 11,502,932	\$ 478,172	96.0%
Cummulative Total				\$ 150,416		\$ 2,363,079	

Further actions to collect delinquent fees may include issuance of Administrative Orders with Civil Penalties by the Department's Water Compliance and Enforcement Element and/or referral of the delinquent facilities to a collection agency.

NJPDES PERMIT PROGRAM

Through the NJPDES permitting program, the Division of Water Quality (Division) regulates all operational discharges to the surface and ground waters of the State and for residuals generated from treatment systems. This Program also regulates industrial wastewater discharges from Significant Indirect Users ("SIU") to Domestic Treatment Works. The permit process involves pre-application conferences, application tracking, administrative and technical review of the permit applications, preparation of a detailed fact sheet on the facility and the permitted discharge activities, the development of technology and water quality based effluent limitations for conventional, non-conventional and toxic pollutants (including whole effluent toxicity), applicable anti-degradation and anti-backsliding analyses, monitoring requirements, site inspections, permit coordination, public hearings, review of public comments and agency responses, permit issuance, and responses to requests for stay of permit conditions and adjudicatory hearings. In addition, the Division provides general information and assistance to all interested parties, reviews the toxicity testing results, utilizes computer models to calculate water quality based effluent limits, reviews sludge quality reports, and oversees local pretreatment programs. Furthermore, the Division participates in adjudicatory hearings and provides technical support on enforcement matters.

As part of the NJPDES program, the Division also implements the federally mandated Stormwater Permitting Program. While most of the Stormwater Permitting Program is implemented by the Division's Bureau of Nonpoint Pollution Control (BNPC), a portion of the Stormwater Permitting Program (i.e., the Construction Stormwater General Permit) is administered through the State Soil Conservation Committee, New Jersey Department of Agriculture, and the 15 local Soil Conservation Districts.

The Division has developed and adopted a series of general permits to implement certain major aspects of the Stormwater Permitting Program. The Division also issues individual stormwater NJPDES permits. Where stormwater discharges are included in addition to wastewater, process water, and other non-stormwater discharges, individual NJPDES permits for Discharge to Surface Water are handled by either the Bureau of Point Source Permitting Region 1 or Region 2, and are processed jointly with the BNPC.

NJPDES PERMIT PROGRAM SIGNIFICANT ACTIVITIES & ACCOMPLISHMENTS

NJPDES Permit Universe Status

The total universe of NJPDES issued permits as of September 30, 2007 is 5,571 permits. This is down from 5,605 permits as of September 30, 2006, a 0.60% decrease. Of these 5,571 permits, 5,224 (94%) are current, while 347 are beyond their renewal date. The Division is continuing its efforts to further reduce the number of facilities operating with such expired but administratively extended permits.

PCB PMP Rule

On January 16, 2007 the Department adopted new rules at N.J.A.C. 11.13 and 14.4 (part of the NJPDES rules) that establish monitoring and Pollutant Minimization Plans (PMPs), requirements for major dischargers that discharge effluent into Polychlorinated Biphenyls (PCBs) impaired waterbody segments of the State. PCBs are man-made organic compounds that are chemically stable, non-flammable, have a high boiling point and were used in hundreds of industrial and commercial applications including electrical, heat transfer and hydraulic equipment. The USEPA has concluded that PCBs are probable human carcinogens. Humans are most frequently exposed to PCBs by eating fish and shellfish from contaminated waters and by eating other types of animals that feed on these organisms.

The Department's new rule requires affected facilities to monitor their effluent using a new, highly sensitive test method (Method 1668A) to determine the level of PCBs present. Because PCBs are ubiquitous in the environment and no longer being manufactured, those facilities that discharge PCBs at levels above background will be required to implement PMPs. The purpose of the PMP is to identify and eliminate discrete sources of PCBs, therefore reducing the level of human exposure. The Department is in the process of issuing modifications to all current, affected permits and will also include this condition in appropriate expired permits upon their renewal.

Permits for Environmental Results

New Jersey is cooperating with the USEPA in a nation-wide process to carefully assess each program's effectiveness, identify strengths and target areas for improvement. As part of this process, EPA and NJ have jointly selected a sub-group of expired permits that meet certain pre-established criteria to be considered under the "Permitting for Environmental Results" (PER) strategy. For the second consecutive year, NJ has been recognized by the EPA as having met and exceeded all permitting goals for the PER program. New Jersey is one of the few states to accomplish this noteworthy goal.

New Jersey CSO Abatement Program

New Jersey's older urban communities are the most densely populated cities in the nation and are predominately serviced by Combined Sewer Systems (CSO's). The Department and the regulatory

communities have been working over the past two decades in addressing the infrastructure and water quality challenges associated with the CSO's.

In 1995, the Department issued the General Permit (NJ0105023) for CSO's (the "GP"). The GP was developed to regulate the operation of all combined sewer collection and conveyance systems. The GP required the implementation of applicable Nine Minimum Controls and initiated the first step in the development of CSO Long Term Control Plans (LTCP's) by requiring "land-side" monitoring and modeling activities consistent with the National CSO Control Policy.

