Thank you for your comments; public input has been and will continue to be a critical component of the project. The screening criteria as applied in the Alternatives Analysis presented tonight will provide the basis for the selection of the Preferred Alternative in the NEPA decision making process.

1. Please place an X on the map to indicate the general area where you live and/or work?

2. What features do you like from each of the Alternatives?

3. What features do you have concerns about from each of the Alternatives?
