

Legal Deer Hunting Hours: half hour before sunrise to half hour after sunset

Only one antlered deer may be taken per season statewide, except during the Six-Day Firearm Season, regardless of the number of special season bonus permits in possession. To be legal, all deer harvested must be registered at an official deer check station (see page 56) and have a metal possession seal affixed to the deer. Only after registering the first deer may a hunter take or attempt to take another deer, where legal, unless specifically written as an exception.

NOTE: New regulations are printed in red.

Key Concepts and Definitions

- **Antlered deer** is defined as any deer with at least one antler measuring at least three inches in length as defined below.
- **Antler length** is defined as the maximum length of a deer antler measured from the lowest outside edge of the antler burr along the outer curve to the most distant point of what is or appears to be the main antler beam. For the purposes of this definition, the antler length does not include the pedicel or portion of skull between the skull plate and base of the antler point.
- **Antler point** is defined as any point at least one inch long from its tip to its base line, and the length must exceed the width at some location at least one inch down from the tip.
- **Antlerless deer** is defined as any deer that does not have an antler length measuring at least three inches. For the purposes of this definition, adult male deer that have shed their antlers, button bucks and adult males with antlers less than three inches are considered antlerless deer.
- **"Antlered Buck Bonus Muzzleloader Permit," "Antlered Buck Bonus Shotgun Permit" or "Antlered Buck Bonus Bow Permit"** refers to the new, antlered buck permits available for purchase which are valid *only* when used in conjunction with the regular, antlerless, zone-specific deer season permit. The new antlered buck bonus permits contain an antlered deer transportation tag and allows for the pursuit and harvest of an antlered deer only.
- **Earn-A-Buck regulations have been reduced in Zones 7, 8, 9, 10, 11, 12, 13, 14, 15, 36, 41, 49, 50 and 51.** The hunter's first deer harvested from these zones during the early Fall Bow Season *only* (through September 28, 2007) must still be an antlerless deer as defined above. Earn-A-Buck is removed from Permit Bow and Permit Muzzleloader seasons. Earn-A-Buck is a tool to reduce the

growth of deer herds in areas where the harvest of antlerless animals under regular harvest guidelines is insufficient to reach desired population levels.

- **Bank-A Doe program is ELIMINATED** due to the removal of Earn-A-Buck regulations from the Permit Bow season.
- **Antler Point Restriction** zones include Zones 3, 9, 13, 27, 29, 35, 37, 40, 63 and 67. The harvest of antlered deer from these zones during any open season is restricted to deer with at least one antler having a minimum of three antler points as defined above. The goal of the antler point restriction strategy, as part of Quality Deer Management, is to reduce harvest pressure on the 1½ year-old antlered deer in the expectation that they will survive to produce larger antlers as older animals. **Zone 6 is removed** from Antler Point Restrictions.
- **Special Areas Deer Management** zones include Zones 37, 38, 39, 40, 53, 54, 56, 57, 58, 61, 64, 66, 67, 68, and 70. They are generally small, publicly-owned properties administered by county, federal or state agencies (other than the Division of Fish and Wildlife) where deer season dates, bag limits or regulations differ from those of the surrounding deer management zone. See page 49 for details.
- **Youth Hunter** status applies to the possessor of a valid Youth Hunting License (or the immediate member of a qualified occupant farmer who is at least 10 years of age) and continues until Dec. 31 of the year in which he or she turns 16 years of age. **The Youth Bow Deer Hunt Day is Saturday, Sept. 22, 2007. The Youth Firearm Deer Hunt Day is Saturday, Nov. 17, 2007.** The bag limit for youth hunters on this day is *one* deer of either sex. Antler Point Restrictions do not apply to deer taken on this day by youth hunters. See page 33 for a cut-out youth transportation tag.

Licenses and Permits

- See *License, Permits and Stamps* section for details and for Hunter Education requirements.
- Additional hunting licenses may not be purchased in order to harvest additional deer.
- Although hunters may purchase multiple deer permits, **they are limited to only one regular, zone-specific ANTLERLESS permit per zone during each of the permit seasons.** For example, a hunter may buy an ANTLERLESS muzzleloader permit for each of Zones 18, 21 and 24. A hunter may purchase a bow permit, a muzzleloader per-

mit and a shotgun permit for Zone 24; however, they may not purchase two ANTLERLESS bow permits (nor two shotgun permits nor two muzzleloader permits) for Zone 24.

