

GREEN ACRES PROGRAM

New Jersey Department of Environmental Protection

LOCAL GOVERNMENT ASSISTANCE APPLICATION LAND ACQUISITION AND PARK DEVELOPMENT 2021

Green Acres Mission Statement

*To achieve, in partnership with others, a system of interconnected open spaces
the protection of which will preserve and enhance New Jersey's natural environment
and its historic, scenic, and recreational resources
for public use and enjoyment.*

**NJDEP GREEN ACRES PROGRAM
LOCAL GOVERNMENT ASSISTANCE APPLICATION
LAND ACQUISITION AND PARK DEVELOPMENT**

GENERAL INFORMATION AND GUIDELINES

Since 1961, the Green Acres Program has funded the acquisition of open space for recreation and conservation purposes, and the development of outdoor recreational facilities. Green Acres remains committed to preserving New Jersey's natural, historic, and recreational resources statewide. We are pleased to be able to continue the tradition of partnering with local and county governments and nonprofit organizations to serve the people of our state.

The application deadline for our next funding round is June 30, 2021. Approvals will be made using funds available from the 2014 voter-approved referendum, which became the Preserve New Jersey Act (P.L. 2016, C 12). These funds may be supplemented with awards from federal programs such as the Land and Water Conservation Fund or other sources, if available. Projects will compete against each other, and successful applications will be approved by the Garden State Preservation Trust. The demand for funding continues to greatly exceed Green Acres' available funding. Successful applications are normally approved subject to an award cap, and often there is not sufficient funding to approve all eligible projects. **As a result, we will only consider funding requests from new applicants or from applicants who are making significant progress on open projects and are in compliance with Green Acres rules on their parkland.**

In addition, we will only approve one acquisition or park development project per applicant, except that an applicant may also submit an application for a Stewardship grant (described below.) Also, applicants who applied for the recently announced Urban Parks grants and requested that their project be rolled over into the Green Acres funding round, may also submit one Green Acres acquisition or park development project application. All interested applicants are encouraged to contact Green Acres *as early as possible* to discuss project eligibility, program priorities, and application procedures.

Over the years, Green Acres has adapted to meet changing conservation and recreation priorities. We encourage applicants to consider projects that will address these important issues:

Environmental Justice: Central to our mission is making New Jersey stronger and fairer for all residents, regardless of race, ethnicity, color, national origin, or income. With the passage of Executive Order 23 on April 20, 2018, Governor Murphy directed the Department of Environmental Protection to integrate environmental justice considerations into our decision-making. We will prioritize projects that promote environmental equity, either directly or as a co-benefit, by reducing or eliminating disproportionate environmental and public health stressors or creating environmental and public health benefits in Overburdened Communities. For more information, please see www.nj.gov/dep/ej/docs/furthering-the-promise.pdf. For a list of Overburdened Communities, please see www.nj.gov/dep/ej/communities.html

Climate Resilience: On January 27, 2020, Governor Murphy signed Executive Order No. 100, directing the DEP to make sweeping regulatory reforms, collectively known as Protecting Against Climate Threats (PACT), to adapt to climate change. This includes incorporating climate change considerations into our grant programs. Green Acres will prioritize projects that contribute to resilience or mitigate climate change impacts, such as by preserving forested and flood-prone areas, enhancing chronically inundated wetlands, revegetating riparian areas, connecting wildlife corridors, expanding upstream flood attenuation potential, promoting wildlife, and including green infrastructure into your park designs. We invite you to learn more about DEP's Climate Change Efforts by visiting <https://www.nj.gov/dep/njpac/>

PROJECT ELIGIBILITY

LAND ACQUISITION

Eligible land acquisition projects include, but are not limited to, the purchase of forests, natural areas, historic sites, conservation areas, water bodies, and open space for active or passive recreation purposes. Any existing structures on the acquisition site must either be used in direct support of outdoor recreation, or demolished to create open space, as

long as the DEP's Historic Preservation Office determines they do not have historic significance. The local government may purchase land in fee simple or it may acquire a perpetual conservation easement or historic preservation easement on the property, as long as meaningful public access is provided to the project area. Meaningful public access, as determined by Green Acres based on specific parcel circumstances, must be provided to every project funded under this program.

Acquisition Categories:

- Standard Acquisition - This category is for acquisition projects undertaken by municipalities and counties that do not yet have an open space tax. Projects in this category are eligible to receive assistance in the form of a Green Acres 25% matching grant and, if available, a Green Acres loan. Green Acres acquisition loans are available at 2% interest, payable over thirty years.
- Planning Incentive Acquisition This category is open to municipalities and counties that have an open space tax (or a Green Acres-approved alternative) and an adopted Open Space and Recreation Plan approved by Green Acres. Funding is available in the form of a Green Acres 50% matching grant. **Please contact Green Acres for a streamlined Planning Incentive application and additional information.**
- Site Specific Incentive Acquisition - This category is for acquisition projects undertaken by municipalities and counties that have an open space tax (or a Green Acres-approved alternative) but do not yet have an Open Space and Recreation Plan approved by Green Acres. Projects in this category are eligible to receive assistance in the form of a 50% matching grant. Applicants under this category must submit a Green Acres application for each parcel they would like to purchase.
- Urban Aid Acquisition - This category is limited to acquisition projects *located in* municipalities eligible to receive state aid pursuant to P.L.1978, c.14 (C.52:27D-178 et seq.). To determine if your municipality qualifies, please see attached list or visit the Department of Community Affairs' web page at www.nj.gov/dca/. Funding for Urban Aid acquisition projects is in the form of a 75% matching grant and, subject to available funding, a zero percent interest Green Acres loan (payable over thirty years).

OUTDOOR RECREATION DEVELOPMENT

Funding assistance is also available for park development projects that result in increased public use and enjoyment of outdoor recreation areas. Eligible recreation facilities include those that support outdoor games and sports, winter sports, boating, picnicking, fishing, biking, hiking, swimming, camping, nature and historic interpretation, and similar activities. Facilities that support outdoor recreation are also eligible; examples of support facilities include lighting, parking areas, and structures that provide restrooms, concessions, or storage for park equipment. Indoor recreation facilities, community centers, and school sports facilities are not eligible for Green Acres funding. Projects that will have a significant negative impact on the site's natural resources (such as excessive tree clearing) also are ineligible. Local government applicants must either own the land to be developed or must obtain an irrevocable lease or use agreement (pre-approved by Green Acres) for a term of at least 25 years from the beginning of the project. If no such lease exists, applicants should submit a letter from the landowner agreeing to provide such an agreement.

Phasing of development proposals is an acceptable means of obtaining Green Acres funding for more costly projects. The uncertainty surrounding future resources, however, precludes our ability to guarantee assistance for subsequent phases. Accordingly, phased proposals will be evaluated only on the stage currently subject to funding, and this phase must result in a meaningful and usable outdoor recreation facility. Support facilities or other ancillary project elements (i.e., parking lots, site preparation costs, etc.) should be commensurate with the recreational component of any given project or phase.