New Jersey has adopted and is implementing a comprehensive solids and floatables control program supported with state financial assistance in the form of planning and design grants and low-interest construction loans. New Jersey requires all owners and/or operators of CSO Points to implement controls that will capture and remove solids and floatable materials that cannot pass through a bar screen having a bar spacing of 0.5 inches (13.0 mm). This requirement is an enforceable commitment under the New Jersey Pollutant Discharge Elimination System permit program.

As of September 2007, 70% of the planned solids and floatables control facilities have been constructed and are operating. The operating control facilities have captured and removed about 600 tons of solids and floatables materials during calendar year 2006. Three permittees have separated combined sewer systems and eliminated the CSO points.

The receiving waterbody monitoring and modeling activities are currently being orchestrated under the Total Maximum Daily Load (TMDL) program and in conjunction with the New York/New Jersey Harbor Estuary Program.

The Department is coordinating the development of CSO LTCPs with USEPA Region II. CSO pathogens are measured in terms of fecal coliform concentrations. The majority of the CSO discharge points influence the NY/NJ Harbor Complex. In August 2004, the Department issued a modified GP (NJ0105023) requiring the CSO owners to undertake certain Cost and Performance studies for pathogen control. The Department received all Cost and Performance Analysis reports by the April 1, 2007 deadline. The information generated under these studies has been provided to the USEPA and will be considered in the development of TMDL's for the NY/NJ Harbor Complex. As per current schedule, the USEPA is likely to develop a pathogen TMDL for the NY/NJ Harbor Complex in 2008.

Dental Mercury Regulations Now in Effect

The Department adopted revisions to the NJPDES regulations at N.J.A.C. 7:14A-21.12 that became effective October 1, 2007. These regulations set forth specific requirements for mercury and amalgam waste collection and management for all dental facilities that place or remove amalgam fillings. Dental amalgam contains approximately 50% mercury. These new requirements will affect approximately 3,400 dental facilities in New Jersey, and will result in removal and recycling of approximately 2,550 pounds of mercury per year. The new regulations were published in the October 1, 2007 *New Jersey Register* at 39 N.J.R. 4117(a).

The new regulations require that each affected dental facility implement best management practices, or BMPs, for mercury amalgam no later than one year after the effective date of the regulation, and that each affected dental facility install an amalgam separator that meets the ISO 11143 (1999) standards, thus being capable of removing at least 95 percent of the mercury from the waste stream, no later than two years after the effective date of the regulation. Dental facilities that do not comply will be required to apply for a significant indirect user (SIU) permit from either the Department or an industrial pretreatment program (IPP) permit from a delegated local agency, as appropriate.

The Department recognizes that not all "dental facilities" use amalgam or generate amalgam waste. This is particularly true for the dental specialty areas. As such, the new regulations explicitly exempt orthodontics, periodontics, endodontics, oral and maxillofacial surgery, oral and maxillofacial radiology, and oral and maxillofacial pathology from the regulations.

Basic Industrial Stormwater General Permit

The Bureau of Nonpoint Pollution Control (BNPC) renewed its Basic Industrial Stormwater General Permit, effective June 1, 2007, which authorizes the discharges of stormwater to surface and ground water from over 2,300 facilities throughout the State. The Basic Industrial Stormwater General Permit requires that facilities eliminate the exposure of industrial source materials to stormwater primarily through the use of pollution prevention techniques and source control. The Bureau also created easy-to-use Word fill-in forms for the facility's Stormwater Pollution Prevention Plans (SPPP). The SPPP guidance document was also revised and updated.

NJPDES Stormwater Construction General Permit

The BNPC renewed the NJPDES Stormwater Construction General Permit (NJ0088323) effective March 1, 2007. This statewide permit was issued to regulate stormwater impacts at more than 4,000 active construction sites which disturbed 1 acre or more of land. The permit was modified to remove mining and quarrying operations from eligibility. These activities are now regulated under another general permit (NJ0141950). The Department jointly administers the issuance of the Construction General Permit authorizations with the 15 local Soil Conservation Districts (SCD's).

Additionally, in order to enhance permit compliance, staff from the Bureau, along with representatives from the SCD, provided presentations to approximately 150 local building code officials and builders at two regional seminars in Monmouth and Morris Counties.

DGW General Permit for Basin Discharge to Ground Water

The DGW general permit for Basin Discharge to Ground Water (NJG0108308) was renewed on February 1, 2007 to regulate discharges from stormwater basins at the twelve operating (accepting waste) sanitary landfills in the State. For the purpose of this permit, "basin" is a collective term used to describe a variety of regulated units at NJPDES-DGW permitted facilities, including infiltration/percolation lagoons or surface impoundments. Solid waste permits issued to sanitary landfills for operation include requirements for leachate detection and collection, which prevent the discharge to ground water of any water that comes in contact with solid waste. This general permit requires monitoring at basins to assure that stormwater discharges do not cause an adverse impact upon ground water quality.

Hot Mix Asphalt Producers

The BNPC issued a major modification to this general permit NJ0132721 which became effective in April 2007. The modifications to this permit added requirements for stormwater discharges to ground water (DGW) and changed submittal and compliance schedules from Effective Date of Permit (EDP) to Effective Date of Permit Authorization (EDPA), where appropriate. The following administrative corrections were also made: (1) Stormwater-only monitoring frequency was changed from a limited monthly schedule to a regular quarterly schedule. (2) Permit requirements for submittals of SPPP Preparation, Implementation and Annual Certifications were modified to reflect the Department's new certification form. (3) Clarification for management of recyclables and language regarding water recycling was added, and (4) new definitions were added.

Municipal Stormwater Regulation Annual Regional Meetings

The BNPC sponsored its second series of annual meetings with municipal stormwater coordinators. Staff from the Division of Watershed Management and Water Compliance and Enforcement were also present at the meetings. The purpose of these meetings was to foster a long-term partnership with all municipal coordinators in an effort to increase permit compliance. The annual meetings provide a forum for the Department to share the latest permit compliance guidance with the municipal stormwater coordinators, as well as providing the coordinators the opportunity to share their experiences with the Department staff

and with each other. This year, over 320 coordinators attended one of 7 regional meetings in Somerset, Bergen, Ocean, Gloucester, Atlantic and Sussex Counties.

Additional meetings were also held with representatives from county governments, as well as transportation agencies, to discuss various aspects of the Public Complex and Highway Agency Municipal Stormwater Permits.

Cleanwater New Jersey Campaign

The US Environmental Protection Agency, through the Stormwater Phase II Municipal Permit Program Rules requires all regulated entities in the country, which in New Jersey is every municipality, county, and most state, interstate and federal agencies, to conduct a public education program for all of the citizens of the State. The most efficient and cost-effective way to educate all of the residents of the State is via Public Service Announcements. The requirements mandate that the permitted entities provide, among other things, Public Service Announcements.

Given the unique nature of the mass media market in New Jersey (divided between two of the most expensive media markets in the country) it was determined that having 566 municipalities and approximately 100 other entities provide this education effort would be enormously expensive. Therefore, it was decided that in order to maximize the efficiency and economies of scale, the Department would conduct most of this program. All of the 650 regulated entities are required to pay annual permit fees under their NJPDES permit. Part of that fee is specifically allocated to fund the \$500,000 Stormwater Education Program known as "Clean Water NJ Campaign" (Campaign). Implementation of the program by the Department reduces the burden on municipalities and reduces the overall cost of compliance.

To date, the Campaign has placed statewide commercials in most of New Jersey's radio stations, as well as television commercials on WMBC-TV in Newton, WMGM-TV in Atlantic City, WNJU-TV in Linden, WWOR-TV in New York and Telemundo, in 2005. Commercials were also run on many statewide cable television networks in 2006 and 2007. In addition, the Campaign produced six radio commercials, two adult television commercials and one animated television commercial for this effort.

The Campaign also has developed posters, tip cards and held a photo contest for high school students to raise awareness of stormwater pollution and awarded savings bonds to three winners.

pH Certification Seminar

The BNPC worked with the Division of Environmental Safety and Health's Office of Quality Assurance (OQA) to sponsor "pH Certification Seminars" for members of the NJ Concrete Aggregate Association and other facilities authorized under the Concrete Products Manufacturers Industry-Specific General Stormwater Permit. This permit requires permittees to analyze stormwater runoff samples for pH. These facilities do not have their own labs and because the sampling protocol requires the samples to be analyzed within 15 minutes of taking the sample, they asked the Department for assistance with complying with this permit requirement. The OQA developed and conducted a training program that would enable the permittees to become certified to analyze their own samples for pH on-site. Three seminars were held on April 16, 17 and 20th throughout the State with approximately 60 attendees. Following completion of the seminar attendees received a certificate attesting that they are qualified to perform immediate pH analysis at their facilities.

Information Available on DWQ Web Site

The Division of Water Quality maintains many useful documents on its website at <http://www.nj.gov/dep/dwq/>. One of the new documents added this year is the NJPDES Monitoring Report Form Reference Manual. This long awaited document replaces the previously published Discharge Monitoring Report Instruction Manual. The NJPDES MRF Reference Manual can be downloaded from the Bureau of Permit Management web page at

<http://www.state.nj.us/dep/dwq/bpm.htm>. Please continue to check the *What's New in Water* section at the DWQ home page for the latest information.

Also new at the DWQ website is the new 68 page website for the Division's Bureau of Nonpoint Pollution Control. The new website is more user friendly and also includes all of the television and radio commercials that are part of the "Cleanwater NJ Campaign." The website presents all of the Bureau's stormwater and ground water individual and general permit guidance, as well as its onsite wastewater program material, in an easily navigable and informative site. All program applications and forms are readily available and the layout of the site is both simple and logical. The site can be viewed at http://www.state.nj.us/dep/dwq/bnpc_home.htm. Other useful information on stormwater may be found at www.njstormwater.org/ and www.cleanwater.org/.

Various NJPDES permit forms and checklists can be accessed at www.nj.gov/dep/dwq/forms.htm. Other permitting and technical information may be viewed and/or downloaded at : www.nj.gov/dep/dwq/permitng.htm.

The Division receives many public requests for information from the NJPDES database. Some of the more popular and most requested information has been posted on the web site for download and updates and expanded information is made available on a periodic basis. The direct link for accessing this information is www.nj.gov/dep/dwq/database.htm. The Division web site also includes a crosslink to a series of reports that are available through the Department's Open Public Records Act web site (i.e., via the DEP Data Miner utility). These semi-custom reports are generated through a link to the NJEMS database system. In addition to lists of permits selectable by a variety of categories, this interactive link allows for the retrieval and download of NJPDES DMR and WCR data. The DMR and WCR data is available for user selected periods beginning in July 2000. The report displays the raw data as reported by the permittees to the Department.

ENFORCEMENT ACTIVITIES

The Water Compliance and Enforcement Element monitors compliance with and enforces as necessary permits issued under the New Jersey Pollutant Discharge Elimination System (NJPDDES). In addition to the self monitoring reports submitted by the permittee, periodic on-site compliance evaluation inspections are carried out by enforcement staff as a means to evaluate the facilities compliance with all conditions of the permit. In addition, the compliance sampling inspections serve as a means of checking the validity of the self-monitoring data.

The Department publishes an annual report on the implementation and enforcement actions taken by the Department and delegated local agencies during the preceding year pursuant to the Clean Water Enforcement Act. The annual report is available on the Departments website at <http://www.nj.gov/dep/enforcement/report-cwea.html>.

The tables below summarize the results of the Department's inspections and the penalties collected during FY2007.

FY 2007 INSPECTION ACTIVITY

Program	Inspections	Regular Inspections	Follow-up Inspections
Surface Water	668	660	8
CSO/Collection System	29	28	1
Ground Water & GW-UIC's	1181	1181	
Pretreatment	75	75	
General Stormwater	1713	1713	

FY 2007 PENALTY ASSESSMENT RECORD

Program	Amount Assessed	* Amount Collected
All programs	\$4,197,144	\$1,890,083

* The difference between the amount of penalties imposed and the amount of penalties collected is the result of penalties being contested through the Administrative Hearing process, the disposition of these cases not yet completed, and penalties collected from previous year's assessments.

APPENDIX A

NJPDES REGULATIONS

N.J.A.C. 7:14A-3.1

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

SUBCHAPTER 3. DETERMINATION OF PERMIT FEES

7:14A-3.1 FEE SCHEDULE FOR NJPDES PERMITTEES AND APPLICANTS

- (a) Except as provided in (j) and (l) below, the general conditions and applicability of the fee schedule for NJPDES permittees and applicants are as follows:
1. Except as provided by (k) below, the Department shall collect an annual fee for the billing year July 1 to June 30 from all persons that are issued a NJPDES permit or authorization to discharge under a NJPDES general permit or submit a NJPDES permit application or request for authorization.
 2. The Department shall not assess any fee to public schools or religious or charitable institutions.
 3. All NJPDES permittees/applicants that are issued a draft or final NJPDES permit, or that are issued an authorization to discharge under a final NJPDES general permit, shall submit payment within 30 days of assessment of the fee by the Department.
 - i. Upon receipt of a completed application or request for authorization, the Department shall assess the minimum fee as set forth in (h) below.
 - ii. Upon issuance of the final permit or of an authorization to discharge under a final NJPDES general permit, the annual fee shall be calculated and pro-rated for the period of the fee year remaining. The minimum fee already paid shall then be subtracted from the pro-rated assessment. In no case, however, will such payment of a pro-rated fee result in a fee that is less than the minimum fee for the category of discharge. The permittee may request a fee recalculation as provided at (a)6 below, once the first required monitoring report has been completed.
 4. Payment of all fees shall be made by check or money order, payable to "Treasurer, State of New Jersey" and submitted to:

New Jersey Department of the Treasury
Division of Revenue
PO Box 417

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

5. If the permittee/applicant fails to submit payment to the Department of the Treasury within 30 days of assessment of the fee, the Department may, in its discretion, take one or more of the following actions:
 - i. Return the NJPDES permit application or request for authorization to the applicant;
 - ii. Deny issuance of a final permit or authorization under a final general permit;
 - iii. Revoke a final permit (including revocation of a permittee's authorization to discharge under a general permit); and/or
 - iv. Assess penalties pursuant to N.J.S.A. 58:10A-10 and N.J.A.C. 7:14-8.
6. If the permittee objects to the assessment, the Department shall recalculate a permit fee upon receipt of a request from the permittee in writing within 30 days of assessment of the fee. The Department shall not recalculate a fee where the permittee has failed to submit information in compliance with its NJPDES permit.
 - i. A permittee may only contest a fee imposed pursuant to (k) below based on the following:
 - (1) The Department has no factual basis to sustain the charges assessed in the fee;
 - (2) The activities for which the fee was imposed did not occur;
 - (3) The charges are false or duplicative; or
 - (4) The charges were not properly incurred because they were not associated with the Department's oversight or remediation of the case.
 - ii. A permittee may not contest a fee imposed pursuant to (k) below if the challenge is based on the following:
 - (1) An employee's hourly salary rate;
 - (2) The Department's salary additive rate, indirect rate, or fringe benefit rate; or
 - (3) Management decisions of the Department, including decisions regarding who to assign to a case, how to oversee the case or how to allocate resources for case review.
 - iii. A permittee objecting to a fee imposed pursuant to (k) below shall

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

include the following in a request for a fee review:

- (1) A copy of the bill;
 - (2) Payment of all uncontested charges, if not previously paid;
 - (3) A list of specific fee charges contested;
 - (4) The factual questions at issue in each of the contested charges;
 - (5) The name, mailing address and telephone number of the person making the request;
 - (6) Information supporting the request or other written documents relied upon to support the request.
7. The Department, in calculating Environmental Impact, shall use information reported by the permittee on Discharge Monitoring Reports (DMRs) and/or Monitoring Report Forms (MRFs) for the 12 month period for which data is available on the Department's computer. The selected 12 month monitoring period will be documented in the Annual NJPDES Fee Schedule Report. Where this information is not available, the Department shall use permit limitations, information submitted in permit applications, technical reports prepared by the Department or submitted by the permittee, or other permits issued by the Department.
8. Except as provided by (k) below, the Department, upon the revocation of a NJPDES permit, or revocation of a NJPDES/SIU permit in accordance with N.J.A.C. 7:14A-21.9, shall upon written request of the permittee prorate the fee for the number of days that the facility was in operation or was discharging under a valid NJPDES/SIU permit during the billing year and return to the permittee the amount that is in excess of the minimum annual fee for the specific category of discharge.
9. Except as provided by (k) below, the annual fee for all discharges is calculated by applying the formula:

Fee = (Environmental Impact x Rate) + Minimum Fee, where:

- i. Environmental Impact is the Department's assessment of potential risk of discharge to the environment as derived under (c) through (g) below.
- ii. Rate is the dollar cost for each weighted unit of Environmental Impact. Rate is calculated as follows:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Rate = (Budget-Sum of Minimum Fees)/Total Environmental Impact

- (1) Budget is the total budget for the category of Discharge.
- (2) The Sum of Minimum Fees is the total amount of minimum fees to be paid by all dischargers in the category of discharge.
- (3) Total Environmental Impact is the sum of environmental impact for all dischargers in the category.
- (4) The budget and the total environmental impact shall be adjusted to reflect those facilities, if any, assessed a maximum permit fee.

- iii. The minimum fee is a base cost to which the product of the Environmental Impact and the Rate identified under (a)9i and ii above is added. The minimum fee for any permit category is calculated by using the following formula and rounding to the nearest \$50.00 increment:

Minimum Fee = $\frac{\text{Hours} \times \text{Cost Per Hour}}{5}$, where:

Hours = Total hours allocated by the Department on the administration, including permit issuance, inspection and data management, of the permit per facility over a five year period in each category.

The minimum fees are set forth in Table III below. For any new or revised category of discharge, the Department shall calculate a minimum fee and shall list it in the Annual NJPDES Fee Schedule Report for public comment under (b) below.

10. The maximum fee to be assessed for any category of discharge shall be 10 percent of the budget for the category of discharge.
 11. If a factual dispute involving a fee imposed pursuant to (k) below cannot be resolved informally, a permittee may request an adjudicatory hearing on the matter pursuant to N.J.A.C. 7:14A-17.2.
- (b) The Department shall prepare an Annual NJPDES Fee Schedule Report and provide for a public hearing on the Report.
1. The Annual NJPDES Fee Schedule Report shall include the following:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- i. A detailed financial statement of the actual administrative cost of the NJPDES program by account title;
 - ii. A detailed financial statement of the actual revenue collected, including any surplus which can be credited or any deficit to be assessed in determining the fee schedule;
 - iii. A detailed financial statement of the anticipated cost of the NJPDES program, including:
 - (1) A breakdown of the program by account title;
 - (2) An estimate of the amount of fees that will be collected; and
 - (3) The current year's fee schedule.
 - iv. A report of the NJPDES program activities, including:
 - (1) A list of permits issued;
 - (2) A list of facilities inspected;
 - (3) A list of administrative orders and administrative consent orders issued by the Department (by type of order and discharge involved); and
 - (4) A summary of variance request activities under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.).
 - v. A list of all minimum fees calculated in accordance with (a)9iii above, and the basis for any new or revised minimum fee.
2. The Department shall provide for a hearing on the Annual NJPDES Fee Schedule Report. The Department shall provide public notice of the hearing at least 30 days prior to the date of the hearing:
 - i. In the New Jersey Register and one newspaper of general circulation; and
 - ii. By mailing a copy of the Report to each NJPDES applicant/permittee the Department identifies as subject to a NJPDES annual fee.
3. The Department shall publish a Notice of Adoption of the Annual NJPDES Fee Schedule Report, which shall include a summary of the public comments and Department responses. Upon publication of this Notice of Adoption in the New Jersey Register, any adopted new or revised minimum fee(s) identified in the Notice of Adoption shall be

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

incorporated into Table III as an administrative change.

