Frequently Asked Questions

What is the annual hazardous waste generator fee and how was the amount determined?

Hazardous Waste (HW) generator fees are based upon the **total amount of HW manifested within a calendar year**. See below:

HW Generator Classification	Annual HW Generated	Annual Fee
Large Quantity Generator	26,400 pounds or more of hazardous or 2.2 pounds or more of acutely hazardous waste	\$ 970
Small Quantity Generator	Between 2,640 and 26,400 pounds of hazardous waste	\$ 835
Very Small Quantity Generator	Less than 2,640 pounds of hazardous waste (including for zero hazardous waste while remaining registered)	\$ 30

What is the annual hazardous waste generator fee and how was the amount determined?

How can I verify the quantity of HW generated by my facility for calendar year 2024?

See the [2024 calendar year quantity of hazardous and acutely hazardous waste generated by your facility](#).

Additionally, you can access the [USEPA RCRAinfo system](#) which provides HW manifest data since June 30, 2018 when the USEPA assumed responsibility for receiving and recording HW manifest data for all US States and Territories in a single RCRAinfo database system. For more information about the [national HW manifest system changes](#) . Review your manifest data for the time period of January 1, 2024 through December 31, 2024.

# Generator Fee Verification

This report allows a generator to verify their fee was calculated correctly – that they really were an LQG, SQG or VSQG by seeing how much waste they generated and having access to the manifest data.

# Possible Uses

- Verify annual fee was properly assessed
- Identify manifests that were not correctly entered in RCRAinfo
- Identify manifests that were not entered in RCRAinfo
- Determine if generator status in RCRAinfo needs to be updated
- Download manifest data for use in completing biennial report
- Determine trends in quantity and type of wastes generated

### About Us

The Hazardous Waste Compliance and Enforcement program administers the RCRA (Resource Conservation Recovery Act) program in New Jersey. There is also a transportation oversight function that includes, in coordination with the State Police, roadside operations and hazardous waste transporter terminal audits.

### What We Do

The Hazardous Waste Compliance and Enforcement program performs the following activities to ensure that hazardous waste is properly identified and collected, transported, treated and disposed of in an environmentally sound manner:

- Provides compliance assistance
- Investigates complaints
- Conducts inspections
- Issues enforcement documents, both formal and informal, which may include assessed penalties
- Assists the Attorney General in developing enforcement cases and testifies in court
- Negotiates compliance schedule and penalty settlements
- Registers, tracks, and bills medical waste generators
- Manages permissions for MyRCRAid to allow access to RCRAInfo
- Reviews Biennial Hazardous Waste Reports
- Maintains [Uniform Hazardous Waste Manifest](#) data used to identify generators that manage hazardous waste off-site, and transporters, storage, and disposal facilities which receive or manage hazardous waste in New Jersey

