**DRAFT FOR DISCUSSION PURPOSES (Version 9.0)**

**PLEASE NOTE THIS IS A DRAFT, WORK IN PROGRESS that will evolve as planning continues. Not meant for public circulation beyond the EIS/CEQA.**

### Purpose & Need

**Flood Risk Reduction**

- **Built Environment/Human Environment**
  - **Construction/Maintenance & Component**
    - Reduces Flood Risk from Storm Surge
      - Provides significant increased risk to transportation infrastructure in the Project Area.
    - Provides increased risk to transportation infrastructure in the Project Area.
  - **Other Identified Fund Sources**
    - Includes features that would protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Efforts**
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.

### Effects to Existing Utilities & Utility Infrastructure

- **Regulatory Requirements**
  - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Identified Fund Sources**
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Efforts**
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.

### Effects to Existing National, Local, Traffic, and Connectivity

- **Regulatory Requirements**
  - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Identified Fund Sources**
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Efforts**
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.

### Effects to Existing Waterfront Access

- **Regulatory Requirements**
  - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Identified Fund Sources**
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Efforts**
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.

### Cost to Implement Concept

- **Funding Opportunities**
  - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Identified Fund Sources**
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Efforts**
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.

### Other Considerations

- **Other Efforts**
  - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Identifed Fund Sources**
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
  - **Other Efforts**
    - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
    - Includes features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.
      - Does not include features that protect and/or enhance fish habitat and/or connectivity of fisheries habitats and/or others.

---

**CONCEPTUAL SCREENING CRITERIA**

- **Use of the term “relative” or “relatively” indicates that concepts are compared to each other.**
