The fee schedule for the Treatment Works Approval applications processed by the Department of Environmental Protection is established in accordance with N.J.A.C. 7:14A-22.25 et al. The latest changes to the permit fees were published in the New Jersey Register on May 5, 2008. The minimum fee remains $850.00. As before, the below fee formulas base the permit fees on a percentage of the construction costs on the portion of the project for which a Treatment Works Approval is requested. The fee formulas are based upon the following categories:

**CATEGORY I:** (Projects with a construction cost exceeding $1,000,000)

\[
\text{FEE} = 4P(\$250,000) + 2P(\$750,000) + P(\text{C.C.} - \$1,000,000)
\]

**CATEGORY II:** (Projects with a construction cost exceeding $250,000 but less than or equal to $1,000,000)

\[
\text{FEE} = 4P(\$250,000) + 2P(\text{C.C.} - \$250,000)
\]

**CATEGORY III:** (Projects with a construction cost less than or equal to $250,000)

\[
\text{FEE} = 4P(\text{C.C.})
\]

For all three categories, and "C.C." is the construction cost on the portion of the project for which a Treatment Works Approval is requested and as of July 1, 2008, the value for "P" has been calculated to be equal to .0044. Please note that $850.00 is the minimum permit fee. Please be aware that the minimum review fee for Treatment Works Approval modifications continues at $500.00.

**CONTACT PEOPLE**

- **EUGENE CHEBRA, P.E., P.P., ACTING ASSISTANT DIRECTOR, DIVISION OF WATER QUALITY**
  - **GAUTAM R. PATEL**  
    - Chief, Bureau of Construction and Connection Permits
    - Treatment Works Approvals – Technical Review
  - **JOHN MASELLI** / NINA LUCHANSKY  
    - Bureau of Construction and Connection Permits
    - Treatment Works Approvals - Administrative Review
  - **KIRIT ANIN**  
    - Supervisor, Construction and Connection Permits
    - General Industrial TWA Processing
  - **ELEANOR KRUKOWSKI**  
    - Supervisor, Bureau of Non-Point Pollution Control
    - Alternate Design Septic Systems

(Septic systems with a design flow of 2,000 gallons per day or less)