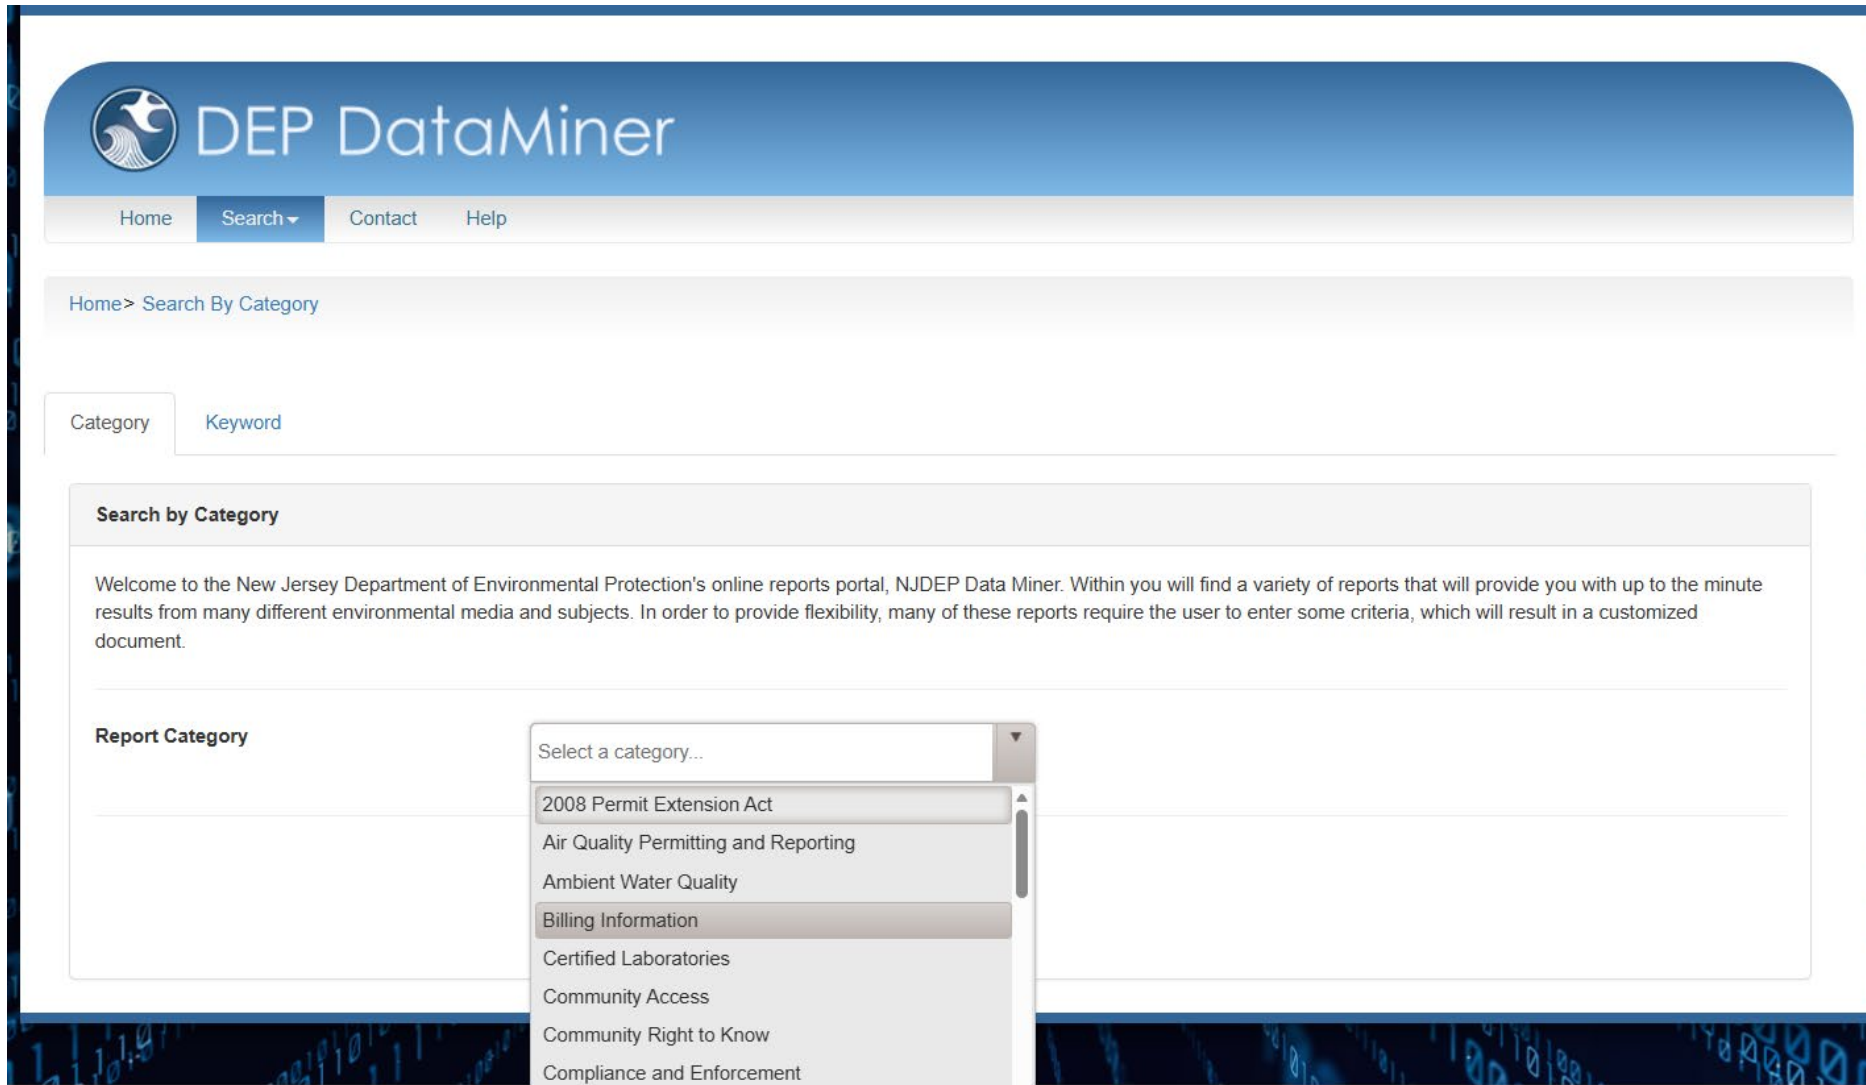

### Announcements

All hazardous waste facilities and handlers should review the [EPA's e-Manifest System Compliance Advisory](#) issued March 14, 2023 to reduce data quality issues with Hazardous Waste Manifests. The recommended actions support facility compliance and assists handlers with tracking and managing waste records.

Batteries, including lithium or lithium-ion batteries, have recently experienced an increase in use and interest in how they are regulated and managed as a waste stream. Please refer to

## Billing Information

The Billing Information category contains reports to provide various information on invoices issued to the regulated community from within the NJEMS enterprise system. This information includes the status (Open, Referred to Collections, Closed, Canceled, etc.), as well as payments made to the invoice and monies withdrawn from the invoice (withdrawals may be dishonored payments, refunds, or transfers to other invoices). In addition, within the Outstanding Bills report, a PDF invoice replica of the invoice can be generated, saved and used to make payment.

### ▶ Invoice Status Report

This report will provide you with the current status of one or more invoices and show any payments made to or withdrawn from the invoice, if applicable.

### ▶ Outstanding Bill Search by Site

Please note that you need a Program Interest Id Number to run this report. If you do not know the ID number, please run the FIND YOUR PROGRAM INTEREST ID BY LOCATION OR BY NAME report first to obtain the ID number. This report identifies all outstanding bills for a site and information for paying bill online and allows generation of an invoice for payment by mail.

### ▶ Outstanding Bills Report

This report lists outstanding bills by program interest.