- (c) The annual fee for discharges to surface water is calculated by using the following Environmental Impact in the annual fee formula:
1. The Environmental Impact of a discharge to Surface Water from an industrial treatment works (ITW) regulated under an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Total Pollutant Load + Heat Load) where:

- i. Total Pollutant Load is the sum of all limited pollutants (in kilograms per day) multiplied by their associated risk factors as listed in Table I below.
 - (1) Net loadings will be used if a net limit has been established in the NJPDES permit. If a permittee reports a pollutant load less than zero, a zero will be used to calculate the Total Pollutant Load.
 - (2) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.
 - ii. Heat Load is the average mBTU's (million British Thermal Units) per hour of the effluent discharged. Where Heat Load is not reported in mBTU's per hour, the Department shall estimate the Heat Load using the calculated difference between the influent and effluent temperature (in degrees celsius) multiplied by the amount (in million gallons per day) of effluent discharged and a unit conversion factor of 0.6255. The Department shall use an average influent temperature of 5.57 degrees celsius during the period November to April and 18.87 degrees celsius during the period May to October.
2. The Department shall assess an additional fee to NJPDES permittees who request a variance under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.). The annual fee shall be assessed on the basis of the administrative cost that is incurred by the Department and the cost of the technical review performed by a consultant hired by the Department.
 3. The Environmental Impact of a discharge to surface water from a domestic treatment works (DTW) regulated under an individual NJPDES permit is derived by applying the formula:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Environmental Impact = Average kilograms per day of oxygen demand discharged, as measured by Biochemical Oxygen Demand (BOD5), Carbonaceous Biochemical Oxygen Demand (CBOD5) or other oxygen demand parameter selected by the Department, as determined in accordance with (a)7 above.

4. The Environmental Impact value for any type of discharge to surface water regulated under a general permit shall be zero.
- (d) Except as provided by (k) below, the annual fee for discharges to groundwater, except for residuals and landfills covered in (e) and (f) below, is calculated by using the following Environmental Impact in the annual fee formula:
1. The Environmental Impact of a Discharge to Groundwater regulated by an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Risk x Quantity x Groundwater Rating Factor)
where:

- i. Risk is the sum of the rating numbers, based on the degree of hazard, assigned by the Department to each type of waste stored, treated or discharged. The rating numbers are assigned as follows:

<u>Rating</u>	<u>Risk</u>
1	Non-contact cooling water, treated groundwater filter backwash, sanitary wastewater with at least secondary treatment
2	Other treated and untreated sanitary wastewater, food processing waste, stormwater runoff including runoff from non-hazardous waste storage areas, sanitary sludge, discharge from quarry operations including sand and gravel operations
5	Non-hazardous industrial process waste
15	Metal plating waste, hazardous industrial process waste, landfill leachate, or groundwater, wastewater, stormwater runoff or sludge containing hazardous constituents

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

ii. Quantity is the average daily volume in millions of gallons discharged by the permittee for the monitoring period selected by the Department in (a)7 above. Where quantity is unavailable or is unknown, the Department shall assign a default quantity of 0.002 million gallons per day for discharges from domestic treatment works and a default quantity of 0.001 million gallons per day for other discharges.

iii. Groundwater Rating Factor is one tenth of the sum of the Groundwater Monitoring Status Factor, the Aquifer Factor, Groundwater Use Factor and Permeability Rating where:

(1) Ground Water Monitoring Status Factor is the rating number, assigned to the facility based on the level of monitoring and/or remediation required at the facility, as set forth in the NJPDES permit, administrative order, administrative consent order or directive letter as follows:

<u>Rating</u>	<u>Status</u>
1	Permittee is not required to conduct groundwater monitoring under the NJPDES permit
2	Permittee is conducting post-closure or post remediation monitoring
2	Permittee is required to conduct detection monitoring
5	Groundwater remediation and/or hydraulic source control is being performed at the site.
5	Alternative concentration limits have been established
10	Compliance monitoring is required as groundwater contamination has been identified in detection monitoring phase and/or groundwater remediation is required

(2) Aquifer Factor is the rating number, based on ground water yield potential, assigned to each formation listed in Table II below. Where a facility is located on an unlisted formation, the Department shall determine the aquifer factor. Where the facility is located on more than one formation the highest rating number will be assigned.