If you are considering submitting a "multi-parks" application, please note that the limit is two parks. Otherwise, separate applications will be required. Please contact Green Acres to discuss any multi-park proposal prior to applying.

Development Categories:

- **Urban Aid Development** - This category is limited to development projects *located in* municipalities eligible to receive state aid pursuant to P.L.1978, c.14 (C.52:27D-178 et seq.). To determine if your municipality qualifies, please see attached list or visit the Department of Community Affairs' web page at www.nj.gov/dca/. Funding for Urban Aid development projects is in the form of a 75% matching grant and, subject to available funding, a 0% interest Green Acres loan (payable over twenty years).
- **Development (Non-Urban Aid)** - Green Acres provides funding for the development of outdoor recreation facilities in the form of a loan only (2% interest, payable over twenty years), unless the applicant is eligible for a partial grant, as described here:
 - For park development projects located in Densely or Highly Populated Municipalities or sponsored by Highly Populated Counties (see enclosed list), funding is available in the form of a 25% matching grant, with the balance as a loan, subject to available funding.
 - Projects sponsored by Densely Populated Counties (see enclosed list) are eligible for funding in the form of a 50% matching grant, with the balance as a loan, subject to available funding.

STEWARDSHIP

Green Acres also provides Stewardship funding for projects that enhance or restore a site's natural resources. Stewardship applications can be found at www.nj.gov/dep/greenacres/pdflaunch.html#applications and also are due on **June 30, 2021**. Green Acres staff is available to discuss the various funding programs/options.

ELIGIBLE COSTS

For acquisition projects, costs eligible for funding include the cost of acquiring the land as well as other related costs if they are included in the initial request and there are sufficient funds. These include survey, appraisal, title, and preliminary assessment costs associated with an acquisition, provided these reports are prepared in accordance with Green Acres guidelines. The cost to demolish *non-historic* structures on a site being acquired is eligible for funding up to an established cap. Relocation costs and costs of well testing done in compliance with the Private Well Testing Act (P.L. 2001, c. 40; N.J.S.A. 58:12A-26 et seq.) also are eligible for funding, if applicable. Incidental costs, individually itemized, associated with the implementation of the acquisition project, including legal, engineering, financial, geological, hydrological, inspection, and other professional services are eligible for reimbursement up to an established cap.

For development projects, the cost of constructing the recreational facilities is eligible for funding, as are other related costs if included in the initial request and if there are sufficient funds. Professional services (e.g., design, engineering, and supervision) up to 13% of the cost of construction, and preliminary assessment costs associated with the project site are eligible. Other incidental costs related to the development project, including legal, advertising, permit fees, and preliminary planning and engineering necessary for the preparation of the application, are eligible up to an established cap.

PLANNING CONSIDERATIONS

As you consider potential projects for Green Acres funding, please keep in mind that all proposals must demonstrate the following: consistency with established needs and planning objectives in local and state planning documents, such as the municipal/county Master Plan and New Jersey's 2018-2022 [Statewide Comprehensive Outdoor Recreation Plan](#); an ability and commitment to maintain the proposed open space/outdoor recreation project; and public input in the project planning process. Successful applications will reflect comprehensive environmental protection, effectively meet the public's open space/recreation needs, demonstrate cost effectiveness, provide meaningful public access, consider climate change/resilience, and meet environmental justice goals.

To ensure that proposals selected for Green Acres funding are those that best represent established open space/recreation priorities, we encourage you to discuss your proposal with land-use planning officials, recreation staff, environmental commissions, and other appropriate interest groups. For park development projects, applicants should

conduct sufficient public outreach and recreational planning to ensure that proposed facilities meet short-term community needs and anticipate long-term recreational trends.

Local governments proposing to acquire property for future development, as well as applicants seeking development funds, should carefully analyze site suitability early in the open space/outdoor recreation planning process and prior to submitting applications to Green Acres. Site attributes, such as wetlands, dunes, endangered species, mature forested areas, or other significant natural resources, may define, limit or, in some instances, preclude development (either current or future). Applicants are urged to seek assistance from DEP or other regulatory/permitting agencies to ascertain whether special approvals and permits may be associated with sites proposed for recreational development. Early awareness of possible site development limitations is integral to sound planning practices and often minimizes subsequent construction delays and constraints. Permit identification is required as part of all Green Acres development applications.

The Department encourages the local government to design and construct park development projects, especially any buildings, using sustainable design principles. These design principles include some of the following: the installation of equipment that results in water use reduction; the use of clean energy, renewable energy, and energy efficient technologies; the use of construction materials that include recycled content; and the use of materials that reduce exposure to indoor air contaminants. For guidance, please refer to the latest version of the US Green Building Council's (USGBCs) Leadership in Energy and Environmental Design (LEED™) Green Building Rating System for New Construction and Major Renovations at <https://new.usgbc.org/>.

HISTORIC PROPERTIES

Projects that involve a historic property shall meet the Secretary of the Interior's Standards for the Treatment of Historic Properties (found [here](#)). Projects involving a historic or cultural landscape shall meet the Secretary of the Interior's Standards for the Treatment of Historic Properties and follow the Secretary of the Interior's Guidelines for the Treatment of Cultural Landscapes (found [here](#)).

NJ MAP / CONSERVATION BLUEPRINT

Open space and recreation planners now have a tool available to aid them in protecting natural, recreational, and historic resources in their communities. The NJ Map / Conservation Blueprint is an interactive map-based system that provides access to data for land preservation planning in New Jersey. Visit www.NJMAP2.com for a wide array of map data on natural resources that is essential for open space and recreation planning.

SPECIAL PLANNING AREAS REVIEW

For development projects, if the proposed project is located in the Highlands, the Meadowlands, or the Pinelands, the local government must meet with the Highlands Council, Meadowlands Commission, or Pinelands Commission, as applicable, to discuss the proposed project prior to applying for Green Acres funding. A letter stating that such a pre-application conference was held, accompanied by a copy of the Commission's/Council's comments on the proposed development project, if any, must be submitted with the application.

FUNDING AMOUNTS

Please note that, while projects may be eligible for funding up to a certain percentage of the total project cost, the actual amount awarded to individual projects is determined by weighing total demand against available resources. While we cannot predict award levels before we know the total demand, for perspective, approvals in the last funding round ranged from up to \$500,000 for non-urban municipalities to \$1,000,000 for Urban Aid municipalities. Similarly, awards to non-urban counties were up to \$1,000,000 while the most densely populated counties received \$1,500,000. If your project cost is substantially larger than this range of potential funding amounts, please reach out to your Green Acres representative to discuss. (The list of Green Acres staff contacts is on the last page of this application package.)

Please note that grants and loans obtained through the Green Acres Program are not subject to local government CAP laws. Upon loan approval, the local government will be required to pass a capital spending ordinance authorizing

two semi-annual repayments to the state. Interest on the loan begins accruing on the date of the first disbursement, with a twenty year (for development projects) or thirty year (for acquisition projects) maximum repayment period.

APPLICATION REQUIREMENTS

PUBLIC REVIEW AND COMMENT

All applicants must advertise and hold a public hearing for the purpose of discussing the proposed project *before* submitting an application to Green Acres. Green Acres regulations set out the following public hearing application requirements:

- The applicant must publish a notice of the public hearing on its website and in the official newspaper of the municipality in which the proposed project is located, and, if the local government is a county, also in a newspaper of general interest and circulation.
- The hearing must be advertised as a display ad.
- The hearing advertisement(s) must be published at least 15 days before the hearing.
- The advertisement(s) must specifically mention the proposed Green Acres application.
- The public hearing must be held in the evening.
- The public hearing must be conducted/attended by the elected governing body of the local government. Due to the restrictions necessitated by COVID-19, remote public meeting guidelines may be followed. (See www.nj.gov/dca/divisions/dlgs/lfns/20/2020-21.pdf for more information.)

Failure to conform with these requirements regarding the pre-application public hearing may disqualify an application.

In addition, in order to increase transparency, Green Acres will post on its website, information on every application we receive. While we will direct the public to provide their input to the applicant, we will ask applicants to address any substantive comments that are brought to our attention during our review period.

PROJECT RANKING

Applications for Green Acres funding are subject to a competitive ranking system. The enclosed Project Priority System measures the extent to which each proposal addresses specific local open space and recreation facility needs, the degree of public input and support during the planning process, consistency of the proposal with existing state and local planning objectives, and project quality. The narrative portion of the Green Acres application is critical to the project ranking process. Therefore, it is important for the narrative to clearly address, *in order*, each factor listed in the Priority System.

PROJECT SCHEDULE

There are many things that must be done to successfully acquire land, develop recreational facilities, or steward natural resources. Once approved, Green Acres establishes a **two-year project period**, during which time the local government must meet all procedural requirements, complete the acquisition or development project, and request payment. For Planning Incentive projects, at least one acquisition must be completed during the project period to remain eligible. Applicants must demonstrate that they have planned each step of the proposed project so that it can be completed in the time allotted. In addition, significant progress must be made throughout the project period to remain eligible. A proposed project schedule is required as part of each application to assist you in project planning and to allow Green Acres to evaluate your proposal. That schedule will become the basis of a new regular status report requirement during the course of the project. Please talk to your Green Acres contact if you do not believe that you can complete the project within that two-year project period. Approved projects that are not making significant progress or cannot be completed by the end of the project period will be cancelled.

PRELIMINARY SITE ASSESSMENT

Green Acres requires careful review of all proposed project sites for evidence of past use as landfills; hazardous waste production, storage, or disposal sites; or the adverse effects resulting from such sites in close proximity to proposed public land. The presence of historic fill and residual agricultural chemicals at the proposed project site must

also be evaluated. This is intended to minimize public liability for site cleanup costs and allows the state and local governments to be reasonably assured that lands acquired or developed with public funds can be used for recreation or conservation purposes without risk to public health.

For this reason, if your application is approved, you will be required to conduct a preliminary assessment of the project site. Green Acres will provide guidance documents that require adherence to the criteria established by the NJDEP's Technical Requirements for Site Remediation (N.J.A.C. 7:26E-3). A portion of the costs normally associated with this professional service is reimbursable as part of an approved and completed Green Acres project, as long as the preliminary assessment is done in accordance with our guidelines.

Green Acres encourages municipalities and counties to reclaim and restore former brownfields sites and transform them into public spaces, such as recreational and natural areas. The Department's Office of Brownfield Reuse has experienced NJDEP case managers who can oversee remediation and revitalization efforts in your community. If you believe your project site qualifies as a brownfield, please discuss this with your Green Acres representative.

YOUR POST-PROJECT RESPONSIBILITIES

Prospective applicants are urged to familiarize themselves with the Green Acres Program rules (N.J.A.C. 7:36, found at www.nj.gov/dep/greenacres/regs.pdf). The rules are designed to advance Green Acres' statutory mission of expanding New Jersey's open space resources and increasing public outdoor recreation opportunities, giving attention to natural resource preservation. Acceptance of Green Acres funds obligates the local government to adhere to the program's requirements, both during the funding process and after a project is complete.

Most notably, the Green Acres rules state that a local government that receives Green Acres funding cannot convey, dispose of, or divert to a use for other than recreation and conservation purposes any lands already held by the local government for those purposes at the time of receipt of Green Acres funding. The local government is required to list such lands, known as "unfunded parkland", on the Recreation and Open Space Inventory (ROSI), which is part of an application for Green Acres funding. If the application is approved, the ROSI will become part of the project agreement between the local government and the State and will be recorded by the local government with its County clerk or registrar after it receives a disbursement of Green Acres funding. By statute, the acceptance of Green Acres funds imposes permanent open space restrictions on a local government's existing parkland, whether such lands are listed on the ROSI or not.

Prior to accepting our funding, local governments should be aware of the specific requirements of N.J.A.C. 7:36-25 regarding maintenance and operation of Green Acres encumbered parkland, including:

1. Green Acres encumbered parkland must be open to the public without discrimination or exclusion based on residency. N.J.A.C. 7:36-25.10 (for funded parkland) and N.J.A.C. 7:36-25.11 (for unfunded parkland)
2. Scheduling the use of facilities at directly funded sites is allowable, provided that such programmed uses are not exclusive or discriminatory and that adequate provisions are made for non-scheduled use. N.J.A.C. 7:36-25.9. Green Acres does not regulate the scheduling of facilities on unfunded parkland. N.J.A.C. 7:36-25.11.
3. Fees for use of directly funded sites are allowable. Differential fees for use by non-residents or different categories of users may also be charged but must be discussed with Green Acres to ensure they are equitable. All revenues derived from use or operation of directly funded sites must be used for the operation, maintenance, or capital expenses of either that park facility or the local government's funded parkland or recreation system as a whole. N.J.A.C. 7:36-25.9. Green Acres does not regulate the fees for use of unfunded parkland. N.J.A.C. 7:36-25.11.
4. Structures being acquired or developed with Green Acres funding, or constructed on funded parkland after a property is acquired by a local government, must be used exclusively in support of public outdoor recreation and conservation purposes. This condition will be included in the project agreement if the project is approved. Many

compliance problems result from the use of such structures for ineligible purposes. To avoid such problems, local governments must discuss proposed future uses of structures with Green Acres, both during and after the funding process, to ensure that such uses are allowable. N.J.A.C. 7:36-25.7. The requirements for construction or use of structures on unfunded parkland are similar to those that apply to funded parkland, but structures on unfunded parkland may be used for public indoor recreation as well as support of outdoor recreation. N.J.A.C. 7:36-25.8.