- It is unlawful to use a bow and arrow for hunting deer using a firearm license or for shotgun or muzzleloader deer permit.
- **The regular, zone-specific Bow, Muzzleloader and Shotgun Permits are now valid ONLY for the pursuit and harvest of ANTLERLESS deer.** Hunters who want to pursue and take an antlered deer during any of these seasons now must purchase an additional Antlered Buck Bonus Bow, Antlered Buck Bonus Muzzleloader, or Antlered Buck Bonus Shotgun Permit. Hunters may purchase only one Antlered Buck Bonus Permit per season. An Antlered Buck Bonus Permit must be used in conjunction with an antlerless permit. The Antlered Buck Bonus Permit is not zone-specific; it is valid for use in any zone for which the a hunter already holds a regular, zone-specific antlerless season permit, but only one buck may be harvested per season. All deer permits are \$28.

IMPORTANT: Antlered Buck Bonus Permits must be purchased by 11:59 p.m. on the following dates: Oct. 27 for Permit Bow; Nov. 26 for Permit Muzzleloader and Dec. 12 for Permit Shotgun seasons, UNLESS you are buying your first zone-specific antlerless permit AND an Antlered Buck Bonus Permit at the same time on a later date.

Firearms, Ammunition and Sights

- See page 26 for general hunting regulations which also apply to deer hunting.
- **All firearms must be cased and unloaded while being transported in vehicles, including on all-terrain vehicles.** A muzzleloader is considered unloaded when, in the case of a percussion cap rifle or shotgun, the percussion cap has been removed from the nipple; in the case of a flintlock, when the powder is removed from the pan and a boot or cover made of nonmetallic material is placed over the frizzen.
- Hunters using or possessing **any shotgun slug** in the field during the deer seasons must have a shotgun with adjustable open iron or peep **sights** or a scope affixed to the shotgun.
- **Telescopic sights** of any magnification (scope power) are permitted for deer hunting on **all** firearms, including muzzleloader rifles and smoothbore muzzleloader shot-

guns. No permits are required for telescopic sights.

- Any sight or device that casts a beam of light upon the deer is prohibited.
- Shotgun shells containing single spherical projectiles referred to as **pumpkin balls are prohibited.**
- While deer hunting with a shotgun, it is illegal to have in possession any ammunition not authorized for deer hunting.
- When hunting during the overlapping firearms seasons for deer and when in possession of the proper permits for the current seasons, hunters may carry the firearms legal for the current seasons. For example, when Six-day Firearm and Permit Muzzleloader seasons run concurrently, a hunter may be in possession of a shotgun and either a muzzle-loading rifle and/or smoothbore muzzle-loader.
- Only **one** muzzleloading rifle or smoothbore muzzleloader may be in possession while deer hunting, but not both simultaneously.
- Only **black powder or black powder equivalents**, including Clean Shot, GOEX Clear Shot and Pyrodex, may be used with a muzzleloading firearm when engaged in hunting. Modern smokeless powder is strictly prohibited while hunting game with a muzzleloading firearm.
- Double-barreled muzzleloading rifles are not permitted during the Six-day Firearm or Permit Muzzleloader seasons.

• **Special Areas Deer Management Zones** may have regulations that **differ** from the state-wide regulations. See page 49 for details.

Baiting Regulation

- Baiting is allowed for deer hunting. Hunters may hunt for deer while in a tree, on the ground or in a structure and from any height and any distance from the bait pile. Hunters should check with the landowner or administrative agency before placing bait on their hunting area as baiting is **not** allowed on properties such as national wildlife refuges.

Decoys and Electronic Devices

- **Persons may hunt with the aid of deer decoys statewide in those zones open for deer hunting during the Fall Bow, Permit Bow and Winter Bow seasons only.** When carrying or moving deer decoys for the purpose of hunting, persons must wear a fluorescent orange hat or outer garment consisting of at least 200 square inches of fluorescent orange material, which shall be visible from all sides as currently required for firearm deer hunting.

- It is unlawful to hunt for deer with the aid of an electronic calling device or any device that casts a beam of light upon the deer.

Bag Limits

- **Bowhunters may take two antlered deer legally on a bow or all-around license, one antlered deer each during the Fall Bow and Winter Bow seasons. Hunters who want to pursue and harvest an antlered deer during the Permit Bow Season must purchase an Antlered Buck Bonus Bow Permit valid only when used in conjunction with the regular, zone-specific antlerless Bow Permit. For Permit purchasing deadline, see License and Permits, page 32.**
- **Firearm hunters legally may take two antlered deer during the Six-day Firearm Season on a firearm or all-around license. Hunters will receive a supplemental tag upon checking in their first Six-day Firearm Season buck, allowing the pursuit and harvest of a second buck. Hunters who want to harvest an antlered deer during the Permit Shotgun or Permit Muzzleloader seasons must purchase an Antlered Buck Bonus Shotgun or Antlered Buck Bonus Muzzleloader Permit, valid only when used**

in conjunction with the regular, zone-specific antlerless Shotgun or Muzzleloader Permit. If hunters who take a second antlered deer during the Six-day Firearm Season, their Shotgun Permit Season bag limit is then restricted to antlerless deer only. For purchasing deadlines, see License and Permits, page 32.

- Properly licensed and permitted hunters are limited to taking one antlered buck per season (regardless of the number of antlerless, zone-specific permits purchased, when applicable) during the Fall Bow, Permit Bow, Permit Muzzleloader, Permit Shotgun and Winter Bow seasons. Two antlered bucks may be taken during the Six-Day Firearm Season. **Note: If two antlered bucks are taken during the Six-Day Firearm Season, the antlered buck bag limit for the Permit Shotgun Season is then zero.** Hunters may choose: take **either** two antlered bucks during Six-day Firearm Season, **or** one antlered buck during Six-day Firearm Season and one antlered buck during Permit Shotgun Season (while possessing an Antlered Buck Bonus Permit). The antlerless bag limit for these permit seasons will be one, two or unlimited depending on the zone and season.

(continued on page 32)

Firearms, Bows and Ammunition Legal for Deer Hunting:

Season(s)	Weapon Type	Gauge, Caliber or Weight	Projectile(s)	Firearm sights; Bow releases
Fall Bow Permit Bow Winter Bow	Bow—long, recurve or compound	35 pounds pull at archer's draw length (long and recurve bows) or peak weight (compound bow)	Arrows must be fitted with a well-sharpened metal broadhead with a minimum width of 3/4"	Hand-held release devices are permitted
Permit Muzzleloader	Muzzleloader—rifle or smoothbore, single-barrel, single-shot. Flintlock, percussion and in-line ignitions permitted. Double-barrel firearms prohibited	Rifle—not less than .44 caliber Smoothbore—not smaller than 20 gauge and not larger than 10 gauge	Must be loaded with a single projectile only	Telescopic sights permitted
Six-day Firearm	Shotgun—single or double barrel, rifled bore or smoothbore	Not smaller than 20 gauge and not larger than 10 gauge, capable of holding no more than three shells	Slugs—lead, lead alloy or copper rifled slug or sabot slug Buck shot—sizes not smaller than #4 (0.24") nor larger than #000 (0.36")	Shotgun must have an adjustable open iron or peep sight or a scope affixed if hunter is hunting with or in possession of slugs
	Muzzleloader—single-shot, single barrel rifle OR single or double-barrel smoothbore shotgun. Flintlock, percussion and in-line ignitions permitted	Muzzleloading rifle—single shot not less than .44 caliber Smoothbore—single or double-barrel not smaller than 20 gauge and not larger than 10 gauge	Muzzleloading rifle—single projectile Smoothbore—buck shot not smaller than #4 (0.24") nor larger than #000 (0.36")	Telescopic sights permitted
Permit Shotgun	Shotgun—single or double barrel, rifled bore or smoothbore	Not smaller than 20 gauge and not larger than 10 gauge, capable of holding no more than three shells	Slugs—lead, lead alloy or copper rifled slug or sabot slug Buck shot—sizes not smaller than #4 (0.24") nor larger than #000 (0.36")	Shotgun must have an adjustable open iron or peep sight or a scope affixed if hunter is hunting with or in possession of slugs
	Muzzleloader—single or double-barrel smoothbores only (no rifles). Flintlock, percussion and in-line ignitions permitted	Not smaller than 20 gauge and not larger than 10 gauge	Buck shot—sizes not smaller than #4 (0.24") nor larger than #000 (0.36") or a single projectile.	

Deer Hunting

REGULATIONS

(continued from page 31)

- Two deer may be taken at a time in Zones 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 17, 19, 25, 36, 38, 39, 40, 41, 42, 48, 49, 50, 51, 54, 56, 64, and 66 and 68 during the Permit Muzzleloader and Permit Shotgun seasons (in those zones open for both of those seasons) until the season concludes.

Tagging Requirements - Transportation Tag

Immediately upon harvesting any deer, hunters must complete in ink all information requested on the Transportation Tag either attached to your *license*, the regular, zone-specific deer *permit*, the *Antlered Buck Bonus Permit*, or the *supplemental tag*. Be sure to use the Transportation Tag corresponding to the hunting season in which the deer was harvested.

1. A valid transportation tag first must be detached from your license or permit then securely attached to the deer immediately after it has been killed.
2. **Youth and farmer** hunters creating a handwritten transportation tag must include the following information: Conservation ID number, date, hunting season, gender of deer, number of antler points, county, township and deer management zone. See page 33 for a printed Youth/Farmer Transportation Tag.
3. Transportation Tags from **2007** permits are **valid for the entire length** of the Permit Bow, Permit Muzzleloader and Permit Shotgun seasons, including January and February **2008**, if the zone specified on the original permit is open for hunting during these dates.
4. **All Supplemental Deer Transportation Tags** are valid *on the day of issuance* for taking another deer.
5. When harvesting an antlered deer, see also *Tagging Requirement - Buck Stub* below.
6. See *Mandatory Deer Check Station Requirement* below.

Tagging Requirements - Buck Stub

Immediately upon harvesting any antlered deer, hunters must initial and date in ink, the buck stub from their hunting license. Be sure to use the buck stub corresponding to the hunting season for the deer you just harvested. This buck stub shall be in addition to the transportation tag; See *Tagging Requirement - Transportation Tag*, above.

After Harvesting a Deer: Mandatory Deer Check Requirement

Immediately upon harvesting a deer, hunters must complete in ink all required tags and/or buck stub. See *Tagging Requirements* above.

1. **All hunters are required to register harvested deer.** Bring your deer to the closest official deer check station (see *Deer Check Stations*, page 56).
2. **Be discrete when transporting your deer to and from a check station, butcher or taxidermist.**
3. **Deer must be taken to the check station by the hunter who killed the deer on the day killed**, by 8 p.m. during the regular Fall Bow Season, and by 7 p.m. during all other seasons.
4. **Transportation Tags must** be surrendered to the check station operator. Check station personnel will attach a legal metal possession seal to the deer, and, if applicable, will issue a New Jersey Supplemental Transportation Tag for the harvest of another deer. It is the hunter's responsibility to ensure the seal is attached and locked on the deer.
5. **Remember:** Bring your hunting license and applicable deer season permit(s) to the deer check station.

After checking your deer — Possession/Sale

- Metal possession seals (affixed to deer at check stations) **must** be kept until all venison is consumed **and** as long as you keep any part or parts, including antlers. Persons with deer mounts should write their name, legal possession seal number, date of kill and season of harvest on back of the mounting plate for future reference.
- It is illegal to sell deer meat, deer antlers or any part of a deer **except** deer hides. However, nonprofit organizations conducting wild game dinners for social and fundraising events may offer game or furbearer meat (the sale of which is otherwise prohibited) provided that the meat been harvested, stored and processed in accordance with applicable laws and regulations.

Spotlighting

- Spotlighting deer during hours of darkness from a vehicle is illegal while in possession of a weapon capable of killing deer, **whether the weapon is cased, uncased or in a locked compartment**. This does not apply S

What should be done when a deer is recovered too late to register at a check station?

1. **Go home and immediately call the nearest NJ Fish and Wildlife Law Enforcement Office.**

Call the Northern Region Law Enforcement Office at (908) 735-8240 for deer harvested in these counties:

Bergen	Morris	Union
Essex	Passaic	Warren
Hunterdon	Somerset	
Hudson	Sussex	

Call the Central Region Law Enforcement Office at (609) 259-2120 for deer harvested in these counties:

Burlington	Monmouth
Mercer	Ocean
Middlesex	

Call the Southern Region Law Enforcement Office at (856) 629-0555 for deer harvested in these counties:

Atlantic	Cumberland
Camden	Gloucester
Cape May	Salem

2. **Leave a message** on the recorder with your name, phone number, hunting license number, sex of deer and from which deer management zone the deer was taken.
3. **Check your deer the following morning at the deer check station closest to your home.** If weather conditions necessitate butchering the deer immediately, the hunter must bring the head and hide to be checked the next day.

to the regular use of headlights when traveling in a normal manner on public or private roads.

Chronic Wasting Disease (CWD) Guidance

Chronic Wasting Disease (CWD) affects the central nervous system of deer family species. Most scientists believe the disease is caused by an infectious protein or prion. CWD has been diagnosed in mule deer, white-tailed deer, black-tailed deer and mule deer, white-tailed deer hybrids and North American elk. Moose have been experimentally infected through oral inoculation.

There is no evidence linking CWD to disease in humans; however, the U.S. Centers for Disease Control and Prevention and the World Health Organization recommend that people do not consume meat from an apparently sick deer, elk or any animal found dead or known to be positive for CWD. Also, as a precaution in areas where CWD has been identified, hunters are advised not to eat tissues known to harbor CWD prions (lymph nodes, tonsils, spleen, pancreas, brain, and spinal cord) and to "bone out" the meat.

CWD has been diagnosed in deer and elk in 13 states and two Canadian Provinces:

Colorado ¹	Alberta, Canada ²
Illinois ³	Nebraska ¹
Kansas ²	New Mexico ³
New York ¹	Minnesota ²
Utah ³	South Dakota ¹
Montana ²	Wisconsin ¹
Oklahoma ²	Wyoming ^{1*}
Saskatchewan, Canada ¹	

¹ CWD in both captive and wild deer

² CWD in captive deer only

³ CWD in wild deer only

* captive research herd

CWD can be transmitted among adult deer, and the prions have been found in the brain, eyes, spinal cord, spleen, tonsils and lymph nodes. Prions in these tissues of infected deer can potentially infect other deer if they are disposed of improperly.

To ensure you do not inadvertently spread CWD prions from the above-listed states:

- Follow the rules of the states in which you hunt to ensure you do not spread CWD
- Bring back to New Jersey only hides, capes and boned meat free of spinal cord, brain and associated lymph nodes
- Bring back to New Jersey skull plates free of brain residue and disinfected by soaking in a 30 percent Clorox solution for 15 minutes
- Do not dispose of carcasses (particularly skull, brain, spinal cord, lymph nodes) in the

wild when you return to New Jersey. The remains of an eviscerated butchered deer or elk must be disposed of in the household trash where it will be delivered to an appropriate landfill.

- Butchers must use food-waste dumpsters for appropriate disposal of larger quantities of deer remains in landfills.
- Taxidermists must not dispose of curing salts,

deer or elk carcasses or body parts in the wild where deer may find them.

Taxidermists with larger quantities of animal parts must use food-waste dumpsters for appropriate disposal.

- For the latest CWD information, visit our Web site at www.NJFishandWildlife.com/cwdinfo.htm.

2006-2007 Deer Harvest

SUMMARIES

New Jersey deer hunters harvested 56,673 deer during the 2006-2007 season between September 9, 2006 and February 17, 2007. The harvest for this year's deer season is the lowest since the institution of Earn-A-Buck regulations in 1999, and is 5 percent lower than the 59,657 deer taken in 2005. The antlerless portion of the 2006 harvest was 37,213 animals, down 4.9 percent from 2005. The antlered portion of the 2006 harvest was 19,460 animals, down 5.1 percent from 2005.

2006-2007 Deer Season Harvest Summary

2006-07 Deer Harvest by County and Season

INDIAN CREEK

Commercial Shooting Preserve, LLC

Quality, private, upland bird hunting available on our 300-acre farm,

conveniently located in Hardyston (Sussex Co.) NJ.

Our commercial season runs Sept. 1st, '07–May 1st, '08, seven days a week. Guided hunts available on request.

2007/2008 SEASONAL MEMBERSHIPS NOW AVAILABLE

English Pointer and German Shorthaired Pointer Puppies and started dogs available this fall from the heart of our kennel of first class winning bird dogs. We also offer gun dog training and evaluation year round.

In 2006 our Indian Creek Bird Dogs received four "DOG OF THE YEAR AWARDS." The momentum continues in 2007 with "26" trips to the winners circle to date! We are very proud of the success of our dogs and will be happy to show them in action anytime.