(3) Ground water use is the rating number assigned to the municipality where the permitted facility is located based on the

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

percentage of the municipality that relies on public or private wells for drinking water and the volume of ground water withdrawn in million gallons per day (MGD). The Department, in the Annual NJPDES Fee Schedule Report, prepared pursuant to (b) above, shall set forth the individual ratings assigned to each municipality. Where a municipality's percent use and volume result in different ratings, the highest Ground Water Use rating number derived below shall apply. Ground Water Use rating numbers are assigned as follows:

Rating	Ground Water Use	Percent Use	Volume in MGD
5	A	>50%	>3
3	B	10% - 50%	1 - 3
	C	<10%	<1

- (4) Permeability Rating is the rating number, based on hydraulic conductivity in centimeters per second, of the geological formation immediately beneath the regulated unit or if present, the facility liner material for facilities in detection monitoring. For all other facilities, the permeability rating is based on the hydraulic conductivity of the geological material contaminated. Facilities assigned a Groundwater Monitoring Status factor of 10, that have demonstrated control of the plume of groundwater contamination shall be assigned a permeability rating of 10. Where permeability is unavailable or is unknown, the Department shall assume a permeability rating of 20. The rating numbers are assigned as follows:

<u>Rating</u>	<u>Permeability</u>
10	$<10^{-7}$
11	10^{-6}
12	10^{-5}
14	10^{-4}
18	10^{-3}
20	10^{-2}
22	$>10^{-2}$

2. The Environmental Impact value of any type of discharge to ground water regulated under a general permit shall be zero.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- (e) The Environmental Impact value for facilities which land apply, handle or distribute residuals listed in (h)3 below shall be zero.
- (f) Except as provided by (k) below, the annual fee for discharges to ground water from sanitary landfills and sites containing wrecked or discarded equipment is calculated by using the following Environmental Impact in the annual fee formula:
 - 1. The Environmental Impact of a Discharge to Ground Water from sanitary landfills and sites containing wrecked or discarded equipment is derived by applying the formula:

Environmental Impact = (W1 + W2) x (Closure Status Factor + Ground Water Rating Factor) where:

- i. W1 is the total number of acres filled as of January 1, 1985 multiplied by the sum of the rating numbers, based on the degree of hazard, assigned by the Department to each waste type (as set forth in N.J.A.C. 7:26-2.13) permitted for disposal before January 1, 1985. The rating numbers are assigned as follows:

Rating	Waste Type
1	Types 13, 23
2	Types 10, 12, 27, 72, 73, 74
4	Types 18, 25
8	Types 26, 70 and wrecked or discarded equipment
16	Types 17, 28, 76, 77

- ii. W2 is the total cumulative amount of each waste type received (in cubic yards) since January 1, 1985 divided by 4,840 (the square yards in an acre) and multiplied by the rating number assigned to each waste type as set forth in (f)1i above.
- iii. Closure Status Factor is the rating number, based on the operating status of the landfill, assigned by the Department to each facility. The rating numbers are assigned as follows:

Rating	Closure Status
1.0	Operating landfill and sites containing wrecked or discarded equipment
0.5	Landfill terminated after January 1, 1982 without a Department approved closure plan

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- 0.2 Landfill terminated prior to January 1, 1982
- 0.1 Landfill terminated and properly closed in accordance with a Department approved closure plan

iv. Ground Water Rating Factor is the number derived under (d)iii above.

(g) The annual fee for discharges by a significant indirect user to a domestic treatment works is calculated by using the following Environmental Impact in the annual fee formula:

1. The Environmental Impact of a discharge by a significant indirect user (SIU) to a domestic treatment works (DTW) is derived by applying the formula:

Environmental Impact = (Total Pollutant Load)

- i. Total Pollutant Load is the sum of all limited pollutants (in kilograms per day) multiplied by their associated risk factors as listed in Table I below.

- (1) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.

(h) The fees for exemptions for certain types of residual use or disposal operations shall be assessed as follows:

1. Permit exemptions or Letters of Land Application Management Approvals authorizing the land application of sludge-derived products at specific sites in accordance with a Department-approved distribution program shall be assessed a fee of \$250.00 for the duration of the permit exemption or Letter of Land Application Management Approval. The Department will not consider a request for a permit exemption or Letter of Land Application Management Approval complete unless the request is accompanied by the fee; and
2. General distribution permit exemptions providing Department approval of a sludge derived product distribution program which is not directly regulated for residuals handling through an individual NJPDES permit

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

shall be assessed a fee of \$2,700 for the duration of the exemption. The Department will not consider a request for a permit exemption complete unless the request is accompanied by the fee.

- (i) (Reserved)
- (j) For NJPDES Permit No. NJ0088323 (referred to as the category 5G3 "construction activity" stormwater general permit), there is no annual or minimum fee. Instead, a fee of \$300.00 shall be paid by check or money order, payable to "Treasurer, State of New Jersey," and submitted to the applicable soil conservation district along with each request for authorization submitted under that permit, except as provided in (j)1 below. The soil conservation district shall forward all such checks and money orders to the State Soil Conservation Committee in the Department of Agriculture, which shall cause such checks and money orders to be deposited to the credit of the State. The soil conservation district shall not certify any request for authorization that is not accompanied by this fee.
 - 1. For a project that the New Jersey Department of Transportation (NJDOT) is constructing or proposes to construct for which a stormwater discharge is regulated under this general permit, the fee of \$300.00 shall be paid to the Department.
- (k) The fee for discharges to groundwater required for conducting remediation, as defined by N.J.A.C. 7:26E, of contaminated sites, and for any NJPDES discharge to groundwater permits issued by the Site Remediation Program, is calculated and billed through requirements specified in N.J.A.C. 7:26C-9.3.
- (l) The Department shall assess, where applicable, the fee for laboratory certification pursuant to the schedule set forth at N.J.A.C. 7:18.
- (m) Any fee under this section that is subject to N.J.A.C. 7:1L shall be payable in installments in accordance with N.J.A.C. 7:1L.

Minimum Fees

<u>Permit Fee Category¹</u>	<u>Min Fee Code</u>	<u>Minimum Fee</u>
1. Major DSW Domestic Treatment Works (DTW) – Individual Permit	MMJ	\$9,650
2. Minor DSW Domestic Treatment Works (DTW) – Individual Permit	MMI	\$3,600
3. Combined Sewer Overflow – Individual Permit Component or General Permit	CSO	\$8,150
4. Major Industrial DSW – Individual Permit	IMJ	\$8,600
5. Minor Industrial DSW – Individual Permit	IMI	\$3,600
6. General Permit – Industrial DSW, DGW, or both (unless otherwise listed)	IGN	\$2,000
7. Industrial Stormwater - Individual Permit	IST	\$3,550
8. Stormwater - Basic Industrial General Permit (5G2)	SBG	\$750
9. Municipal Stormwater – Tier B General Permit (R10)	STB	\$500
10. Municipal Stormwater – Tier A General Permit (R9)		
(population range 0-1,000)	SA1	\$600
(population range 1,001-5,000)	SA2	\$1,050
(population range 5,001-10,000)	SA3	\$2,000
(population range 10,001-15,000)	SA4	\$3,000
(population range 15,001-20,000)	SA5	\$4,050
(population range 20,001-25,000)	SA6	\$5,250
(population range 25,000+)	SA7	\$9,000
11. Municipal Stormwater – Public Complex General Permit (R11)		
(population range 1,000-2,999)	SP1	\$900
(population range 3,000-5,999)	SP2	\$1,500
(population range 6,000-8,999)	SP3	\$2,600
(population range 9,000+)	SP4	\$3,600
12. Municipal Stormwater – Highway Agency General Permit (R12)		
(milage range 0-9)	SH1	\$550
(milage range 10-199)	SH2	\$2,450
(milage range 200-399)	SH3	\$5,100
(milage range 400+)	SH4	\$9,800
13. DGW – Initial Individual Permit ²	GWN	\$5,950
14. DGW – Renewed or Continued Individual Permits ²	GWE	\$2,400
15. DGW - General Permit (I1, I2 and LSI)	GGN	\$750
16. DGW - General Permit (T1)	GT1	\$350
17. DGW - Operating Landfill Individual Permit	LND	\$5,950
18. Residuals Use or Disposal Operations (unless otherwise listed)	RES	\$10,100
19. Residuals - Food Processors / WTPs ³ Individual Permit	RFP	\$3,800
20. Residuals - Category Z Individual Permit ⁴	RTZ	\$1,800
21. Residuals - General Permit (ZG and 4G)	RTG	\$450
22. Residuals - Category 04 Individual Permit ⁵	RPH	\$700
23. Residuals – Land Application General Permit (unless otherwise listed)	RSG	\$750

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

24. Significant Indirect User (SIU) (Pretreatment)	SIU	\$5,450
25. Landfills operating or terminated after January 1, 1982 without an approved closure plan	⁶	\$2,500
26. Terminated Landfills properly closed or closed prior to January 1, 1982	⁶	\$500.00
27. Emergency Permit issued pursuant to N.J.A.C. 7:14A-6.14		⁷

¹ For names corresponding to the general permit category see N.J.A.C. 7:14A-6.13(c).

² For a domestic or industrial facility issued an individual NJPDES Discharge to Groundwater permit, the minimum fee is \$5,950 for the first five years of that permit, and \$2,400 if the permit is renewed or administratively continued. All other domestic or industrial facilities issued an individual NJPDES Discharge to Groundwater permit shall be assessed a minimum fee of \$2,400.

³ WTPs refer to potable water treatment plants.

⁴ Refers to a Residuals Transfer Facilities individual permit.

⁵ Refers to a Residuals - Reed Beds individual permit.

⁶ This permit is issued and administered by the Division of Solid and Hazardous Waste.

⁷ Fee based on category for type of discharge.