5. Leasing of Green Acres encumbered parkland for agricultural purposes is allowable as an interim parkland management tool but is not allowed as a permanent use of parkland. Farm leases on funded parkland must be approved by Green Acres and are subject to specific requirements in N.J.A.C. 7:25-13. Clearing of trees for agricultural use is not allowed on Green Acres encumbered parkland.
6. Compliance inspections of funded parkland are conducted by Green Acres every three years. If noncompliance is identified and not corrected in a timely fashion, Green Acres may suspend payments on active projects and the local government will not be eligible for future Green Acres funding. Additional information about your post-funding responsibilities can be found at <https://nj.gov/dep/greenacres/pdf/Inspection-of-funded-parklands.pdf>.

LOCAL ASSISTANCE PROGRAM APPLICATION FORM

*APPLICATION MATERIALS SHOULD BE SUBMITTED ON PAPER (ONE COPY) AND ELECTRONICALLY.
(INDIVIDUAL EMAIL CANNOT EXCEED 25 MB.)*

Complete and submit with **all required attachments** **by June 30, 2021** to:

Professional services	\$ _____
(up to 13% of construction)	\$ _____
Preliminary assessment	\$ _____
Other related costs* (itemized)	\$ _____
Total project cost	\$ _____

Total request this round \$ _____

Total request this round \$ _____

* Demolition and incidental costs will be limited to established caps.

Estimated yearly operating/maintenance expenses after acquisition or development \$ _____

Are there other current or have there been previous loans/grants related to this property/project?

_____ Yes _____ No If yes, explain: _____

Is the property listed on the New Jersey Register of Historic Places? _____ Yes _____ No

(If yes, additional coordination with the DEP's Historic Preservation Office will be required, depending on the potential impact to the listed property. Please see www.nj.gov/dep/hpo/2protection/njrreview.htm for more details.)

Are there any structures located on the project site? Yes ___ No ___. If yes, please describe the intended use of the structure(s) or if they will be demolished _____

(Please be aware that all structures must be used in support of outdoor recreation.)

Is the project site a current or former landfill site, known or suspected hazardous waste site, or adjacent to (or affected by) such sites?

_____ Yes _____ No. If yes, explain: _____

For acquisition projects, has the project site been identified by a municipality or otherwise designated for use in meeting municipal fair share low- and moderate-income housing obligations under the Fair Housing Act of 1985 (N.J.S.A. 52:27D-301)?

_____ Yes _____ No If yes, please describe the alternative to meeting such obligations: _____

For municipal projects, has the municipality achieved an **approved petition for plan endorsement** or, for a municipality in the Pinelands, received certification from the Pinelands Commission that its master plan and land use ordinances or regulations are consistent with the minimum standards of the Pinelands Comprehensive Management Plan, pursuant to N.J.A.C. 7:50-3 Part II or IV, as applicable?

_____ Yes _____ No If yes, please submit verification.

Current Community Profile: Area _____ (square miles)

Population _____ Year _____ Population per square mile _____

Project description (Please describe, *in detail*, the scope of project, existing land use, physical characteristics, short- and long-term plans for site, etc. *This description will enable us to determine if your proposed project is eligible for funding.* Attach additional sheets, if necessary.)

I, _____ (name of official authorized by the governing body resolution), hereby certify that the information provided within this Green Acres Program Application Form is complete and true.

Date

Signature of official authorized to submit application
as per attached Governing Body Enabling Resolution

**DEVELOPMENT APPLICATION
ATTACHMENTS CHECKLIST**

***APPLICATION MATERIALS SHOULD BE SUBMITTED ON PAPER (ONE COPY) AND ELECTRONICALLY.
(INDIVIDUAL EMAIL CANNOT EXCEED 25 MB.)***

NOTE: This checklist should be returned with your completed application. If any items are not applicable, please indicate with 'N/A' next to that item.

1. _____ Application Form: Are all questions answered? Is form signed?
2. _____ Governing Body Resolution (the enclosed form must be used)
3. _____ Units and quantities cost estimate, prepared and signed by an authorized, licensed professional
4. _____ Project schedule. Please see attached *Things To Be Done* list and state when you anticipate addressing/completing each item.
5. _____ Recreation & Open Space Inventory (ROSI) submissions:
 - _____ a. ROSI form (Link found on Page 27.)
 - _____ b. Official map of local government, keyed to ROSI
 - _____ c. Current tax maps that show each parcel of parkland listed on local government's ROSI. Each such parcel must be clearly outlined in distinctively colored ink. (**If these maps were previously submitted and remain unchanged, please contact your Green Acres representative regarding a waiver.)
6. _____ Narrative description of proposal (must address, *in order*, each applicable factor contained in the enclosed Local Project Priority System.)
7. _____ Site specific mapping:
 - _____ a. Site location on legible street map
 - _____ b. Tax map outlining boundaries of site to be developed
 - _____ c. Existing property survey (if available)
8. _____ Environmental Assessment (instructions enclosed)
9. _____ Conceptual Site Plan. Plans should be prepared by a licensed professional and should clearly identify all site features and existing facilities, proposed facilities/improvements, and any areas of proposed work (including tree clearing.)
10. _____ Copy of irrevocable property lease or use agreement (if applicable). Lease term must be 25 years from anticipated date of project commencement to ensure term of public use of facilities.
11. _____ Proof of publication for the public hearing advertisement. Green Acres application must be mentioned in the advertisement. (See Application Requirements for more details.)
12. _____ Minutes from public hearing
13. _____ Photographs of the site (digital images and/or prints)
14. _____ Letters of support (see Priority System Factor #5)
15. _____ Letters from municipal **and** county planning boards describing how project is specifically consistent with appropriate Master Plan (see Priority System Factor #5).
16. _____ List of all applicable permits that may be required for the project. Applicants with projects requiring permits, grants, or other approvals must contact all applicable permitting agencies to secure permit information and application materials prior to the submission of a Green Acres application. Evidence of having met this requirement must be provided with the application. Technical assistance from Green Acres is available upon request.
17. _____ Letter verifying pre-application conference with the Highlands Council, Meadowlands Commission, or Pinelands Commission, if applicable, including the Council/Commission's comments on the proposed development project.
18. _____ Breakdown of annual operating/maintenance expenses after development of site
19. _____ Conceptual floor plan that indicates the proposed use of any structure to be developed. All structures must be used in support of outdoor recreation and conservation purposes.

**ACQUISITION APPLICATION
ATTACHMENTS CHECKLIST**

***APPLICATION MATERIALS SHOULD BE SUBMITTED ON PAPER (ONE COPY) AND ELECTRONICALLY.
(INDIVIDUAL EMAIL CANNOT EXCEED 25 MB.)***

NOTE: This checklist should be returned with your completed application. If any items are not applicable, please indicate with 'N/A' next to that item.

1. _____ Application Form: Are all questions answered? Is form signed?
2. _____ Governing Body Resolution (The enclosed form must be used.)
3. _____ Project schedule. Please see attached *Things To Be Done* list and state when you anticipate addressing/completing each item.
4. _____ Recreation & Open Space Inventory (ROSI) submissions:
 _____ a. ROSI form (Link found on Page 27.)
 _____ b. Official map of local government, keyed to ROSI
 _____ c. Current tax maps that show each parcel of parkland listed on local government's ROSI. Each such parcel must be clearly outlined in distinctively colored ink. (**If these maps were previously submitted and remain unchanged, please contact your Green Acres representative regarding a waiver.)
5. _____ Site specific mapping:
 _____ a. Project Reference Map (See instructions that follow.)
 _____ b. Site location on legible street map
 _____ c. Tax map outlining boundaries of site to be acquired
 _____ d. Existing property survey (if applicable)
6. _____ Narrative description of proposal (must address, *in order*, each applicable factor contained in the enclosed Local Project Priority System)
7. _____ Proof of publication for the public hearing advertisement. Green Acres application must be mentioned in the advertisement. (See Application Requirements for more details.)
8. _____ Minutes from public hearing
9. _____ Letters of support (see Priority System Factor #5)
10. _____ Letters from municipal **and** county planning boards describing how project is specifically consistent with appropriate master plan (see Priority System #5).
11. _____ Photographs of the site (digital images and/or prints)
12. _____ Breakdown of annual maintenance expenses after acquisition of site

Schedule of Things to Be Done

The project period will be **two years**. In estimating a project schedule, please assume a hypothetical January 1, 2022 project commencement date. If approved, project schedule will be based on this schedule, from actual start date. Regular updates will be required to ensure continuous progress.

Acquisition Projects

Approximate Date

- | | |
|---|-------|
| 1. Obtain and submit Preliminary Assessment Report | _____ |
| (Resolution of any Areas of Concern should occur concurrent with subsequent acquisition steps.) | |
| 2. Meet w/ Green Acres prior to starting appraisals | _____ |
| 3. Hire appraisers | _____ |
| (This may include meeting on-site with Green Acres and appraisers unless GA waives meeting.) | |
| 4. Submit appraisals to Green Acres for review | _____ |
| (Allow 60 days for certification of market value.) | |
| 5. Sign purchase contract with owner | _____ |
| 6. Obtain and submit survey | _____ |
| 7. Obtain and submit title insurance commitment | _____ |
| 8. Close on property | _____ |
| 9. Submit for final payment | _____ |

Comments: _____

Development Projects:

Approximate Date

- | | |
|--|-------|
| 1. Obtain and submit Preliminary Assessment Report | _____ |
| (Resolution of any Areas of Concern should occur concurrent with subsequent development steps, unless not feasible.) | |
| 2. Finish project design | _____ |
| 3. Submit permit applications to appropriate agencies | _____ |
| 4. Finalize bid package/submit to GA for pre-bid approval | _____ |
| 5. Advertise for bids | _____ |
| (or get quotes, as appropriate, per the Local Public Contracts Law) | |
| 6. Award construction contract | _____ |
| 7. Begin construction | _____ |
| 8. Complete construction | _____ |
| 9. Submit for final payment | _____ |

Comments: _____

PROJECT REFERENCE MAP CHECKLIST ***FOR ACQUISITION PROJECTS ONLY***

The “project reference map” is the basis for Green Acres ranking and evaluation and is used by the appraiser(s) in the determination of the parcel’s market value. The minimum size of this map should be 11” x 17” and include the information listed below. Clarity of presentation of data will dictate the actual paper size. One copy of a project reference map is required for all acquisition proposals; additional copies of this map will be required if the project is approved for funding.

The project reference map should be generated digitally using autocad or Geographic Information System (GIS) technology. Local governments using GIS technology may acquire the georeference required by the Green Acres Program from the NJDEP’s GIS GeoWeb. It is recommended that you provide the map preparer with all available data and documents pertinent to the site (i.e., existing surveys, local government master plan, etc.) in order to facilitate this mapping process.

This checklist should be returned with your completed application. If any items are not applicable, please indicate with “N/A” next to that item. The following are required elements of the project reference map:

- ___ (a) Project name and location
- ___ (b) Block and lot numbers and municipality (ies) in which the acquisition is located
- ___ (c) Current owner(s) of record (*also indicate adjacent lots under the same ownership*)
- ___ (d) Area given in acreage or square feet
- ___ (e) Dimensions of each lot marked on each perimeter boundary
- ___ (f) Improvements shown in approximate location on parcel
- ___ (g) Acquisition area - if only a portion of the parcel is proposed for acquisition, both the proposed portion and the remaining areas and sizes should be noted.
- ___ (h) North arrow and scale of map. The map scale should be proportional to the size of the site to allow an appraiser to prepare an accurate appraisal
- ___ (i) If located in the Highlands, indicate whether site is in the Planning Area or Preservation Area
- ___ (j) Indicate if purchase will be fee or easement. If easement, and less than full public access is proposed, show public access area. (Extent of public access will affect value and eligibility for Green Acres funding. Please discuss with Green Acres.)
- ___ (k) Location and area of all known existing easements, road rights-of-way, encroachments, dune and beach areas, and similar features, with the source of such information shown;
- ___ (l) Location and area of all streams, rivers, waterbodies, and associated buffers. Any waterbody classified as Category One pursuant to N.J.A.C. 7:9B, and the associated special water resource protection area established pursuant to N.J.A.C. 7:8, must be shown and labeled. (Instructions for Finding Stream Classifications and Category One Waters Using NJ Geo-Web can be found at www.nj.gov/dep/wms/bears/gis_coverages.htm)
- ___ (m) Location and area of tidelands, available from the Department at www.nj.gov/dep/gis, as determined from New Jersey Tidelands claims maps, conveyance overlays, and atlas sheets;
- ___ (n) Location and area of floodplain, as shown on the New Jersey State Flood Hazard Area maps prepared under the Flood Hazard Area Control Act, N.J.S.A. 58:16A-50 et seq. and available from the DEP Office of Engineering and Construction, Bureau of Dam Safety and Flood Control at www.nj.gov/dep/damsafety/ or as determined from other State or Federal mapping or from a site delineation;
- ___ (o) Location and area of coastal wetlands, as shown on maps prepared by the Department under the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq. and available from the Department at www.nj.gov/dep/gis;
- ___ (p) Location and area of freshwater wetlands, available from the Department at www.nj.gov/dep/gis or as determined from:
 - A wetlands delineation, if one exists, verified by the Department's Land Use Regulation Program or its successor;
 - Freshwater wetlands maps prepared by the Department under the Freshwater Wetlands Protection Act, N.J.S.A. 13:9B-1 et seq., if they exist; or

