Public Notice of Draft Preconstruction Air Permit Application and Class B Recycling General Approval

2 Girls Water Works Road (2G) was informed by the New Jersey Department of Environmental Protection (NJDEP or Department) that its Preconstruction Air Permit Application for a Crusher and its Class B General Approval Application (together applications) are subject to the expanded public participation requirements specified in NJDEP Administrative Order No. 2021-25 (AO-25) since the proposed facility is located in an overburden community based on the determination identified on NJDEP's Office of Environmental Justice website. AO-25 requires expanded public participation for permitting reviews in overburdened communities to ensure meaningful community engagement.

The site for the proposed Class B Recycling facility is on the northern edge of Old Bridge Township near the border with the Borough of Sayerville. The nature of land uses in the immediate area is industrial, with several comparable uses, such as an asphalt plant, as well as heavier industrial uses such as Old Bridge Chemicals, in the area.

Consequently, a notice of the Applications submissions are being published in both The Star-Ledger newspaper on May 11, 2022 and The Home News Tribune newspaper publication on May 11, 2022.

The notice announces the opening of the 60-day public comment period that begins on May 11, 2022 and ends July 11, 2022. The contact person at NJDEP for questions related to AO-25 requirements should be directed to Mr. David Pepe, NJDEP, Office of Permitting and Project Navigation (OPPN), 401 East State Street, P.O. Box 420, Trenton, New Jersey 08625, phone (609) 984-4515. The project contact regarding this Application is Scott VanSickle who may be reached at email oldbridgeconcrete@espocon.net.

A Public Information Session on the Application will be hosted by 2G on Monday July 11, 2022, from 6:00 P.M. to approximately 8:00 P.M. A Project Summary will be presented at the meeting followed by an opportunity for questions or to provide verbal comments on the Applications. The meeting will be available virtually. To attend, please send a request to oldbridgeconcrete@espocon.net to get an access link. A copy of the Project Summary is also posted on the Community Board at the Old Bridge Public Library, One Old Bridge Plaza Municipal Center Old Bridge, NJ 08857 (732)721-5600 ext. 5010.
