

Perchloro-ethylene (PERC) Dry Cleaning Equipment Located in Buildings with Residences Must Cease Operation After December 21, 2020

Who is affected by this advisory?

Any dry cleaner that uses perchloro-ethylene (perc) and is located in a building with a residence (also called co-residential location).

Why is DEP issuing this advisory?

DEP is reminding affected dry cleaner owners/operators of the upcoming federal deadline for operation of perc dry cleaning equipment at co-residential locations. Federal rule 40 CFR Part 63 Subpart M requires all co-residential perc dry cleaners to phase out perc after December 21, 2020 [40 CFR 63.322 (o)(5)].

What is DEP doing?

Existing permits for co-residential dry cleaners will automatically be terminated after December 21, 2020. Perc dry cleaners operating in co-residential locations after December 21, 2020 will be in violation with the federal rule and will be subject to penalty assessments and fines.

What should I do?

If you are operating a perc dry cleaner at a co-residential location, by December 21, 2020 the perc and perc-contaminated waste should be removed from the machine and disposed of properly. Also by December 21, 2020, the perc machine must be fully disconnected or removed.

Who should I contact with questions?

NJDEP Air Quality Permitting	609-292-6716
Small Business Environmental Assistance Program (for information on alternative dry cleaning options)	877-753-1151
Air Compliance and Enforcement - Northern Field Office (Bergen, Essex, Hudson, Hunterdon, Morris, Passaic, Somerset, Sussex, Warren, and Union Counties)	973-656-4444
Air Compliance and Enforcement – Central Field Office (Burlington, Mercer, Middlesex, Monmouth, and Ocean Counties)	609-292-3187
Air Compliance and Enforcement – Southern Field Office (Atlantic, Camden, Cape May, Cumberland, Gloucester, and Salem Counties)	856-614-3601