- If the documents listed under (1) and (2) above do not exist, U.S. Fish and Wildlife Service National Wetlands Inventory (NWI) maps, in conjunction with County Soil Surveys published by the U.S. Department of Agriculture

GREEN ACRES ENABLING RESOLUTION

WHEREAS, the New Jersey Department of Environmental Protection, Green Acres Program (“State”), provides loans and/or grants to municipal and county governments and grants to nonprofit organizations for assistance in the acquisition, development, and stewardship of lands for outdoor recreation and conservation purposes; and

WHEREAS, the _____ (*name of applicant*) desires to further the public interest by obtaining funding in the amount of \$ _____, in the form of a \$ _____ matching grant and, if available, a \$ _____ loan, from the State to fund the following project(s): (*describe the project*) _____ at a cost of \$ _____ (*project cost*);

NOW, THEREFORE, the governing body/board resolves that _____ (*name of authorized official*) or the successor to the office of _____ (*title of authorized official*) is hereby authorized to:

- (a) make application for such a loan and/or such a grant,
- (b) provide additional application information and furnish such documents as may be required, and
- (c) act as the authorized correspondent of the above-named applicant; and

WHEREAS, the State shall determine if the application is complete and in conformance with the scope and intent of the Green Acres Program, and notify the applicant of the amount of the funding award; and

WHEREAS, the applicant is willing to use the State’s funds in accordance with such rules, regulations and applicable statutes, and is willing to enter into an agreement with the State for the above-named project;

NOW, THEREFORE, BE IT FURTHER RESOLVED BY THE _____ (*name of legal body or board*)

1. That the _____ (*title of authorized official*) of the above named body or board is hereby authorized to execute an agreement and any amendment thereto with the State known as _____ (*project name*);
2. That the applicant has its matching share of the project, if a match is required, in the amount of \$ _____;
3. That, in the event the State’s funds are less than the total project cost specified above, the applicant has the balance of funding necessary to complete the project;
4. That the applicant agrees to comply with all applicable federal, state, and local laws, rules, and regulations in its performance of the project; and
5. That this resolution shall take effect immediately.

CERTIFICATION

I, _____ (*name and title of Secretary or equivalent*) do hereby certify that the foregoing is a true copy of a resolution adopted by _____ (*name of legal body or board*) at a meeting held on the _____ day of _____, _____.

IN WITNESS WHEREOF, I have hereunder set my hand and the official seal of this body this _____ day of _____, _____.

(*name and title of Secretary or equivalent*)

PROJECT PRIORITY SYSTEM ACQUISITION AND DEVELOPMENT PROJECTS

This priority system is used to evaluate the relative merits of proposed acquisition and park development projects. The system is designed to reflect the degree to which proposed projects conform to findings, recommendations and priorities of the [New Jersey Statewide Comprehensive Outdoor Recreation Plan](#), the New Jersey State Development and Redevelopment Plan, the [New Jersey Comprehensive Statewide Historic Preservation Plan](#), the Preserve New Jersey Act, and DEP priorities. The system uses a set of factors to evaluate each project's conservation and outdoor recreation features and benefits.

NOTE: EACH APPLICABLE FACTOR SHOULD BE ADDRESSED, IN ORDER, IN NARRATIVE FORM.

FACTOR #1 OPEN SPACE NEEDS (Acquisition only) Up to 25 pts.
This factor evaluates the extent to which a proposed acquisition project will satisfy local open space needs. Please discuss the needs of the population to be served. The service area for each project will be defined based on population density and the type and size of the project. **Please discuss whether the project site is located in a census block group identified as an [Overburdened Community \(OBC\)](#) (see www.nj.gov/dep/ej/communities.html), and if so, which criteria apply (i.e., minority/low-income/limited English proficiency).** If the project site is not located within an OBC but will directly benefit residents of a nearby OBC, please describe project site's relative location and benefits.

FACTOR #2 SERVICE AREA FACILITY NEEDS (Development only) Up to 20 pts.
Please discuss the needs of the population to be served and evaluate the extent to which the proposed development project will satisfy local recreation needs. The service area for the project will be defined on the basis of population density, scope and type of project. **Please discuss whether the project site is located in a census block group identified as an [Overburdened Community \(OBC\)](#) (see www.nj.gov/dep/ej/communities.html), and if so, which criteria apply (i.e., minority/low-income/limited English proficiency).** If the project site is not located within an OBC but will directly benefit residents of a nearby OBC, please describe project site's relative location and benefits.

FACTOR #3 ENVIRONMENTAL PROTECTION (Acquisition only) Up to 3 pts. each
This factor is used to determine to what extent a proposed acquisition meets key conservation and environmental protection goals.

- a) **Lands that are of sufficient size and located so as to:**
 1. Protect critical wildlife habitat;
 2. Enhance or preserve a critical site identified in the State Plan, New Jersey Meadowlands Master Plan, the Pinelands Comprehensive Management Plan, and Highlands Regional Master Plan, as applicable, and/or another unique natural area or land type (for example, steep slopes, dunes, beach, wetlands, forest lands);
 3. Provide additions to or link between existing public recreation and/or open space areas;
 4. Support regional open space and/or conservation initiatives, such as shore protection or the preservation of landscape ecology, biodiversity, wildlife corridors and/or greenways; and
 5. Protect documented endangered and/or threatened species habitat.
- b) **Greenways and water resource protection projects**, including forests, shorelines, and stream corridors that are of sufficient size and located so as to:

1. Establish an integral link in an existing or planned local, regional or statewide conservation initiative, or a component of a Wild and Scenic Rivers system under the National Wild and Scenic Rivers Act, 16 U.S.C. § 1271-1287 and/or the New Jersey Wild and Scenic Rivers Act, N.J.S.A. 13:8-45 et seq.;
2. Facilitate water resource protection efforts by preserving property that is located partially or wholly in a watershed upstream of a surface water drinking intake as determined by the DEP's GIS/Geoweb layer, "water source area" or within a well head protection area as determined by the DEP's GIS/Geoweb layer, "well head protection areas (community)" and/or "well head protection areas (non-community)" **(See * below for source information)**;
3. Provide significant natural flood protection;
4. Site is a physical or visual buffer between a significant natural resource/feature and development, or provide visual or physical access to the water; and
5. Protect headwaters, tributaries, or corridors of any waterbodies classified as "Category One Waters," pursuant to N.J.A.C. 7:9B, and associated special water resource protection areas established pursuant to N.J.A.C. 7:8, as well as other streams or rivers.

FACTOR #4 HISTORIC RESOURCE PRESERVATION (Acquisition only) Up to 3 pts. each
 This factor is used to determine to what extent a proposed acquisition meets key historic resource preservation goals.

