PUBLIC NOTICE

Newark Energy Center,
Newark, NJ

NOTICE OF INTENT TO
RENEW THE TITLE V
OPERATING PERMIT

Title V Operating Permit
Program Interest (PI)
Number 08857

Administrative Order 2021-25
Public Information Session

In accordance with New Jersey Department of Environmental Protection (NJDEP) Administrative Order 2021-25, a public information session will be held as part of the renewal for Newark Energy Center's Title V Operating Permit (Air PI 08857).

Newark Energy Center is located at 955 Delancy Street, Newark, NJ and is a natural gas fired combined cycle electric generating facility that consists of two combustion turbine generators (CTGs), each with their own associated heat recovery steam generators (HRSGs) with supplemental gas fired duct burners, one steam turbine generator, a mechanical draft wet cooling tower, an emergency diesel generator, and a fire pump engine.

The initial Title V Operating Permit was issued to Newark Energy Center by NJDEP on November 1, 2012. The current Title V Operating Permit was approved on November 30, 2021 based on a 2016 permit renewal application and subsequent modifications. Newark Energy Center filed the current renewal application on August 11, 2021, which was deemed administratively complete on September 9, 2021.

Additional information on the facility and the permitting process will be made available during the information session. Pursuant to NJDEP Administrative Order 2021-25, a public information
The session will be held virtually on November 9, 2022 beginning at 6:00 PM. This information session will be held via Microsoft Teams. Please email info@newarkenergycenter.com in order to register for the meeting and receive a link to attend the meeting.

Additionally, Newark Energy Center will be accepting public comments on the Title V Operating Permit Renewal for a sixty-day period starting on September 21, 2022 and ending on November 21, 2022.

Newark Energy Center will respond to all timely submitted comments. Comments can be submitted via email to info@newarkenergycenter.com or via United State Postal Service to:
