

ATTENTION ANGLERS

Have you explored the valuable fishing information on our Web site?

Come visit us (again) — NJFishandWildlife.com

Must-see Places to Fish

- Map links for over 200 waterbodies
- Statewide public-access lakes and ponds
- Trout stocked waters listed for spring, fall and winter
- Driving directions to key access sites for select trout-stocked waters
- Delaware River fishing access sites
- Handicapped-accessible locations

Tips for Targeting Fish

- Fish species profiles
- Fishing gear and techniques
- Fish stocking records, now and then
- Great fishing articles

Fisheries Programs, Regulations and Much More

- Freshwater Fishing *Digest*, present and past years
- Updates on New Jersey's freshwater fisheries resources—current and past aquatic issues

Remember, you can always buy your freshwater fishing license online — instantly!

Be sure join Fish and Wildlife's freshwater e-mail LISTSERV. Receive updates on agency activities and important information regarding New Jersey's freshwater fisheries resources. Stop by our Web site at NJFishandWildlife.com/lstsub.htm.

Fish Smart, Eat Smart

Eating Fish And Crabs Caught In New Jersey Waters

Fishing provides enjoyable and relaxing recreation. Fish are an excellent source of protein and other nutrients and play a role in maintaining a healthy, well-balanced diet. Many anglers enjoy cooking and eating their own catch. However, elevated levels of potentially harmful chemical contaminants such as dioxin, polychlorinated biphenyls (PCBs), pesticides and mercury have been found in certain fish and crabs in some New Jersey waters. Fish consumption advisories have been adopted to guide citizens on safe consumption practices.

The current list of fish consumption advisories consists of statewide, regional and water body-specific warnings for a variety of fish species and fish consumers. The New Jersey Department of Environmental Protection (DEP) and the Department of Health and Senior Services have prepared literature and a new Web site to help you make informed choices about which fish to eat and how to reduce your exposure to these harmful chemicals.

Check online for fish consumption advisories on the local water body in which you fish!
Go to FishSmartEatSmartNJ.org

To reduce exposure to harmful chemical contaminants when preparing and eating the fish species taken from the identified waters, it is essential to follow the guidelines provided. The DEP encourages you to consult the Fish Smart-Eat Smart Fish Advisory Guide or www.FishSmartEatSmartNJ.org when making decisions about eating recreationally caught fish and crabs.

The *Fish Smart-Eat Smart Advisory Guide* includes contaminant information, advisory charts, plus preparation and cooking methods to reduce contaminant levels, as well as specific guidelines, advice and prohibitions for people at high risk, such as children, pregnant women and women of child-bearing age. *The Guide* also includes Web site links to Pennsylvania, Delaware and New York for information about fish consumption advisories for shared waters.

For a complete list of state and federal marine fish consumption advisories visit: FishSmartEatSmartNJ.org.

The fish consumption advisories and Fish Smart-Eat Smart Web site are updated periodically and are available online or from the Office of Science at (609) 984-6070 and through the Division of Health and Senior Services at (609) 826-4935.

▶▶ VOLUNTEERS NEEDED TO GET KIDS HOOKED ON FISHING!

New Jersey Division of Fish and Wildlife needs volunteers at the Pequest Trout Hatchery and Natural Resource Education Center to teach youths about fishing.

Teaching experience is helpful—but not required—to become a fishing education instructor. However, enthusiasm, energy and the desire to teach children proper fishing techniques and ethics is a must!

Classes run Monday through Friday from April through October. Interested applicants must become a Wildlife Conservation Corps (WCC) volunteer. Download a WCC application from our Web site at: NJFishandWildlife.com/wcchome.htm.

Share the pleasures of fishing and pass on a conservation ethic to the next generation. Become a fishing education instructor today!

For more information on Fish and Wildlife's fishing education programs, call Jessica Griglak at (908) 637-4125, or e-mail Jessica.Griglak@dep.state.nj.us.