- a) The degree to which the project site has local, statewide, or national significance, or if it is also listed on the National Register of Historic Places.
- b) The degree to which the parcel to be acquired provides an extension to or linkage between existing historic property(ies) and other public recreation/conservation areas.
- c) The degree to which the project is a significant and/or contributing component of a historic district designated as such under N.J.S.A. 13:IB-15.128 et seq.
- d) If the project is part of an ongoing historic preservation or rehabilitation project or historic study or investigation, or contributes toward statewide efforts to prepare for the Semiquincentennial;

FACTOR #5 PUBLIC PARTICIPATION/SUPPORT/PLANNING (Acquisition and Development)
 This factor evaluates public involvement and support in the planning process beyond the minimum requirement of a public hearing.

- a) **Support** Up to 5 pts.
 Public support for a project is encouraged and should be demonstrated through letters from the municipal and county planning boards, park agencies, recreation departments, environmental commissions, historic preservation commissions, user groups, and the general public.
- b) **Planning** Up to 10 pts.
 Applicants should:
 - demonstrate consistency with the New Jersey State Development and Redevelopment Plan (State Plan); New Jersey Meadowlands Master Plan, Pinelands Comprehensive Management Plan, or Highlands Regional Master Plan, as applicable; the [New Jersey Statewide Comprehensive Outdoor Recreation Plan](#); and local and county land use plans, especially open space and recreation elements thereof, as demonstrated in excerpts from or specific references to such plans in the project application.
 - describe how the project promotes the goals and principals outlined in the [Furthering the Promise](#) environmental justice report and/or contributes to resilience or mitigation of climate change impacts.

- provide proof of an approved petition for plan endorsement by the State Planning Commission (if available) or, for a local government in the Pinelands, certification from the Pinelands Commission that its master plan and land use ordinances or regulations are consistent with the minimum standards of the Pinelands Comprehensive Management Plan, pursuant to N.J.A.C. 7:50-3 Part II or IV, as applicable.
- provide proof of an approved petition for plan endorsement by the State Planning Commission (if available) or, for a local government in the Pinelands, certification from the Pinelands Commission that its master plan and land use ordinances or regulations are consistent with the minimum standards of the Pinelands Comprehensive Management Plan, pursuant to N.J.A.C. 7:50-3 Part II or IV, as applicable.
- for park development projects, discuss how the proposed project is supported by local recreation facilities planning, after reviewing both current and anticipated recreational demand for and supply of the particular proposed recreational facilities.
- for a project involving a historic property, demonstrate how the project is consistent with the [New Jersey Comprehensive Statewide Historic Preservation Plan](#); is based upon a planning document such as a Historic Structures Report, a Preservation Plan, a Cultural Landscape Report, or similar; and includes provisions for project team members that meet or exceed the National Park Service’s Professional Qualification Standards in the relevant disciplines, published at 36 CFR Part 61.

FACTOR #6 PROJECT QUALITY (Acquisition and Development)

This factor evaluates project elements and features.

- a) **Accessibility (Acquisition and Development)** 1 pt. each
 The site location:
1. Is close to population centers;
 2. Is accessible by public transportation;
 3. Is accessible by walking and bicycling; or
 4. Creates public access where none exists or where existing access is undeveloped or restricted.
- b) **Recreation Potential (Acquisition only)** Up to 2 pts. each
 The site:
1. Is suitable for major outdoor recreation facility development;
 2. Is suitable for the use and/or development of appropriate water dependent recreation activities or facilities;
 3. Represents part of a planned or existing waterfront development or redevelopment plan;
 4. Provides environmental and/or historic interpretive opportunities;
 5. Improves management or expansion of recreation facilities; or
 6. Creates a potential recreation area in an Overburdened Community where one does not already exist.
- c) **Water Access (Acquisition and Development)** Up to 6 pts. (see table 1)
 This subfactor evaluates the extent to which a project improves needed visual and/or physical public access to water.
- d) **Project Quality (Development only)** Up to 2 pts. each
 The proposed project:
1. Serves multiple recreation and conservation purposes;
 2. Provides opportunities for recreational uses by diverse user groups;
 3. Includes significant plantings of native tree species;
 4. Minimizes use of impervious surfaces; or

5. Provides recreational facilities in an Overburdened Community where they do not already exist.

- e) **Cost Effectiveness** (Acquisition and Development) Point range: +2 to -2
 This subfactor evaluates the quality of conservation or recreation opportunities provided by a project in comparison to the anticipated cost. Considerations include:
1. Whether the land is available at lower cost due to bargain sale, easement, donation of land value, or partnerships (acquisition) or donation of labor, equipment, or materials or partnerships (development);
 2. Cost of future operation and maintenance;
 3. The anticipated life of the proposed facility relative to the capital investment (development);
 4. Whether the project site has development approvals from local planning board (Acquisition only); or
 5. Whether other public or private funds have been obtained for this project.

FACTOR #7 PROJECT PRIORITIES (Acquisition and Development) 1 pt. each
 The following acquisition and development project elements are encouraged. Please support answer.

- a) Private investment, ecotourism, or heritage tourism potential or public/private sector venture;
- b) Waterfront development or redevelopment;
- c) Trails, bike paths, or greenways;
- d) Historic or archeological resource enhancement or preservation;
- e) Wildlife habitat protection;
- f) Multiple uses and provides active and passive recreation opportunities;
- g) Addition to or the development of a prior Green Acres-funded acquisition or development project;
- h) Private donation of land, equipment, labor, or cash, etc.;
- i) Likelihood or threat of private development for other than recreation and conservation purposes. Examples include whether the property is on the market or is the subject of local planning board action, or if any development permits or approvals have been sought for the property (Acquisition only);
- j) Design and construction that utilizes clean and renewable energy and maximizes energy efficiency (Development only);
- k) Rehabilitation or redevelopment of an existing recreational facility (Development only);
- l) Reclamation of a former brownfields site;
- m) A project undertaken by a municipality in the Highlands that has amended its development regulations in accordance N.J.S.A. 13:20-13 to establish one or more receiving zones for transfer of development potential from a sending zone in the Highlands);
- n) A project undertaken by a municipality that has amended its development regulations in accordance with the State Transfer of Development Rights Act (P.L. 2004, c. 2 (N.J.S.A. 40:55D-137 et seq. to establish one or more receiving zones for the transfer of development potential;
- o) A project site located in a census block group identified as an Overburdened Community;
- p) Preserves a threatened historic property; or
- q) A project that contributes to resilience or mitigation of climate change impacts.

FACTOR #8 FIRST TIME APPLICANT (Acquisition and Development) 5 pts.
 Applies to a project sponsored by a municipality that previously has **not** received Green Acres funding.

FACTOR #9 FACILITY DESIGN SENSITIVITY AND SITE SUITABILITY (Development only) Up to 2 pts. each
 a) **General recreation facilities**
 The environmental features of the site will be used to determine the design sensitivity of the project. Projects that will have a significant negative impact on the site's natural or historic resources will not

be considered. Project design should minimize adverse impacts on the environmentally sensitive features of the site by:

1. Locating proposed facilities in already cleared areas, to minimize additional clearing of trees and vegetation;
2. Locating proposed facilities where topography and soil conditions are suitable, to minimize grading, excavation, fill, and drainage of a site;
3. Retaining, enhancing, or establishing vegetative buffers, or incorporating other site-sensitive techniques, to minimize impacts on sensitive areas such as shellfish beds, beach/dune systems, forests, wetlands, steep slopes, endangered or threatened species habitat, and aquifer recharge areas; and
4. Incorporating natural features to adapt for sea level rise (e.g. establishing living shorelines, revegetating riparian areas, enhancing wetlands, protecting flood prone lands, and including green infrastructure.)

b) Structures/Buildings

1 point

For projects involving structures, project is designed and constructed to meet the U.S. Green Building Council's (USGBCs) Leadership in Energy and Environmental Design (LEED™) Green Building Rating System for New Construction and Major Renovations Version 2.1. (*For more information on the USGBC's LEED™ System go to www.usgbc.org.*)

For buildings that are too small to qualify for LEED™ certification, project should adhere to similar design principles, including some of the following: the installation of equipment that results in water use reduction; the use of clean energy, renewable energy, and energy efficient technologies; the use of construction materials that include recycled content; and the use of materials that reduce exposure to indoor air contaminants.

For projects involving historic properties, the project must meet the Secretary of the Interior's Standards for the Treatment of Historic Properties.

**TABLE 1
PUBLIC ACCESS TO WATER
Need for Access**

<u>Water Body Type</u>	<u>HIGH</u>	<u>MEDIUM</u>	<u>LOW</u>

*Instructions for determining Priority System #3(b)2.

1. Go to <https://njdep.maps.arcgis.com/apps/webappviewer/index.html?id=02251e521d97454aabadfd8cf168e44d>
2. Click the "Add Data" Widget, the right-most symbol on the top blue bar (looks like a + on top of a piece of paper)
3. Type "Water Source Areas" into the search bar and click the magnifying glass or hit enter
4. Click "ADD" underneath "Water Source Areas of New Jersey" to add the layer to the map
5. Type "Well Head Protection Areas"
6. Click "ADD" underneath "Well Head Protection Areas for Public Non-Community" & "Well Head Protection Areas for Public Community"

PARK DEVELOPMENT APPLICATIONS

ENVIRONMENTAL IMPACT ASSESSMENT INSTRUCTIONS

As part of the Green Acres funding proposal, each applicant must collect, evaluate, and present pertinent environmental information necessary to ascertain the suitability of the site for the activities proposed. Please review and consider the applicable Landscape Project maps and reports, developed by the DEP's Division of Fish and Wildlife, during the preparation of the environmental assessment. Information about the Landscape Project can be found at www.nj.gov/dep/fgw/ensp/landscape/index.htm or by emailing the Division at www.nj.gov/dep/fgw/contactform.htm.

OUTLINE

1. DESCRIPTION OF THE PROPOSED ACTION

- a. Briefly describe the total development project
- b. State objectives of the project
- c. Fully describe multi-phase projects

2. DESCRIPTION OF THE ENVIRONMENT

Describe existing environmental features:

- a. vegetation
- b. wildlife
- c. geology, topography and soils
- d. water resources/hydrology
- e. historic/archeological resources
- f. transportation/access to site
- g. adjacent land uses/description of the surrounding neighborhood

3. ENVIRONMENTAL IMPACT ANALYSIS OF PROPOSED ACTION

Impacts are defined as direct or indirect changes in the existing environment, whether beneficial or adverse, that are anticipated as a result of the proposed action or related future actions and uses. Any off-site impacts, such as increased traffic on neighborhood roads or increased noise levels in surrounding areas, should be described. Whenever possible, environmental impacts should be quantified (i.e., number of trees to be removed, cubic yards of cut/fill, etc.).

- a. Discuss all affected resources and the significance of each impact
- b. Discuss short-term and long-term project impacts
- c. Discuss anticipated increase in recreation and overall use of site over time
- d. Identify adjacent environmental features that may be affected by the proposal
- e. List any permits required for project and brief status (i.e., waterfront development)
- f. For development that would impact an undisturbed portion of the project site, the local government must submit a Natural Heritage Data Request Form to the DEP's Office of Natural Lands Management (form available at www.nj.gov/dep/parksandforests/natural/heritage/datareq.html or by writing to Natural Heritage Program, PO Box 404, Trenton, New Jersey 08625-0404). **Please attach and discuss the results of the search.**
- g. Discuss if/ how the project may be impacted by sea level rise and any related design considerations.

4. ALTERNATIVES TO THE PROPOSED ACTION

- a. Identify alternate sites
- b. Discuss alternate levels and types of development
- c. Compare environmental impacts of each alternative

5. MITIGATING MEASURES

Describe the measures that will be undertaken to mitigate adverse impacts

RECREATION AND OPEN SPACE INVENTORY

A local government that receives Green Acres funding is not allowed to convey, dispose of, or divert to a use for other than recreation and conservation purposes (1) any lands (including facilities) funded by Green Acres and/or (2) any lands held by the local government for recreation and conservation purposes at the time of receipt of Green Acres funding. The Recreation and Open Space Inventory (ROSI) is a document compiled by a local government as a master list of those funded and unfunded properties. For purposes of the ROSI, these lands include leasehold interests in parkland and conservation restrictions held by a local government.

The local government is required to submit a ROSI as part of its Green Acres funding application. The ROSI will be reviewed by the Green Acres Project Manager. If the local government has previously received Green Acres funding, the ROSI will be compared against the prior ROSI(s) to make sure there are no errors or omissions. The Project Manager may also have questions about the ROSI based on other available information (tax records, local planning documents, etc.)

If the application is approved, the final version of the ROSI will become part of the Project Agreement between the local government and the State. In addition, a Declaration of Encumbrance, including the ROSI, will be recorded by the local government with the County Clerk/Registrar after it receives its first disbursement of Green Acres funding. The recording of the Declaration of Encumbrance is intended to provide notice of the Green Acres restrictions on the ROSI lands to title searchers and the general public.

It is extremely important that applicants take the time to produce an accurate ROSI as part of the Green Acres funding application. While our Project Managers will review the draft ROSI, and may have questions or suggestions, the ROSI is an official document of the local government that must be approved by your governing body and signed by two qualified local officials. The submission of an incomplete or inaccurate ROSI can delay the approval of your funding application and/or your receipt of Green Acres funding.

The listing of a property on a ROSI is intended to impose a perpetual restriction on the listed properties. Once a property is listed on the ROSI, we can only agree to remove it in the future if you apply for a ROSI amendment, conduct a public hearing and prove that the listing was a “bona fide” error.

The ROSI template is now an Excel Macro Enabled Workbook that may be downloaded from the Green Acres website at <http://www.state.nj.us/dep/greenacres/xls/DeclarationOfEncumbrance.xltm> All pages are set to print in landscape on legal size paper except the Certification page.
